Notes	
1	<p>There are three levels at which information about the Australian Apprenticeship system is analysed.</p> <ul style="list-style-type: none"> * Training Contract / Apprentice - Employer relationship. This is uniquely defined by an apprentice, employer and qualification. * Apprenticeship Journey. A person's journey to obtain a specific qualification via the apprenticeship pathway. The journey may involve one or more training contracts / apprentice - employer relationships.
2	<p>The apprenticeship system can be understood using a stock and flow model.</p> <ul style="list-style-type: none"> * Commencements are inflows. These are measured as number of commencements during a period. * Completions and cancellations are outflows. Cancellations can occur very quickly after a commencement or recommence or many years later. Similarly completions occur very quickly after a commencement or many years later depending on the apprentice's prior history in their apprenticeship. These are measured as number of completions / cancellations during a period.
3	<p>There are significant lags in collecting data about the apprenticeship system. These lags are described in the following paper from NCVER: https://www.ncver.edu.au/research-and-statistics/publications/all-publications/estimation-of-apprentice-and-trainee-statistics. In general 99% of commencement,</p>
4	<p>The eligibility requirements for the Boosting Apprenticeship Commencements wage subsidy are found in the Australian Apprenticeships Incentives Program guidelines. These are available on www.grants.gov.au. The Boosting Apprenticeship Commencements wage subsidy is paid at the training contract / apprentice - employer</p>
5	<p>Not all employers that register their intent to claim BAC will go on to claim BAC. Also, employers have a 6-12 month window following the end of a claim period during</p>
6	<p>In assessing the effectiveness of this type of program at this point in time, the Department would analyse by cohorts, look at equivalent time points and compare to a settled period. However, this analysis is subject to varying employer behaviour over time and still severely limited by the lags in collecting data.</p>
7	<p>The Department does not collect business relationships. Franchises were identified through a combination of franchise business entity names, trading names and ANZSI codes relating to 'Cafes and Restaurants', 'Takeaway Food Services' and 'Other Specialised Food Retailing'. Consequently some franchises may be missed and not</p>
8	<p>The latest NCVER publication on Attrition and Completion rates for apprentices and trainees commencing in 2016 can be found at https://www.ncver.edu.au/research-and-statistics/publications/all-publications/completion-and-attrition-rates-for-apprentices-and-trainees-2020. The NCVER publication on Attrition and Completion rates is not comparable to the data in this product for two reasons.</p> <ol style="list-style-type: none"> 1. The completion and attrition outcome is determined after sufficient time has elapsed for an apprentice/trainee to have completed their training. 2. The detailed tables are based on occupation and the FOI request and Administrative Release are based on Qualifications.
