

PORTFOLIO GLOSSARY

Additional Estimates	Where amounts appropriated at Budget time are insufficient, Parliament may appropriate more funds to portfolios through the Additional Estimates Acts.
Additional Estimates Bills or Acts	These are Appropriation Bills 3 and 4, and a separate Bill for the Parliamentary Departments [Appropriations (Parliamentary Departments) Bill (No. 2)]. These Bills are introduced into Parliament sometime after the Budget Bills.
Administered Items	Expenses, revenues, assets or liabilities managed by agencies on behalf of the Commonwealth. Agencies do not control administered items. Administered expenses include grants, subsidies and benefits. In many cases, administered expenses fund the delivery of third party outputs.
Appropriation	An authorisation by Parliament to spend monies from the Consolidated Revenue Fund for a particular purpose.
Annual Appropriation	Two Appropriation Bills are introduced into Parliament in May and comprise the Budget for the financial year beginning 1 July. Further Bills are introduced later in the financial year as part of the additional estimates. Parliamentary departments have their own appropriations.
Assets	Assets are physical objects and legal rights expected to provide benefits in the future, or alternatively items of value owned by an Agency.
Capital expenditure	Expenditure by an agency on capital projects, for example purchasing a building.
Consolidated Revenue Fund	Section 81 of the Constitution stipulates that all revenue raised or money received by the Commonwealth forms the one consolidated revenue fund (CRF). The CRF is not a bank account. The Official Public Account reflects most of the operations of the CRF.
Departmental items	Assets, liabilities, revenues and expenses that are controlled by the agency in providing its outputs. Departmental items would generally include computers, plant and equipment assets used by agencies in providing goods and services and most employee expenses, supplier costs and other administrative expenses incurred.
Depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.
Equity or net assets	Residual interest in the assets of an entity after deduction of its liabilities.
Expenses	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.
Forward estimates	A system of rolling three year financial estimates. After the budget is passed, the first year of the forward estimates becomes the base for the next year's budget bid, and another out-year is added to the forward estimates.

Glossary

Liabilities	Liabilities represent amounts owing on goods or services that have been received but not yet paid for. A liability shows the future commitment of the Agency's assets.
Measure	A new Government policy or savings decision with financial impacts.
Net annotated appropriation (Section 74 Receipts)	Section 74 receipts, also known as net annotated appropriations, are a form of appropriation which allows a department access to certain money it receives in payment of services. These monies are known as Section 74 Receipts, reflecting their authority under Section 74 of the PGPA Act.
Operating result	Equals revenue less expenses.
Outcomes	The government's objectives in each portfolio area. Outcomes are desired results, impacts or consequences for the Australian community as influenced by the actions of the Australian Government. Actual outcomes are assessments of the end-results or impacts actually achieved.
Performance measure	Measures the joint or independent contribution of outputs and administered items to the achievement of their specified outcome.
Portfolio	A Minister's area of responsibility as a member of Cabinet. A portfolio consists of one or more Departments of State (ie the portfolio departments) and a number of entities with similar general objectives and outcomes.
Program	Entities deliver programs, which are government actions taken to deliver the stated outcomes. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.
Receipts	The total or gross amount received by the Australian Government. Each receipt item is either revenue, an offset within outlays, or a financing transaction. Receipts include taxes, interest, charges for goods and services, borrowings and Government Business Enterprise (GBE) dividends received.
Revenue	Total value of resources earned or received to cover the production of goods and services.
Special Appropriations (including Standing Appropriations)	An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations the authority to withdraw funds from the Consolidated Revenue Fund does not generally cease at the end of the financial year. Standing appropriations are a sub-category consisting of ongoing special appropriations—the amount appropriated will depend on circumstances specified in the legislation.
