

Manufacturing

What is Manufacturing?

Manufacturing involves transforming materials, substances or components into new products like:

- Metals and Fabricated Metals
- Furniture and Textiles
- Paper, Printing and Wood based products
- Food and Beverages
- Transport and Machinery
- Chemicals, Plastics, Minerals and Petroleum products

Myth Busting about manufacturing in Australia?

MYTH – Manufacturing is a dying sector?

- Employs over 874, 400 people and is predicted to grow by 2.7% overall over the next 5 years
- 84.7% of manufacturing jobs are Fulltime roles

MYTH - Manufacturing work is generally for men?

- Over 28% of the manufacturing workforce are women and manufacturers want that to increase

The jobs of the future – let's get excited about manufacturing
