1. Labour Market Assistance Outcomes – Job Services Australia Overview

This publication presents the employment and education outcomes of job seekers in Job Services Australia (JSA) for the year ending September 2014. Outcomes in this publication relate to job seekers who were assisted between 1 July 2013 and 30 June 2014 with outcomes measured between 1 October 2013 and 30 September 2014.

The key information on employment and education outcomes is based on survey responses collected through the Department of Employment's Post Programme Monitoring Survey, which is conducted around three months after job seekers have been assisted in employment services.

The outcomes refer to the labour market and education status of job seekers at the time they are surveyed.

- An employment outcome is achieved when a job seeker indicates they are doing paid work.
- An education/training outcome is achieved when a job seeker indicates they are studying or training.
- A positive outcome is achieved when a job seeker indicates they are doing paid work and/or studying/training.

Key Observations – September 2014

- In the year ending September 2014, 42.8 per cent of Stream 1-4 job seekers were in employment three months following participation in JSA, steady when compared to the previous 12 month period ending September 2013. This included a 0.7 percentage point rise in full time employment outcomes and a 0.7 percentage point decrease in part time employment outcomes.
- Stream 4 job seekers reported an employment outcome increase of 0.4 percentage points over the year ending September 2013.
- Indigenous employment outcomes have risen with Stream 1-4 job seekers reporting a 2.6 percentage point increase for the year ending September 2014 to 29.2 per cent which is the highest employment outcome rate since September 2012 with 30.0 per cent. This increase is partially driven by job seekers in Remote Australia who are no longer in the JSA survey population and now assisted in the Remote Jobs and Communities Programme.
- Education and training outcomes increases have risen slightly by 0.2 percentage points to 22.9 per cent in the 12 months to September 2014.
- Outcomes following an activity placement have fallen with 52.5 per cent of job seekers reporting being in work and/or education and training compared to 54.7 per cent for the year ending September 2013.
- Levels of satisfaction have fallen with 66.4 per cent of job seekers reporting being satisfied or very satisfied with their providers for the year ending September 2014, down 2.1 percentage points from the year ending September 2013.

Table 1.1 – JSA Labour Market Outcomes, September 2014

	Employed (%)	Unemployed (%)	Not in the labour force (%)	Education & training (%)	Positive outcomes (%)
Stream 1-4	42.8	39.8	17.4	22.9	59.0
Stream 1	55.8	34.7	9.6	21.9	69.1
Stream 2	40.6	41.8	17.6	25.6	59.4
Stream 3	33.4	45.6	21.1	23.2	51.8
Stream 4	23.8	43.8	32.4	21.2	40.9
New Enterprise Incentive Scheme	81.6	13.7	4.7	10.2	83.8

This table refers to outcomes for job seekers who participated in employment assistance in the 12 months to June 2014, with outcomes measured around three months later. See the 'Sampling, In-scope populations and Results' section on page 22 for further details.

Table 1.2 – JSA Labour Market Outcomes, September 2013

South Australia	43.0	55.9	44.0	33.1	26.1
Tasmania	43.8	56.9	43.5	41.1	21.1
Northern Territory	46.9	77.8	56.4	n.p	n.p
Australia	42.8	55.8	40.6	33.4	23.8

Table 2.11 – JSA Positive Outcomes by State/Territory, September 2014⁵

	Stream 1-4 (%)	Stream 1 (%)	Stream 2 (%)	Stream 3 (%)	Stream 4 (%)
New South Wales and ACT	58.7	70.5	57.7	52.9	41.2
Victoria	61.1	69.6	59.5	54.7	43.9
Queensland	57.8	66.8	58.9	47.7	43.1
Western Australia	57.0	70.4	61.1	43.9	27.1
South Australia	61.1	69.1	64.6	54.8	47.4
Tasmania	55.6	68.0	59.1	51.1	30.3
Northern Territory	57.6	83.3	68.0	n.p	n.p
Australia	59.0	69.1	59.4	51.8	40.9

⁵ **Not published (n.p.)** indicates that sufficient data were not available to produce a reliable estimate for the particular group of job seekers.

This table refers to outcomes for job seekers who participated in JSA in the 12 months to June 2014, with outcomes measured around three months later.

3. Job Seeker Satisfaction

These results refer to job seekers' level of satisfaction with their employment services provider and the various aspects of the assistance received.

Table 3.1 – JSA job seeker satisfaction with the information provided about training and education options, September 2014⁶

	Satisfied or Very Satisfied (%)	Neither Satisfied nor Dissatisfied (%)	Dissatisfied or Very Dissatisfied (%)
Streams 1-4	57.6	19.4	22.9
Stream 1	48.5	22.2	29.3
Stream 2	61.6	18.3	20.0
Stream 3	67.6	17.7	14.7
Stream 4	64.3	16.1	19.6

Table 3.2 – JSA job seeker satisfaction with the information provided about other support services, September 2014⁶

	Satisfied or Very Satisfied (%)	Neither Satisfied nor Dissatisfied (%)	Dissatisfied or Very Dissatisfied (%)
Streams 1-4	53.3	21.8	24.9
Stream 1	45.8	24.1	30.1
Stream 2	55.6	21.6	22.8
Stream 3	61.3	20.6	18.1
Stream 4	60.2	17.6	22.2

Table 3.3 – JSA job seeker satisfaction with the help suited to circumstances, September 2014⁶

	Satisfied or Very Satisfied (%)	Neither Satisfied nor Dissatisfied (%)	Dissatisfied or Very Dissatisfied (%)
Streams 1-4	57.1	18.6	24.3
Stream 1	48.0	21.6	30.4
Stream 2	60.8	17.8	21.4
Stream 3	67.2	15.9	17.0
Stream 4	64.0	15.4	20.6

Table 3.4 – JSA job seeker satisfaction with staff treatment of job seeker as an individual, September 2014⁶

	Satisfied or Very Satisfied (%)	Neither Satisfied nor Dissatisfied (%)	Dissatisfied or Very Dissatisfied (%)
Streams 1-4	76.8	11.2	12.0
Stream 1	74.1	12.3	13.6
Stream 2	79.1	10.3	10.6
Stream 3	80.3	9.6	10.0
Stream 4	76.5	11.6	12.0

Table 3.5 – JSA job seeker satisfaction with staff treatment of job seeker with respect, September 2014⁶

	Satisfied or Very Satisfied (%)	Neither Satisfied nor Dissatisfied (%)	Dissatisfied or Very Dissatisfied (%)
Streams 1-4	81.6	9.3	9.1
Stream 1	80.6	10.0	9.4
Stream 2	83.3	8.3	8.4
Stream 3	83.5	8.4	8.1
Stream 4	79.6	10.2	10.2

Table 3.6 – JSA job seeker satisfaction with overall quality of service, September 2014⁶

	Satisfied or Very Satisfied (%)	Neither Satisfied nor Dissatisfied (%)	Dissatisfied or Very Dissatisfied (%)
Streams 1-4	66.4	14.9	18.7
Stream 1	60.1	17.2	22.7
Stream 2	69.8	13.1	17.1
Stream 3	73.0	13.7	13.3
Stream 4	69.9	13.4	16.7

⁶ This table refers to job seekers who participated in JSA employment assistance in the 12 months to September 2014, with satisfaction levels measured around three months later.

4. Further Information

Outcome Measures and Definitions

Outcome Measures

Labour market outcomes

- **Employed full-time:** The full-time employment rate is those working 35 or more hours per week as a proportion of all job seekers.
- **Employed part-time:** The part-time employment rate is those working less than 35 hours per week as a proportion of all job seekers.
- **Employment:** An employment outcome is achieved when a job seeker indicates they are employed. The employment outcome rate is the employed job seekers as a proportion of all job seekers.
- **Unemployed:** Job seekers are considered unemployed when they respond that they are not employed but are seeking employment. The unemployed outcome rate is the unemployed job seekers as a proportion of all job seekers.
- **Not in the Labour Force (NILF):** Job seekers are considered not in the labour force (NILF) when they respond that they are not working and are not looking for employment. The NILF outcome rate is NILF job seekers as a proportion of all job seekers.
- **Education/training:** An education/training outcome is achieved when a job seeker indicates they are training or studying. The education/training outcome rate is the job seekers who are studying as a proportion of all job seekers.
- **Positive Outcome:** Recorded where a job seeker has achieved either an employment and/or education outcome. Positive outcomes are less than the sum of employment and education/training outcomes because some job seekers achieve both an employment and an education outcome. The positive outcome rate is the job seekers who are employed, working, and/or studying as a proportion of all job seekers.

Employment outcomes

- **Permanent employees:** Proportion of employed job seekers working in permanent jobs where they receive paid sick and holiday leave.
- **Casual, temporary or seasonal employees:** Proportion of employed job seekers who identify their job as casual, seasonal or temporary.
- **Self-employed:** Proportion of employed job seekers who are not employees but work for themselves.
- **Employed, seeking more work:** Proportion of employed job seekers who indicated that 'considering their current situation, they would like to work more hours' (includes both employees and self-employed job seekers).
- **Full-time employed, seeking more work:** Proportion of employed job seekers who are working full-time and who indicated that 'considering their current situation, they would like to work more hours' (includes both employees and self-employed job seekers).
- **Part-time employed, seeking more work:** Proportion of employed job seekers who are working part-time and who indicated that 'considering their current situation, they would like to work more hours' (includes both employees and self-employed job seekers).
- **Employed and studying:** Proportion of employed job seekers who are both working and studying.

Education outcomes

- **Studying at a diploma level or higher:** Proportion of studying job seekers who are studying to gain a diploma, advanced diploma, associate degree or degree level.
- **Studying at a year 10, 11 or 12 level:** Proportion of studying job seekers who are studying year 10, 11 or 12.
- **Studying at a certificate level:** Proportion of studying job seekers who are studying to gain a Certificate (I, II, III or IV).
- **Study at 'other' or unspecified level:** Proportion of studying job seekers either not in one of the above categories or did not provide the necessary detail.

Definitions

Duration of unemployment: The time (in months) that a job seeker was registered as unemployed when they commenced their phase of employment assistance.

Educational attainment: The highest level of education attained. Post-secondary education is further split into university and vocational educated.

Income support types: The type of income support at their commencement of their phase of employment assistance. The main income support types are Newstart, Youth Allowance (other), Parenting Payment Single, Parenting Payment Partnered and Disability Support Pension.

Equity groups: These groups are not mutually exclusive and a job seeker could be part of more than one group:

- **Disability:** Job seekers who either through their Job Seeker Classification Instrument (JSCI) assessment assessed as having a disability or medical condition or in receipt of Disability Support Pension (DSP) when they commenced their phase of assistance.
- **Indigenous:** Job seekers who identified themselves as Indigenous Australians in response to a voluntary Indigenous status question in their JSCI assessment.
- **CALD:** Job seekers from a culturally and linguistically diverse background, as identified by their country of birth.
- **Sole parents:** Job seekers who either through their JSCI assessment or initial interview indicated that they are a sole parent or a recipient of Parent Payment Single when they commenced their phase of assistance.

Not published (n.p.): Indicates that sufficient data was not available to produce a reliable estimate for the particular group of job seekers. Survey results are based on a stratified sample of the in-scope population and the derived estimates may differ from those that would have been produced if the entire population had been surveyed. Therefore, when publishing the survey results, only the estimates that are considered as representative and robust are reported. This involves calculating the Relative Standard Errors (RSEs) for each derived estimate⁷ (i.e. proportions) and suppressing the reporting of those with RSEs greater than 25 per cent. This ensures the accurate interpretation of survey results, especially when making comparisons across time periods and demographic groups.

Reference period: Outcomes in this publication relate to job seekers who were assisted between 1 July 2013 and 30 June 2014 with outcomes measured between 1 October 2013 and 30 September 2014.

⁷ Relative Standard Error (RSE) = Standard Error as a fraction of the value of the estimate. RSE is chosen over Standard Error to measure the robustness of estimates because while the latter expressed as a number indicates the extent to which the survey estimates are likely to deviate from the true population, RSE expressed as a percentage allows comparisons across populations.

Survey and Technical Information

Data Sources

The two main data sources used to determine the outcomes achieved by job seekers during and after a period of labour market assistance are:

- The Post-Programme Monitoring (PPM) survey; and
- Administrative data sourced from the Department of Employment's Employment Services System (ESS).

The PPM survey has been undertaken by the Department on an ongoing basis since 1987 and is used to determine the labour market and education status of job seekers who participated in employment services. The ESS records details of commencements, job placements and paid outcomes from labour market assistance, while the PPM survey captures additional information from job seekers not already held in administrative systems.

Survey Instruments

The PPM survey applies a mixed methodology approach to the collection of survey responses. An initial mail-based or web-based survey is sent to job seekers around eight weeks after they reach a surveying point (the surveying points are set out below). If the job seeker does not respond to the initial invitation within three weeks they will be sent a reminder mail-based survey. If after three weeks following they still have not responded then a telephone follow-up contact is attempted (over a two week period). Through this mixed communication medium, multiple attempts are made to collect a response from each surveyed job seeker.

Programmes Surveyed

This Labour Market Assistance Outcomes publication reports the outcomes for Job Services Australia. Other Labour Market Assistance Outcomes reports are also available for Disability Employment Services and Indigenous Employment Programme (see <http://employment.gov.au/labour-market-assistance-outcomes-reports>). A number of surveys tailored to the job seekers' employment assistance in Job Services Australia are used in measuring these outcomes. These surveys include:

- Stream 1
- Stream 2
- Stream 3
- Stream 4
- Job Placements
- Activity – Work for the Dole
- Activity – Training in Job Search Techniques
- Activity – Voluntary Work – Work Experience
- Activity – Green Corps
- Activity – Drought Force
- Activity – Training
- Activity – New Enterprise Incentive Scheme
- Activity – Other

Survey Points

The PPM survey is conducted around three months after job seekers become in-scope for having their outcomes measured. Survey points will vary between and within employment programmes.

The PPM survey is primarily a post-exit survey, and an exit from a period of employment services will trigger a survey. Given the nature and design of Job Services Australia, however, additional survey trigger points are included to ensure representative outcomes.

For JSA, a job seeker will be in-scope for a Stream-based PPM survey:

- following an exit from JSA
- following a move to a higher Stream of assistance (based on exiting the prior Stream of assistance).

To ensure an accurate measure of JSA, a job seeker who remains in Stream 1, 2 or 3 will be in-scope for a PPM survey:

- for job seekers in Stream 1, following the completion of their Intensive Activity placement (at around the seven-and-a-half month point);
- following the completion of their Initial Service Period (at around the 12 month point); and
- following the completion of the Work Experience Phase (at around the 24 month point) or the Compulsory Activity Phase (at around the 36 and 48 month points).

A job seeker who remains in Stream 4 will be in-scope for a PPM survey at the following points:

- following the completion of their Initial Service Period (at around the 12 month point, or 18 if their Initial Service Period was extended); and
- following the completion of the Work Experience Phase or each Compulsory Activity Phase (at around the 24 and 36 month points or 30 and 42 month points if their Initial Service Period was extended).

A job seeker who is recorded within the Department's administrative data system as being placed into a job will also be in-scope for a PPM survey. Further, a job seeker who has been recorded as having left an activity based placement (e.g. Work for the Dole, Green Corps) will also be in-scope for a PPM survey in relation to that activity.

Sampling, In-scope populations and Results

Sampling

The PPM survey applies a stratified sampling approach to determine which job seekers in scope are surveyed. For Stream Services, Job Placements, Work for the Dole, Training in Job Search Techniques and non-Productivity Places Program training placements, the following sampling approach is used:

- 10% Full-rate Newstart Allowance or Youth Allowance (other) and non-Allowance Youth (registered job seekers who are ineligible for Youth Allowance due to parental means test);
- 10% not on income support or part-rate Newstart Allowance or Youth Allowance (other);
- 50% on Disability Support Pension;
- 25% on Parenting Payment; and
- 50% on other income support types.

For all other Work Experience activities a census approach is used.

In-scope population

Stream Services – job seekers are counted in the ‘in-scope population’ for Stream Services if, during the reference period, they exited from JSA assistance, or a phase of assistance (e.g. initial 12 month service period, Work Experience Phase or Compulsory Activity Phase), or they received assistance in the reference period but had not exited by the end of it. Job seekers can potentially be counted in the ‘In-scope population’ more than once in the reference period (e.g. if they completed a phase and also exited Job Services Australia in the same reference period.) The in-scope population therefore differs to straight counts of participation or commencement in Stream Services that may be shown in other Departmental publications and reports.

Job Placement – job seekers are counted in the in-scope population for Job Placement if, during the reference period, they were placed in a job that was recorded in departmental administrative systems. Job seekers can have more than one job placement during the reference period.

Activities – job seekers are counted in the in-scope population for activities if, during the reference period, they exited from an activity placement. Job seekers can exit one or more times from the same or different activity type(s) during the reference period.

NEIS – job seekers are counted in the in-scope population for NEIS if, during the reference period, they exited from a NEIS placement. This will include a small number of Disability Employment Services participants who exited from a NEIS placement.

For further information on results included in this report, please email ppmsurvey@employment.gov.au.

Results

Stream Services – the results presented in this report for Streams 1 to 4 are a combination of the outcomes of job seekers who exited from Job Services Australia assistance, or a phase of assistance (e.g. initial 12 month service period, Work Experience Phase, Compulsory Activity Phase), or who received assistance in the reference period but had not exited by the end of it. Given that job seekers can remain in assistance for different periods of time, this approach ensures that results are representative of all job seekers who received assistance, and not just those who exited JSA or participated for a certain time without exiting. For example, for the reporting of the Stream 2 outcomes in the September 2014 report, the outcomes of the following three groups of job seekers are used:

- those who exited assistance between 1 July 2013 and 30 June 2014;
- those who reached 12 months of participation in the Initial Service Period, Work Experience Phase or Compulsory Activity Phase between 1 July 2013 and 30 June 2014; and
- those who had not exited by 30 June 2014.

Activities, NEIS – results for activity based placements such as Work for the Dole and shorter term placements such as the NEIS programme, are based on the outcomes of job seekers who exited the placement in the reference period. This approach suits the nature of these types of assistance as they have discrete start and end points.

Job Placement – results for Job Placement are based on the outcomes of job seekers who were placed in jobs in the reference period.

Comparing results

Caution is urged when comparing the results reported for Job Services Australia assistance with the former Job Network and other complementary programmes under the previous employment services contract. Various factors such as different eligibility and access criteria and labour market conditions should be considered when making such comparisons.

Caution is also urged when comparing results reported for Job Services Australia, Disability Employment Services and Indigenous Employment Programme. Different survey points, instruments and sampling methodologies should be considered when making comparisons between employment programmes.

Job Services Australia Description

JSA is the Australian Government's national employment services system (commenced on 1 July 2009), providing opportunities for training, skills development, work experience and tailored assistance. The key elements of JSA are:

- Streams 1, 2, 3 and 4, including work experience;
- New Enterprise Incentive Scheme; and
- Harvest Labour Services.

It also includes other employment related services, Innovation Fund Panel, Employer Broker Panel and National Harvest Labour Information Service.

Streams 1 – 4: The different streams reflect a job seekers' capacity for employment and work readiness. Stream 1 consists of job seekers who are work ready, Stream 2 consists of job seekers with moderate barriers to employment, Stream 3 consists of job seekers with significant barriers to employment and Stream 4 consists of job seekers with severe non-vocational barriers to employment.

New Enterprise Incentive Scheme (NEIS) provides a range of services to assist eligible unemployed people in JSA and Disability Employment Services to establish and run a small business.

Intensive activity within JSA is an activity undertaken by Stream 1 job seekers to improve their ability to obtain and sustain employment. The activity must be of 60 hours over a fortnight for job seekers with full-time requirements at around the four month point in assistance.

Work Experience Phase within JSA is for job seekers who have completed approximately 12 months of services in Streams 1 to 4. In this phase, providers facilitate work experience activities for job seekers to enhance their chances of finding employment and provide ongoing assistance through regular contact with job seekers. Most job seekers have a requirement to participate in an activity.

Compulsory Activity Phase (CAP) within JSA is for job seekers from 1 January 2013 who have had at least 48 weeks of servicing in the work experience phase are eligible for the CAP. Once commenced in the CAP they are required to undertake work experience activities for 11 months out of every 12 month period. Job seekers may choose to participate in any combination of work experience activities available in the work experience phase to satisfy their minimum monthly and annual participation requirement in the CAP.

Table 2.7 of the report presents the labour market assistance outcomes results for job seekers who have undertaken various JSA activities in the Intensive Activity or in the Work Experience or Compulsory Activity Phases (or at some other time). These include:

- **Vocational Training** – training provided through the Productivity Places Programme (PPP Training) and other training activities administered by the Government, or state or territory government programmes or services (Non PPP Training) – includes accredited and non-accredited vocational training;
- **Work for the Dole** – provides assistance for job seekers to develop work habits, generic work skills and work experience by participating in community projects and activities;
- **Green Corps** – designed to provide job seekers with opportunities to develop personal skills while working in a team and generating positive outcomes for the environment and Australia's cultural heritage;
- **Drought Force** – designed to help job seekers gain skills and experience by providing assistance to individual farms and farming communities severely affected by drought;
- **Training in Job Search Techniques** – JSA activity that develops job search skills;
- **Voluntary Work** – a work experience activity undertaken for a not-for-profit community organisation and provides job seekers with the opportunity to engage in a workplace environment.
- **Unpaid Work Experience** – a voluntary short-term placement with a host organisation which provides job seekers with the opportunity to obtain vocational skills; and
- **Other Activity** – includes activities that are not mentioned above but excludes part-time or casual employment (paid), non-vocational activities, Community Development Employment Projects and New Enterprise Incentive Scheme.
