### Attachment A: Disability Employment Services

#### DES Providers claiming a Work for the Dole Place

Before claiming a Place within any Work for the Dole Activity, DES Providers must contact a relevant jobactive Provider in the Employment Region who will either source an Activity for them or refer them to a Lead Provider for an existing Activity that has Places available for them to claim.

Where a Lead Provider exists for an Activity in which a DES Participant is about to commence, the Lead Provider must collaborate with the DES Provider.

DES Providers must not be the Lead Provider for any Work for the Dole Activity.

#### Risk assessment (job seeker)

The DES Provider must liaise with the Lead Provider to ensure that the personal circumstances such as working capabilities, restrictions and capacity can be accommodated by the Host Organisation for that Work for the Dole Activity. The Lead Provider must, if required, discuss the personal circumstance of the DES Participant with the Host Organisation to determine whether they can be accommodated and whether the Work for the Dole Place will be suitable.

Insurance arrangements for Work for the Dole Participants are covered under [Insurance](#) in this Guideline.

#### Work for the Dole fees

DES Providers are not entitled to receive any Work for the Dole Fees when placing DES Participants in any Work for the Dole Activity. The Department's IT Systems will automatically block Work for the Dole Fee payments to DES Providers who claim a Work for the Dole Place.

DES Providers will be required to cover the cost of a DES Participant in a Work for the Dole Place from their own service fees. The DES Provider will either pay the relevant costs directly to the Host Organisation, or to the Lead Provider to be passed on to the Host Organisation. This will be as determined by the Host Organisation and advised to the DES Provider by the Lead Provider. The transfer of funds from DES Providers to a Host Organisation, or to a Lead Provider, will happen outside of the Department's IT Systems.

In consultation with the Lead Provider, DES Providers may provide additional assistance to the Host Organisation, or to the Lead Provider, if the particular needs/circumstances of the DES Participant require it. However, Providers must not charge DES providers an administration or management fee for any reason relating to DES Participants undertaking Work for the Dole.

Where a DES Participant is the first job seeker to commence in a Place sourced by a Provider, the Provider will receive a Work for the Dole Place Fee in the same way as they do when Fully Eligible Participants commence in Places they have sourced.

### Recording DES Participant attendance at Work for the Dole

For DES Participants, attendance at Work for the Dole Activities can be reported using either the Supervisor App by a Supervisor, the Job Seeker App or Dashboard by job seekers or by Providers following confirmation of attendance.

### Community Support Projects

Where a natural disaster has occurred, Work for the Dole Activities must, if determined by the Department, assist with recovery as part of Community Support Projects (CSPs).

In the event where a DES Participant has already been placed in an Activity where the Department has directed it to assist with recovery efforts, the Lead Provider must not allow DES job seekers to assist with recovery efforts without first obtaining the written permission of the Department of Social Services through the job seekers DES Provider.

## Attachment B: Undertaking Work for the Dole outside of the Work for the Dole Phase

1. Stream Participant becomes a fully eligible job seeker.
  - If the job seeker chooses not to participate in Work for the Dole outside the Work for the Dole Phase, then the job seeker will continue Case Management Phase for 12 months and then move into Work for the Dole Phase.
  - Please Note: Stream A Volunteers are not eligible to participate in Work for the Dole.
2. Job seeker chooses to participate in Work for the Dole outside Work for the Dole Phase.
  - Job seeker chooses to undertake Work for the Dole in Case Management Phase after completing six months in Employment Services.
3. Job seeker is first eligible to undertake Work for the Dole outside the Work for the Dole Phase at the start of seventh month in Employment Services.
  - Participation must be:
    - for a full Work for the Dole placement
    - for a number of hours required to meet job seeker's AAR
    - of benefit to the job seeker in gaining employment.
  - Job seeker participates in Work for the Dole Phase after 12 months in Employment Services and then for six months each following year.

Note: Undertaking Work for the Dole outside the Work for the Dole Phase will not count towards meeting job seeker's AAR.

## Attachment C: Sourcing and setting up Work for the Dole Activities

Step	Description
<p><b>Source</b></p> <p>Approach Potential Host Organisation (or vice versa)</p>	<p>Confirm Host Organisation is operating as a not-for-profit organisation or local/state/territory or Australian Government organisation or agency.</p>
<p>Discuss suitability and negotiate</p> <ul style="list-style-type: none"> <li>• Discuss Activity and its suitability with Host Organisation</li> <li>• Consider work health and safety, displacement and any exclusions and exceptions as outlined in Deed and Guidelines</li> <li>• Negotiate Lead Provider (if required)</li> </ul>	<p>Negotiate Lead Provider (as required) and Activity requirements, such as costs, duration, number of Work for the Dole Places, types of tasks.</p> <p>(Note: Unless otherwise agreed in writing with the Host Organisation, Providers cannot renegotiate the costs of the Place).</p> <p>Conduct a risk assessment (Place) including Assessment Checklist (Place). If the Work for the Dole Place is not suitable, do not proceed.</p>
<p><b>Record</b></p> <p>Create an Activity Schedule for Work for the Dole Place details on the Department's IT Systems. Schedule daily attendance into the job seeker's Electronic Calendar either individually or through a bulk entry.</p>	<p>Complete mandatory fields and ensure that Documentary Evidence is uploaded to the Department's IT Systems (i.e risk assessment (Place) and checklist).</p> <p><b>Provider only: Work for the Dole Activity Host Organisation Agreement must:</b></p> <ul style="list-style-type: none"> <li>• contain all information and mandatory clauses in the template</li> <li>• have a complete risk assessment (Place), including Assessment Checklist (Place) attached</li> <li>• be signed by all parties.</li> </ul> <p>(Note: For individual Hosted Activities using the standard model, the Work for the Dole Activity Host Organisation Agreement may be completed, and Lead Provider identified after the Activity has been advertised).</p>
<p><b>Advertise</b></p> <p>Advertise Activity on Department's IT System.</p>	<p>N/A</p>
<p><b>Monitor</b></p> <p>Monitor Host Organisation needs and utilisation of Work for the Dole Places.</p>	<ul style="list-style-type: none"> <li>• Maintain contact with Host Organisation to ensure its needs are being met and Activity is being delivered.</li> <li>• The Lead Provider should contact Other Providers to facilitate filling of unfilled Work for the Dole Places.</li> </ul>

## Attachment D1: Lead Provider Model – Individual Hosted Activities with multiple Places sourced by a Provider

1. Employment Providers collaborate/meet regularly to identify types of Activities required to meet their caseload needs.
  - Discussions include:
  - Activities to meet specific job seekers needs
  - how many Work for the Dole Places are required
  - types of Activities being offered by Host Organisations
  - any costs associated with the Activity (including costs that Other Providers may need to incur for job seekers to participate)
  - invoicing
  - discuss how attendance reporting will be managed including daily QR or Pass codes for job seekers who self-report.
2. Employment Provider identifies/sources Activity and becomes a Lead Provider.
3. The Lead Provider advertises the Activity in the Department's IT Systems.

Note: For Activities using the 'overarching Activity' model, the Lead Provider details must be recorded in the Department's IT Systems and a Work for the Dole Activity Host Organisation Agreement must be executed prior to advertising.
4. The Lead Providers uploads the Risk Assessment (Place) and advertises Activity on the Department's IT Systems.

Note: If there are any changes to the Activity details in the Department's IT Systems (e.g. details of the Lead Provider are updated), the Lead Provider will need to submit an override request to the Department.
5. The Lead Provider must immediately claim the first Place.

## Attachment D2: Lead Provider Model – Group Based Activity sourced by a Provider

1. Employment Provider(s) collaborate/meet regularly to identify types of Activities required to meet Provider(s) caseload needs.

Discussions include:

- Activities to meet specific job seekers needs
  - how many Work for the Dole Places are required
  - types of Activities being offered by Host Organisations
  - where a Group Based Activity is available/required
  - invoicing and acquittals
  - any costs associated with the Activity (including costs that Providers may need to incur for job seekers to participate)
  - discuss how attendance reporting will be managed including daily QR or Pass codes for job seekers who self-report.
2. Lead Provider identifies potential Host Organisation/Group Based Activity and becomes the Lead Provider.
  3. Lead Provider works with Host Organisation to develop budget and negotiate Work for the Dole Activity Host Organisation Agreement.
  4. Lead Provider enters the Group Based Activity into the Department's IT Systems and uploads the risk assessment (Place).
  5. Lead Provider advertises the Activity in the Department's IT Systems.
    - Lead Provider can claim the lower of 80 per cent or a maximum of \$80,000 of the Work for the Dole Fee for the Group Based Activity (based on the number of places in the Activity) up to 28 calendar days in advance of the Activity start date.
    - Lead Provider claims Work for the Dole Places they need to utilise for their job seekers.
    - Note: Work for the Dole Places can be claimed up to 10 business days in advance of a future Activity start date.
    - Where a job seeker has not commenced an Activity within 10 business days of the Activity start date, the Work for the Dole Place will be readvertised to those that the Activity was first advertised to.
    - Other Providers can claim available Work for the Dole Places at this time.
    - Note: Work for the Dole Places can be claimed up to 10 business days in advance of a future Activity start date.
    - Where a job seeker has not commenced an Activity within 10 business days of the Activity start date, the Work for the Dole Place will be readvertised to those that the Activity was first advertised to.

## Attachment E: Commencing a job seeker in a Work for the Dole Place

1. Did you source the Work for the Dole Place?  
If yes, go to step 2.  
If no, go to step 5.
2. You are a Lead Provider and must complete the steps outlined in Attachment C.  
Go to step 3.
3. Examine the risk assessment (Place) in the Department's IT Systems as part of conducting the risk assessment (job seeker) to ensure the Place is suitable, including:
  - if the job seeker's personal circumstances and work restrictions can be accommodated (if applicable)
  - the level of Supervision and training is appropriate and adequate for the job seeker
  - the required checks have been conductedGo to step 4.
4. If the Activity is suitable, please do the following in this order:
  - a. Ensure that the job seeker is equipped with all things necessary to undertake the Work for the Dole Place safely. e.g. personal protection equipment and clothing.
  - b. Commence the job seeker in the Work for the Dole Place.
  - c. Schedule the daily attendance in the job seeker's Electronic Calendar.
  - d. Monitor job seeker attendance and completion of the Work for the Dole Place.Please stop here if you answered yes in step 1.
5. Are you the Lead Provider?  
If yes, go to step 6.  
If no, go to step 7.
6. Confirm with the Host Organisation that no significant changes have occurred since the risk assessment (Place) was conducted.  
Now, go to step 7.
7. Claim the Work for the Dole Place in the Department's IT Systems and complete the following steps to commence the job seeker within 10 Business Days.  
Go to step 3 and continue up until step 4d.

---

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Education, Skills and Employment under or in connection with the Deed.

Australian Government

# Mutual Obligation Requirements (including Annual Activity Requirements) Guideline

## Document change history

Version	Start date	Effective date	End date	Change
1.1	01 07 15	01 07 15		Clarification of arrangements for recording participation against Annual Activity Requirements; clarification of provisions for meeting Annual Activity Requirements Early; table at Attachment A adjusted.
1.0	01 07 15	01 07 15		Original version of document.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, ‘**must**’ means that compliance is mandatory and ‘**should**’ means that compliance represents best practice and that compliance is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers’ obligations.

It **must** be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Employment under or in connection with the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for activity-tested Stream Participants. It includes the Provider’s responsibilities and required actions to enable Stream Participants with Mutual Obligation Requirements (job seekers) to meet their requirements.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the Employment Services Deed 2015–2020 (the Deed) are:

- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole

- Clause 109—Unpaid Work Experience Placements
- Clause 113—Job Search Requirements.

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under the Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements <b>must</b> show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services (DHS) has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for activity-tested income support. These include attending Provider Appointments, undertaking Job Search and acting on referrals to jobs, undertaking an Annual Activity Requirement and participating in any other activity that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects.</p> <p>Job seekers <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment.</p> <p>Job seekers on the following income support payments have Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six (6))</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under Social Security Law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Note: Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have some compulsory requirements and may be Referred to an Employment Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>

Process	Details
<p><b>Role of Providers</b></p> <p>Relevant Deed clauses:</p> <ul style="list-style-type: none"> <li>• Clause 87</li> <li>• Clause 106</li> </ul>	<p>The Provider <b>must</b> consult with the job seeker and then set appropriate activities for the job seeker to meet their Mutual Obligation Requirements. This includes the Annual Activity Requirement, where relevant. The Mutual Obligation Requirements <b>must</b> be included in the job seeker's Job Plan.</p> <p>The Provider <b>must</b> set a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and the Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p>	<p>A job seeker's Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age</li> <li>• their assessed work capacity</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a Full-Time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents (PCP) once the youngest child in their care turns six years of age</li> <li>• job seekers with a Partial Capacity to Work (PCW) of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, the job seeker's Job Plan <b>should</b> have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers</li> <li>• undertake Job Search. Job seekers are generally required to undertake 20 Job Searches per month (during the Case Management Period and the Work for the Dole Phase)</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity</li> <li>• undertake appropriate activities during the Case Management Period, if not appropriately engaged in other activities. These activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase their immediate employability.</li> </ul> <p>Attachment A provides a table outlining job seeker Mutual Obligation Requirements.</p>
<p><b>Considering a job seeker's circumstances</b></p> <p>Guide to Social Security Law—3.2.8.50—What can be included in a Job Plan</p>	<p>When outlining a job seeker's Mutual Obligation Requirements, including their Annual Activity Requirement, the Provider <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker's individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs</li> <li>• the person's education, experience, skills and age</li> <li>• the impact of any disability, illness, mental condition or physical condition on the person's ability to work, look for work or participate in activities</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market</li> <li>• the participation opportunities available to the person</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>• the family and caring responsibilities of the person (including availability of child care)</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a PCP or has an assessed PCW)</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information</li> <li>• whether the job seeker has any vulnerabilities or vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements</li> <li>• cultural factors</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>Providers <b>should</b> consult with job seekers to understand the activities the job seeker is interested in or may prefer to undertake. This can include things that will help the job seeker find work or will help them deal with, or sufficiently manage, vocational or personal issues that may affect their employability. While the Provider <b>should</b> take this into account wherever possible, persons engaged by the Provider to perform functions or provide Services, as the Delegate of the Secretary of the Department of Employment, will determine what requirements the job seeker <b>must</b> satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed PCW or a Temporary Reduced Work Capacity (TRWC). These will generally be identified by an Employment Services Assessment (ESAt) or Job Capacity Assessment (JCA). Where there is no ESAt or JCA, the Job Seeker Classification Instrument (JSCI) may also help identify personal issues that may affect a job seeker's employability.</p> <p>The Provider <b>must</b> review the job seeker's identified barriers or personal issues and determine activities that will best help the job seeker address, or sufficiently manage, these issues while ensuring they meet their fortnightly Mutual Obligation Requirements.</p> <p>If a job seeker cannot reasonably undertake an Activity (or a combination of activities) then Providers <b>must</b> not include that Activity (or combination of activities) in their Job Plan.</p> <p><b>Partial Capacity to Work (PCW)</b></p> <p>Job seekers have a PCW if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per week.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>Note: When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements</p>

Process	Details
	<p>are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity (TRWC)</b></p> <p>A job seeker may have a temporary medical condition and have a TRWC, which is identified through an ESAt. Job seekers will have reduced requirements for the period of their TRWC. When setting appropriate activities, Providers <b>must</b> ensure that activities and the level of participation take into account the job seeker's TRWC.</p>
<p><b>Principal Carer Parents</b></p>	<p>Providers <b>must</b> consider a PCP's family and caring responsibilities, including the availability of child care.</p> <p>Face-to-face Provider Appointments and participation in activities <b>should</b> typically be scheduled during school hours (that is, generally between 9 am and 3 pm during school terms) unless it is otherwise agreed by the PCP.</p> <p>PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p> <p>PCPs need to continue to meet their part-time Mutual Obligation Requirements at all other times and during school holidays. However, Providers <b>must</b> consider whether the PCP can access appropriate care and supervision for their children during this time.</p> <p>If the PCP is required to undertake an activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the PCP has a Valid Reason or Reasonable Excuse, alternative requirements need to be set to enable the job seeker to meet their Mutual Obligation Requirements. For example, while PCPs are not required to attend face-to-face Provider Appointments during school holidays, they are required to engage with Providers through other means, such as by telephone. Job Search is also something that PCPs can undertake from their homes while they are caring for children on school holidays.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including the appropriate hours of participation each fortnight during that phase.</p>
<p><b>Approved programs of work for income support payments</b></p>	<p>The Social Security Law has specific provisions with regards to requiring job seekers to undertake an approved program of work, such as Work for the Dole and the Green Army Programme.</p> <p>In a Job Plan, Providers <b>must</b> not include participation in Work for the Dole (or other approved programs of work) as a compulsory item:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (Note: A reduced rate can result from the job seeker's own income and / or their partner's income.)</li> <li>• for Special Benefit—Nominated Visa Holders if the person or the person's partner has income</li> <li>• where the Activity is more than 50 hours per fortnight</li> <li>• where the job seeker is aged under 18 or is 60 and over.</li> </ul> <p>However, Work for the Dole may be included as a voluntary item in the job seeker's</p>

Process	Details
	<p>Job Plan in the above circumstances. Job seekers undertaking Work for the Dole on a compulsory or voluntary basis will receive a fortnightly Approved Program of Work Supplement with their income support.</p> <p><b>Note:</b> Job seekers aged under 18 are not able to undertake Work for the Dole on a compulsory or voluntary basis.</p> <p>Job seekers on anything less than the full rate of income support may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary item in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider <b>should</b> update the job seeker's Job Plan to include Work for the Dole as a compulsory activity.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement.</p> <p>Providers will be able to view a job seeker's previous four fortnights' income support payment rate within the Department's IT Systems (that is, whether they received a full rate or a reduced rate due to the income test).</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.</p>
<p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p>	<p>Certain job seeker cohorts, namely PCPs, those with a PCW (15 to 29 hours per week) and job seekers aged 55 years and over are able to meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p>PCPs and job seekers with a PCW (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study (or a combination) cannot be required to simultaneously undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload. This also applies if the PCP or a job seeker with a PCW (15 to 29 hours per week) is participating in the Green Army Programme for 30 hours per fortnight. See <a href="#">approved short courses</a> under Additional information below.</p> <p>PCPs are also able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight. However the following criteria <b>must</b> be met for Voluntary Work to fully meet a PCP's requirements:</p> <ul style="list-style-type: none"> <li>• the principal carer lives in a poor labour market</li> <li>• there are limited training opportunities locally available (online courses may be considered 'locally available' if the PCP has access to a computer)</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>PCPs aged under 55 years undertaking Voluntary Work alone, or in combination with</p>

Process	Details
	<p>paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers <b>must</b> not require the PCP to undertake other additional activities. Job seekers aged 55 years and over who are meeting their Full-Time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved Voluntary Work (or a combination) cannot be required to:</p> <ul style="list-style-type: none"> <li>• simultaneously look for additional work</li> <li>• undertake other activities.</li> </ul> <p>However, they <b>must</b> remain connected with a Provider (although they are Suspended on a Provider's caseload). They <b>must</b> attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals. These Appointments <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have Full-Time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a Full-Time job or no longer receive income support.</p> <p>DHS will make an initial Appointment with the Provider for job seekers aged 55 years and over even if they are already satisfying their Mutual Obligation Requirements at their first contact with DHS. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p> <p>PCW 0 to 14 hours per week or TRWC 0 to 14 hours per week who fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload.</p> <p><b>Role of DHS</b></p> <p>For these cohorts of job seekers, DHS is responsible for determining whether the individual job seeker is actually meeting their Mutual Obligation Requirements, as outlined above. Where DHS establishes that they are participating sufficiently in the relevant approved activities, DHS will update the job seeker's Job Plan to include the Activities they are undertaking to meet their Mutual Obligation Requirements. Once DHS determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>The only exception to this is for PCPs and PCWs who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course. In this instance, Providers are responsible for approving this Activity and updating the Job Plan accordingly. See Additional information below, for more details on <a href="#">approved short courses</a>.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is meeting their Mutual Obligation Requirements through sufficient participation in the activities outlined above, they may elect to continue in Employment Provider Services. If a job seeker continues in Employment Provider Services, Providers <b>must</b> not remove the relevant compulsory activities that DHS has included in the job seeker's Job Plan. Any additional activities included in the Job Plan <b>must</b> only be added as voluntary items.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 113</b></li> </ul>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker's Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and the Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including PCPs and those with a PCW (15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Note: Job seekers cannot be required to undertake more than 20 Job Searches per month.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p>	<p><b>For all job seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search</li> <li>• substantially elevated level of family and caring responsibilities</li> <li>• accommodation situation, where this is likely to impede Job Search</li> <li>• education or skill level, where this is likely to substantially limit job opportunities</li> <li>• current Employment status (Part-Time or casual work)</li> <li>• domestic violence (including family violence) or family relationship breakdown (Note: DHS may also grant an Exemption from Mutual Obligation Requirements in these circumstances.)</li> <li>• final three months of pregnancy</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills</li> <li>• cultural factors</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement—for example, 15 Job Searches per month.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed (for example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme).</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p>
<p><b>Additional reasons Providers may reduce the number of Job Searches</b></p>	<p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other activities—in particular, during the Work for the Dole Phase.</p> <p>Providers <b>should</b> reduce the number of Job Searches a job seeker is required to undertake if a job seeker is simultaneously undertaking other activities only in the limited circumstances as set out below.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved (if the job seeker is undertaking a significant number of hours of paid Employment per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further)</li> <li>if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be nil.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements—that is, PCPs and PCWs (15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved.</li> </ul> <p><b>Language, Literacy and Numeracy (LLN) courses</b></p> <p>For those job seekers that Providers have identified as needing to improve their LLN skills, Providers may reduce the number of Job Searches during the period when the job seeker is actively participating in a LLN course. The job seeker would need to be undertaking Skills for Education and Employment, Adult Migrant English Program or another accredited LLN course. However, Providers <b>must</b> ensure that the job seeker is simultaneously undertaking some Job Search while participating in these programmes.</p> <p><b>Other circumstances</b></p> <p>Providers <b>must</b> not include Job Search requirements for job seekers while they are undertaking NEIS Training, the NEIS programme or during the final three months of pregnancy.</p> <p>PCPs and PCWs (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Job seekers aged 55 years and over who are meeting their full-time Mutual Obligation</p>

Process	Details
	<p>Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Providers <b>must</b> also not include Job Search requirements in the Job Plans of Early School Leavers (ESLs), as their principal requirement is to undertake education or training activities.</p>
<p><b>Setting Job Searches in the Job Plan</b></p>	<p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring this and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans <b>should</b> contain JS09</li> <li>• for Stream C job seekers, most Job Plans <b>should</b> contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>A job seeker may have Mutual Obligation Requirements but no Job Search requirements where the job seeker is fully meeting their requirements or is an Early School Leaver.</p>
<p><b>Defining ‘Suitable work’</b>  <b>Guide to Social Security Law—3.2.8.60—Unsuitable work</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. ‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker’s assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in the Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work will be Unsuitable if it:</p> <ul style="list-style-type: none"> <li>• aggravates a job seeker’s medical illness, disability or injury</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention</li> <li>• does not meet the applicable statutory conditions of work</li> <li>• requires the person to change their place of residence where they are unwilling to move</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for PCPs and job seekers with an assessed PCW and more than 90 minutes one way for other job seekers)</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the Employer.</li> </ul> <p>Where job seekers are undertaking an education or training activity that is included as a compulsory item in their Job Plan, the job seeker is only required to accept a job that does not conflict with the timing of that education or training.</p> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>PCPs cannot be required to accept Employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the PCP has access to appropriate care and supervision for their Child/Children during the times when the PCP would be required to work</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>the PCP will be financially better off as a result of undertaking the work (refer to the <a href="#">Financial Suitability Test</a>).</li> </ul> <p>Work will be Unsuitable for PCPs if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law</a> for further information</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the PCP to travel to and from work. Appropriate care and supervision means:</p> <ul style="list-style-type: none"> <li>child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>)</li> <li>any other care or supervision arrangements that the parent deems suitable</li> <li>where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with an assessed PCW if:</p> <ul style="list-style-type: none"> <li>it does not provide appropriate support or facilities to take account of the illness, disability or injury</li> <li>the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's normal means of transport.</li> </ul> <p>Note: Ministers of religion who are either a PCP or have a PCW will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours of paid pastoral work a fortnight for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p>

## Annual Activity Requirements

Process	Details
<b>Defining 'Annual Activity Requirements'</b>	<p>The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.</p> <p>All job seekers aged under 60 have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>All Stream A job seekers as well as Stream B job seekers subject to Stronger Participation Incentives (SPI) for Job Seekers under 30 measure will enter the Work for the Dole Phase in their first year of service and every subsequent year that they remain unemployed.</p> <p>Stream B job seekers not subject to SPI for Job Seekers under 30 measure, as well as Stream C job seekers, will enter the Work for the Dole Phase after 12 months of service and every subsequent year that they remain unemployed.</p> <p>Providers <b>must</b> determine the Activities that the job seeker <b>must</b> undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and the Social Security Law. The Provider <b>must</b> record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p>

Process	Details
	<p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>The following job seekers do not have an Annual Activity Requirement:</p> <ul style="list-style-type: none"> <li>• job seekers aged 60 years and over</li> <li>• PCPs and PCWs (15 to 29 hours per week) during the period they are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work</li> <li>• job seekers with a PCW or TRWC (0 to 14 hours per week).</li> </ul> <p>Note: ESLs with full-time Mutual Obligation Requirements typically need to undertake Full-Time study or 25 hours a week of approved Activities. The concept of an Annual Activity Requirement is not applicable for these individuals, as they are participating in this level of Activities all the time.</p>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> <li>• <b>Clause 108</b></li> <li>• <b>Clause 109</b></li> </ul>	<p>For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or</li> <li>• already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>PCPs and PCWs of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment</li> <li>• Unpaid Work Experience Placements</li> <li>• Voluntary Work</li> <li>• part-time study/training (in a Certificate III or higher)</li> <li>• accredited language, literacy and numeracy courses, which can include <ul style="list-style-type: none"> <li>○ Skills for Education and Employment</li> <li>○ Adult Migrant English Programme</li> </ul> </li> <li>• Defence Force Reserves</li> <li>• Other government programmes, including state government programmes and the Green Army Programme.</li> </ul> <p>Job seekers may also undertake a combination of the Activities listed above where it</p>

Process	Details
	<p>is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement. There are certain Activities that <i>will not count</i> towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul>
<p><b>Hours of participation to meet Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a PCP.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>PCP and PCW (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p>Aged 30 to 59: Generally <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight) Note: If undertaking Defence Force Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p>
<p><b>Setting Annual Activity Requirements in the Job Plan</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 87</li> </ul>	<p>When setting approved Activities to enable a job seeker to meet their Annual Activity Requirement, the relevant approved Activities (including the fortnightly hours of participation required) <b>must</b> be included in each job seeker's Job Plan.</p> <p>Providers <b>must</b> use the relevant codes in the Department's IT Systems. The Department will actively monitor this.</p>
<p><b>Setting required hours in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p><b>Work for the Dole</b></p> <p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the <a href="#">Learning Centre Website</a>.</p>

Process	Details
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole activities) or month (for all other approved activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the Work for the Dole IT Supporting Document.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's IT Systems Online Help.</p> <p><b>Work for the Dole</b></p> <p>For Work for the Dole activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's participation.. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b></p> <p>For all other approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p>
<p><b>Recording completion of the Annual Activity Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary correctly displays whether the job seeker has met their Annual Activity Requirement. This information is displayed on the Activity Diary Job Seeker Summary screen.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (e.g. through participation in the Green Army programme), the Provider <b>must</b> within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their</li> </ul>

Process	Details
	<p>Annual Activity Requirement and</p> <ul style="list-style-type: none"> <li>record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's IT Systems Online Help.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation.</p> <p>These additional hours will count towards a job seeker's Annual Activity Requirement and in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However, any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole <b>must</b> be created as a voluntary component of their Job Plan.</p> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a PCP, where a job seeker's capacity to work changes or when a job seeker turns 30. In these instances, the job seeker's participation <b>must</b> match their new requirement. For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan contains other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met. Job seekers can volunteer to continue in approved Activities.</p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers <b>must</b>:</p> <ul style="list-style-type: none"> <li>participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12-month period), and</li> <li>complete the relevant number of hours required to meet their Annual Activity Requirement.</li> </ul>

Process	Details
	<p>Note: The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p>
<b>Undertaking a Compliance Activity during the Work for the Dole Phase</b>	If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the Case Management Period.
<b>Participation in the Green Army Programme</b>	Participation in the Green Army Programme will meet the job seeker's Annual Activity Requirement as long as the job seeker completes the relevant Green Army Programme or project.
<b>Transition Arrangements for Employment Services 2015</b>	To minimise disruption, job seekers transitioning to the Work for the Dole Phase can complete any existing Activity commenced before 1 July 2015 that is in their employment pathway plan and is then included in their Job Plan. Participation will count towards their Annual Activity Requirement. However, the job seeker will be required to 'top up' hours by participating in additional concurrent activities, where required, to meet the relevant Annual Activity Requirement hours of participation required from 1 July 2015.

## Early School Leavers

Process	Details
<b>Defining who is an 'Early School Leaver'</b>	<p>An ESL is a person who is in receipt of Youth Allowance (Other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of Education (Certificate II level or above under the Australian Qualifications Framework).</p> <p>Providers <b>must</b> ensure that the activities included in an ESL's Job Plan enable them to meet their Mutual Obligation Requirements. In setting suitable activities and including these in the job seeker's Job Plan, Providers <b>must</b> take into account the Deed, this Guideline and the Social Security Law.</p>
<b>Suitable activities for an ESL</b> Relevant Deed clause: • Clause 105	<p>ESLs are generally required to participate in full-time education or training, or part-time education or training in combination with other suitable activities, for at least 25 hours per week (or 15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)) until they attain Year 12 or an equivalent qualification. ESLs cannot be required to look for work. Compulsory Job Search <b>must</b> not be included in an ESL's Job Plan.</p> <p>ESLs in Stream C will meet their Mutual Obligation Requirements by engaging solely in the activities negotiated in their Job Plan (which may or may not include participation in education or training).</p> <p>Once an ESL has completed Year 12 or an equivalent qualification (as verified by DHS), the young person will no longer be an ESL and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers. This includes being</p>

Process	Details
	<p>required to look for work and being subject to the Annual Activity Requirement during the Work for the Dole Phase.</p> <p><b>Education or training activities</b></p> <p>Participation in a full-time approved education or training course will meet ESL requirements (even if the full-time course is less than 25 hours per week). Full-time is at least 75 per cent of the course-load of an approved educational course. The <a href="#">Student Assistance (Education Institutions and Courses) Determination 2009 (No. 2)</a> sets out approved courses.</p> <p>Where an ESL is not participating in a full-time education or training course, they are required to undertake part-time education and training activities together with other suitable activities that <b>must</b> total 25 hours a week (or 15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)).</p> <p>If a Certificate II course is not considered to be appropriate for the ESL based on their circumstances, an ESL may undertake a Certificate I course if participation in this lower level course will help them to go on to complete their Year 12 or a Certificate II or above qualification. The job seeker will continue to be considered an ESL until a Year 12 or equivalent Certificate II level of education is attained.</p> <p>ESLs can also participate in programmes such as the Skills for Education and Employment programme and other programmes that help build foundation skills.</p> <p><b>Skills for Education and Employment, Adult Migrant English Programme or other accredited language, literacy and numeracy training</b></p> <p>Full-time participation in the Skills for Education and Employment or the Adult Migrant English Programme will satisfy an ESL's requirements. Part-time participation will count towards a full-time ESL's requirements if undertaken with additional activities totalling 25 hours per week (or 15 hours per week for ESLs who are also PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p>Providers may consider that state-based programmes, such as the NSW Government's Links to Learning, and other accredited or non-accredited courses, may be suitable for an ESL. These will count toward meeting requirements if they are undertaken with additional activities totalling 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p><b>Paid Employment (including self-employment), Work for the Dole, Voluntary Work, non-vocational activities</b></p> <p>Paid Employment, Work for the Dole, Voluntary Work and non-vocational activities may count towards meeting an ESL's Mutual Obligation Requirements if they are undertaken in combination with education and training. If they are undertaken alone, they cannot satisfy the ESL's requirements, regardless of the number of hours of participation, unless the ESL is in a break period from their education or training.</p> <p>These activities can be undertaken during breaks in education and training, such as between semesters or courses or while waiting for a course to begin.</p> <p>ESLs that are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer ESLs to an employment opportunity when the position does not conflict with the ESL's education or training activities. Similarly, ESLs can be required to accept a job if it does not interfere with their current or future education or training activities.</p>

Process	Details
<p><b>Researching available courses or breaks in activities</b></p>	<p>ESLs may take a short period (generally not more than four weeks) to research available education or training courses, with the assistance of their Provider. Although the ESL does not need to be undertaking education or training in this initial period, they <b>must</b> still be participating in 25 hours (or 15 hours for PCPs or job seekers with a PCW (15 to 29 hours per week)) of appropriate activities (for example, Work for the Dole).</p> <p>There may be times when an education or training place is not immediately available or an ESL may be waiting for their course to commence or recommence (for example, periods between semesters, such as over Christmas, or mid-semester breaks). During these periods, the ESL <b>must</b> still be participating in 25 hours (or 15 hours for PCPs or job seekers with a PCW (15 to 29 hours per week)) of appropriate activities.</p> <p>Note: PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p>
<p><b>Exceptions—No place or suitable course available</b></p>	<p>Providers <b>must</b> ensure that ESLs have education or training included in their Job Plan, except if the Provider determines:</p> <ul style="list-style-type: none"> <li>• there is no locally accessible (including distance education) approved course or training</li> <li>• there is a course available, but <ul style="list-style-type: none"> <li>○ there is no place available for the ESL</li> <li>○ the ESL does not meet the prerequisites to undertake the course</li> <li>○ the ESL lacks the capacity to undertake the course because they have a physical, psychiatric, intellectual or learning disability.</li> </ul> </li> </ul> <p>Where the Provider determines that any of the above circumstances apply, the Provider <b>must</b> ensure that the ESL has to do other suitable activities for at least 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p>Note: Job Search is not a suitable activity for ESLs.</p>
<p><b>Verifying educational qualifications</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 105</b></li> </ul>	<p>Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an ESL. For the purposes of verification, DHS will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies</li> <li>• an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate II</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution</li> <li>○ a Certificate II, III or IV of General Education for Adults</li> <li>○ the International Baccalaureate</li> <li>○ other higher education pre-entry course.</li> </ul> </li> </ul> <p>Providers <b>must</b> fax the DHS Business Hotline on 1300 786 102 to have an ESL's qualifications verified (using the cover sheet at Attachment B). When doing so, Providers <b>must</b> provide:</p> <ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original)</li> <li>• if the original qualification has been lost or destroyed <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification</li> <li>○ a letter from the relevant school or educational institution formally verifying attainment of the qualification</li> <li>○ if none of the above can be obtained, a statutory declaration by the ESL detailing the name of the course, date completed, institution and</li> </ul> </li> </ul>

Process	Details
	<p>institution contact details.</p> <p>Note: Providers <b>should</b> not send verification to DHS where the education level is below Year 12.</p> <p>The ESL will still have ESL Mutual Obligation Requirements until DHS has verified the qualification (which takes approximately two Business Days). Once DHS has verified this qualification, the person is no longer an ESL. Providers <b>must</b> update the Job Plan to reflect the new Mutual Obligation Requirements as a job seeker, including undertaking compulsory Job Search.</p> <p>The Provider <b>should</b> also update the education level information in the JSCI to reflect the ESL's newly advised higher level of educational attainment.</p> <p>If DHS does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the ESL to advise them of the reason why the qualification was not verified by DHS.</p>
<p><b>ESLs (PCPs or PCW) who are fully meeting their requirements through paid work or participation in Green Army Programme</b></p>	<p>As these ESLs are fully meeting their requirements through 30 hours per fortnight of paid work or participation in the Green Army Programme, Providers <b>should</b> encourage (but cannot require) the ESL to undertake additional education and training.</p>

### Additional information

Process	Details
<p><b>Financial suitability test for PCPs</b></p>	<p>PCPs cannot be required to accept a job offer or continue in a job in which they are not financially better-off compared to not doing the job. If a PCP is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="http://www.humanservices.gov.au/customer/enablers/online-estimators">http://www.humanservices.gov.au/customer/enablers/online-estimators</a>.</p>
<p><b>Breaks in Activities</b></p>	<p>There will be times when a job seeker has a break in an Activity required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other activities that the job seeker would need to undertake to meet their Mutual Obligation Requirements.</p> <p>An exception to this is when the break is for four weeks or fewer and the reason for the break is outside the job seeker's control. For example, a training course is suspended because the trainer is unavailable for a short period or there is a scheduled short break between sections of the training course.</p>
<p><b>Sufficient Work Test Guide to Social Security Law—3.2.2.10—Sufficient work</b></p>	<p>In some circumstances, a job seeker may be considered to be unemployed even if they are doing sufficient work to meet their Mutual Obligation Requirements. For this to occur, a job seeker would need to work at least the minimum number of hours required for the job seeker (the hours test) and their earnings would be at least at the applicable hourly rate (usually the national minimum wage) multiplied by the minimum number of hours required for the job seeker (the remuneration test). The hours test for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight; for job seekers aged 55 years and over, PCP and PCW job seekers it is 30 hours per fortnight.</p>

Process	Details
	<p>If the job seeker's paid work fails to meet any of these conditions, they are not taken to satisfy the sufficient work test. If:</p> <ul style="list-style-type: none"> <li>• the amount earned is sufficient but the number of hours worked is insufficient, the job seeker will need to undertake or look for work of the number of hours that would bring them up to the minimum hours requirement</li> <li>• the hours worked are sufficient but the amount earned is insufficient, the job seeker will also need to undertake or look for work of the number of hours that would enable them to meet the remuneration test.</li> </ul> <p><b>Example</b></p> <p><i>Ralph has a 15-hour per week requirement, as he has been assessed as having a PCW. He works for 10 hours a week and earns \$26 an hour, or \$260 a week. The applicable hourly rate for Ralph is the National Minimum Wage of \$16.87 an hour. This means he will satisfy the remuneration test if he earns at least \$253.05 a week (that is, 15 hours at \$16.87). He earns more than this, so the remuneration test is satisfied. However, he is not working the minimum number of hours required, so the sufficient work test is not met. Ralph will need to undertake or look for at least five hours a week more work.</i></p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income of the business provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the person will generally be required to look for alternative work.</p> <p>If their commitment to their business activities interferes with required Job Search or other activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>
<p><b>Approved short courses</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy or Youth Allowance (Student). Job seekers undertaking Full-Time Study <b>should</b> be advised to first test their eligibility for a student payment with DHS. However, recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve short courses for a job seeker on the condition that the course is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated</li> <li>• less than 12 months in duration</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Note: Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of more than 12 months duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their</li> </ul>

Process	Details
	<p>Employment prospects</p> <ul style="list-style-type: none"> <li>• the job seeker is a single PCP on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for an academic course (or a longer course—that is, more than 12 months). For the purposes of meeting their Mutual Obligation Requirements, a single PCP on Newstart Allowance can continue to undertake the study for which PES was granted as an approved Activity until that course has been completed. (Providers need to sight evidence that the single PCP on Newstart Allowance is in receipt of PES for that course)</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by DHS)</li> <li>• the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (Other) (and in some limited instances where a job seeker was granted the Disability Support Pension (DSP) and then transferred to Newstart Allowance or Youth Allowance (Other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or DSP (this would usually be approved by DHS).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker’s Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and they are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>Note: Where a PCP or PCW is undertaking an approved short course for at least 30 hours per fortnight, they are considered to be fully meeting their part-time Mutual Obligation Requirements. In this instance, Providers <b>must</b> complete the relevant details in Activity Management and tick the ‘Meets full-time approved short course criteria’ box. This allows the relevant information to be transmitted to DHS and for the job seeker to be Suspended from Employment Provider Services.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>
<p><b>Exemptions</b></p>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. DHS may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or other activities. In the first instance, DHS will usually look to reduce a job seeker’s Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker <b>should</b> be exempt from Mutual Obligation Requirements, the job seeker <b>should</b> be advised to contact DHS to test their eligibility for an Exemption. Job seekers would need to take any evidence to DHS to support their claim. For example, a medical certificate from their doctor, if they are applying for a medical Exemption.</p> <p>When a job seeker is granted an Exemption, they will be Suspended from a Provider’s caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider’s caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p>

Process	Details
	<p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a PCP and subject to domestic violence, an Exemption <b>must</b> be granted by DHS.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a DHS social worker. Providers <b>should</b> also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant job seekers</b></p> <p>During the early months of pregnancy, a pregnant job seeker's Mutual Obligation Requirements will not change. Generally, the job seeker will still be required to look for work; however, the Provider <b>must</b> take into account the job seeker's personal circumstances when setting activities in their Job Plan.</p> <p>Pregnant job seekers who are three months from their expected due date <b>must</b> not be required to look for work. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews, but the job seekers will be required to continue in some activities subject to their capacity. Once the pregnant job seeker is six weeks from their expected due date, DHS will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p>
<p><b>Parenting Payment Single recipients over Age Pension age</b></p>	<p>Job seekers who are over Age Pension age and are receiving Parenting Payment Single do not have any Mutual Obligation Requirements.</p>

Note:

- PCPs with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A PCP can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a PCP is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight– refer to the criteria on pages 6 and 7 of the Guideline.
- Job Seekers with a PCW of 15 to 19 hours per week can fully meet their Mutual Obligation Requirements by undertaking 15 hours per week of Voluntary and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities included in the Job Plan (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Force Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).
- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement.

1.1	01 07 15	01 07 15	30 09 15	Clarification of arrangements for recording participation against Annual Activity Requirements; clarification of provisions for meeting Annual Activity Requirements Early; table at Attachment A adjusted.
1.0	01 07 15	01 07 15	30 09 15	Original version of document.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, **‘must’** means that compliance is mandatory and **‘should’** means that compliance represents best practice and that compliance is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers’ obligations.

It **must** be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Employment under or in connection with the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for activity-tested Stream Participants. It includes the Provider’s responsibilities and required actions to enable Stream Participants with Mutual Obligation Requirements (job seekers) to meet their requirements.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the Employment Services Deed 2015–2020 (the Deed) are:

- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements

- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements.

## Relevant references

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under the Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements <b>must</b> show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services (DHS) has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for activity-tested income support. These include attending Provider Appointments, undertaking Job Search and acting on referrals to jobs, undertaking an Annual Activity Requirement and participating in any other activity that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects.</p> <p>Job seekers <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment.</p> <p>Job seekers on the following income support payments have Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six (6))</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under Social Security Law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Note: Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have some compulsory requirements and may be Referred to an Employment Provider. Providers will be able to view this in the Department’s IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements see the</p>

Process	Details
	<a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline.</a>
<p><b>Role of Providers</b></p> <p>Relevant Deed clauses:</p> <ul style="list-style-type: none"> <li>• Clause 87</li> <li>• Clause 106</li> </ul>	<p>The Provider <b>must</b> consult with the job seeker and then set appropriate activities for the job seeker to meet their Mutual Obligation Requirements. This includes the Annual Activity Requirement, where relevant. The Mutual Obligation Requirements <b>must</b> be included in the job seeker’s Job Plan.</p> <p>The Provider <b>must</b> set a job seeker’s Mutual Obligation Requirements in accordance with the Deed, this Guideline and the Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p>	<p>A job seeker’s Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age</li> <li>• their assessed work capacity</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a Full-Time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents (PCP) once the youngest child in their care turns six years of age</li> <li>• job seekers with a Partial Capacity to Work (PCW) of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, the job seeker’s Job Plan <b>should</b> have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers</li> <li>• undertake Job Search. Job seekers are generally required to undertake 20 Job Searches per month (during the Case Management Period and the Work for the Dole Phase)</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity</li> <li>• undertake appropriate activities during the Case Management Period, if not appropriately engaged in other activities. These activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase their immediate employability.</li> </ul> <p>Attachment A provides a table outlining job seeker Mutual Obligation Requirements.</p>
<p><b>Considering a job seeker’s circumstances</b></p> <p>Guide to Social Security Law—3.2.8.50—What can be included in a Job Plan</p>	<p>When outlining a job seeker’s Mutual Obligation Requirements, including their Annual Activity Requirement, the Provider <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker’s individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs</li> <li>• the person’s education, experience, skills and age</li> <li>• the impact of any disability, illness, mental condition or physical condition on the person’s ability to work, look for work or participate in activities</li> <li>• the state of the local labour market and the transport options available to the</li> </ul>

Process	Details
	<p>person in accessing that market</p> <ul style="list-style-type: none"> <li>• the participation opportunities available to the person</li> <li>• the family and caring responsibilities of the person (including availability of child care)</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a PCP or has an assessed PCW)</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information</li> <li>• whether the job seeker has any vulnerabilities or vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements</li> <li>• cultural factors</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>Providers <b>should</b> consult with job seekers to understand the activities the job seeker is interested in or may prefer to undertake. This can include things that will help the job seeker find work or will help them deal with, or sufficiently manage, vocational or personal issues that may affect their employability. While the Provider <b>should</b> take this into account wherever possible, persons engaged by the Provider to perform functions or provide Services, as the Delegate of the Secretary of the Department of Employment, will determine what requirements the job seeker <b>must</b> satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed PCW or a Temporary Reduced Work Capacity (TRWC). These will generally be identified by an Employment Services Assessment (ESAt) or Job Capacity Assessment (JCA). Where there is no ESAt or JCA, the Job Seeker Classification Instrument (JSCI) may also help identify personal issues that may affect a job seeker's employability.</p> <p>The Provider <b>must</b> review the job seeker's identified barriers or personal issues and determine activities that will best help the job seeker address, or sufficiently manage, these issues while ensuring they meet their fortnightly Mutual Obligation Requirements.</p> <p>If a job seeker cannot reasonably undertake an Activity (or a combination of activities) then Providers <b>must</b> not include that Activity (or combination of activities) in their Job Plan.</p> <p><b>Partial Capacity to Work (PCW)</b></p> <p>Job seekers have a PCW if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per week.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p>

Process	Details
	<p>Note: When a job seeker’s work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity (TRWC)</b></p> <p>A job seeker may have a temporary medical condition and have a TRWC, which is identified through an ESAt. Job seekers will have reduced requirements for the period of their TRWC. When setting appropriate activities, Providers <b>must</b> ensure that activities and the level of participation take into account the job seeker’s TRWC.</p>
<b>Principal Carer Parents</b>	<p>Providers <b>must</b> consider a PCP’s family and caring responsibilities, including the availability of child care.</p> <p>Face-to-face Provider Appointments and participation in activities <b>should</b> typically be scheduled during school hours (that is, generally between 9 am and 3 pm during school terms) unless it is otherwise agreed by the PCP.</p> <p>PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p> <p>PCPs need to continue to meet their part-time Mutual Obligation Requirements at all other times and during school holidays. However, Providers <b>must</b> consider whether the PCP can access appropriate care and supervision for their children during this time.</p> <p>If the PCP is required to undertake an activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the PCP has a Valid Reason or Reasonable Excuse, alternative requirements need to be set to enable the job seeker to meet their Mutual Obligation Requirements. For example, while PCPs are not required to attend face-to-face Provider Appointments during school holidays, they are required to engage with Providers through other means, such as by telephone. Job Search is also something that PCPs can undertake from their homes while they are caring for children on school holidays.</p>
<b>Considering what phase a job seeker is in</b>	<p>Providers <b>must</b> consider the job seeker’s Stream and phase when setting a job seeker’s Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker’s Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including the appropriate hours of participation each fortnight during that phase.</p>
<b>Approved programs of work for income support payments</b>	<p>The Social Security Law has specific provisions with regards to requiring job seekers to undertake an approved program of work, such as Work for the Dole, National Work Experience Programme Placements, and the Green Army Programme.</p> <p>In a Job Plan, Providers <b>must</b> not include participation in Work for the Dole (or other approved programs of work) as a compulsory item:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (Note: A reduced rate can result from the job seeker’s own income and / or their partner’s income.)</li> <li>• for Special Benefit—Nominated Visa Holders if the person or the person’s partner has income</li> <li>• where the Activity is more than 50 hours per fortnight</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>• where the job seeker is aged under 18 or is 60 and over.</li> </ul> <p>In the case of the National Work Experience Programme, participation must always only be on a voluntary basis, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will also receive the Supplement.</p> <p>Work for the Dole may be included as a voluntary item in the job seeker's Job Plan in the above circumstances. Job seekers undertaking Work for the Dole on a compulsory or voluntary basis will receive a fortnightly Approved Program of Work Supplement with their income support.</p> <p><b>Note:</b> Job seekers aged under 18 are not able to undertake Work for the Dole or National Work Experience Programme Placements on either a compulsory or voluntary basis.</p> <p>Job seekers on anything less than the full rate of income support may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary item in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider <b>should</b> update the job seeker's Job Plan to include Work for the Dole as a compulsory activity.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement.</p> <p>Providers will be able to view a job seeker's previous four fortnights' income support payment rate within the Department's IT Systems (that is, whether they received a full rate or a reduced rate due to the income test).</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.</p>
<p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p>	<p>Certain job seeker cohorts, namely PCPs, those with a PCW (15 to 29 hours per week) and job seekers aged 55 years and over are able to meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p>PCPs and job seekers with a PCW (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study (or a combination) cannot be required to simultaneously undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload. This also applies if the PCP or a job seeker with a PCW (15 to 29 hours per week) is participating in the Green Army Programme for 30 hours per fortnight. See <a href="#">approved short courses</a> under Additional information below.</p> <p>PCPs are also able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work alone, or in combination with paid work or</p>

Process	Details
	<p>study, for 30 hours per fortnight. However the following criteria <b>must</b> be met for Voluntary Work to fully meet a PCP's requirements:</p> <ul style="list-style-type: none"> <li>• the principal carer lives in a poor labour market</li> <li>• there are limited training opportunities locally available (online courses may be considered 'locally available' if the PCP has access to a computer)</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>PCPs aged under 55 years undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers <b>must</b> not require the PCP to undertake other additional activities. Job seekers aged 55 years and over who are meeting their Full-Time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved Voluntary Work (or a combination) cannot be required to:</p> <ul style="list-style-type: none"> <li>• simultaneously look for additional work</li> <li>• undertake other activities.</li> </ul> <p>However, they <b>must</b> remain connected with a Provider (although they are Suspended on a Provider's caseload). They <b>must</b> attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals. These Appointments <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have Full-Time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a Full-Time job or no longer receive income support.</p> <p>DHS will make an initial Appointment with the Provider for job seekers aged 55 years and over even if they are already satisfying their Mutual Obligation Requirements at their first contact with DHS. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p> <p>PCW 0 to 14 hours per week or TRWC 0 to 14 hours per week who fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload.</p> <p><b>Role of DHS</b></p> <p>For these cohorts of job seekers, DHS is responsible for determining whether the individual job seeker is actually meeting their Mutual Obligation Requirements, as outlined above. Where DHS establishes that they are participating sufficiently in the relevant approved activities, DHS will update the job seeker's Job Plan to include the Activities they are undertaking to meet their Mutual Obligation Requirements. Once DHS determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>The only exception to this is for PCPs and PCWs who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course. In this instance, Providers are responsible for approving this Activity and updating the Job Plan accordingly. See Additional information below, for more details on <a href="#">approved short courses</a>.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p>

Process	Details
	<p>Where a job seeker is meeting their Mutual Obligation Requirements through sufficient participation in the activities outlined above, they may elect to continue in Employment Provider Services. If a job seeker continues in Employment Provider Services, Providers <b>must</b> not remove the relevant compulsory activities that DHS has included in the job seeker's Job Plan. Any additional activities included in the Job Plan <b>must</b> only be added as voluntary items.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 113</b></li> </ul>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker's Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and the Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including PCPs and those with a PCW (15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Note: Job seekers cannot be required to undertake more than 20 Job Searches per month.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p>	<p><b>For all job seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search</li> <li>• substantially elevated level of family and caring responsibilities</li> <li>• accommodation situation, where this is likely to impede Job Search</li> <li>• education or skill level, where this is likely to substantially limit job opportunities</li> <li>• current Employment status (Part-Time or casual work)</li> <li>• domestic violence (including family violence) or family relationship breakdown (Note: DHS may also grant an Exemption from Mutual Obligation Requirements in these circumstances.)</li> <li>• final three months of pregnancy</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills</li> <li>• cultural factors</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement—for</p>

Process	Details
	<p>example, 15 Job Searches per month.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed</li> <li>• the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed (for example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme).</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p>
<p><b>Additional reasons Providers may reduce the number of Job Searches</b></p>	<p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other activities—in particular, during the Work for the Dole Phase.</p> <p>Providers <b>should</b> reduce the number of Job Searches a job seeker is required to undertake if a job seeker is simultaneously undertaking other activities only in the limited circumstances as set out below.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved (if the job seeker is undertaking a significant number of hours of paid Employment per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further)</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be nil.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements—that is, PCPs and PCWs (15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved.</li> </ul> <p><b>Language, Literacy and Numeracy (LLN) courses</b></p> <p>For those job seekers that Providers have identified as needing to improve their LLN skills, Providers may reduce the number of Job Searches during the period when the job seeker is actively participating in a LLN course. The job seeker would need to be undertaking Skills for Education and Employment, Adult Migrant English Program or another accredited LLN course. However, Providers <b>must</b> ensure that the job seeker is simultaneously undertaking some Job Search while participating in these</p>

Process	Details
	<p>programmes.</p> <p><b>Other circumstances</b></p> <p>Providers <b>must</b> not include Job Search requirements for job seekers while they are undertaking NEIS Training, the NEIS programme or during the final three months of pregnancy.</p> <p>PCPs and PCWs (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Job seekers aged 55 years and over who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Providers <b>must</b> also not include Job Search requirements in the Job Plans of Early School Leavers (ESLs), as their principal requirement is to undertake education or training activities.</p>
<p><b>Setting Job Searches in the Job Plan</b></p>	<p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring this and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans <b>should</b> contain JS09</li> <li>• for Stream C job seekers, most Job Plans <b>should</b> contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>A job seeker may have Mutual Obligation Requirements but no Job Search requirements where the job seeker is fully meeting their requirements or is an Early School Leaver.</p>
<p><b>Defining ‘Suitable work’ Guide to Social Security Law—3.2.8.60—Unsuitable work</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. ‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker’s assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in the Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work will be Unsuitable if it:</p> <ul style="list-style-type: none"> <li>• aggravates a job seeker’s medical illness, disability or injury</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention</li> <li>• does not meet the applicable statutory conditions of work</li> <li>• requires the person to change their place of residence where they are unwilling to move</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for PCPs and job seekers with an assessed PCW and more than 90 minutes one way for other job seekers)</li> <li>• involves skills the job seeker does not possess and appropriate training will</li> </ul>

Process	Details
	<p>not be provided by the Employer.</p> <p>Where job seekers are undertaking an education or training activity that is included as a compulsory item in their Job Plan, the job seeker is only required to accept a job that does not conflict with the timing of that education or training.</p> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>PCPs cannot be required to accept Employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the PCP has access to appropriate care and supervision for their Child/Children during the times when the PCP would be required to work</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable</li> <li>• the PCP will be financially better off as a result of undertaking the work (refer to the <a href="#">Financial Suitability Test</a>).</li> </ul> <p>Work will be Unsuitable for PCPs if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law</a> for further information</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the PCP to travel to and from work. Appropriate care and supervision means:</p> <ul style="list-style-type: none"> <li>• child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>)</li> <li>• any other care or supervision arrangements that the parent deems suitable</li> <li>• where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with an assessed PCW if:</p> <ul style="list-style-type: none"> <li>• it does not provide appropriate support or facilities to take account of the illness, disability or injury</li> <li>• the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's normal means of transport.</li> </ul> <p>Note: Ministers of religion who are either a PCP or have a PCW will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours of paid pastoral work a fortnight for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p>

## Annual Activity Requirements

Process	Details
<p><b>Defining 'Annual Activity Requirements'</b></p>	<p>The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.</p> <p>All job seekers aged under 60 have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p>

Process	Details
	<p>All Stream A job seekers as well as Stream B job seekers subject to Stronger Participation Incentives (SPI) for Job Seekers under 30 measure will enter the Work for the Dole Phase in their first year of service and every subsequent year that they remain unemployed.</p> <p>Stream B job seekers not subject to SPI for Job Seekers under 30 measure, as well as Stream C job seekers, will enter the Work for the Dole Phase after 12 months of service and every subsequent year that they remain unemployed.</p> <p>Providers <b>must</b> determine the Activities that the job seeker <b>must</b> undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and the Social Security Law. The Provider <b>must</b> record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>The following job seekers do not have an Annual Activity Requirement:</p> <ul style="list-style-type: none"> <li>• job seekers aged 60 years and over</li> <li>• PCPs and PCWs (15 to 29 hours per week) during the period they are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work</li> <li>• job seekers with a PCW or TRWC (0 to 14 hours per week).</li> </ul> <p>Note: ESLs with full-time Mutual Obligation Requirements typically need to undertake Full-Time study or 25 hours a week of approved Activities. The concept of an Annual Activity Requirement is not applicable for these individuals, as they are participating in this level of Activities all the time.</p>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> <li>• <b>Clause 108</b></li> <li>• <b>Clause 109</b></li> </ul>	<p>For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or</li> <li>• already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>PCPs and PCWs of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>In addition to Work for the Dole, the other approved Activities that will enable a job</p>

Process	Details
	<p>seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment</li> <li>• National Work Experience Programme Placements</li> <li>• Voluntary Work</li> <li>• part-time study/training (in a Certificate III or higher)</li> <li>• accredited language, literacy and numeracy courses, which can include <ul style="list-style-type: none"> <li>○ Skills for Education and Employment</li> <li>○ Adult Migrant English Programme</li> </ul> </li> <li>• Defence Force Reserves</li> <li>• Other government programmes, including state government programmes and the Green Army Programme.</li> </ul> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement. There are certain Activities that <i>will not count</i> towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul>
<p><b>Hours of participation to meet Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a PCP.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>PCP and PCW (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p>Aged 30 to 59: Generally <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight)Note: If undertaking Defence Force Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p>
<p><b>Setting Annual Activity Requirements in the Job Plan</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 87</li> </ul>	<p>When setting approved Activities to enable a job seeker to meet their Annual Activity Requirement, the relevant approved Activities (including the fortnightly hours of participation required) <b>must</b> be included in each job seeker's Job Plan.</p> <p>Providers <b>must</b> use the relevant codes in the Department's IT Systems. The Department will actively monitor this.</p>
<p><b>Setting required hours in</b></p>	<p><b>Work for the Dole</b></p>

Process	Details
<p><b>the Activity Diary</b>  <b>Relevant Deed clause:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the <a href="#">Learning Centre Website</a>.</p>
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b>  <b>Relevant Deed clause:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole activities) or month (for all other approved activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the Work for the Dole IT Supporting Document.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's IT Systems Online Help.</p> <p><b>Work for the Dole</b></p> <p>For Work for the Dole activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's participation.. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b></p> <p>For all other approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p>
<p><b>Recording completion of the Annual Activity Requirement in the</b></p>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary correctly displays whether the job seeker has met their Annual Activity Requirement. This information is displayed on the Activity Diary Job Seeker Summary</p>

Process	Details
<p><b>Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p>screen.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (e.g. through participation in the Green Army programme), the Provider <b>must</b> within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement and</li> <li>• record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's IT Systems Online Help.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and in effect, means that some job seekers will satisfy their Annual Activity Requirement early.</p> <ul style="list-style-type: none"> <li>• However, any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole <b>must</b> be created as a voluntary component of their Job Plan.</li> <li>• Job seekers <b>must</b> not undertake more than 50 hours per fortnight in National Work Experience Programme Placements.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a PCP, where a job seeker's capacity to work changes or when a job seeker turns 30. In these instances, the job seeker's participation <b>must</b> match their new requirement. For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan contains other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met. Job seekers can volunteer to</p>

Process	Details
	<p>continue in approved Activities.</p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers <b>must</b>:</p> <ul style="list-style-type: none"> <li>• participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12-month period), and</li> <li>• complete the relevant number of hours required to meet their Annual Activity Requirement.</li> </ul> <p>Note: The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p>
<p><b>Undertaking a Compliance Activity during the Work for the Dole Phase</b></p>	<p>If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the Case Management Period.</p>
<p><b>Participation in the Green Army Programme</b></p>	<p>Participation in the Green Army Programme will meet the job seeker's Annual Activity Requirement as long as the job seeker completes the relevant Green Army Programme or project.</p>
<p><b>Transition Arrangements for Employment Services 2015</b></p>	<p>To minimise disruption, job seekers transitioning to the Work for the Dole Phase can complete any existing Activity commenced before 1 July 2015 that is in their employment pathway plan and is then included in their Job Plan. Participation will count towards their Annual Activity Requirement. However, the job seeker will be required to 'top up' hours by participating in additional concurrent activities, where required, to meet the relevant Annual Activity Requirement hours of participation required from 1 July 2015.</p>

### Early School Leavers

Process	Details
<p><b>Defining who is an 'Early School Leaver'</b></p>	<p>An ESL is a person who is in receipt of Youth Allowance (Other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of Education (Certificate II level or above under the Australian Qualifications Framework).</p> <p>Providers <b>must</b> ensure that the activities included in an ESL's Job Plan enable them to meet their Mutual Obligation Requirements. In setting suitable activities and including these in the job seeker's Job Plan, Providers <b>must</b> take into account the Deed, this</p>

Process	Details
	Guideline and the Social Security Law.
<p><b>Suitable activities for an ESL</b></p> <p><b>Relevant Deed clause:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 105</b></li> </ul>	<p>ESLs are generally required to participate in full-time education or training, or part-time education or training in combination with other suitable activities, for at least 25 hours per week (or 15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)) until they attain Year 12 or an equivalent qualification. ESLs cannot be required to look for work. Compulsory Job Search <b>must</b> not be included in an ESL's Job Plan.</p> <p>ESLs in Stream C will meet their Mutual Obligation Requirements by engaging solely in the activities negotiated in their Job Plan (which may or may not include participation in education or training).</p> <p>Once an ESL has completed Year 12 or an equivalent qualification (as verified by DHS), the young person will no longer be an ESL and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers. This includes being required to look for work and being subject to the Annual Activity Requirement during the Work for the Dole Phase.</p> <p><b>Education or training activities</b></p> <p>Participation in a full-time approved education or training course will meet ESL requirements (even if the full-time course is less than 25 hours per week). Full-time is at least 75 per cent of the course-load of an approved educational course. The <a href="#">Student Assistance (Education Institutions and Courses) Determination 2009 (No. 2)</a> sets out approved courses.</p> <p>Where an ESL is not participating in a full-time education or training course, they are required to undertake part-time education and training activities together with other suitable activities that <b>must</b> total 25 hours a week (or 15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)).</p> <p>If a Certificate II course is not considered to be appropriate for the ESL based on their circumstances, an ESL may undertake a Certificate I course if participation in this lower level course will help them to go on to complete their Year 12 or a Certificate II or above qualification. The job seeker will continue to be considered an ESL until a Year 12 or equivalent Certificate II level of education is attained.</p> <p>ESLs can also participate in programmes such as the Skills for Education and Employment programme and other programmes that help build foundation skills.</p> <p><b>Skills for Education and Employment, Adult Migrant English Programme or other accredited language, literacy and numeracy training</b></p> <p>Full-time participation in the Skills for Education and Employment or the Adult Migrant English Programme will satisfy an ESL's requirements. Part-time participation will count towards a full-time ESL's requirements if undertaken with additional activities totalling 25 hours per week (or 15 hours per week for ESLs who are also PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p>Providers may consider that state-based programmes, such as the NSW Government's Links to Learning, and other accredited or non-accredited courses, may be suitable for an ESL. These will count toward meeting requirements if they are undertaken with additional activities totalling 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p><b>Paid Employment (including self-employment), Work for the Dole, Voluntary Work, non-vocational activities</b></p>

Process	Details
	<p>Paid Employment, Work for the Dole, Voluntary Work, National Work Experience Programme Placements (for ESLs aged 18 years and older), and non-vocational activities may count towards meeting an ESL's Mutual Obligation Requirements if they are undertaken in combination with education and training. If they are undertaken alone, they cannot satisfy the ESL's requirements, regardless of the number of hours of participation, unless the ESL is in a break period from their education or training.</p> <p>These activities can be undertaken during breaks in education and training, such as between semesters or courses or while waiting for a course to begin.</p> <p>ESLs that are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer ESLs to an employment opportunity when the position does not conflict with the ESL's education or training activities. Similarly, ESLs can be required to accept a job if it does not interfere with their current or future education or training activities.</p>
<p><b>Researching available courses or breaks in activities</b></p>	<p>ESLs may take a short period (generally not more than four weeks) to research available education or training courses, with the assistance of their Provider. Although the ESL does not need to be undertaking education or training in this initial period, they <b>must</b> still be participating in 25 hours (or 15 hours for PCPs or job seekers with a PCW (15 to 29 hours per week)) of appropriate activities (for example, Work for the Dole).</p> <p>There may be times when an education or training place is not immediately available or an ESL may be waiting for their course to commence or recommence (for example, periods between semesters, such as over Christmas, or mid-semester breaks). During these periods, the ESL <b>must</b> still be participating in 25 hours (or 15 hours for PCPs or job seekers with a PCW (15 to 29 hours per week)) of appropriate activities.</p> <p>Note: PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p>
<p><b>Exceptions—No place or suitable course available</b></p>	<p>Providers <b>must</b> ensure that ESLs have education or training included in their Job Plan, except if the Provider determines:</p> <ul style="list-style-type: none"> <li>• there is no locally accessible (including distance education) approved course or training</li> <li>• there is a course available, but <ul style="list-style-type: none"> <li>○ there is no place available for the ESL</li> <li>○ the ESL does not meet the prerequisites to undertake the course</li> <li>○ the ESL lacks the capacity to undertake the course because they have a physical, psychiatric, intellectual or learning disability.</li> </ul> </li> </ul> <p>Where the Provider determines that any of the above circumstances apply, the Provider <b>must</b> ensure that the ESL has to do other suitable activities for at least 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p>Note: Job Search is not a suitable activity for ESLs.</p>
<p><b>Verifying educational qualifications</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 105</b></li> </ul>	<p>Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an ESL. For the purposes of verification, DHS will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies</li> <li>• an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate II</li> <li>○ a higher qualification issued by a Registered Training Organisation or</li> </ul> </li> </ul>

Process	Details
	<p>higher educational institution</p> <ul style="list-style-type: none"> <li>○ a Certificate II, III or IV of General Education for Adults</li> <li>○ the International Baccalaureate</li> <li>○ other higher education pre-entry course.</li> </ul> <p>Providers <b>must</b> fax the DHS Business Hotline on 1300 786 102 to have an ESL's qualifications verified (using the cover sheet at Attachment B). When doing so, Providers <b>must</b> provide:</p> <ul style="list-style-type: none"> <li>● a copy of the original relevant qualification (having sighted the original)</li> <li>● if the original qualification has been lost or destroyed <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification</li> <li>○ a letter from the relevant school or educational institution formally verifying attainment of the qualification</li> <li>○ if none of the above can be obtained, a statutory declaration by the ESL detailing the name of the course, date completed, institution and institution contact details.</li> </ul> </li> </ul> <p>Note: Providers <b>should</b> not send verification to DHS where the education level is below Year 12.</p> <p>The ESL will still have ESL Mutual Obligation Requirements until DHS has verified the qualification (which takes approximately two Business Days). Once DHS has verified this qualification, the person is no longer an ESL. Providers <b>must</b> update the Job Plan to reflect the new Mutual Obligation Requirements as a job seeker, including undertaking compulsory Job Search.</p> <p>The Provider <b>should</b> also update the education level information in the JSCI to reflect the ESL's newly advised higher level of educational attainment.</p> <p>If DHS does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the ESL to advise them of the reason why the qualification was not verified by DHS.</p>
<p><b>ESLs (PCPs or PCW) who are fully meeting their requirements through paid work or participation in Green Army Programme</b></p>	<p>As these ESLs are fully meeting their requirements through 30 hours per fortnight of paid work or participation in the Green Army Programme, Providers <b>should</b> encourage (but cannot require) the ESL to undertake additional education and training.</p>

### Additional information

Process	Details
<p><b>Financial suitability test for PCPs</b></p>	<p>PCPs cannot be required to accept a job offer or continue in a job in which they are not financially better-off compared to not doing the job. If a PCP is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="http://www.humanservices.gov.au/customer/enablers/online-estimators">http://www.humanservices.gov.au/customer/enablers/online-estimators</a>.</p>
<p><b>Breaks in Activities</b></p>	<p>There will be times when a job seeker has a break in an Activity required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other activities that the job seeker would need to undertake to meet their Mutual Obligation Requirements.</p>

Process	Details
	<p>An exception to this is when the break is for four weeks or fewer and the reason for the break is outside the job seeker's control. For example, a training course is suspended because the trainer is unavailable for a short period or there is a scheduled short break between sections of the training course.</p>
<p><b>Sufficient Work Test</b>  <b>Guide to Social Security Law—3.2.2.10—Sufficient work</b></p>	<p>In some circumstances, a job seeker may be considered to be unemployed even if they are doing sufficient work to meet their Mutual Obligation Requirements. For this to occur, a job seeker would need to work at least the minimum number of hours required for the job seeker (the hours test) and their earnings would be at least at the applicable hourly rate (usually the national minimum wage) multiplied by the minimum number of hours required for the job seeker (the remuneration test). The hours test for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight; for job seekers aged 55 years and over, PCP and PCW job seekers it is 30 hours per fortnight.</p> <p>If the job seeker's paid work fails to meet any of these conditions, they are not taken to satisfy the sufficient work test. If:</p> <ul style="list-style-type: none"> <li>• the amount earned is sufficient but the number of hours worked is insufficient, the job seeker will need to undertake or look for work of the number of hours that would bring them up to the minimum hours requirement</li> <li>• the hours worked are sufficient but the amount earned is insufficient, the job seeker will also need to undertake or look for work of the number of hours that would enable them to meet the remuneration test.</li> </ul> <p><b>Example</b></p> <p><i>Ralph has a 15-hour per week requirement, as he has been assessed as having a PCW. He works for 10 hours a week and earns \$26 an hour, or \$260 a week. The applicable hourly rate for Ralph is the National Minimum Wage of \$16.87 an hour. This means he will satisfy the remuneration test if he earns at least \$253.05 a week (that is, 15 hours at \$16.87). He earns more than this, so the remuneration test is satisfied. However, he is not working the minimum number of hours required, so the sufficient work test is not met. Ralph will need to undertake or look for at least five hours a week more work.</i></p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income of the business provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the person will generally be required to look for alternative work.</p> <p>If their commitment to their business activities interferes with required Job Search or other activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>
<p><b>Approved short courses</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy or Youth Allowance (Student). Job seekers undertaking Full-Time Study <b>should</b> be advised to first test their eligibility for a student payment with DHS. However, recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve short courses for a job seeker on the condition that the course is:</p>

Process	Details
	<ul style="list-style-type: none"> <li>• vocationally orientated</li> <li>• less than 12 months in duration</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Note: Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of more than 12 months duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects</li> <li>• the job seeker is a single PCP on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for an academic course (or a longer course—that is, more than 12 months). For the purposes of meeting their Mutual Obligation Requirements, a single PCP on Newstart Allowance can continue to undertake the study for which PES was granted as an approved Activity until that course has been completed. (Providers need to sight evidence that the single PCP on Newstart Allowance is in receipt of PES for that course)</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by DHS)</li> <li>• the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (Other) (and in some limited instances where a job seeker was granted the Disability Support Pension (DSP) and then transferred to Newstart Allowance or Youth Allowance (Other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or DSP (this would usually be approved by DHS).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker’s Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and they are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>Note: Where a PCP or PCW is undertaking an approved short course for at least 30 hours per fortnight, they are considered to be fully meeting their part-time Mutual Obligation Requirements. In this instance, Providers <b>must</b> complete the relevant details in Activity Management and tick the ‘Meets full-time approved short course criteria’ box. This allows the relevant information to be transmitted to DHS and for the job seeker to be Suspended from Employment Provider Services.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>
<b>Exemptions</b>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. DHS may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or other</p>

Process	Details
	<p>activities. In the first instance, DHS will usually look to reduce a job seeker's Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker <b>should</b> be exempt from Mutual Obligation Requirements, the job seeker <b>should</b> be advised to contact DHS to test their eligibility for an Exemption. Job seekers would need to take any evidence to DHS to support their claim. For example, a medical certificate from their doctor, if they are applying for a medical Exemption.</p> <p>When a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a PCP and subject to domestic violence, an Exemption <b>must</b> be granted by DHS.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a DHS social worker. Providers <b>should</b> also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant job seekers</b></p> <p>During the early months of pregnancy, a pregnant job seeker's Mutual Obligation Requirements will not change. Generally, the job seeker will still be required to look for work; however, the Provider <b>must</b> take into account the job seeker's personal circumstances when setting activities in their Job Plan.</p> <p>Pregnant job seekers who are three months from their expected due date <b>must</b> not be required to look for work. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews, but the job seekers will be required to continue in some activities subject to their capacity. Once the pregnant job seeker is six weeks from their expected due date, DHS will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p>
<p><b>Parenting Payment Single recipients over Age Pension age</b></p>	<p>Job seekers who are over Age Pension age and are receiving Parenting Payment Single do not have any Mutual Obligation Requirements.</p>

Note:

- PCPs with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A PCP can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a PCP is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight– refer to the criteria on pages 6 and 7 of the Guideline.
- Job Seekers with a PCW of 15 to 19 hours per week can fully meet their Mutual Obligation Requirements by undertaking 15 hours per week of Voluntary and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities included in the Job Plan (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Force Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).
- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement.

# Attachment B Early School Leaver - Facsimile Cover Sheet

Early School Leaver - Facsimile Cover Sheet

Fax to: DHS Business Hotline **1300 786 102**

## Verification of Year 12 or equivalent qualification (Office use only: CBHESL)

Attached to this Verification Facsimile Cover Sheet is evidence of a completed Year 12 or equivalent qualification (i.e. Certificate II or higher) for:

Job seeker's name

CRN

### Declaration by Provider

I have sighted:

*(tick as to which applies)*

the original qualification

a certified true copy of the qualification

a letter from the relevant school or educational institution formally verifying attainment of the qualification

a Statutory Declaration detailing the name of the course, date completed, institution and institution contact details.

# Mutual Obligation Requirements (including Annual Activity Requirement) Guideline

## Document change history

Version	Effective date	End date	Change and location
1.3	071215		Removal of information about allowance rate history system functionality; clarification of approved activities to meet Annual Activity Requirement; clarification of Approved Short Course criteria; update to Sufficient Work test to include documentary evidence for self-employment; updates to existing tables and inclusion of additional table at Attachment A.
1.2	01 10 15	06 12 15	Included information on the National Work Experience Programme throughout document.
1.1	01 07 15	30 09 15	Clarification of arrangements for recording participation against Annual Activity Requirements; clarification of provisions for meeting Annual Activity Requirements Early; table at Attachment A adjusted.
1.0	01 07 15	30 09 15	Original version of document.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, **‘must’** means that compliance is mandatory and **‘should’** means that compliance represents best practice and that compliance is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers’ obligations.

It **must** be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Employment under or in connection with the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for activity-tested Stream Participants. It includes the Provider’s responsibilities and required actions to enable Stream Participants with Mutual Obligation Requirements (job seekers) to meet their requirements.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the Employment Services Deed 2015–2020 (the Deed) are:

- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements.

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under the Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements <b>must</b> show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services (DHS) has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for activity-tested income support. These include attending Provider Appointments, undertaking Job Search and acting on referrals to jobs, undertaking an Annual Activity Requirement and participating in any other activity that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects.</p> <p>Job seekers <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment.</p> <p>Job seekers on the following income support payments have Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six (6))</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under social security law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support</p>

Process	Details
	<p>payments.</p> <p>Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have some compulsory requirements and may be Referred to an Employment Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>
<p><b>Role of Providers</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• Clause 87</li> <li>• Clause 106</li> </ul>	<p>The Provider <b>must</b> consult with the job seeker and then set appropriate activities for the job seeker to meet their Mutual Obligation Requirements. This includes the Annual Activity Requirement, where relevant. The Mutual Obligation Requirements <b>must</b> be included in the job seeker's Job Plan.</p> <p>The Provider <b>must</b> set a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and the Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p>	<p>A job seeker's Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age</li> <li>• their assessed work capacity</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a Full-Time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents (PCP) once the youngest child in their care turns six years of age</li> <li>• job seekers with a Partial Capacity to Work (PCW) of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, the job seeker's Job Plan <b>should</b> have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers</li> <li>• undertake Job Search. Job seekers are generally required to undertake 20 Job Searches per month (during the Case Management Period and the Work for the Dole Phase)</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity (that is, the default activity where another activity is not undertaken) for the 18-49 year old cohort. Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the <i>Activity Management Guideline</i>.</li> <li>• undertake appropriate activities during the Case Management Period, if not appropriately engaged in other activities. These activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase their immediate employability.</li> </ul> <p>Attachment A provides a table outlining job seeker Mutual Obligation Requirements.</p>

Process	Details
<p><b>Considering a job seeker's circumstances</b>  <b>Guide to Social Security Law—3.2.8.50—What can be included in a Job Plan</b></p>	<p>When outlining a job seeker's Mutual Obligation Requirements, including their Annual Activity Requirement, the Provider <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker's individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs</li> <li>• the person's education, experience, skills and age</li> <li>• the impact of any disability, illness, mental condition or physical condition on the person's ability to work, look for work or participate in activities</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market</li> <li>• the participation opportunities available to the person</li> <li>• the family and caring responsibilities of the person (including availability of child care)</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a PCP or has an assessed PCW)</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information</li> <li>• whether the job seeker has any vulnerabilities or vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements</li> <li>• cultural factors</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>Providers <b>should</b> consult with job seekers to understand the activities the job seeker is interested in or may prefer to undertake. This can include things that will help the job seeker find work or will help them deal with, or sufficiently manage, vocational or personal issues that may affect their employability. While the Provider <b>should</b> take this into account wherever possible, persons engaged by the Provider to perform functions or provide Services, as the Delegate of the Secretary of the Department of Employment, will determine what requirements the job seeker <b>must</b> satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed PCW or a Temporary Reduced Work Capacity (TRWC). These will generally be identified by an Employment Services Assessment (ESAt) or Job Capacity Assessment (JCA). Where there is no ESAt or JCA, the Job Seeker Classification Instrument (JSCI) may also help identify personal issues that may affect a job seeker's employability.</p> <p>The Provider <b>must</b> review the job seeker's identified barriers or personal issues and determine activities that will best help the job seeker address, or sufficiently manage, these issues while ensuring they meet their fortnightly Mutual Obligation Requirements.</p> <p>If a job seeker cannot reasonably undertake an Activity (or a combination of activities) then Providers <b>must</b> not include that Activity (or combination of activities) in their Job Plan.</p>

Process	Details
	<p><b>Partial Capacity to Work (PCW)</b></p> <p>Job seekers have a PCW if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per week.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity (TRWC)</b></p> <p>A job seeker may have a temporary medical condition and have a TRWC, which is identified through an ESAt. Job seekers will have reduced requirements for the period of their TRWC. When setting appropriate activities, Providers <b>must</b> ensure that activities and the level of participation take into account the job seeker's TRWC.</p>
<p><b>Principal Carer Parents</b></p>	<p>Providers <b>must</b> consider a PCP's family and caring responsibilities, including the availability of child care.</p> <p>Face-to-face Provider Appointments and participation in activities <b>should</b> typically be scheduled during school hours (that is, generally between 9 am and 3 pm during school terms) unless it is otherwise agreed by the PCP.</p> <p>PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p> <p>PCPs need to continue to meet their part-time Mutual Obligation Requirements at all other times and during school holidays. However, Providers <b>must</b> consider whether the PCP can access appropriate care and supervision for their children during this time.</p> <p>If the PCP is required to undertake an activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the PCP has a Valid Reason or Reasonable Excuse, alternative requirements need to be set to enable the job seeker to meet their Mutual Obligation Requirements. For example, while PCPs are not required to attend face-to-face Provider Appointments during school holidays, they are required to engage with Providers through other means, such as by telephone. Job Search is also something that PCPs can undertake from their homes while they are caring for children on school holidays.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including the appropriate hours of participation each fortnight during that phase.</p>
<p><b>Approved programs of work for income support</b></p>	<p>The Social Security Law has specific provisions with regards to requiring job seekers to undertake an approved program of work, such as Work for the Dole, National Work</p>

Process	Details
<p><b>payments</b></p>	<p>Experience Programme Placements, and the Green Army Programme.</p> <p>In a Job Plan, Providers <b>must</b> not include participation in Work for the Dole (or other approved programs of work) as a compulsory item:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (A reduced rate can result from the job seeker’s own income and / or their partner’s income.)</li> <li>• for Special Benefit—Nominated Visa Holders if the person or the person’s partner has income</li> <li>• where the Activity is more than 50 hours per fortnight</li> <li>• where the job seeker is aged under 18 or is 60 and over.</li> </ul> <p>In the case of the National Work Experience Programme, participation must always only be on a voluntary basis, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will also receive the Supplement.</p> <p>Work for the Dole may be included as a voluntary item in the job seeker’s Job Plan in the above circumstances. Job seekers undertaking Work for the Dole on a compulsory or voluntary basis will receive a fortnightly Approved Program of Work Supplement with their income support.</p> <p>Job seekers aged under 18 are not able to undertake Work for the Dole or National Work Experience Programme Placements on either a compulsory or voluntary basis.</p> <p>Job seekers on anything less than the full rate of income support may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary item in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider <b>should</b> update the job seeker’s Job Plan to include Work for the Dole as a compulsory activity.</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement.</p>
<p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p>	<p>Certain job seeker cohorts, namely PCPs, those with a PCW (15 to 29 hours per week) and job seekers aged 55 years and over are able to meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p>PCPs and job seekers with a PCW (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study (or a combination) cannot be required to simultaneously undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and can</p>

Process	Details
	<p>be Suspended or Exited from the Provider's caseload. This also applies if the PCP or a job seeker with a PCW (15 to 29 hours per week) is participating in the Green Army Programme for 30 hours per fortnight. See <a href="#">approved short courses</a> under Additional information below.</p> <p>PCPs are also able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight. However the following criteria <b>must</b> be met for Voluntary Work to fully meet a PCP's requirements:</p> <ul style="list-style-type: none"> <li>• the principal carer lives in a poor labour market</li> <li>• there are limited training opportunities locally available (online courses may be considered 'locally available' if the PCP has access to a computer)</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>PCPs aged under 55 years undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers <b>must</b> not require the PCP to undertake other additional activities. Job seekers aged 55 years and over who are meeting their Full-Time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved Voluntary Work (or a combination) cannot be required to:</p> <ul style="list-style-type: none"> <li>• simultaneously look for additional work</li> <li>• undertake other activities.</li> </ul> <p>However, they <b>must</b> remain connected with a Provider (although they are Suspended on a Provider's caseload). They <b>must</b> attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals. These Appointments <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have Full-Time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a Full-Time job or no longer receive income support.</p> <p>DHS will make an initial Appointment with the Provider for job seekers aged 55 years and over even if they are already satisfying their Mutual Obligation Requirements at their first contact with DHS. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p> <p>PCW 0 to 14 hours per week or TRWC 0 to 14 hours per week who fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload.</p> <p><b>Role of DHS</b></p> <p>For these cohorts of job seekers, DHS is responsible for determining whether the individual job seeker is actually meeting their Mutual Obligation Requirements, as outlined above. Where DHS establishes that they are participating sufficiently in the relevant approved activities, DHS will update the job seeker's Job Plan to include the Activities they are undertaking to meet their Mutual Obligation Requirements. Once DHS determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p>

Process	Details
	<p>The only exception to this is for PCPs and PCWs who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course. In this instance, Providers are responsible for approving this Activity and updating the Job Plan accordingly. See Additional information below, for more details on <a href="#">approved short courses</a>.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is meeting their Mutual Obligation Requirements through sufficient participation in the activities outlined above, they may elect to continue in Employment Provider Services. If a job seeker continues in Employment Provider Services, Providers <b>must</b> not remove the relevant compulsory activities that DHS has included in the job seeker’s Job Plan. Any additional activities included in the Job Plan <b>must</b> only be added as voluntary items.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 113</b></li> </ul>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker’s Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and the Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including PCPs and those with a PCW (15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Job seekers cannot be required to undertake more than 20 Job Searches per month.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p>	<p><b>For all job seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker’s:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search</li> <li>• substantially elevated level of family and caring responsibilities</li> <li>• accommodation situation, where this is likely to impede Job Search</li> <li>• education or skill level, where this is likely to substantially limit job opportunities</li> <li>• current Employment status (Part-Time or casual work)</li> <li>• domestic violence (including family violence) or family relationship breakdown (DHS may also grant an Exemption from Mutual Obligation Requirements in these circumstances.)</li> <li>• final three months of pregnancy</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills</li> <li>• cultural factors</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul>

Process	Details
	<p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement—for example, 15 Job Searches per month.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed</li> <li>• the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed (for example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme).</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p>
<p><b>Additional reasons Providers may reduce the number of Job Searches</b></p>	<p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other activities—in particular, during the Work for the Dole Phase.</p> <p>Providers <b>should</b> reduce the number of Job Searches a job seeker is required to undertake if a job seeker is simultaneously undertaking other activities only in the limited circumstances as set out below.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved (if the job seeker is undertaking a significant number of hours of paid Employment per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further)</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be nil.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements—that is, PCPs and PCWs (15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved.</li> </ul>

Process	Details
	<p><b>Language, Literacy and Numeracy (LLN) courses</b></p> <p>For those job seekers that Providers have identified as needing to improve their LLN skills, Providers may reduce the number of Job Searches during the period when the job seeker is actively participating in a LLN course. The job seeker would need to be undertaking the Skills for Education and Employment programme, Adult Migrant English Programme or another accredited LLN course. However, Providers <b>must</b> ensure that the job seeker is simultaneously undertaking some Job Search while participating in these programmes.</p> <p><b>Other circumstances</b></p> <p>Providers <b>must</b> not include Job Search requirements for job seekers while they are undertaking NEIS Training, the NEIS programme or during the final three months of pregnancy.</p> <p>PCPs and PCWs (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Job seekers aged 55 years and over who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Providers <b>must</b> also not include Job Search requirements in the Job Plans of Early School Leavers (ESLs), as their principal requirement is to undertake education or training activities.</p>
<p><b>Setting Job Searches in the Job Plan</b></p>	<p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring this and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans <b>should</b> contain JS09</li> <li>• for Stream C job seekers, most Job Plans <b>should</b> contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>A job seeker may have Mutual Obligation Requirements but no Job Search requirements where the job seeker is fully meeting their requirements or is an Early School Leaver.</p>
<p><b>Defining ‘Suitable work’</b>  <b>Guide to Social Security Law—3.2.8.60—Unsuitable work</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. ‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker’s assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in the Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work will be Unsuitable if it:</p> <ul style="list-style-type: none"> <li>• aggravates a job seeker’s medical illness, disability or injury</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>• does not meet the applicable statutory conditions of work</li> <li>• requires the person to change their place of residence where they are unwilling to move</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for PCPs and job seekers with an assessed PCW and more than 90 minutes one way for other job seekers)</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the Employer.</li> </ul> <p>Where job seekers are undertaking an education or training activity that is included as a compulsory item in their Job Plan, the job seeker is only required to accept a job that does not conflict with the timing of that education or training.</p> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>PCPs cannot be required to accept Employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the PCP has access to appropriate care and supervision for their Child/Children during the times when the PCP would be required to work</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable</li> <li>• the PCP will be financially better off as a result of undertaking the work (refer to the <a href="#">Financial Suitability Test</a>).</li> </ul> <p>Work will be Unsuitable for PCPs if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law</a> for further information</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the PCP to travel to and from work. Appropriate care and supervision means:</p> <ul style="list-style-type: none"> <li>• child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>)</li> <li>• any other care or supervision arrangements that the parent deems suitable</li> <li>• where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with an assessed PCW if:</p> <ul style="list-style-type: none"> <li>• it does not provide appropriate support or facilities to take account of the illness, disability or injury</li> <li>• the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's normal means of transport.</li> </ul> <p>Ministers of religion who are either a PCP or have a PCW will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours of paid pastoral work a fortnight for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p>

## Annual Activity Requirements

Process	Details
<p><b>Defining 'Annual Activity Requirements'</b></p>	<p>The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.</p> <p>All job seekers aged under 60 have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>All Stream A job seekers as well as Stream B job seekers subject to Stronger Participation Incentives (SPI) for Job Seekers under 30 measure will enter the Work for the Dole Phase in their first year of service and every subsequent year that they remain unemployed.</p> <p>Stream B job seekers not subject to SPI for Job Seekers under 30 measure, as well as Stream C job seekers, will enter the Work for the Dole Phase after 12 months of service and every subsequent year that they remain unemployed.</p> <p>Providers <b>must</b> determine the Activities that the job seeker <b>must</b> undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and the Social Security Law. The Provider <b>must</b> record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>The following job seekers do not have an Annual Activity Requirement:</p> <ul style="list-style-type: none"> <li>• job seekers aged 60 years and over</li> <li>• PCPs and PCWs (15 to 29 hours per week) during the period they are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work</li> <li>• job seekers with a PCW or TRWC (0 to 14 hours per week).</li> </ul> <p>ESLs with full-time Mutual Obligation Requirements typically need to undertake Full-Time study or 25 hours a week of approved Activities. The concept of an Annual Activity Requirement is not applicable for these individuals, as they are participating in this level of Activities all the time.</p>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> <li>• <b>Clause 108</b></li> <li>• <b>Clause 109</b></li> </ul>	<p>For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or</li> <li>• already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For</p>

Process	Details
	<p>more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>PCPs and PCWs of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment</li> <li>• National Work Experience Programme Placements</li> <li>• Voluntary Work</li> <li>• part-time study/training (in a Certificate III or higher but not Masters or Doctorate)</li> <li>• Approved Short Courses of less than 12 months (two semester duration) or in a Certificate III or higher but not Masters or Doctorate.</li> <li>• accredited language, literacy and numeracy courses, which can include <ul style="list-style-type: none"> <li>○ the Skills for Education and Employment programme</li> <li>○ Adult Migrant English Programme</li> </ul> </li> <li>• Defence Reserves</li> <li>• Other government programmes, including state government programmes and the Green Army Programme.</li> </ul> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.</p> <p>There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses (with the exception of accredited Language, Literacy and Numeracy courses)</li> <li>• full-time study outside of the Approved Short Course conditions</li> <li>• other study outside general social security law payability and Mutual Obligation Requirement rules, including Masters and Doctorate courses.</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul> <p>Further information on activities suitable to meet a job seeker's Annual Activity Requirement can be found in the Activity Management Guideline.</p>

Process	Details
<p><b>Hours of participation to meet Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a PCP.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>PCP and PCW (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p>Aged 30 to 59: Generally <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight). If undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p>
<p><b>Setting Annual Activity Requirements in the Job Plan</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 87</b></li> </ul>	<p>When setting approved Activities to enable a job seeker to meet their Annual Activity Requirement, the relevant approved Activities (including the fortnightly hours of participation required) <b>must</b> be included in each job seeker's Job Plan.</p> <p>Providers <b>must</b> use the relevant codes in the Department's IT Systems. The Department will actively monitor this.</p>
<p><b>Setting required hours in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p><b>Work for the Dole</b></p> <p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the <a href="#">Learning Centre Website</a>.</p>

Process	Details
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole activities) or month (for all other approved activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the Work for the Dole IT Supporting Document.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's IT Systems Online Help.</p> <p><b>Work for the Dole</b></p> <p>For Work for the Dole activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's participation.. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b></p> <p>For all other approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p>
<p><b>Recording completion of the Annual Activity Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary correctly displays whether the job seeker has met their Annual Activity Requirement. This information is displayed on the Activity Diary Job Seeker Summary screen.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (e.g. through participation in the Green Army programme), the Provider <b>must</b> within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their</li> </ul>

Process	Details
	<p>Annual Activity Requirement and</p> <ul style="list-style-type: none"> <li>record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's IT Systems Online Help.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and in effect, means that some job seekers will satisfy their Annual Activity Requirement early.</p> <ul style="list-style-type: none"> <li>However, any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole <b>must</b> be created as a voluntary component of their Job Plan.</li> <li>Job seekers <b>must</b> not undertake more than 50 hours per fortnight in National Work Experience Programme Placements.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a PCP, where a job seeker's capacity to work changes or when a job seeker turns 30. In these instances, the job seeker's participation <b>must</b> match their new requirement. For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan contains other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met. Job seekers can volunteer to continue in approved Activities.</p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers <b>must</b>:</p> <ul style="list-style-type: none"> <li>participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12-month period), and</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>complete the relevant number of hours required to meet their Annual Activity Requirement.</li> </ul> <p>The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p>
<b>Undertaking a Compliance Activity during the Work for the Dole Phase</b>	If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the Case Management Period.
<b>Participation in the Green Army Programme</b>	Participation in the Green Army Programme will meet the job seeker's Annual Activity Requirement as long as the job seeker completes the relevant Green Army Programme or project.
<b>Transition Arrangements for Employment Services 2015</b>	To minimise disruption, job seekers transitioning to the Work for the Dole Phase can complete any existing Activity commenced before 1 July 2015 that is in their employment pathway plan and is then included in their Job Plan. Participation will count towards their Annual Activity Requirement. However, the job seeker will be required to 'top up' hours by participating in additional concurrent activities, where required, to meet the relevant Annual Activity Requirement hours of participation required from 1 July 2015.

### Early School Leavers

Process	Details
<b>Defining who is an 'Early School Leaver'</b>	<p>An ESL is a person who is in receipt of Youth Allowance (Other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of Education (Certificate II level or above under the Australian Qualifications Framework).</p> <p>Providers <b>must</b> ensure that the activities included in an ESL's Job Plan enable them to meet their Mutual Obligation Requirements. In setting suitable activities and including these in the job seeker's Job Plan, Providers <b>must</b> take into account the Deed, this Guideline and the Social Security Law.</p>
<b>Suitable activities for an ESL</b> <b>Relevant Deed clause:</b> <ul style="list-style-type: none"> <li><b>Clause 105</b></li> </ul>	<p>ESLs are generally required to participate in full-time education or training, or part-time education or training in combination with other suitable activities, for at least 25 hours per week (or 15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)) until they attain Year 12 or an equivalent qualification. ESLs cannot be required to look for work. Compulsory Job Search <b>must</b> not be included in an ESL's Job Plan.</p> <p>ESLs in Stream C will meet their Mutual Obligation Requirements by engaging solely in the activities negotiated in their Job Plan (which may or may not include participation in education or training).</p>

Process	Details
	<p>Once an ESL has completed Year 12 or an equivalent qualification (as verified by DHS), the young person will no longer be an ESL and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers. This includes being required to look for work and being subject to the Annual Activity Requirement during the Work for the Dole Phase.</p> <p><b>Education or training activities</b></p> <p>Participation in a full-time approved education or training course will meet ESL requirements (even if the full-time course is less than 25 hours per week). Full-time is at least 75 per cent of the course-load of an approved educational course. The <a href="#">Student Assistance (Education Institutions and Courses) Determination 2009 (No. 2)</a> sets out approved courses.</p> <p>Where an ESL is not participating in a full-time education or training course, they are required to undertake part-time education and training activities together with other suitable activities that <b>must</b> total 25 hours a week (or 15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)).</p> <p>If a Certificate II course is not considered to be appropriate for the ESL based on their circumstances, an ESL may undertake a Certificate I course if participation in this lower level course will help them to go on to complete their Year 12 or a Certificate II or above qualification. The job seeker will continue to be considered an ESL until a Year 12 or equivalent Certificate II level of education is attained.</p> <p>ESLs can also participate in programmes such as the Skills for Education and Employment programme and other programmes that help build foundation skills.</p> <p><b>Skills for Education and Employment programme, Adult Migrant English Programme or other accredited language, literacy and numeracy training</b></p> <p>Full-time participation in the Skills for Education and Employment programme or the Adult Migrant English Programme will satisfy an ESL's requirements. Part-time participation will count towards a full-time ESL's requirements if undertaken with additional activities totalling 25 hours per week (or 15 hours per week for ESLs who are also PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p>Providers may consider that state-based programmes, such as the NSW Government's Links to Learning, and other accredited or non-accredited courses, may be suitable for an ESL. These will count toward meeting requirements if they are undertaken with additional activities totalling 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p><b>Paid Employment (including self-employment), Work for the Dole, Voluntary Work, non-vocational activities</b></p> <p>Paid Employment, Work for the Dole, Voluntary Work, National Work Experience Programme Placements (for ESLs aged 18 years and older), and non-vocational activities may count towards meeting an ESL's Mutual Obligation Requirements if they are undertaken in combination with education and training. If they are undertaken alone, they cannot satisfy the ESL's requirements, regardless of the number of hours of participation, unless the ESL is in a break period from their education or training.</p> <p>These activities can be undertaken during breaks in education and training, such as between semesters or courses or while waiting for a course to begin.</p> <p>ESLs that are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future</p>

Process	Details
	<p>study. Providers may refer ESLs to an employment opportunity when the position does not conflict with the ESL's education or training activities. Similarly, ESLs can be required to accept a job if it does not interfere with their current or future education or training activities.</p>
<p><b>Researching available courses or breaks in activities</b></p>	<p>ESLs may take a short period (generally not more than four weeks) to research available education or training courses, with the assistance of their Provider. Although the ESL does not need to be undertaking education or training in this initial period, they <b>must</b> still be participating in 25 hours (or 15 hours for PCPs or job seekers with a PCW (15 to 29 hours per week)) of appropriate activities (for example, Work for the Dole).</p> <p>There may be times when an education or training place is not immediately available or an ESL may be waiting for their course to commence or recommence (for example, periods between semesters, such as over Christmas, or mid-semester breaks). During these periods, the ESL <b>must</b> still be participating in 25 hours (or 15 hours for PCPs or job seekers with a PCW (15 to 29 hours per week)) of appropriate activities.</p> <p>PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p>
<p><b>Exceptions—No place or suitable course available</b></p>	<p>Providers <b>must</b> ensure that ESLs have education or training included in their Job Plan, except if the Provider determines:</p> <ul style="list-style-type: none"> <li>• there is no locally accessible (including distance education) approved course or training</li> <li>• there is a course available, but <ul style="list-style-type: none"> <li>○ there is no place available for the ESL</li> <li>○ the ESL does not meet the prerequisites to undertake the course</li> <li>○ the ESL lacks the capacity to undertake the course because they have a physical, psychiatric, intellectual or learning disability.</li> </ul> </li> </ul> <p>Where the Provider determines that any of the above circumstances apply, the Provider <b>must</b> ensure that the ESL has to do other suitable activities for at least 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)).</p> <p>Job Search is not a suitable activity for ESLs.</p>
<p><b>Verifying educational qualifications</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 105</b></li> </ul>	<p>Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an ESL. For the purposes of verification, DHS will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies</li> <li>• an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate II</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution</li> <li>○ a Certificate II, III or IV of General Education for Adults</li> <li>○ the International Baccalaureate</li> <li>○ other higher education pre-entry course.</li> </ul> </li> </ul> <p>Providers <b>must</b> fax the DHS Business Hotline on 1300 786 102 to have an ESL's qualifications verified (using the cover sheet at Attachment B). When doing so, Providers <b>must</b> provide:</p> <ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original)</li> <li>• if the original qualification has been lost or destroyed <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification</li> </ul> </li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>○ a letter from the relevant school or educational institution formally verifying attainment of the qualification</li> <li>○ if none of the above can be obtained, a statutory declaration by the ESL detailing the name of the course, date completed, institution and institution contact details.</li> </ul> <p>Providers <b>should</b> not send verification to DHS where the education level is below Year 12.</p> <p>The ESL will still have ESL Mutual Obligation Requirements until DHS has verified the qualification (which takes approximately two Business Days). Once DHS has verified this qualification, the person is no longer an ESL. Providers <b>must</b> update the Job Plan to reflect the new Mutual Obligation Requirements as a job seeker, including undertaking compulsory Job Search.</p> <p>The Provider <b>should</b> also update the education level information in the JSCI to reflect the ESL's newly advised higher level of educational attainment.</p> <p>If DHS does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the ESL to advise them of the reason why the qualification was not verified by DHS.</p>
<b>ESLs (PCPs or PCW) who are fully meeting their requirements through paid work or participation in Green Army Programme</b>	<p>As these ESLs are fully meeting their requirements through 30 hours per fortnight of paid work or participation in the Green Army Programme, Providers <b>should</b> encourage (but cannot require) the ESL to undertake additional education and training.</p>

### Additional information

Process	Details
<b>Financial suitability test for PCPs</b>	<p>PCPs cannot be required to accept a job offer or continue in a job in which they are not financially better-off compared to not doing the job. If a PCP is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="http://www.humanservices.gov.au/customer/enablers/online-estimators">http://www.humanservices.gov.au/customer/enablers/online-estimators</a>.</p>
<b>Breaks in Activities</b>	<p>There will be times when a job seeker has a break in an Activity required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other activities that the job seeker would need to undertake to meet their Mutual Obligation Requirements.</p> <p>An exception to this is when the job seeker is undertaking study or training and the break is for four weeks or fewer and the reason for the break is outside the job seeker's control. Other mutual obligation requirements, including job search and attending appointments, are not affected by this break. For example, a training course is suspended because the trainer is unavailable for a short period or there is a scheduled short break between sections of the training course.</p>
<b>Sufficient Work Test Guide to Social Security Law—3.2.2.10—Sufficient work</b>	<p>In some circumstances, a job seeker may be considered to be unemployed even if they are doing sufficient work to meet their Mutual Obligation Requirements. For this to occur, a job seeker would need to work at least the minimum number of hours required for the job seeker (the hours test) and their earnings would be at least at the</p>

Process	Details
	<p>applicable hourly rate (usually the national minimum wage) multiplied by the minimum number of hours required for the job seeker (the remuneration test). The hours test for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight; for job seekers aged 55 years and over, PCP and PCW job seekers it is 30 hours per fortnight.</p> <p>If the job seeker's paid work fails to meet any of these conditions, they are not taken to satisfy the sufficient work test. If:</p> <ul style="list-style-type: none"> <li>• the amount earned is sufficient but the number of hours worked is insufficient, the job seeker will need to undertake or look for work of the number of hours that would bring them up to the minimum hours requirement</li> <li>• the hours worked are sufficient but the amount earned is insufficient, the job seeker will also need to undertake or look for work of the number of hours that would enable them to meet the remuneration test.</li> </ul> <p><b>Example</b></p> <p><i>Ralph has a 15-hour per week requirement, as he has been assessed as having a PCW. He works for 10 hours a week and earns \$26 an hour, or \$260 a week. The applicable hourly rate for Ralph is the National Minimum Wage of \$16.87 an hour. This means he will satisfy the remuneration test if he earns at least \$253.05 a week (that is, 15 hours at \$16.87). He earns more than this, so the remuneration test is satisfied. However, he is not working the minimum number of hours required, so the sufficient work test is not met. Ralph will need to undertake or look for at least five hours a week more work.</i></p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income of the business provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the person will generally be required to look for alternative work.</p> <p>Providers are required to document a job seeker's satisfactory participation in self-employment as per the Documentary Evidence Guidelines. If a job seeker's commitment to their business activities interferes with required Job Search or other activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>
<p><b>Approved short courses</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy or Youth Allowance (Student). Job seekers undertaking Full-Time Study <b>should</b> be advised to first test their eligibility for a student payment with DHS. However, recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve short courses for a job seeker on the condition that the course is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated</li> <li>• less than 12 months in duration</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Providers are responsible for identifying what training relates to skills in demand in</p>

Process	Details
	<p>each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of 12 months or more in duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects</li> <li>• the job seeker is a single PCP on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for an academic course (or a longer course—that is, more than 12 months). For the purposes of meeting their Mutual Obligation Requirements, a single PCP on Newstart Allowance can continue to undertake the study for which PES was granted as an approved Activity until that course has been completed. (Providers need to sight evidence that the single PCP on Newstart Allowance is in receipt of PES for that course)</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by DHS)</li> <li>• the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (Other) (and in some limited instances where a job seeker was granted the Disability Support Pension (DSP) and then transferred to Newstart Allowance or Youth Allowance (Other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or DSP (this would usually be approved by DHS).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker’s Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and they are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>Where a PCP or PCW is undertaking an approved short course for at least 30 hours per fortnight, they are considered to be fully meeting their part-time Mutual Obligation Requirements. In this instance, Providers <b>must</b> complete the relevant details in Activity Management and tick the ‘Meets full-time approved short course criteria’ box. This allows the relevant information to be transmitted to DHS and for the job seeker to be Suspended from Employment Provider Services.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>
<p><b>Exemptions</b></p>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. DHS may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or other activities. In the first instance, DHS will usually look to reduce a job seeker’s Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker <b>should</b> be exempt from Mutual Obligation Requirements, the job seeker <b>should</b> be advised to contact DHS to test their eligibility for an Exemption. Job seekers would need to take any evidence to DHS to support their claim. For example, a medical certificate from their doctor, if they are applying</p>

Process	Details
	<p>for a medical Exemption.</p> <p>When a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a PCP and subject to domestic violence, an Exemption <b>must</b> be granted by DHS.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a DHS social worker. Providers <b>should</b> also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant job seekers</b></p> <p>During the early months of pregnancy, a pregnant job seeker's Mutual Obligation Requirements will not change. Generally, the job seeker will still be required to look for work; however, the Provider <b>must</b> take into account the job seeker's personal circumstances when setting activities in their Job Plan.</p> <p>Pregnant job seekers who are three months from their expected due date <b>must</b> not be required to look for work. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews, but the job seekers will be required to continue in some activities subject to their capacity. Once the pregnant job seeker is six weeks from their expected due date, DHS will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p>
<p><b>Parenting Payment Single recipients over Age Pension age</b></p>	<p>Job seekers who are over Age Pension age and are receiving Parenting Payment Single do not have any Mutual Obligation Requirements.</p>

**Note:**

- PCPs with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A PCP can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a PCP is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight– refer to the criteria on pages 6 and 7 of the Guideline.
- Job Seekers with a PCW of 15 to 19 hours per week can fully meet their Mutual Obligation Requirements by undertaking 15 hours per week of Voluntary and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities included in the Job Plan (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).
- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, '**must**' means that compliance is mandatory and '**should**' means that compliance represents best practice and that compliance is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations.

It **must** be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Employment under or in connection with the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for activity-tested Stream Participants. It includes the Provider's responsibilities and required actions to enable Stream Participants with Mutual Obligation Requirements (job seekers) to meet their requirements.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the Employment Services Deed 2015–2020 (the Deed) are:

- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements.

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under the Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements <b>must</b> show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services (DHS) has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for activity-tested income support. These include attending Provider Appointments, undertaking Job Search and acting on referrals to jobs, undertaking an Annual Activity Requirement and</p>

Process	Details
	<p>participating in any other activity that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects.</p> <p>Job seekers <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment.</p> <p>Job seekers on the following income support payments have Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six (6))</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under social security law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have some compulsory requirements and may be Referred to an Employment Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>
<p><b>Role of Providers</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 87</b></li> <li>• <b>Clause 106</b></li> </ul>	<p>The Provider <b>must</b> consult with the job seeker and then set appropriate activities for the job seeker to meet their Mutual Obligation Requirements. This includes the Annual Activity Requirement, where relevant. The Mutual Obligation Requirements <b>must</b> be included in the job seeker's Job Plan.</p> <p>The Provider <b>must</b> set a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and the Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p>	<p>A job seeker's Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age</li> <li>• their assessed work capacity</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a Full-Time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents (PCP) once the youngest child in their care turns six years of age</li> <li>• job seekers with a Partial Capacity to Work (PCW) of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, the job seeker's Job Plan <b>should</b> have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers</li> <li>• undertake Job Search. Job seekers are generally required to undertake 20 Job</li> </ul>

Process	Details
	<p>Searches per month (during the Case Management Period and the Work for the Dole Phase)</p> <ul style="list-style-type: none"> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity (that is, the default activity where another activity is not undertaken) for the 18-49 year old cohort. Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the <i>Activity Management Guideline</i>.</li> <li>• undertake appropriate activities during the Case Management Period, if not appropriately engaged in other activities. These activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase their immediate employability.</li> </ul> <p>Attachment A provides a table outlining job seeker Mutual Obligation Requirements.</p>
<p><b>Considering a job seeker's circumstances</b>  <b>Guide to Social Security Law—3.2.8.50—What can be included in a Job Plan</b></p>	<p>When outlining a job seeker's Mutual Obligation Requirements, including their Annual Activity Requirement, the Provider <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker's individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs</li> <li>• the person's education, experience, skills and age</li> <li>• the impact of any disability, illness, mental condition or physical condition on the person's ability to work, look for work or participate in activities</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market</li> <li>• the participation opportunities available to the person</li> <li>• the family and caring responsibilities of the person (including availability of child care)</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a PCP or has an assessed PCW)</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information</li> <li>• whether the job seeker has any vulnerabilities or vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements</li> <li>• cultural factors</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>Providers <b>should</b> consult with job seekers to understand the activities the job seeker is interested in or may prefer to undertake. This can include things that will help the job seeker find work or will help them deal with, or sufficiently manage, vocational or personal issues that may affect their employability. While the Provider <b>should</b> take this into account wherever possible, persons engaged by the Provider to perform functions or provide Services, as the Delegate of the Secretary of the Department of Employment, will determine what requirements the job seeker <b>must</b> satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>

Process	Details
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed PCW or a Temporary Reduced Work Capacity (TRWC). These will generally be identified by an Employment Services Assessment (ESAt) or Job Capacity Assessment (JCA). Where there is no ESAt or JCA, the Job Seeker Classification Instrument (JSCI) may also help identify personal issues that may affect a job seeker's employability.</p> <p>The Provider <b>must</b> review the job seeker's identified barriers or personal issues and determine activities that will best help the job seeker address, or sufficiently manage, these issues while ensuring they meet their fortnightly Mutual Obligation Requirements.</p> <p>If a job seeker cannot reasonably undertake an Activity (or a combination of activities) then Providers <b>must</b> not include that Activity (or combination of activities) in their Job Plan.</p> <p><b>Partial Capacity to Work (PCW)</b></p> <p>Job seekers have a PCW if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per week.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity (TRWC)</b></p> <p>A job seeker may have a temporary medical condition and have a TRWC, which is identified through an ESAt. Job seekers will have reduced requirements for the period of their TRWC. When setting appropriate activities, Providers <b>must</b> ensure that activities and the level of participation take into account the job seeker's TRWC.</p>
<p><b>Principal Carer Parents</b></p>	<p>Providers <b>must</b> consider a PCP's family and caring responsibilities, including the availability of child care.</p> <p>Face-to-face Provider Appointments and participation in activities <b>should</b> typically be scheduled during school hours (that is, generally between 9 am and 3 pm during school terms) unless it is otherwise agreed by the PCP.</p> <p>PCPs do not have Mutual Obligation Requirements during the fortnight in which the Christmas public holiday falls.</p> <p>PCPs need to continue to meet their part-time Mutual Obligation Requirements at all other times and during school holidays. However, Providers <b>must</b> consider whether the PCP can access appropriate care and supervision for their children during this time.</p> <p>If the PCP is required to undertake an activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the PCP has a Valid Reason or Reasonable Excuse, alternative requirements need to be set to enable the job seeker to meet their Mutual Obligation Requirements. For</p>

Process	Details
	<p>example, while PCPs are not required to attend face-to-face Provider Appointments during school holidays, they are required to engage with Providers through other means, such as by telephone. Job Search is also something that PCPs can undertake from their home while they are caring for children on school holidays.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including the appropriate hours of participation each fortnight during that phase.</p>
<p><b>Approved programs of work for income support payments</b></p>	<p>The Social Security Law has specific provisions with regards to requiring job seekers to undertake an approved program of work, such as Work for the Dole, National Work Experience Programme Placements, and the Green Army Programme.</p> <p>In a Job Plan, Providers <b>must</b> not include participation in Work for the Dole (or other approved programs of work) as a compulsory item:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (A reduced rate can result from the job seeker's own income and / or their partner's income.)</li> <li>• for Special Benefit—Nominated Visa Holders if the person or the person's partner has income</li> <li>• where the Activity is more than 50 hours per fortnight</li> <li>• where the job seeker is aged under 18 or is 60 and over.</li> </ul> <p>In the case of the National Work Experience Programme, participation must always only be on a voluntary basis, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will also receive the Supplement.</p> <p>Work for the Dole may be included as a voluntary item in the job seeker's Job Plan in the above circumstances. Job seekers undertaking Work for the Dole on a compulsory or voluntary basis will receive a fortnightly Approved Program of Work Supplement with their income support.</p> <p>Job seekers aged under 18 are not able to undertake Work for the Dole or National Work Experience Programme Placements on either a compulsory or voluntary basis.</p> <p>Job seekers on anything less than the full rate of income support may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary item in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider <b>should</b> update the job seeker's Job Plan to include Work for the Dole as a compulsory activity.</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an</p>

Process	Details
	<p>alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement.</p> <p>Providers can view a job seeker's previous four fortnights' income support payment rate within the Department's IT Systems (that is, whether they received a full rate or a reduced rate due to the income test). This will help providers to determine if a job seeker is in receipt of a part or nil rate of payment and therefore if they should be undertaking work for the dole on a compulsory basis.</p>
<p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p>	<p>Certain job seeker cohorts, namely PCPs, those with a PCW (15 to 29 hours per week) and job seekers aged 55 years and over are able to meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p>PCPs and job seekers with a PCW (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study (or a combination) cannot be required to simultaneously undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload. This also applies if the PCP or a job seeker with a PCW (15 to 29 hours per week) is participating in the Green Army Programme for 30 hours per fortnight. See <a href="#">approved short courses</a> under Additional information below.</p> <p>PCPs are also able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight. However the following criteria <b>must</b> be met for Voluntary Work to fully meet a PCP's requirements:</p> <ul style="list-style-type: none"> <li>• the principal carer lives in a poor labour market</li> <li>• there are limited training opportunities locally available (online courses may be considered 'locally available' if the PCP has access to a computer)</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>PCPs aged under 55 years undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers <b>must</b> not require the PCP to undertake other additional activities. Job seekers aged 55 years and over who are meeting their Full-Time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved Voluntary Work (or a combination) cannot be required to:</p> <ul style="list-style-type: none"> <li>• simultaneously look for additional work</li> <li>• undertake other activities.</li> </ul> <p>However, they <b>must</b> remain connected with a Provider (although they are Suspended on a Provider's caseload). They <b>must</b> attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals. These Appointments <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have Full-Time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours</p>

Process	Details
	<p>of paid work until they obtain a Full-Time job or no longer receive income support.</p> <p>DHS will make an initial Appointment with the Provider for job seekers aged 55 years and over even if they are already satisfying their Mutual Obligation Requirements at their first contact with DHS. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p> <p>PCW 0 to 14 hours per week or TRWC 0 to 14 hours per week who fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload.</p> <p><b>Role of DHS</b></p> <p>For these cohorts of job seekers, DHS is responsible for determining whether the individual job seeker is actually meeting their Mutual Obligation Requirements, as outlined above. Where DHS establishes that they are participating sufficiently in the relevant approved activities, DHS will update the job seeker's Job Plan to include the Activities they are undertaking to meet their Mutual Obligation Requirements. Once DHS determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>The only exception to this is for PCPs and PCWs who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course. In this instance, Providers are responsible for approving this Activity and updating the Job Plan accordingly. See Additional information below, for more details on <a href="#">approved short courses</a>.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is meeting their Mutual Obligation Requirements through sufficient participation in the activities outlined above, they may elect to continue in Employment Provider Services. If a job seeker continues in Employment Provider Services, Providers <b>must</b> not remove the relevant compulsory activities that DHS has included in the job seeker's Job Plan. Any additional activities included in the Job Plan <b>must</b> only be added as voluntary items.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 113</b></li> </ul>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker's Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and the Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including PCPs and those with a PCW (15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Early School Leavers who are not meeting their mutual obligation requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for PCP and PCW ESLs) <b>should</b> also have up to 20 Job</p>

Process	Details
	<p>Searches each month in their Job Plan.</p> <p>Job seekers cannot be required to undertake more than 20 Job Searches per month.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p>	<p><b>For all job seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search</li> <li>• substantially elevated level of family and caring responsibilities</li> <li>• accommodation situation, where this is likely to impede Job Search</li> <li>• education or skill level, where this is likely to substantially limit job opportunities</li> <li>• current Employment status (Part-Time or casual work)</li> <li>• domestic violence (including family violence) or family relationship breakdown (DHS may also grant an Exemption from Mutual Obligation Requirements in these circumstances.)</li> <li>• final three months of pregnancy</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills</li> <li>• cultural factors</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement—for example, 15 Job Searches per month.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed</li> <li>• the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed (for example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme).</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p>
<p><b>Additional reasons Providers may reduce the number of</b></p>	<p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other activities—in particular</p>

Process	Details
<p><b>Job Searches</b></p>	<p>study or during the Work for the Dole Phase.</p> <p>Providers <b>should</b> reduce the number of Job Searches a job seeker is required to undertake if a job seeker is simultaneously undertaking other activities only in the limited circumstances as set out below.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved (if the job seeker is undertaking a significant number of hours of paid Employment per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further)</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be nil.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements—that is, PCPs and PCWs (15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved.</li> </ul> <p><b>Language, Literacy and Numeracy (LLN) courses</b></p> <p>For those job seekers that Providers have identified as needing to improve their LLN skills, Providers may reduce the number of Job Searches during the period when the job seeker is actively participating in a LLN course. The job seeker would need to be undertaking the Skills for Education and Employment programme, Adult Migrant English Programme or another accredited LLN course. Providers <b>must</b>, however, ensure that the job seeker is simultaneously undertaking some Job Search, as recorded in their Job Plan, while participating in these programmes.</p> <p><b>Other circumstances</b></p> <p>Providers <b>must</b> not include job search requirements for Early School Leavers undertaking appropriate hours of education or training as part of meeting their mutual obligation requirements. . Early School Leavers who are not engaged in education or, education and work, for 25 hours a week (15 hours for PCP and PCW ESLs) have a requirement to look for up to 20 jobs each months included in their Job Plans on a compulsory basis.</p> <p>Providers <b>must</b> not include Job Search requirements for job seekers while they are undertaking NEIS Training, the NEIS programme or during the final three months of pregnancy.</p> <p>PCPs and PCWs (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Job seekers aged 55 years and over who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p>

Process	Details
<p><b>Setting Job Searches in the Job Plan</b></p>	<p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring this and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans <b>should</b> contain JS09</li> <li>• for Stream C job seekers, most Job Plans <b>should</b> contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>A job seeker may have Mutual Obligation Requirements but no Job Search requirements where the job seeker is fully meeting their requirements or is an Early School Leaver who is undertaking appropriate full-time study or a combination of part-time study and part-time work of 25 hours per week.</p>
<p><b>Defining ‘Suitable work’ Guide to Social Security Law— 3.2.8.60—Unsuitable work</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. ‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker’s assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in the Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work will be Unsuitable if it:</p> <ul style="list-style-type: none"> <li>• would aggravate a job seeker’s medical illness, disability or injury</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention</li> <li>• does not meet the applicable statutory conditions of work</li> <li>• requires the person to change their place of residence where they are unwilling to move</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for PCPs and job seekers with an assessed PCW and more than 90 minutes one way for other job seekers)</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the Employer.</li> </ul> <p>Where job seekers are undertaking an education or training activity that is included as a compulsory item in their Job Plan, the job seeker is only required to accept a job that does not conflict with the timing of that education or training.</p> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>PCPs cannot be required to accept Employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the PCP has access to appropriate care and supervision for their Child/Children during the times when the PCP would be required to work</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable</li> <li>• the PCP will be financially better off as a result of undertaking the work (refer to the <a href="#">Financial Suitability Test</a>).</li> </ul> <p>Work will be Unsuitable for PCPs if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law</a> for further information</p>

Process	Details
	<p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the PCP to travel to and from work. Appropriate care and supervision means:</p> <ul style="list-style-type: none"> <li>• child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>)</li> <li>• any other care or supervision arrangements that the parent deems suitable</li> <li>• where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with an assessed PCW if:</p> <ul style="list-style-type: none"> <li>• it does not provide appropriate support or facilities to take account of the illness, disability or injury</li> <li>• the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's normal means of transport.</li> </ul> <p>Ministers of religion who are either a PCP or have a PCW will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours of paid pastoral work a fortnight for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p>

## Annual Activity Requirements

Process	Details
<p><b>Defining 'Annual Activity Requirements'</b></p>	<p>The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.</p> <p>All job seekers aged under 60 have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>All Stream A job seekers as well as Stream B job seekers subject to Stronger Participation Incentives (SPI) for Job Seekers under 30 measure will enter the Work for the Dole Phase in their first year of service and every subsequent year that they remain unemployed.</p> <p>Stream B job seekers not subject to SPI for Job Seekers under 30 measure, as well as Stream C job seekers, will enter the Work for the Dole Phase after 12 months of service and every subsequent year that they remain unemployed.</p> <p>Providers <b>must</b> determine the Activities that the job seeker <b>must</b> undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and the Social Security Law. The Provider <b>must</b> record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>The following job seekers do not have an Annual Activity Requirement:</p>

Process	Details
	<ul style="list-style-type: none"> <li>• job seekers aged 60 years and over</li> <li>• PCPs and PCWs (15 to 29 hours per week) during the period they are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work</li> <li>• job seekers with a PCW or TRWC (0 to 14 hours per week)</li> </ul> <p>Early School Leavers with full-time Mutual Obligation Requirements typically need to undertake 25 hours a week of approved activities so the concept of an Annual Activity Requirement is not applicable, as they are participating in this level of Activities all the time.</p>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> <li>• <b>Clause 108</b></li> <li>• <b>Clause 109</b></li> </ul>	<p>For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement.</li> <li>• already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>PCPs and PCWs of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment</li> <li>• National Work Experience Programme Placements</li> <li>• Voluntary Work</li> <li>• part-time study/training, which must be: <ul style="list-style-type: none"> <li>○ a Cert III or higher but not Masters or Doctorate and meet Short Course approval conditions i.e. it must be less than 12 months (two semesters) duration, or,</li> <li>○ an accredited course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase.*</li> </ul> </li> <li>• accredited language, literacy and numeracy courses, which can include <ul style="list-style-type: none"> <li>○ the Skills for Education and Employment programme</li> <li>○ Adult Migrant English Programme</li> </ul> </li> <li>• Defence Reserves</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>Other government programmes, including state government programmes and the Green Army Programme.</li> </ul> <p>Courses must still meet all other income support payability rules such as short course rules and not be at Masters and Doctorate level.</p> <p>*For these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement.</p> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.</p> <p>There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>non-accredited education and training</li> <li>Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)</li> <li>full-time study outside of the Approved Short Course conditions (including Masters and Doctorate courses).</li> <li>non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul> <p>Further information on activities suitable to meet a job seeker's Annual Activity Requirement can be found in the Activity Management Guideline.</p>
<p><b>Hours of participation to meet Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a PCP.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>Aged under 30 years: Generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>Aged 30 to 59: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>Job seekers with part-time Mutual Obligation Requirements, PCP and PCW (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>Aged under 30 years: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p>Aged 30 to 59: Generally <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight). If undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p>
<p><b>Setting Annual Activity Requirements in the Job Plan</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>Clause 87</li> </ul>	<p>When setting approved Activities to enable a job seeker to meet their Annual Activity Requirement, the relevant approved Activities (including the fortnightly hours of participation required) <b>must</b> be included in each job seeker's Job Plan.</p> <p>Providers <b>must</b> use the relevant codes in the Department's IT Systems. The Department will actively monitor this.</p>

Process	Details
<p><b>Setting required hours in the Activity Diary</b>  <b>Relevant Deed clause:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p><b>Work for the Dole</b></p> <p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the <a href="#">Learning Centre Website</a>.</p>
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b>  <b>Relevant Deed clause:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole activities) or month (for all other approved activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the Work for the Dole IT Supporting Document.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's IT Systems Online Help.</p> <p><b>Work for the Dole</b></p> <p>For Work for the Dole activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's scheduled participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b></p> <p>For all other approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met for that period.</p>
<p><b>Recording completion of the Annual Activity</b></p>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary correctly displays whether the job seeker has met their Annual Activity</p>

Process	Details
<p><b>Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 107</b></li> </ul>	<p>Requirement. This information is displayed on the Activity Diary Job Seeker Summary screen.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (e.g. through participation in the Green Army programme), the Provider <b>must</b> within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement and</li> <li>• record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's IT Systems Online Help.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and in effect, means that some job seekers will satisfy their Annual Activity Requirement early.</p> <ul style="list-style-type: none"> <li>• However, any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole <b>must</b> be created as a voluntary component of their Job Plan.</li> <li>• Job seekers <b>must</b> not undertake more than 50 hours per fortnight in National Work Experience Programme Placements.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a PCP, where a job seeker's capacity to work changes or when a job seeker turns 30. In these instances, the job seeker's participation <b>must</b> match their new requirement. For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan contains other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity</p>

Process	Details
	<p>Requirement for that year has already been met. Job seekers can volunteer to continue in approved Activities.</p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers <b>must</b>:</p> <ul style="list-style-type: none"> <li>• participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12-month period), and</li> <li>• complete the relevant number of hours required to meet their Annual Activity Requirement.</li> </ul> <p>The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p>
<p><b>Undertaking a Compliance Activity during the Work for the Dole Phase</b></p>	<p>If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the following Case Management Period.</p>
<p><b>Participation in the Green Army Programme</b></p>	<p>Participation in the Green Army Programme will meet the job seeker's Annual Activity Requirement as long as the job seeker completes the relevant Green Army Programme or project.</p>
<p><b>Transition Arrangements for Employment Services 2015</b></p>	<p>To minimise disruption, job seekers transitioning to the Work for the Dole Phase can complete any existing Activity commenced before 1 July 2015 that is in their employment pathway plan and is then included in their Job Plan. Participation will count towards their Annual Activity Requirement. However, the job seeker will be required to 'top up' hours by participating in additional concurrent activities, where required, to meet the relevant Annual Activity Requirement hours of participation required from 1 July 2015.</p>

### Early School Leavers

Process	Details
<p><b>Defining who is an 'Early School Leaver'</b></p>	<p>An ESL is a person who is in receipt of Youth Allowance (Other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of education (Certificate III level or above, under the Australian Qualifications Framework).</p> <p>Providers <b>must</b> ensure that the activities included in an ESL's Job Plan enable them to meet their Mutual Obligation Requirements. In setting suitable activities and including these in the job seeker's Job Plan, Providers <b>must</b> take into account the Deed, this</p>

Process	Details
	Guideline and the Social Security Law.
<p><b>Suitable activities for an ESL</b></p> <p><b>Relevant Deed clause:</b></p> <ul style="list-style-type: none"> <li>• <b>Clause 105</b></li> </ul>	<p>ESLs are generally required to participate for at least 25 hours per week (15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)) in:</p> <ul style="list-style-type: none"> <li>• full-time education or training; or</li> <li>• a combination of part-time education or training and part-time work; or</li> <li>• other approved activities in addition to up to 20 compulsory job searches each month;</li> </ul> <p>until they turn 22 years of age or attain Year 12 or an equivalent qualification.</p> <p>Providers <b>must not</b> include Job Search requirements in the Job Plan of ESLs who are in full-time education or training, or who are undertaking a combination of part-time education or training and part-time work for 25 hours per week (15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)). Job search <b>can and should</b> be included as a compulsory term in the Job Plan of all Early School Leavers who are not in the above outlined circumstances however.</p> <p>ESLs in Stream C will meet their Mutual Obligation Requirements by engaging solely in the activities negotiated in their Job Plan, which can include job search as appropriate. Once an ESL has completed Year 12 or an equivalent qualification (as verified by DHS), or turns 22 years of age, the young person will no longer be an ESL and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers.</p> <p>ESLs who are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer ESLs to an employment opportunity when the position does not conflict with the ESL's education or training activities (if any). Similarly, ESLs can be required to accept a job if it does not interfere with their current or future education or training activities.</p> <p><b>Education or training activities</b></p> <p>Participation in a full-time approved education or training course will meet ESL requirements even if the full-time course is less than 25 hours per week. Full-time is at least 75 per cent of the full-time course-load of an approved full-time educational course. The Student Assistance (Education Institutions and Courses) Determination 2009 (No. 2) sets out approved courses.</p> <p>If a Certificate III course is not considered to be appropriate for the ESL based on their circumstances, an ESL may undertake a Certificate I or Certificate II course if participation in the lower level course will help them to go on to complete their Year 12 or a Certificate III (or above) qualification. The job seeker will continue to be considered an ESL until a Year 12 or equivalent Certificate III level of education is attained, or they turn 22 years of age.</p> <p><b>Accredited language, literacy and numeracy training programmes.</b></p> <p>ESLs can also participate in accredited language literacy and numeracy programmes that help build foundation skills such as the Skills for Education and Employment programme and the Adult Migrant English Programme,.</p> <p>Full-time participation in these programmes will satisfy an ESL's requirements. Part-time participation also meets an ESL's requirements if undertaken with part-time work that combines to a total of 25 hours per week (15 hours per week for ESLs who are also PCPs or job seekers with a PCW (15 to 29 hours per week)), In all other circumstances, participation in these courses should be accompanied by participation</p>

Process	Details
	<p>in other approved activities to achieve a total participation of 25 hours a week, in addition to job search.</p> <p><b>State-Based Labour Market Programmes</b></p> <p>Providers may consider state-based programmes to be suitable for an ESL. These activities will satisfy ESL mutual obligation requirements if they are 25 hours a week or if they are undertaken with part-time work to total 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)), In all other circumstances, participation in these programmes should be accompanied by participation in other approved activities together with job search to achieve a total participation of 25 hours a week.</p>
<p><b>What are other approved activities for Early School Leavers?</b></p>	<p>Early School Leavers can also participate in Voluntary Work, paid self-employment, Work for the Dole* and National Work Experience Programme Placements* (*for ESLs aged 18 years and over). These activities can be combined with part-time study to meet the 25 hours a week requirement or can be undertaken for 25 hours a week in addition to job search requirements.</p>
<p><b>Verifying educational qualifications</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 105</li> </ul>	<p>Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an ESL. For the purposes of verification, DHS will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies</li> <li>• an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate III</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution</li> <li>○ a Certificate III or IV of General Education for Adults</li> <li>○ the International Baccalaureate</li> <li>○ other higher education pre-entry course.</li> </ul> </li> </ul> <p>Providers <b>must</b> fax the DHS Business Hotline on 1300 786 102 to have an ESL's qualifications verified, using the cover sheet at <a href="#">Attachment B</a> together with:</p> <ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original)</li> <li>• if the original qualification has been lost or destroyed <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification</li> <li>○ a letter from the relevant education institution formally verifying attainment of the qualification</li> <li>○ if none of the above can be obtained, a statutory declaration by the ESL detailing the name of the course, date completed, institution and institution contact details.</li> </ul> </li> </ul> <p>Providers <b>should</b> not send verification to DHS where the education level is below Year 12.</p> <p>The ESL will still have ESL Mutual Obligation Requirements until DHS has verified the qualification (which takes approximately two Business Days). Once DHS has verified this qualification, the person is no longer an ESL. Providers <b>must</b> update the Job Plan to reflect the new Mutual Obligation Requirements as a usual job seeker.</p> <p>The Provider <b>should</b> also update the education level information in the JSCI to reflect the ESL's newly advised higher level of educational attainment.</p> <p>If DHS does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the ESL to advise them of the reason why the qualification was not verified by DHS.</p>

Process	Details
<b>ESLs (PCPs or PCW) who are fully meeting their requirements through paid work or participation in Green Army Programme</b>	As these ESLs are fully meeting their requirements through 30 hours per fortnight of paid work or participation in the Green Army Programme, Providers <b>should</b> encourage (but cannot require) the ESL to undertake additional education and training.

### Additional information

Process	Details
<b>Financial suitability test for PCPs</b>	PCPs cannot be required to accept a job offer or continue in a job in which they are not financially better-off compared to not doing the job. If a PCP is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="http://www.humanservices.gov.au/customer/enablers/online-estimators">http://www.humanservices.gov.au/customer/enablers/online-estimators</a> .
<b>Breaks in Activities</b>	<p>There will be times when a job seeker has a break in an Activity required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other activities that the job seeker would need to undertake to meet their Mutual Obligation Requirements.</p> <p>An exception to this is when the job seeker is undertaking study or training and the break is for four weeks or fewer and the reason for the break is outside the job seeker's control. Other mutual obligation requirements, including job search and attending appointments, are not affected by this break. For example, a training course is suspended because the trainer is unavailable for a short period or there is a scheduled short break between sections of the training course.</p>
<b>Sufficient Work Test Guide to Social Security Law—3.2.2.10—Sufficient work</b>	<p>In some circumstances, a job seeker may be considered to be unemployed even if they are doing sufficient work to meet their Mutual Obligation Requirements. For this to occur, a job seeker would need to work at least the minimum number of hours required for the job seeker (the hours test) and their earnings would be at least at the applicable hourly rate (usually the national minimum wage) multiplied by the minimum number of hours required for the job seeker (the remuneration test). The hours test for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight; for job seekers aged 55 years and over, PCP and PCW job seekers it is 30 hours per fortnight.</p> <p>If the job seeker's paid work fails to meet any of these conditions, they are not taken to satisfy the sufficient work test. If:</p> <ul style="list-style-type: none"> <li>the amount earned is sufficient but the number of hours worked is insufficient, the job seeker will need to undertake or look for work of the number of hours that would bring them up to the minimum hours requirement</li> <li>the hours worked are sufficient but the amount earned is insufficient, the job seeker will also need to undertake or look for work of the number of hours that would enable them to meet the remuneration test.</li> </ul> <p><b>Example</b></p> <p><i>Ralph has a 15-hour per week requirement, as he has been assessed as having a PCW. He works for 10 hours a week and earns \$26 an hour, or \$260 a week. The Applicable</i></p>

Process	Details
	<p><i>hourly rate for Ralph is the National Minimum Wage of \$17.29 an hour (at 11 December 2015). This means he will satisfy the remuneration test if he earns at least \$259.35 a week (that is, 15 hours at \$17.29). He earns more than this, so the remuneration test is satisfied. However, he is not working the minimum number of hours required, so the sufficient work test is not met. Ralph will need to undertake or look for at least five hours a week more work.</i></p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income of the business provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the person will generally be required to look for alternative work.</p> <p>Providers are required to document a job seeker's satisfactory participation in self-employment as per the Documentary Evidence Guidelines. If a job seeker's commitment to their business activities interferes with required Job Search or other activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>
<p><b>Approved short courses</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy or Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study <b>should</b> be advised to first test their eligibility for a student payment with DHS. However, recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve short courses for a job seeker on the condition that the course is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated</li> <li>• less than 12 months (two semesters) in duration</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of 12 months (two semesters) or longer in duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can only be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects</li> <li>• the job seeker is a single PCP on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or a longer course—that is, 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single PCP on Newstart Allowance can continue to undertake the study for which PES was granted as an approved Activity until that course has been completed. (Providers need to sight evidence that the single PCP on Newstart Allowance is in receipt of PES for that course)</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by DHS)</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (Other) (and in some limited instances where a job seeker was granted the Disability Support Pension (DSP) and then transferred to Newstart Allowance or Youth Allowance (Other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or DSP (this would usually be approved by DHS).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker's Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and they are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>Where a PCP or PCW is undertaking an approved short course for at least 30 hours per fortnight, they are considered to be fully meeting their part-time Mutual Obligation Requirements. In this instance, Providers <b>must</b> complete the relevant details in Activity Management and tick the 'Meets full-time approved short course criteria' box. This allows the relevant information to be transmitted to DHS and for the job seeker to be Suspended from Employment Provider Services.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>
<b>Exemptions</b>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. Under Social Security law, DHS may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or other activities. In the first instance, DHS will usually look to reduce a job seeker's Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker does not have capacity to undertake any job search or other approved activity and <b>should</b> be considered for an exemption from Mutual Obligation Requirements, the job seeker <b>should</b> be advised to contact DHS to test their eligibility for an Exemption. Job seekers need to provide any evidence supporting their claim to DHS. For example, an appropriate medical certificate from their doctor, if they are applying for a medical Exemption.</p> <p>if a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p>Special exemptions that providers should be aware of are:</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a PCP and subject to domestic violence, an Exemption <b>must</b> be granted by DHS.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a DHS social worker. Providers <b>should</b> also refer a job seeker to the</p>

Process	Details
	<p>range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant job seekers</b></p> <p>During the early months of pregnancy, a pregnant job seeker's Mutual Obligation Requirements will not change. Generally, the job seeker will still be required to look for work; however, the Provider <b>must</b> take into account the job seeker's personal circumstances when setting activities in their Job Plan.</p> <p>During the three months before a pregnant job seeker's expected due date they will not be required to undertake job search, although they must continue to satisfy requirements by undertaking other suitable activities. During this time providers cannot compel these job seekers to accept job offers or referrals to job interviews</p> <p>Once the pregnant job seeker is six weeks from their expected due date, DHS will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p> <p>For further information on these and other exemptions can be found in the Guide to Social Security Law:  <a href="http://guides.dss.gov.au/guide-social-security-law/3/2/11">http://guides.dss.gov.au/guide-social-security-law/3/2/11</a></p>
<p><b>Parenting Payment Single recipients over Age Pension age</b></p>	<p>Job seekers who have reached Age Pension age and who are receiving Parenting Payment Single do not have any Mutual Obligation Requirements.</p>

**Note:**

- PCPs with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A PCP can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a PCP is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight– refer to the criteria on pages 6 and 7 of the Guideline.
- Job Seekers with a PCW of 15 to 19 hours per week can fully meet their Mutual Obligation Requirements by undertaking 15 hours per week of Voluntary and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities included in the Job Plan (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).
- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement. Different rules apply to PCPs and PCW.

Fax to: DHS Business Hotline **1300 786 102**

## Verification of Year 12 or equivalent qualification (Office use only: CBHESL)

Attached to this Verification Facsimile Cover Sheet is evidence of a completed Year 12 or equivalent qualification (i.e. Certificate III or higher) for:

Job seeker's name

CRN

### Declaration by Provider

I have sighted:

*(tick as to which applies)*

the original qualification

a certified true copy of the qualification

a letter from the relevant school or educational institution formally verifying attainment of the qualification

a Statutory Declaration detailing the name of the course, date completed, institution and institution contact details.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, **'must'** means that compliance is mandatory and **'should'** means that compliance represents best practice and that compliance is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations.

It **must** be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Employment under or in connection with the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for activity-tested Stream Participants. It includes the Provider's responsibilities and required actions to enable Stream Participants with Mutual Obligation Requirements (job seekers) to meet their requirements.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the Employment Services Deed 2015–2020 (the Deed) are:

- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements.

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under the Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements <b>must</b> show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services (DHS) has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for activity-tested income support. These include attending Provider Appointments, undertaking Job Search and acting on referrals to jobs, undertaking an Annual Activity Requirement and participating in any other activity that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects.</p> <p>Job seekers <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment.</p> <p>Job seekers on the following income support payments have Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six (6))</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under social security law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have some compulsory requirements and may be Referred to an Employment Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>
<p><b>Role of Providers</b></p> <p>Relevant Deed clauses:</p> <ul style="list-style-type: none"> <li>• Clause 87</li> <li>• Clause 106</li> </ul>	<p>The Provider <b>must</b> consult with the job seeker and then set appropriate activities for the job seeker to meet their Mutual Obligation Requirements. This includes the Annual Activity Requirement, where relevant. The Mutual Obligation Requirements <b>must</b> be included in the job seeker's Job Plan.</p> <p>The Provider <b>must</b> set a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and the Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p>	<p>A job seeker's Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age</li> <li>• their assessed work capacity</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a Full-Time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p>

Process	Details
	<ul style="list-style-type: none"> <li>• Principal Carer Parents (PCP) once the youngest child in their care turns six years of age</li> <li>• job seekers with a Partial Capacity to Work (PCW) of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, the job seeker's Job Plan <b>should</b> have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers</li> <li>• undertake Job Search. Job seekers are generally required to undertake 20 Job Searches per month (during the Case Management Period and the Work for the Dole Phase)</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity (that is, the default activity where another activity is not undertaken for the 18-49 year old cohort. Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the <i>Activity Management Guideline</i>.</li> <li>• undertake appropriate activities during the Case Management Period, if not appropriately engaged in other activities. These activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase their immediate employability.</li> </ul> <p>Attachment A provides a table outlining job seeker Mutual Obligation Requirements.</p>
<p><b>Considering a job seeker's circumstances</b>  <b>Guide to Social Security Law—3.2.8.50—What can be included in a Job Plan</b></p>	<p>When outlining a job seeker's Mutual Obligation Requirements, including their Annual Activity Requirement, the Provider <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker's individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs</li> <li>• the person's education, experience, skills and age</li> <li>• the impact of any disability, illness, mental condition or physical condition on the person's ability to work, look for work or participate in activities</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market</li> <li>• the participation opportunities available to the person</li> <li>• the family and caring responsibilities of the person (including availability of child care)</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a PCP or has an assessed PCW)</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information</li> <li>• whether the job seeker has any vulnerabilities or vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements</li> <li>• cultural factors</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>Providers <b>should</b> consult with job seekers to understand the activities the job seeker is interested in or may prefer to undertake. This can include things that will help the job seeker find work or will help them deal with, or sufficiently manage, vocational or personal issues that may affect their employability. While the Provider <b>should</b> take this into account wherever possible, persons engaged by the Provider to perform functions or provide Services, as the Delegate of the Secretary of the Department of Employment, will determine what requirements the job seeker <b>must</b> satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed PCW or a Temporary Reduced Work Capacity (TRWC). These will generally be identified by an Employment Services Assessment (ESAt) or Job Capacity Assessment (JCA). Where there is no ESAt or JCA, the Job Seeker Classification Instrument (JSCI) may also help identify personal issues that may affect a job seeker's employability.</p> <p>The Provider <b>must</b> review the job seeker's identified barriers or personal issues and determine activities that will best help the job seeker address, or sufficiently manage, these issues while ensuring they meet their fortnightly Mutual Obligation Requirements.</p> <p>If a job seeker cannot reasonably undertake an Activity (or a combination of activities) then Providers <b>must</b> not include that Activity (or combination of activities) in their Job Plan.</p> <p><b>Partial Capacity to Work (PCW)</b></p> <p>Job seekers have a PCW if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per week.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity (TRWC)</b></p> <p>A job seeker may have a temporary medical condition and have a TRWC, which is identified through an ESAt. Job seekers will have reduced requirements for the period of their TRWC. When setting appropriate activities, Providers <b>must</b> ensure that activities and the level of participation take into account the job seeker's TRWC.</p>
<p><b>Principal Carer Parents</b></p>	<p>Providers <b>must</b> consider a PCP's family and caring responsibilities, including the availability of child care.</p> <p>Face-to-face Provider Appointments and participation in activities <b>should</b> typically be scheduled during school hours (that is, generally between 9 am and 3 pm during school terms) unless it is otherwise agreed by the PCP.</p> <p>PCPs do not have Mutual Obligation Requirements during the fortnight in which the</p>

Process	Details
	<p>Christmas public holiday falls.</p> <p>PCPs need to continue to meet their part-time Mutual Obligation Requirements at all other times and during school holidays. However, Providers <b>must</b> consider whether the PCP can access appropriate care and supervision for their children during this time.</p> <p>If the PCP is required to undertake an activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the PCP has a Valid Reason or Reasonable Excuse, alternative requirements need to be set to enable the job seeker to meet their Mutual Obligation Requirements. For example, while PCPs are not required to attend face-to-face Provider Appointments during school holidays, they are required to engage with Providers through other means, such as by telephone. Job Search is also something that PCPs can undertake from their home while they are caring for children on school holidays.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker’s Stream and phase when setting a job seeker’s Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker’s Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including the appropriate hours of participation each fortnight during that phase.</p>
<p><b>Approved programs of work for income support payments</b></p>	<p>The Social Security Law has specific provisions with regards to requiring job seekers to undertake an approved program of work, such as Work for the Dole, National Work Experience Programme Placements, and the Green Army Programme.</p> <p>In a Job Plan, Providers <b>must</b> not include participation in Work for the Dole (or other approved programs of work) as a compulsory item:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (A reduced rate can result from the job seeker’s own income and / or their partner’s income.)</li> <li>• for Special Benefit—Nominated Visa Holders if the person or the person’s partner has income</li> <li>• where the Activity is more than 50 hours per fortnight</li> <li>• where the job seeker is aged under 18 or is 60 and over.</li> </ul> <p>In the case of the National Work Experience Programme, participation must always only be on a voluntary basis, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will also receive the Supplement.</p> <p>Work for the Dole may be included as a voluntary item in the job seeker’s Job Plan in the above circumstances. Job seekers undertaking Work for the Dole on a compulsory or voluntary basis will receive a fortnightly Approved Program of Work Supplement with their income support.</p> <p>Job seekers aged under 18 are not able to undertake Work for the Dole or National Work Experience Programme Placements on either a compulsory or voluntary basis.</p> <p>Job seekers on anything less than the full rate of income support may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b></p>

Process	Details
	<p>only be included as a voluntary item in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider <b>should</b> update the job seeker's Job Plan to include Work for the Dole as a compulsory activity.</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement.</p> <p>Providers can view a job seeker's previous four fortnights' income support payment rate within the Department's IT Systems (that is, whether they received a full rate or a reduced rate due to the income test). This will help providers to determine if a job seeker is in receipt of a part or nil rate of payment and therefore if they should be undertaking work for the dole on a compulsory basis.</p>
<p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p>	<p>Certain job seeker cohorts, namely PCPs, those with a PCW (15 to 29 hours per week) and job seekers aged 55 years and over are able to meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p>PCPs and job seekers with a PCW (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study (or a combination) cannot be required to simultaneously undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload. This also applies if the PCP or a job seeker with a PCW (15 to 29 hours per week) is participating in the Green Army Programme for 30 hours per fortnight. See <a href="#">approved short courses</a> under Additional information below.</p> <p>PCPs are also able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight. However the following criteria <b>must</b> be met for Voluntary Work to fully meet a PCP's requirements:</p> <ul style="list-style-type: none"> <li>• the principal carer lives in a poor labour market</li> <li>• there are limited training opportunities locally available (online courses may be considered 'locally available' if the PCP has access to a computer)</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>PCPs aged under 55 years undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers <b>must</b> not require the PCP to undertake other additional activities. Job seekers aged 55 years and over who are meeting their Full-Time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved Voluntary Work (or a combination) cannot be required to:</p> <ul style="list-style-type: none"> <li>• simultaneously look for additional work</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>• undertake other activities.</li> </ul> <p>However, they <b>must</b> remain connected with a Provider (although they are Suspended on a Provider's caseload). They <b>must</b> attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals. These Appointments <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have Full-Time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a Full-Time job or no longer receive income support.</p> <p>DHS will make an initial Appointment with the Provider for job seekers aged 55 years and over even if they are already satisfying their Mutual Obligation Requirements at their first contact with DHS. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p> <p>PCW 0 to 14 hours per week or TRWC 0 to 14 hours per week who fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS do not need to remain connected with a Provider and can be Suspended or Exited from the Provider's caseload.</p> <p><b>Role of DHS</b></p> <p>For these cohorts of job seekers, DHS is responsible for determining whether the individual job seeker is actually meeting their Mutual Obligation Requirements, as outlined above. Where DHS establishes that they are participating sufficiently in the relevant approved activities, DHS will update the job seeker's Job Plan to include the Activities they are undertaking to meet their Mutual Obligation Requirements. Once DHS determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>The only exception to this is for PCPs and PCWs who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course. In this instance, Providers are responsible for approving this Activity and updating the Job Plan accordingly. See Additional information below, for more details on <a href="#">approved short courses</a>.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is meeting their Mutual Obligation Requirements through sufficient participation in the activities outlined above, they may elect to continue in Employment Provider Services. If a job seeker continues in Employment Provider Services, Providers <b>must</b> not remove the relevant compulsory activities that DHS has included in the job seeker's Job Plan. Any additional activities included in the Job Plan <b>must</b> only be added as voluntary items.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b> Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 113</b></li> </ul>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker's Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and the Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers</p>

Process	Details
	<p>(including PCPs and those with a PCW (15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Early School Leavers who are not meeting their mutual obligation requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for PCP and PCW ESLs) <b>should</b> also have up to 20 Job Searches each month in their Job Plan.</p> <p>Job seekers cannot be required to undertake more than 20 Job Searches per month.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p>	<p><b>For all job seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search</li> <li>• substantially elevated level of family and caring responsibilities</li> <li>• accommodation situation, where this is likely to impede Job Search</li> <li>• education or skill level, where this is likely to substantially limit job opportunities</li> <li>• current Employment status (Part-Time or casual work)</li> <li>• domestic violence (including family violence) or family relationship breakdown (DHS may also grant an Exemption from Mutual Obligation Requirements in these circumstances.)</li> <li>• final three months of pregnancy</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills</li> <li>• cultural factors</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement—for example, 15 Job Searches per month.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed</li> <li>• the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being</p>

Process	Details
	<p>addressed (for example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme).</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p>
<p><b>Additional reasons Providers may reduce the number of Job Searches</b></p>	<p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other activities—in particular study or during the Work for the Dole Phase.</p> <p>Providers <b>should</b> reduce the number of Job Searches a job seeker is required to undertake if a job seeker is simultaneously undertaking other activities only in the limited circumstances as set out below.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved (if the job seeker is undertaking a significant number of hours of paid Employment per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further)</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be nil.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements—that is, PCPs and PCWs (15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches <b>should</b> be halved.</li> </ul> <p><b>Language, Literacy and Numeracy (LLN) courses</b></p> <p>For those job seekers that Providers have identified as needing to improve their LLN skills, Providers may reduce the number of Job Searches during the period when the job seeker is actively participating in a LLN course. The job seeker would need to be undertaking the Skills for Education and Employment programme, Adult Migrant English Programme or another accredited LLN course. Providers <b>must</b>, however, ensure that the job seeker is simultaneously undertaking some Job Search, as recorded in their Job Plan, while participating in these programmes.</p> <p><b>Other circumstances</b></p> <p>Providers <b>must</b> not include job search requirements for Early School Leavers undertaking appropriate hours of education or training as part of meeting their mutual obligation requirements. Early School Leavers who are not engaged in education or, education and work, for 25 hours a week (15 hours for PCP and PCW ESLs) have a requirement to look for up to 20 jobs each month included in their Job Plans on a compulsory basis.</p> <p>Providers <b>must</b> not include Job Search requirements for job seekers while they are undertaking NEIS Training, the NEIS programme or during the final three months of pregnancy.</p> <p>PCPs and PCWs (15 to 29 hours per week) who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or</p>

Process	Details
	<p>approved study <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p> <p>Job seekers aged 55 years and over who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must</b> not have any simultaneous Job Search requirements included in their Job Plans.</p>
<p><b>Setting Job Searches in the Job Plan</b></p>	<p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring this and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans <b>should</b> contain JS09</li> <li>• for Stream C job seekers, most Job Plans <b>should</b> contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>A job seeker may have Mutual Obligation Requirements but no Job Search requirements where the job seeker is fully meeting their requirements or is an Early School Leaver who is undertaking appropriate full-time study or a combination of part-time study and part-time work of 25 hours per week.</p>
<p><b>Defining ‘Suitable work’</b>  <b>Guide to Social Security Law—3.2.8.60—Unsuitable work</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. ‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker’s assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in the Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work will be Unsuitable if it:</p> <ul style="list-style-type: none"> <li>• would aggravate a job seeker’s medical illness, disability or injury</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention</li> <li>• does not meet the applicable statutory conditions of work</li> <li>• requires the person to change their place of residence where they are unwilling to move</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for PCPs and job seekers with an assessed PCW and more than 90 minutes one way for other job seekers)</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the Employer.</li> </ul> <p>Where job seekers are undertaking an education or training activity that is included as a compulsory item in their Job Plan, the job seeker is only required to accept a job that does not conflict with the timing of that education or training.</p> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>PCPs cannot be required to accept Employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the PCP has access to appropriate care and supervision for their Child/Children during the times when the PCP would be required to work</li> <li>• the location of either the workplace or the child care facility would make the</li> </ul>

Process	Details
	<p>total travel time to and from work unreasonable</p> <ul style="list-style-type: none"> <li>the PCP will be financially better off as a result of undertaking the work (refer to the <a href="#">Financial Suitability Test</a>).</li> </ul> <p>Work will be Unsuitable for PCPs if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law</a> for further information</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the PCP to travel to and from work. Appropriate care and supervision means:</p> <ul style="list-style-type: none"> <li>child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>)</li> <li>any other care or supervision arrangements that the parent deems suitable</li> <li>where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with an assessed PCW if:</p> <ul style="list-style-type: none"> <li>it does not provide appropriate support or facilities to take account of the illness, disability or injury</li> <li>the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's normal means of transport.</li> </ul> <p>Ministers of religion who are either a PCP or have a PCW will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours of paid pastoral work a fortnight for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p>

## Annual Activity Requirements

Process	Details
<p><b>Defining 'Annual Activity Requirements'</b></p>	<p>The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.</p> <p>All job seekers aged under 60 have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>All Stream A job seekers as well as Stream B job seekers subject to Stronger Participation Incentives (SPI) for Job Seekers under 30 measure will enter the Work for the Dole Phase in their first year of service and every subsequent year that they remain unemployed.</p> <p>Stream B job seekers not subject to SPI for Job Seekers under 30 measure, as well as Stream C job seekers, will enter the Work for the Dole Phase after 12 months of service and every subsequent year that they remain unemployed.</p> <p>Providers <b>must</b> determine the Activities that the job seeker <b>must</b> undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and the</p>

Process	Details
	<p>Social Security Law. The Provider <b>must</b> record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>The following job seekers do not have an Annual Activity Requirement:</p> <ul style="list-style-type: none"> <li>• job seekers aged 60 years and over</li> <li>• PCPs and PCWs (15 to 29 hours per week) during the period they are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved study</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work</li> <li>• job seekers with a PCW or TRWC (0 to 14 hours per week)</li> </ul> <p>Early School Leavers with full-time Mutual Obligation Requirements typically need to undertake 25 hours a week of approved activities so the concept of an Annual Activity Requirement is not applicable, as they are participating in this level of Activities all the time.</p>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Relevant Deed clauses:</b></p> <ul style="list-style-type: none"> <li>• Clause 107</li> <li>• Clause 108</li> <li>• Clause 109</li> </ul>	<p>For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement.</li> <li>• already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>PCPs and PCWs of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment</li> <li>• National Work Experience Programme Placements</li> <li>• Voluntary Work</li> <li>• part-time study/training, which must be: <ul style="list-style-type: none"> <li>○ a Cert III or higher but not Masters or Doctorate and meet Short Course approval conditions i.e. it must be less than 12 months (two semesters) duration, or,</li> <li>○ an accredited course commenced in the Case Management Phase but</li> </ul> </li> </ul>

Process	Details
	<p>not yet completed when the job seeker moves into the Work for the Dole Phase.*</p> <ul style="list-style-type: none"> <li>• accredited language, literacy and numeracy courses, which can include <ul style="list-style-type: none"> <li>○ the Skills for Education and Employment programme</li> <li>○ Adult Migrant English Programme</li> </ul> </li> <li>• Defence Reserves</li> <li>• Other government programmes, including state government programmes and the Green Army Programme.</li> <li>• Non-government programmes approved for Annual Activity Requirement purposes (refer to Activity Management Guidelines for more information).</li> </ul> <p>Courses must still meet all other income support payability rules such as short course rules and not be at Masters and Doctorate level.</p> <p>*For these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement.</p> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.</p> <p>There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)</li> <li>• full-time study outside of the Approved Short Course conditions (including Masters and Doctorate courses).</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul> <p>Further information on activities suitable to meet a job seeker's Annual Activity Requirement can be found in the Activity Management Guideline.</p>

Process	Details
<p><b>Hours of participation to meet Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a PCP.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>Job seekers with part-time Mutual Obligation Requirements, PCP and PCW (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: Generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p>Aged 30 to 59: Generally <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight). If undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p>
<p><b>Setting Annual Activity Requirements in the Job Plan</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 87</li> </ul>	<p>When setting approved Activities to enable a job seeker to meet their Annual Activity Requirement, the relevant approved Activities (including the fortnightly hours of participation required) <b>must</b> be included in each job seeker's Job Plan.</p> <p>Providers <b>must</b> use the relevant codes in the Department's IT Systems. The Department will actively monitor this.</p>
<p><b>Setting required hours in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p><b>Work for the Dole</b></p> <p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the <a href="#">Learning Centre Website</a>.</p>
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole activities) or month (for all other approved activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the Work for the Dole IT</p>

Process	Details
	<p>Supporting Document.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's IT Systems Online Help.</p> <p><b>Work for the Dole</b></p> <p>For Work for the Dole activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's scheduled participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b></p> <p>For all other approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met for that period.</p>
<p><b>Recording completion of the Annual Activity Requirement in the Activity Diary</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• Clause 107</li> </ul>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary correctly displays whether the job seeker has met their Annual Activity Requirement. This information is displayed on the Activity Diary Job Seeker Summary screen.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (e.g. through participation in the Green Army programme), the Provider <b>must</b> within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement and</li> <li>• record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's IT Systems Online Help.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job</p>

Process	Details
	<p>seeker's Annual Activity Requirement and in effect, means that some job seekers will satisfy their Annual Activity Requirement early.</p> <ul style="list-style-type: none"> <li>• However, any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole <b>must</b> be created as a voluntary component of their Job Plan.</li> <li>• Job seekers <b>must</b> not undertake more than 50 hours per fortnight in National Work Experience Programme Placements.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a PCP, where a job seeker's capacity to work changes or when a job seeker turns 30. In these instances, the job seeker's participation <b>must</b> match their new requirement. For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan contains other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met. Job seekers can volunteer to continue in approved Activities.</p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers <b>must</b>:</p> <ul style="list-style-type: none"> <li>• participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12-month period), and</li> <li>• complete the relevant number of hours required to meet their Annual Activity Requirement.</li> </ul> <p>The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p>

Process	Details
<b>Undertaking a Compliance Activity during the Work for the Dole Phase</b>	If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the following Case Management Period.
<b>Participation in the Green Army Programme</b>	Participation in the Green Army Programme will meet the job seeker's Annual Activity Requirement as long as the job seeker completes the relevant Green Army Programme or project.
<b>Transition Arrangements for Employment Services 2015</b>	To minimise disruption, job seekers transitioning to the Work for the Dole Phase can complete any existing Activity commenced before 1 July 2015 that is in their employment pathway plan and is then included in their Job Plan. Participation will count towards their Annual Activity Requirement. However, the job seeker will be required to 'top up' hours by participating in additional concurrent activities, where required, to meet the relevant Annual Activity Requirement hours of participation required from 1 July 2015.

## Early School Leavers

Process	Details
<b>Defining who is an 'Early School Leaver'</b>	<p>An ESL is a person who is in receipt of Youth Allowance (Other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of education (Certificate III level or above, under the Australian Qualifications Framework).</p> <p>Providers <b>must</b> ensure that the activities included in an ESL's Job Plan enable them to meet their Mutual Obligation Requirements. In setting suitable activities and including these in the job seeker's Job Plan, Providers <b>must</b> take into account the Deed, this Guideline and the Social Security Law.</p>
<b>Suitable activities for an ESL</b> <b>Relevant Deed clause:</b> <ul style="list-style-type: none"> <li>Clause 105</li> </ul>	<p>ESLs are generally required to participate in:</p> <ul style="list-style-type: none"> <li>full-time education or training; or</li> <li>a combination of part-time education or training and part-time work for a total of 25 hours per week (or 15 hours for principal carer parent and partial capacity to work recipients); or</li> <li>other approved activities for 25 hours per week (or 15 hours for principal carer parent and partial capacity to work recipients) in addition to up to 20 compulsory job searches each month.</li> </ul> <p>until they turn 22 years of age or attain Year 12 or an equivalent qualification.</p> <p>Providers <b>must not</b> include Job Search requirements in the Job Plan of ESLs who are in full-time education or training, or who are undertaking a combination of part-time education or training and part-time work for 25 hours per week (15 hours per week for ESLs who are also PCPs or PCWs (15 to 29 hours per week)). Job search <b>can and should</b> be included as a compulsory term in the Job Plan for all other ESLs.</p> <p>ESLs in Stream C will meet their Mutual Obligation Requirements by engaging solely in the activities negotiated in their Job Plan, which can include job search as appropriate. Once an ESL has completed Year 12 or an equivalent qualification (as verified by DHS), or turns 22 years of age, the young person will no longer be an ESL and will instead</p>

Process	Details
	<p>become subject to the Mutual Obligation Requirements that apply to other job seekers.</p> <p>ESLs who are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer ESLs to an employment opportunity when the position does not conflict with the ESL's education or training activities (if any). Similarly, ESLs can be required to accept a job if it does not interfere with their current or future education or training activities.</p> <p><b>Education or training activities</b></p> <p>Participation in a full-time approved education or training course will meet ESL requirements even if the full-time course is less than 25 hours per week. Full-time is at least 75 per cent of the full-time course-load of an approved full-time educational course. The Student Assistance (Education Institutions and Courses) Determination 2009 (No. 2) sets out approved courses.</p> <p>If a Certificate III course is not considered to be appropriate for the ESL based on their circumstances, an ESL may undertake a Certificate I or Certificate II course if participation in the lower level course will help them to go on to complete their Year 12 or a Certificate III (or above) qualification. The job seeker will continue to be considered an ESL until a Year 12 or equivalent Certificate III level of education is attained, or they turn 22 years of age.</p> <p><b>Accredited language, literacy and numeracy training programmes.</b></p> <p>ESLs can also participate in accredited language literacy and numeracy programmes that help build foundation skills such as the Skills for Education and Employment programme and the Adult Migrant English Programme,.</p> <p>Full-time participation in these programmes will satisfy an ESL's requirements. Part-time participation also meets an ESL's requirements if undertaken with part-time work that combines to a total of 25 hours per week (15 hours per week for ESLs who are also PCPs or job seekers with a PCW (15 to 29 hours per week). In all other circumstances, participation in these courses should be accompanied by participation in other approved activities to achieve a total participation of 25 hours a week, in addition to job search.</p> <p><b>State-Based Labour Market Programmes</b></p> <p>Providers may consider state-based programmes to be suitable for an ESL. These activities will satisfy ESL mutual obligation requirements if they are 25 hours a week or if they are undertaken with part-time work to total 25 hours per week (or 15 hours per week for PCPs or job seekers with a PCW (15 to 29 hours per week)). In all other circumstances, participation in these programmes should be accompanied by participation in other approved activities together with job search to achieve a total participation of 25 hours a week.</p>
<p><b>Verifying educational qualifications</b></p> <p>Relevant Deed clause:</p> <ul style="list-style-type: none"> <li>• <b>Clause 105</b></li> </ul>	<p>Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an ESL. For the purposes of verification, DHS will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies</li> <li>• an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate III</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution</li> </ul> </li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>○ a Certificate III or IV of General Education for Adults</li> <li>○ the International Baccalaureate</li> <li>○ other higher education pre-entry course.</li> </ul> <p>Providers <b>must</b> fax the DHS Business Hotline on 1300 786 102 to have an ESL's qualifications verified, using the cover sheet at <u>Attachment B</u> together with:</p> <ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original)</li> <li>• if the original qualification has been lost or destroyed <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification</li> <li>○ a letter from the relevant education institution formally verifying attainment of the qualification</li> <li>○ if none of the above can be obtained, a statutory declaration by the ESL detailing the name of the course, date completed, institution and institution contact details.</li> </ul> </li> </ul> <p>Providers <b>should</b> not send verification to DHS where the education level is below Year 12.</p> <p>The ESL will still have ESL Mutual Obligation Requirements until DHS has verified the qualification (which takes approximately two Business Days). Once DHS has verified this qualification, the person is no longer an ESL. Providers <b>must</b> update the Job Plan to reflect the new Mutual Obligation Requirements as a usual job seeker.</p> <p>The Provider <b>should</b> also update the education level information in the JSCI to reflect the ESL's newly advised higher level of educational attainment.</p> <p>If DHS does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the ESL to advise them of the reason why the qualification was not verified by DHS.</p>
<b>ESLs (PCPs or PCW) who are fully meeting their requirements through paid work or participation in Green Army Programme</b>	<p>As these ESLs are fully meeting their requirements through 30 hours per fortnight of paid work or participation in the Green Army Programme, Providers <b>should</b> encourage (but cannot require) the ESL to undertake additional education and training.</p>

### Additional information

Process	Details
<b>Financial suitability test for PCPs</b>	<p>PCPs cannot be required to accept a job offer or continue in a job in which they are not financially better-off compared to not doing the job. If a PCP is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="http://www.humanservices.gov.au/customer/enablers/online-estimators">http://www.humanservices.gov.au/customer/enablers/online-estimators</a>.</p>
<b>Breaks in Activities</b>	<p>There will be times when a job seeker has a break in an Activity required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other activities that the job seeker would need to undertake to meet their Mutual Obligation Requirements.</p> <p>An exception to this is when the job seeker is undertaking study or training and the break is for four weeks or fewer and the reason for the break is outside the job seeker's control. Other mutual obligation requirements, including job search and</p>

Process	Details
	<p>attending appointments, are not affected by this break. For example, a training course is suspended because the trainer is unavailable for a short period or there is a scheduled short break between sections of the training course.</p>
<p><b>Sufficient Work Test</b>  <b>Guide to Social Security Law—3.2.2.10—Sufficient work</b></p>	<p>In some circumstances, a job seeker may be considered to be unemployed even if they are doing sufficient work to meet their Mutual Obligation Requirements. For this to occur, a job seeker would need to work at least the minimum number of hours required for the job seeker (the hours test) and their earnings would be at least at the applicable hourly rate (usually the national minimum wage) multiplied by the minimum number of hours required for the job seeker (the remuneration test). The hours test for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight; for job seekers aged 55 years and over, PCP and PCW job seekers it is 30 hours per fortnight.</p> <p>If the job seeker's paid work fails to meet any of these conditions, they are not taken to satisfy the sufficient work test. If:</p> <ul style="list-style-type: none"> <li>• the amount earned is sufficient but the number of hours worked is insufficient, the job seeker will need to undertake or look for work of the number of hours that would bring them up to the minimum hours requirement</li> <li>• the hours worked are sufficient but the amount earned is insufficient, the job seeker will also need to undertake or look for work of the number of hours that would enable them to meet the remuneration test.</li> </ul> <p><b>Example</b></p> <p><i>Ralph has a 15-hour per week requirement, as he has been assessed as having a PCW. He works for 10 hours a week and earns \$26 an hour, or \$260 a week. The Applicable hourly rate for Ralph is the National Minimum Wage of \$17.29 an hour (at 11 December 2015). This means he will satisfy the remuneration test if he earns at least \$259.35 a week (that is, 15 hours at \$17.29). He earns more than this, so the remuneration test is satisfied. However, he is not working the minimum number of hours required, so the sufficient work test is not met. Ralph will need to undertake or look for at least five hours a week more work.</i></p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income of the business provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the person will generally be required to look for alternative work.</p> <p>Providers are required to document a job seeker's satisfactory participation in self-employment as per the Documentary Evidence Guidelines. If a job seeker's commitment to their business activities interferes with required Job Search or other activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>
<p><b>Approved short courses</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy or Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study <b>should</b> be advised to first test their eligibility for a student payment with DHS. However, recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve short courses for a job seeker on the condition that the course</p>

Process	Details
	<p>is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated</li> <li>• less than 12 months (two semesters) in duration</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of 12 months (two semesters) or longer in duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can only be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects</li> <li>• the job seeker is a single PCP on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or a longer course—that is, 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single PCP on Newstart Allowance can continue to undertake the study for which PES was granted as an approved Activity until that course has been completed. (Providers need to sight evidence that the single PCP on Newstart Allowance is in receipt of PES for that course)</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by DHS)</li> <li>• the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (Other) (and in some limited instances where a job seeker was granted the Disability Support Pension (DSP) and then transferred to Newstart Allowance or Youth Allowance (Other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or DSP (this would usually be approved by DHS).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker's Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and they are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>Where a PCP or PCW is undertaking an approved short course for at least 30 hours per fortnight, they are considered to be fully meeting their part-time Mutual Obligation Requirements. In this instance, Providers <b>must</b> complete the relevant details in Activity Management and tick the 'Meets full-time approved short course criteria' box. This allows the relevant information to be transmitted to DHS and for the job seeker to be Suspended from Employment Provider Services.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>
<p><b>Exemptions</b></p>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. Under Social Security law, DHS may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that</p>

Process	Details
	<p>may prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or other activities. In the first instance, DHS will usually look to reduce a job seeker's Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker does not have capacity to undertake any job search or other approved activity and <b>should</b> be considered for an exemption from Mutual Obligation Requirements, the job seeker <b>should</b> be advised to contact DHS to test their eligibility for an Exemption. Job seekers need to provide any evidence supporting their claim to DHS. For example, an appropriate medical certificate from their doctor, if they are applying for a medical Exemption.</p> <p>if a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p>Special exemptions that providers should be aware of are:</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a PCP and subject to domestic violence, an Exemption <b>must</b> be granted by DHS.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a DHS social worker. Providers <b>should</b> also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant job seekers</b></p> <p>During the early months of pregnancy, a pregnant job seeker's Mutual Obligation Requirements will not change. Generally, the job seeker will still be required to look for work; however, the Provider <b>must</b> take into account the job seeker's personal circumstances when setting activities in their Job Plan.</p> <p>During the three months before a pregnant job seeker's expected due date they will not be required to undertake job search, although they must continue to satisfy requirements by undertaking other suitable activities. During this time providers cannot compel these job seekers to accept job offers or referrals to job interviews</p> <p>Once the pregnant job seeker is six weeks from their expected due date, DHS will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p> <p>For further information on these and other exemptions can be found in the Guide to Social Security Law:  <a href="http://guides.dss.gov.au/guide-social-security-law/3/2/11">http://guides.dss.gov.au/guide-social-security-law/3/2/11</a></p>
<p><b>Parenting Payment Single recipients over Age Pension age</b></p>	<p>Job seekers who have reached Age Pension age and who are receiving Parenting Payment Single do not have any Mutual Obligation Requirements.</p>

**Note:**

- PCPs with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A PCP can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a PCP is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight– refer to the criteria on pages 6 and 7 of the Guideline.
- Job Seekers with a PCW of 15 to 19 hours per week can fully meet their Mutual Obligation Requirements by undertaking 15 hours per week of Voluntary and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities included in the Job Plan (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).
- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement. Different rules apply to PCPs and PCW.

# Mutual Obligation Requirements and Job Plan Guideline

**Note:** This guideline replaces the former Mutual Obligation Requirements (including Annual Activity Requirements) Guideline and the Job Plan Guideline.

## Document change history

Version	Start Date	Effective date	End date	Change and location
1.0 Mutual Obligation Requirements and Job Plan Guideline	10 08 16	12 09 16		Replaces former Mutual Obligation Requirements (including Annual Activity Requirement) Guideline and Job Plans Guideline. Clarification on previously raised issues.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, ‘**must**’ means that compliance is mandatory and ‘**should**’ means that compliance represents best practice and is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers’ obligations. It **must be** read in conjunction with the Deed and any relevant Guidelines or reference Material issued by Department of Employment under, or in connection with, the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for Activity-tested job seekers. It includes Providers’ responsibilities and required actions to enable job seekers with Mutual Obligation Requirements to meet those requirements.

It also includes the Providers’ responsibilities and required actions when creating, reviewing and updating a job seeker’s Job Plan. Providers **must** consult with the job seeker when determining the activities to be included in the Job Plan.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the jobactive Deed 2015–2020 (the Deed) include:

### Mutual Obligation Requirements

- Clause 93 – Suspensions
- Clause 95 – Exits
- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements

### Job Plan

- Annexure A1—Definitions
- Clause 35—Personal and Protected Information
- Clause 87—General requirements for a Job Plan
- Clause 119—Delegate obligations

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements must show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for Activity-tested income support. These include: attending Provider Appointments; undertaking Job Search and acting on referrals to specific jobs; participating in approved Activities to meet the Annual Activity Requirement; and participating in any other Activity at any time that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects. For a full list of Activities, refer to <a href="#">Guide to Social Security 3.2.9.10 Suitable Activities</a>.</p> <p>Job seekers on the following income support payments <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six)</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under Social Security Law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to an Employment Services Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements refer to the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p> <p>Job seekers who have reached Age Pension age and who are receiving Parenting Payment Single do not have Mutual Obligation Requirements.</p>
<p><b>Role of Providers</b></p> <p><b>Deed Reference:</b></p> <p>Clause 87</p> <p>Clause 106</p>	<p>The Provider <b>must</b> consult with the job seeker and then <b>must</b> set suitable activities for the job seeker to meet their fortnightly Mutual Obligation Requirements within the job seeker's Job Plan. This includes activities to meet the Annual Activity Requirement where relevant.</p> <p>The Provider <b>must</b> set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, Guideline and Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p> <p><a href="#">Guide to Social Security 3.2.8.10</a></p>	<p>The level of a job seeker's Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age;</li> <li>• their assessed work capacity; and</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Providers can find information on a job seeker's individual circumstances in the Participation Profile screen of the Department's IT system.</p> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a full-time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p>

Process	Details
	<p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents once the youngest child in their care turns six years of age; and</li> <li>• job seekers with a Partial Capacity to Work of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, Providers <b>must</b> ensure that all job seekers have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments;</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers;</li> <li>• undertake Job Search (job seekers are generally required to undertake 20 Job Searches per month during the Case Management, Work for the Dole and Self Service Phase);</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity (that is, the default Activity where another Activity is not undertaken for the 18-49 year old cohort). For further information on suitable Activities to meet a job seeker's Annual Activity Requirement please refer to the Activities to meet <a href="#">Annual Activity Requirements</a> section of this guideline; and</li> <li>• undertake suitable Activities at any time. These Activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase the job seeker's immediate employability.</li> </ul> <p><a href="#">Attachment A</a> provides a table outlining Mutual Obligation Requirements for different cohorts of job seekers.</p>
<p><b>Considering a job seeker's circumstances</b></p> <p><a href="#">Guide to Social Security 3.2.8.50</a></p>	<p>When determining a job seeker's Mutual Obligation Requirements, and when setting the terms of a Job Plan, the Provider <b>must</b> consult with the job seeker and <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker's individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs;</li> <li>• the person's education, experience, skills and age;</li> <li>• the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person's ability to work, look for work or participate in Activities;</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market;</li> <li>• the participation opportunities and activities available to the person;</li> <li>• the family and caring responsibilities of the person (including availability of child care);</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work);</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information;</li> <li>• whether the job seeker has any vulnerability indicators (as identified by the Department of Human Services) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown;</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements, to help ensure they do so in the future;</li> <li>• cultural factors;</li> <li>• if they are an Early School Leaver;</li> <li>• the number of hours a fortnight the job seeker is required to undertake in the Work for the Dole Phase; and</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul>

Process	Details
	<p>After consultation with the job seeker, Providers <b>must</b> determine the Activities that the job seeker must undertake to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. The Provider must record these in the job seeker's Job Plan, including any relevant hours of participation the job seeker needs to undertake each fortnight. While the Provider should take into account the job seeker's preferences wherever possible, as the Delegate of the Secretary of the Department of Employment, employment services staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake Activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed Partial Capacity to Work or a Temporary Reduced Work Capacity. These will generally be identified by an Employment Services Assessment or Job Capacity Assessment. Where there is no Employment Services Assessment or Job Capacity Assessment, the Job Seeker Classification Instrument may also help identify personal issues that may affect a job seeker's employability.</p> <p>When setting the job seeker's Mutual Obligation Requirements, the Provider <b>must</b> review any barriers identified through an Employment Services Assessment or Job Capacity Assessment, or other issues disclosed to the Provider. This will inform the Activities job seeker will undertake to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement.</p> <p>Providers <b>must</b> consider the job seeker's assessed work capacity when setting requirements. The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker <b>must</b> be capable of undertaking any Activity or requirements included in a Job Plan. If a job seeker cannot reasonably undertake an Activity (or a combination of Activities), then that Activity (or combination of Activities) must not be included in their Job Plan.</p> <p><b>Partial Capacity to Work</b></p> <p>Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per fortnight.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity</b></p> <p>A job seeker may have a temporary medical condition and have a Temporary Reduced Work Capacity which is identified through an Employment Services Assessment. Job seekers will have reduced requirements for the period of their Temporary Reduced Work Capacity .</p> <p>Providers <b>must</b> take into account a job seeker's Temporary Reduced Work Capacity when setting suitable approved Activities and the level of participation.</p> <p>There may also be circumstances where it is clear to the Provider that a medical condition will temporarily impact upon a job seeker, but the job seeker does not have a Temporary Reduced Work Capacity in the Department's IT system. Provider's should use judgement and also ensure that these personal circumstances are appropriately taken into account when setting Mutual Obligation Requirements.</p>

Process	Details
	<p><b>Principal Carer Parents</b></p> <p>Providers must consider a Principal Carer Parent’s family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements.</p> <p>During school terms, face-to-face provider Appointments and participation in Activities should typically be scheduled during school hours (that is, generally between 9am and 3pm) unless it is otherwise agreed by the Principal Carer Parent.</p> <p>Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during school holidays. However, Providers <b>must</b> consider whether the Principal Carer Parent can access suitable care and supervision for their children during this time when setting requirements.</p> <p>During the fortnight in which the Christmas public holiday falls, Principal Carer Parents do not have Mutual Obligation Requirements. Refer to the <a href="#">Guide to Social Security 3.2.9.10</a> for additional information.</p> <p>If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the Principal Carer Parent has a Valid Reason or Reasonable Excuse for not attending an appointment or activities, such as no suitable child care, alternative requirements <b>must</b> be set to enable the job seeker to meet their Mutual Obligation Requirements.</p> <p><b>Pregnant Job Seekers</b></p> <p>Generally the Mutual Obligation Requirements for pregnant job seekers will not change during the first trimester of pregnancy. However, the Provider must take into account the job seeker’s personal circumstances when setting their Mutual Obligation Requirements.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker’s Stream and phase when setting a job seeker’s Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker’s Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including appropriate hours of participation in Activities each fortnight during that phase.</p>
<p><b>Approved programs of work for income support payments</b></p>	<p>Under Social Security Law, job seekers participating in an Approved Program of Work are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight. Currently, Approved Programs of Work are:</p> <ul style="list-style-type: none"> <li>• Work for the Dole;</li> <li>• the National Work Experience Programme; and</li> <li>• the Green Army Programme.</li> </ul> <p>Social Security Law precludes job seekers under the age of 18 from participating in an Approved Program of Work for the purposes of meeting their mutual obligation requirements.</p> <p>There is also a requirement that job seekers who are on a reduced rate of payment in any fortnight under the income test, due to their own earnings, or their partner’s earnings, cannot be compelled to undertake Work for the Dole in that fortnight. However, these job seekers can be compelled to undertake another Activity to enable them to meet their Annual Activity Requirement.</p>

Process	Details
	<p><b>Work for the Dole</b></p> <p>In a Job Plan, Providers <b>must not</b> include participation in Work for the Dole (or these other Approved Programs of Work) as a <i>compulsory activity</i> in the following circumstances:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (a reduced rate can result from the job seeker’s own income and/ or their partner’s income);</li> <li>• for Special Benefit—Nominated Visa Holders, if the person or the person’s partner has income;</li> <li>• where the Activity is more than 50 hours per fortnight; or</li> <li>• where the job seeker is aged under 18 years, or 60 years and over.</li> </ul> <p>Work for the Dole may be included as a voluntary Activity in the job seeker’s Job Plan in the above circumstances, except for job seekers aged under 18 years.</p> <p>If the job seeker is receiving anything less than the full rate of income support they may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary Activity in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider can update the job seeker’s Job Plan to include Work for the Dole as a compulsory Activity.</p> <p>Providers can view a job seeker’s previous four fortnights’ income support payment rate on the Department’s IT system Notification screen (that is, whether they received a full rate on a reduced rate due to the income test). This will help providers to determine if a job seeker is in receipt of a part or nil rate of payment and therefore if they should be undertaking Work for the Dole on a compulsory basis.</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to the Department of Human Services or is on a reduced rate of income support for other reasons.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.</p> <p><b>National Work Experience Programme</b></p> <p>In the case of the National Work Experience Programme, placements are on a voluntary short-term basis only, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will receive the Approved Program of Work Supplement.</p> <p><b>Green Army Programme</b></p> <p>If a job seeker is participating in the Green Army Programme, they will generally be suspended from jobactive for the duration of that programme’s participation. Please refer to the <a href="#">Period of Service, Suspensions and Exits Guideline</a>. Where a job seeker is in the Work for the Dole phase when they commence in the Green Army Programme and has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will meet their Annual Activity Requirement.</p>

Process	Details
<p><b>Activities that can fully meet Mutual Obligation Requirements for some job seekers</b></p> <p><b>Clause 93</b></p>	<p>Most job seekers with Mutual Obligation Requirements are required to undertake a range of Activities, such as: attending Appointments; undertaking Job Search; acting on referrals to specific jobs; attending job interviews; and accepting and commencing in any offers of suitable work.</p> <p>Principal Carer Parents, job seekers with a Partial Capacity to Work of 15 to 29 hours per week and job seekers aged 55 years and over are able to fully meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p><b>Principal Carer Parents</b></p> <p>Principal Carer Parents can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study, and in some circumstances Voluntary Work (or a combination of these Activities).</p> <p>When fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and will be Suspended from the Provider’s caseload. This also applies if the Principal Carer Parent is participating in the Green Army Programme for 30 hours per fortnight. For further information on approved study refer to <a href="#">Approved Short Courses</a> section of this Guideline.</p> <p>In limited circumstances Principal Carer Parents are able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work or in combination with other approved activities. The following criteria <b>must</b> be met for Voluntary Work in these circumstances:</p> <ul style="list-style-type: none"> <li>• the Provider determines that the Principal Carer Parent lives in a poor labour market;</li> <li>• there are limited training opportunities locally available (online courses may be considered ‘locally available’ if the Principal Carer Parents has access to a computer); and</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>Principal Carer Parents undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers must not require the Principal Carer Parent to undertake Job Search or undertake other additional requirements.</p> <p>Where a Principal Carer Parent is aged 55 years or over and has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser level of requirement should be applied.</p> <p><b><u>Financial suitable test for Principal Carer Parents</u></b></p> <p>A Principal Carer Parents is not required to accept a job offer or continue in a job which fails to make them financially better off compared to not doing the job. If a Principal Carer Parent is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the Principal Carer Parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="#">Department of Human Services online estimator</a>.</p> <p><b>Mature Age Job Seekers</b></p> <p>Job seekers aged 55 years and over can fully meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake Job Search or undertake other additional requirements and attend Appointments with their Provider.</p> <p>However, they <b>must</b> remain connected with a Provider (although they will be Suspended on a Provider’s caseload). They must attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals and <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have full-time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a</p>

Process	Details
	<p>full-time job or no longer receive income support.</p> <p>The Department of Human Services will make an initial Appointment with the Provider for job seekers aged 55 years and over, even if they are already satisfying their Mutual Obligation Requirements at their first contact with the Department of Human Services. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. Refer to the <a href="#">Job Seeker Compliance Framework Guideline</a> for more information.</p> <p><b>Partial Capacity to Work</b></p> <p>Job seekers who have been assessed as having a Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements in this way, they cannot be required to undertake Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and will be suspended on a Provider's caseload. This also applies if the job seeker is participating in the Green Army Programme for 30 hours per fortnight.</p> <p>Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with the Department of Human Services and do not need to remain connected to a Provider. As such, they will be Suspended from the Provider's caseload.</p> <p><b>Temporary Reduced Work Capacity</b></p> <p>Job seekers who have been assessed as having a Temporary Reduced Work Capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements.</p> <p>Job seekers who have been assessed as having a Temporary Reduced Work Capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the Department of Human Services. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.</p> <p>Refer to <a href="#">Guide to Social Security 3.2.8.10</a> for additional information.</p> <p><b>Ministers of Religion</b></p> <p>Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is fully meeting their requirements through sufficient participation in the activities outlined above, they will be suspended from Employment Services. A job seeker with Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:</p> <ul style="list-style-type: none"> <li>• being contacted by their employment services provider to discuss and agree to voluntarily participate while Suspended;</li> <li>• notifying the Department of Human Services, who will either call their employment services provider or book an Appointment for them; or</li> <li>• directly contacting their employment services provider to request Services.</li> </ul>

Process	Details
	<p>If a Suspended job seeker advises that they are electing to voluntarily participate in employment services, the employment services provider must provide Services to the job seeker.</p> <p>If a job seeker participates voluntarily in Employment Services, Providers <b>must not</b> remove the relevant compulsory Activities that the Department of Human Services has included in the job seeker's Job Plan. Any additional Activities included in the Job Plan <b>must</b> only be added as voluntary Activities.</p> <p><b><u>Role of the Department of Human Services</u></b></p> <p>For these cohorts of job seekers, the Department of Human Services is responsible for determining whether the individual job seeker is actually fully meeting their Mutual Obligation Requirements, as outlined above. Where the Department of Human Services establishes that they are participating sufficiently in the relevant approved Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once the Department of Human Services determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>However, in the case of Principal Carer Parent and job seekers with a Partial Capacity to Work of 15-29 hours per week who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course, the Provider is responsible for approving the short course and updating the Job Plan accordingly. These job seekers will be Suspended from the Provider's Caseload. Refer to the <a href="#">Approved Short Course</a> section of this guideline for additional information.</p>

## Early School Leavers

Process	Details
<p><b>Defining who is an Early School Leaver</b></p>	<p>An Early School Leaver is a person who is in receipt of Youth Allowance (other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of education (Certificate III level or above, under the Australian Qualifications Framework).</p>
<p><b>Suitable activities for an Early School Leaver</b></p> <p><b><u>Guide to Social Security 3.2.9.95</u></b></p> <p><b>Deed Reference:</b> <b>Clause 105</b></p>	<p>Early School Leavers are generally required to participate in:</p> <ul style="list-style-type: none"> <li>• full-time education or training;</li> <li>• a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week); or</li> <li>• other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week);</li> </ul> <p>until they turn 22 years of age or attain Year 12 or an equivalent qualification.</p> <p>Providers <b>must not</b> include Job Search requirements in the Job Plan of Early School Leavers who are in full-time education or training, or undertaking a combination of part-time education or training and part-time work for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week). For a full list of suitable Activities for Early School Leavers please refer to <a href="#">Attachment B</a>.</p> <p>Up to 20 Job Searches <b>must</b> be included in the Job Plan of all other Early School Leavers if they are not participating in 25 hours per week of approved activities.</p> <p>Once an Early School Leaver has completed Year 12 or an equivalent qualification (as verified by the Department of Human Services), or turns 22 years of age, the young person will no longer be an Early School Leaver and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers.</p>

Process	Details
<p><b>Verifying educational qualifications</b></p> <p><b>Deed Reference:</b> <b>Clause 105</b></p>	<p>Only the Department of Human Services can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. For the purposes of verification, the Department of Human Services will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies or an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate III;</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution;</li> <li>○ a Certificate III or IV of General Education for Adults;</li> <li>○ the International Baccalaureate; or</li> <li>○ other higher education pre-entry course.</li> </ul> </li> </ul> <p>Providers <b>must</b> fax the Department of Human Services' Business Hotline on 1300 786 102 to have an Early School Leaver's qualifications verified, using the cover sheet at <a href="#">Attachment D</a> together with:</p> <ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original), or if the original qualification has been lost or destroyed: <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification; or</li> <li>○ a letter from the relevant education institution formally verifying attainment of the qualification; or</li> </ul> </li> <li>• if none of the above can be obtained, a statutory declaration by Early School Leaver detailing the name of the course, date completed, institution and institution contact details.</li> </ul> <p>Providers <b>should not</b> send verification to the Department of Human Services where the education level is below Year 12.</p> <p>The Provider <b>should</b> also update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's newly advised higher level of educational attainment.</p> <p>If the Department of Human Services does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the Early School Leaver to advise them of the reason why the qualification was not verified by the Department of Human Services.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b></p> <p><b>Deed Reference:</b> <b>Clause 113</b></p>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker's Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Early School Leavers who are not meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) <b>should</b> also have up to 20 Job Search contacts each month in their Job Plan.</p> <p>All job seekers cannot be required to undertake more than 20 Job Searches per month.</p> <p>Job seekers with Mutual Obligation Requirements will usually have to look for work or undertake work in order to satisfy their Mutual Obligation Requirements. The minimum number of hours for</p>

Process	Details
	<p>most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight. For job seekers aged 55 years and over, Principal Carer Parents and job seekers with a Partial Capacity to Work, the number of hours is 30 hours per fortnight.</p> <p><b>Setting Job Search requirements in the Job Plan</b></p> <p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring Job Plans and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans should contain JS09; and</li> <li>• for Stream C job seekers, most Job Plans should contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>For further information refer to <a href="#">Guide to Social Security 3.2.9.30</a>.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p> <p><a href="#">Social Security Guide: 3.2.9.30</a></p>	<p><b>For All Job Seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment;</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search;</li> <li>• substantially elevated level of family and caring responsibilities;</li> <li>• accommodation situation, where this is likely to impede Job Search;</li> <li>• education or skill level, where this is likely to substantially limit job opportunities;</li> <li>• current Employment status (Part-Time or casual work);</li> <li>• domestic violence (including family violence) or family relationship breakdown (the Department of Human Services may also grant an Exemption from Mutual Obligation Requirements in these circumstances);</li> <li>• final three months of pregnancy;</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills;</li> <li>• cultural factors;</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.</p> <p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities—in particular study or during the Work for the Dole Phase.</p> <p><b>Pregnant job seekers</b></p> <p>During the three months before a pregnant job seeker's expected due date they will not be required to undertake Job Search. During this time Providers cannot compel these job seekers to accept job offers or referrals to job interviews.</p> <p><b>Language, Literacy and Numeracy courses</b></p> <p>For those job seekers who Providers have identified as needing to improve their Language Literacy and Numeracy skills, Providers may reduce the number of Job Searches during but not remove job searches for the period when the job seeker is actively participating in a Language Literacy and Numeracy course. The job seeker would need to be undertaking the Skills for Education and Employment programme, Adult Migrant English Programme or another accredited Language Literacy and Numeracy course. However, Providers must ensure that the job seeker has some Job</p>

Process	Details
	<p>Search recorded in their Job Plan while participating in these programmes.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed; and</li> <li>• whether the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme.</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved (if the job seeker is undertaking a significant number of hours of paid work per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further); and</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved; and</li> <li>• if undertaking 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.</li> </ul> <p><b>Other circumstances</b></p> <p>Providers <b>must not</b> include Job Search requirements for Early School Leavers undertaking appropriate hours of education or training as part of meeting their Mutual Obligation Requirements, or for Early School Leavers who are also Principal Carer Parents or have a Partial Capacity to Work of 15-29 hours per fortnight and are fully meeting their part-time Mutual Obligation Requirements. However, Early School Leavers with full-time Mutual Obligation Requirements who are not engaged in education or education in combination with paid work for 25 hours a week <b>must</b> have a compulsory requirement to look for up to 20 jobs each month included in their Job Plans.</p> <p>Providers <b>must not</b> include Job Search requirements for job seekers while they are undertaking <b>NEIS Training</b> or the <b>NEIS Programme</b>.</p> <p>Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week who are fully meeting their part-time Mutual Obligation Requirements <b>must not</b> have any Job Search requirements included in their Job Plans.</p> <p>Job seekers <b>aged 55 years and over</b> who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must not</b> have Job Search requirements included in their Job Plans.</p>

Process	Details
<p><b>Defining ‘Suitable work’</b></p> <p><b>Guide to Social Security 3.2.8.60</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. ‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker’s assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work is unsuitable if it:</p> <ul style="list-style-type: none"> <li>• would aggravate a job seeker’s medical illness, disability or injury;</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention;</li> <li>• does not meet the applicable statutory conditions of work;</li> <li>• requires the person to change their place of residence where they are unwilling to move;</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for Principal Carer Parents and those with a Partial Capacity to Work and more than 90 minutes one way for other job seekers); or</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the employer.</li> </ul> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the Principal Carer Parent has access to appropriate care and supervision for their Child/Children during the times when the Principal Carer Parent would be required to work;</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable; and</li> <li>• the Principal Carer Parent will be financially better off as a result of undertaking the work. Refer to the <a href="#">Financial Suitable Test</a> section of this guideline for further information.</li> </ul> <p>Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law 3.2.8.50</a> for further information.</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the Principal Carer Parent to travel to and from work. Suitable care and supervision means:</p> <ul style="list-style-type: none"> <li>• child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>);</li> <li>• any other care or supervision arrangements that the parent deems suitable; or</li> <li>• where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with a Partial Capacity to Work if:</p> <ul style="list-style-type: none"> <li>• it does not provide appropriate support or facilities to take account of the illness, disability or injury; or</li> <li>• the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker’s normal means of transport.</li> </ul>

## Annual Activity Requirement

Process	Details
<p><b>Defining Annual Activity Requirement</b></p>	<p>The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.</p> <p>All job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>All Stream A job seekers, as well as Stronger Participation Incentives (SPI) Participants in Stream A or Stream B, currently enter the Work for the Dole Phase after six months in their first year of service and every subsequent year that they remain unemployed (from 1 October 2016, all job seekers who have not already commenced in the Work for the Dole Phase for the first time, will start in that Phase after 12 months).</p> <p>All other job seekers enter the Work for the Dole Phase after 12 months of service and every subsequent year that they remain unemployed.</p> <p>After consultation with the job seeker, Providers <b>must</b> determine the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law. The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>Early School Leavers with full-time Mutual Obligation Requirements typically need to undertake 25 hours a week of approved Activities, so the concept of an Annual Activity Requirement is not applicable as they are participating in this level of Activities all the time.</p> <p>Job seekers with no Annual Activity Requirement include:</p> <ul style="list-style-type: none"> <li>• job seekers aged 60 years and over;</li> <li>• job seekers who are fully meeting their part-time Mutual Obligation Requirements, please refer to the <a href="#">Activities that can fully meet Mutual Obligation Requirements for some job seekers</a> section of this Guideline;</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work;</li> <li>• job seekers with a Partial Capacity to Work or Temporary Reduced Work Capacity of 0 to 14 hours per week; and</li> <li>• job seekers with Community Service Orders of 20 or more hours per week.</li> </ul>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 107</b></p> <p><b>Clause 108</b></p>	<p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment;</li> <li>• National Work Experience Programme Placements;</li> <li>• Voluntary Work;</li> <li>• Part-time study/training, which must be in: <ul style="list-style-type: none"> <li>○ a Certificate III course or higher (but not a Masters or Doctorate course); or</li> <li>○ an accredited course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement);</li> </ul> </li> </ul>

Process	Details
<p><b>Clause 109</b></p>	<ul style="list-style-type: none"> <li>• accredited language, literacy and numeracy courses, which can include: <ul style="list-style-type: none"> <li>○ the Skills for Education and Employment programme; or</li> <li>○ Adult Migrant English Programme;</li> </ul> </li> <li>• Defence Reserves;</li> <li>• other government programmes, including state government programmes and the Green Army Programme; or</li> <li>• non-government programmes approved for Annual Activity Requirement purposes (refer to the Activity Management Guideline for more information).</li> </ul> <p><b>Job Seekers aged under 18</b> Job seekers aged under 18 with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme; however, may undertake any other Activity to meet their Annual Activity Requirement subject to the eligibility criteria of that Activity.</p> <p><b>Job Seekers aged 18-49 years</b> For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement; or</li> <li>• are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p><b>Job Seekers aged 50-59 years</b> Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p><b>Principal Carer Parents and job seekers with a Partial Capacity to Work</b> Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity as soon as possible after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the <a href="#">Activity Management Guideline</a>.</p> <p>Full-time study/training can also be undertaken where it meets the conditions for part-time study/training as above as well as the Short Course approval conditions, see the <a href="#">Approved Short Courses</a> section below.</p> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.</p>

Process	Details
	<p><b>Activities that do not count towards the Annual Activity Requirement</b></p> <p>There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)</li> <li>• full-time study outside of the Approved Short Course conditions (including Masters and Doctorate courses)</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul> <p><b>Community Service Orders</b></p> <p>Job seekers with Community Service Orders of 20 hours or more are exempt from having Mutual Obligation Requirements. If a job seeker has a Community Service Order of under 20 hours a week (i.e. part time) they still have Mutual Obligation Requirements; however, the Community Service Orders should take precedence. If these job seeker is in the Work for the Dole phase they will still need to meet their Annual Activity Requirement in addition to their Community Service Order.</p> <p>Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the <a href="#">Activity Management Guideline</a>.</p>
<p><b>Hours of participation to meet the Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.</p> <p>Providers <b>must</b> ensure job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Participation is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>Job seekers with part-time Mutual Obligation Requirements: Principal Carer Parent and Partial Capacity to Work (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight).</li> <li>• Aged 30 to 59: in most circumstances <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight)</li> </ul> <p><b>Defence Reserves</b></p> <p>For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p> <p><b>Annual Activity Requirement Calculator</b></p> <p>The Annual Activity Requirement Calculator can be found on the Department's IT System and provides information on how many hours of participation job seekers will need to complete to</p>

Process	Details
	<p>meet their Annual Activity Requirement. See the <a href="#">Department's IT Systems Online</a> Help for more information on how to access the Annual Activity Requirement Calculator.</p> <p><b>Study/training hours</b></p> <p><b>Full-time load</b></p> <p>Where a job seeker is undertaking a full-time study load as indicated by the training provider, then the study can meet their fortnightly hours requirement for the fortnights in which they are doing full-time study. This is regardless of the actual contact hours undertaken. For example, a job seeker who has an Annual Activity Requirement of 50 hours requirement and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load. This includes full-time participation in the Skills for Education and Employment Programme or Adult Migrant English Programme.</p> <p><b>Non-contact hours</b></p> <p>Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.</p> <p>For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. However, where the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will need to be undertaken to meet the Annual Activity Requirement.</p>
<p><b>Setting required hours in the Activity Diary</b></p> <p><b>Deed Reference:</b> <b>Clause 107</b></p>	<p><b>Work for the Dole</b></p> <p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the Activity Diary user Guide on the <a href="#">Learning Centre Website</a>.</p>
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b></p> <p><b>Deed Reference:</b> <b>Clause 107</b></p>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's <a href="#">Activity Diary User Guide</a> and the <a href="#">IT Systems Online Help</a>.</p>

Process	Details
	<p><b>Mobile Supervisor Apps</b> Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the <a href="#">Work for the Dole IT Supporting Document</a>.</p> <p><b>Work for the Dole</b> For Work for the Dole Activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's scheduled participation (this cannot be done as a monthly bulk entry). If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b> For all other approved activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities; or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>For job seekers not doing Work for the Dole, Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met for that period.</p>
<p><b>Recording completion of the Annual Activity Requirement in the Activity Diary</b></p> <p><b>Deed Reference: Clause 107</b></p>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary Job Seeker Summary screen correctly displays whether the job seeker has met their Annual Activity Requirement.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary Job Seeker Summary screen will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement; and</li> <li>• record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's <a href="#">IT Systems Online Help</a>.</p>
<p><b>Meeting the Annual Activity Requirement</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity</p>

Process	Details
early	<p>Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:</p> <ul style="list-style-type: none"> <li>• any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan; and</li> <li>• job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any appropriate activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.</p> <p><b>Stream A job seekers</b></p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers must:</p> <ul style="list-style-type: none"> <li>• participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12 month period); and</li> <li>• during this continuous participation, complete the relevant number of fortnightly hours required to meet their Annual Activity Requirement.</li> </ul> <p>The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) in the Case Management Phase if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p> <p><b>Change of circumstances during the Work for the Dole Phase</b></p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation <b>must</b> match their new requirement.</p> <p>For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p>

Process	Details
<b>Undertaking a Compliance Activity during the Work for the Dole Phase</b>	If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the following Case Management Period.
<b>Participation in the Green Army Programme</b>	<p>If a job seeker is participating in the Green Army Programme, they will generally be suspended from jobactive for the duration of their Green Army programme's participation. Please refer to the <a href="#">Period of Service, Suspensions and Exits Guideline</a>. Where a job seeker is in the Work for the Dole phase when they commence in the Green Army Programme and has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will meet their Annual Activity Requirement.</p> <p>Note: If a job seeker is in the Work for the Dole phase and commences in the Green Army programme, but they do not complete the programme, the number of hours they completed in the programme can also count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Programmes' in the Monthly Hours Summary.</p>

### Additional information

Process	Details
<b>Breaks in Activities</b>	<p>There will be times when a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other Activities that the job seeker must undertake to meet their Mutual Obligation Requirements.</p> <p>There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker is required to undertake other approved Activities, such as Job Search, for the period of the break. The Job Plan should be revised to include the adjusted requirements.</p> <p>Separate rules apply to Principal Carer Parents and job seekers with a Partial Capacity to Work when they are undertaking casual part-time paid employment to fully meet their part-time Mutual Obligation Requirements.</p> <p>For further information these rules refer to <a href="#">Guide to Social Security 3.5.1.70</a>.</p>
<b>Sufficient Work Test</b>  <a href="#">Guide to Social Security 3.2.2.10</a>	<p>The decision that a person is doing sufficient work would generally be restricted to cases where a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). Where there is significant variation in hours worked and earnings from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements <b>must</b> be determined on a fortnightly basis.</p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.</p> <p>Providers are required to document a job seeker's satisfactory participation in self-employment as per the <a href="#">Documentary Evidence Guidelines</a>. If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>

Process	Details
<p><b>When can study be approved as an activity</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to first test their eligibility for a student payment with the Department of Human Services.</p> <p>Recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve participation in a short course of education or training if they determine that participation is necessary and the course is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated;</li> <li>• less than 12 months (two semesters) in duration; and</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of 12 months (two semesters) or longer in duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can only be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects;</li> <li>• the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement for the academic course (or a longer course—that is, 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course;</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by the Department of Human Services); or</li> <li>• the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) (and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by the Department of Human Services).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker’s Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>A Principal Carer Parent or those with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements and will be suspended from their Provider’s caseload. Refer <a href="#">Activities to Meet Mutual Obligation Requirements</a> for some job seekers section of this guideline.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>

Process	Details
<b>Exemptions</b>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. Under Social Security law, the Department of Human Services may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in job search, paid work, Work for the Dole, vocational training or other Activities. In the first instance, the Department of Human Services will usually look to reduce a job seeker's Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker does not have capacity to undertake any job search or other approved Activity and should be considered for an Exemption from their Mutual Obligation Requirements, the job seeker should be advised to contact the Department of Human Services to test their eligibility for an Exemption. Job seekers need to provide any evidence supporting their claim to the Department of Human Services. For example, an appropriate medical certificate from their doctor, if they are applying for a medical Exemption.</p> <p>If a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p>For further information on these and other Exemptions can be at <a href="#">Guide to Social Security 3.2.11</a>.</p> <p>Some of the specific Exemptions that providers <b>should</b> be aware of are:</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a Principal Carer Parent and subject to domestic violence, an Exemption must be granted by the Department of Human Services.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a Department of Human Services social worker. Providers should also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant Job Seekers</b></p> <p>Once a pregnant job seeker is six weeks from their expected due date, the Department of Human Services will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p>

## Job Plan

Process	Details
<p><b>What is a Job Plan?</b></p> <p><b>Deed Reference:</b> <b>Annexure A1</b></p>	<p>The Job Plan is the key document which outlines all the agreed Activities that the job seeker is required to undertake to satisfy their Mutual Obligation Requirements under Social Security Law and help get them into paid work.</p> <p>The Job Plan <b>must</b> be recorded in the Department's IT System.</p> <p>Note: For the purposes of Social Security Law, a Job Plan is an 'employment pathway plan'; and a 'participation plan' for Disability Support Pension recipients with compulsory requirements.</p> <p>For further information on Job Plans for Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>
<p><b>Who must have a Job Plan?</b></p>	<p>Providers <b>must</b> ensure that all job seekers have a current Job Plan in place at all times.</p>

Process	Details
<p><b>Deed Reference:</b></p> <p><b>Annexure A1 Clause 87</b></p>	<p><b>Job Plans (compulsory)</b></p> <p>Under Social Security Law, job seekers receiving the following income support payments with Mutual Obligation Requirements <b>must</b> enter into a Job Plan to remain qualified to receive payment:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when the youngest child turns six )</li> <li>• Special Benefit (Nominated Visa Holders)</li> <li>• Disability Support Pension (Participants under the age of 35 with compulsory participation requirements).</li> </ul> <p><b>Job Plans (voluntary)</b></p> <p>Job seekers without Mutual Obligation Requirements, such as those volunteering to participate in employment services programmes and other Fully Eligible Participants, including Vulnerable Youth and Special Benefit recipients who are not Nominated Visa Holders, must also enter into a Job Plan (voluntary).</p> <p>ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext Provider. As such, jobactive Providers <b>must not</b> create or edit a Job Plan for ParentsNext Volunteers.</p>
<p><b>Who can consult on and approve and vary a Job Plan?</b></p>	<p>Providers are Delegates of the Secretary of the Department of Employment and have the power to:</p> <ul style="list-style-type: none"> <li>• require a job seeker with Mutual Obligation Requirements to enter into a Job Plan;</li> <li>• approve a Job Plan; and</li> <li>• vary the terms of a Job Plan.</li> </ul> <p>The Department of Human Services may also update a Job Plan when required. If the job seeker is managed by a Provider, the Department of Human Services will consult with the relevant Provider prior to updating the Job Plan or may request the Provider to update the Job Plan at the job seeker's next Appointment. A provider <b>should not</b> remove any updates made to a Job Plan by the Department of Human Services without consultation.</p>
<p><b>When must a Job Plan be created, reviewed and updated?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1 Clause 87</b></p>	<p>An initial Job Plan <b>must</b> be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.</p> <p>Providers <b>must</b> regularly review, and update, as required, the Job Plan to ensure all requirements are up to date and remain relevant, including:</p> <ul style="list-style-type: none"> <li>• when the job seeker's circumstances change;</li> <li>• when the job seeker enters into a new phase of their Stream;</li> <li>• when the job seeker enters in to a new Stream;</li> <li>• when a job seeker commences a new Activity</li> <li>• when the job seeker completes an Activity that was in their Job Plan; and</li> <li>• if the job seeker decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the job seeker compliance framework.</li> </ul> <p>If a Participation Plan for ParentsNext Volunteers requires review or update, Providers must contact the participant's ParentsNext Provider.</p>
<p><b>What are suitable approved Activities for inclusion in a Job</b></p>	<p>Refer to the <a href="#">Guide to Social Security 3.2.8.50</a> or the <a href="#">Mutual Obligation Requirements</a> section of this guideline for a list of the types of Activities that can be included in a Job Plan.</p> <p>Job seekers with Mutual Obligation Requirements may have compulsory and voluntary Activities in their Job Plan. There <b>must</b> be at least one compulsory Activity as voluntary Activities are not subject to the job seeker compliance framework and job seekers will not be at risk of incurring a penalty if they do not participate in such Activities.</p>

Process	Details
<p><b>Plan?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87</b></p>	<p>Providers <b>must</b> identify a job seeker's strengths and any issues they have relating to finding employment. They <b>must</b> ensure that the details of any vocational and non-vocational Activities are specified tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help them overcome any vocational barriers and non-vocational barriers.</p> <p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p> <p>Any Fully Eligible Participant (Voluntary) who is fully meeting their requirements and has chosen to access Services on a voluntary basis must have a compulsory (rather than voluntary) Job Plan. Any additional Activities they agree to be included in their Job Plan while voluntarily accessing Services must be included in their Job Plan as a voluntary Activity only.</p>
<p><b>Who can have a voluntary Job Plan and what should be included in a voluntary Job Plan?</b></p>	<p>Volunteers and job seekers exempt from their Mutual Obligation Requirements will have a voluntary Job Plan.</p> <p>Fully Eligible Participants without Mutual Obligation Requirements can undertake the same Activities as other job seekers; however, these Activities <b>must</b> be included as voluntary Activities in the Volunteer's Job Plan.</p> <p>The voluntary Job Plan will include voluntary Activities discussed and agreed to based on the individual's circumstances and reason for registering for employment services. In most cases, this will include Appointments with the Provider and other voluntary Activities, such as Job Search, education or other skills development, or other Activities to improve their employability.</p> <p>All Activities <b>must</b> be included as voluntary Activities in the Job Plan, and will not be subject to the job seeker compliance framework if they do not participate in these Activities.</p>
<p><b>What must be explained to the job seeker?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 97.2</b></p>	<p>Providers <b>must</b> explain the Job Plan to each job seeker including:</p> <ul style="list-style-type: none"> <li>• the purpose of the Job Plan;</li> <li>• the job seeker's rights and responsibilities under the Job Plan (including that they have two Business Days 'think time' to consider the requirements outlined in their Job Plan before accepting it);</li> <li>• what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan;</li> <li>• the consequences of failing to meet those requirements, and any impact on the job seeker's income support payment;</li> <li>• the consequences of the job seeker failing to give prior Notice (with a Valid Reason) when they cannot attend compulsory Appointments or participate in compulsory Activities;</li> <li>• their right to appeal decisions and where they can find assistance;</li> <li>• how the Provider intends to support the job seeker;</li> <li>• the Service Guarantee and Service Delivery Plan;</li> <li>• the section entitled 'Information You Need to Know' in the Job Plan; and</li> <li>• how their information is protected under privacy legislation and under Social Security Law.</li> </ul> <p>When a job seeker requests or where the Provider considers it appropriate, Providers <b>must</b> use an Interpreter to ensure that the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.</p> <p>Job seekers may also bring a third party to the appointment to discuss the terms of the Job Plan if they wish.</p> <p>Under Social Security Law, job seekers <b>must</b> be formally notified of the date, time, location and other additional requirements for attending Appointments and participating in Activities, such as requiring work boots. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p>

Process	Details
<p><b>How is a Job Plan created and updated?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87.2</b></p>	<p><b>Using the Department’s IT Systems</b></p> <p>The Job Plan <b>must</b> be created and recorded using the Department’s IT Systems unless the Department’s IT Systems are temporarily unavailable or there is no computer access. In this case, Providers must use the compulsory/voluntary Job Plan template (whichever is applicable) available on the Provider Portal.</p> <p>Details of the Activities included <b>must</b> be entered into the Department’s IT Systems as soon as possible after the Job Plan is created.</p> <p>The contents of the Job Plan recorded in the Department’s IT Systems must be exactly the same as the hardcopy Job Plan.</p> <p><b>Using Job Plan codes</b></p> <p>Providers <b>must</b> use the comprehensive list of available codes at <a href="#">Attachment C</a>, as they have been developed to be consistent with legislative requirements. This will enable pre-population and linkages through the Department’s IT Systems, the Job Seeker’s Dashboard on the jobactive powered by JobSearch website (the jobactive website) and also the Department of Human Services’s IT system.</p> <p>When setting compulsory Job Search Requirements, Providers <b>must</b> use the Job Search Requirements (JS09) code. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. This will enable Providers to monitor the setting of Job Search Requirements across their caseload. The Department will also actively monitor the setting of Job Search Requirements.</p> <p>Where applicable, Providers <b>must</b> also use the JS05 or JS06 (Job Search with Disability) codes, as these trigger the higher rate of Mobility Allowance. The Free text code can only be used where no available code covers an Activity that the Provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and as such is viewable to Providers and the Department of Human Services.</p> <p><b>Linking Job Plan Codes to Activity Placements</b></p> <p>Activity placements can be linked to Job Plan codes in Activity Diary in the Department’s IT System. It is best practice that Providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from Activity Diary. Providers will also be able to record attendance results in the Activity Diary.</p>
<p><b>How is a Job Plan approved?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87.2</b></p>	<p>Once the terms of the Job Plan have been determined and the Job Plan created in the Department’s IT Systems, the Job Plan <b>must</b> be provided to the job seeker for their agreement.</p> <p>Job Plans can be agreed to online or by signing a hard copy.</p> <p><b>Job seeker agreement—online</b></p> <p>Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree online. If the Provider decides to use this option they <b>must</b> ensure that the job seeker has access to and is aware of how to agree to the terms of the Job Plan on their Dashboard.</p> <p>For all job seekers (including those with voluntary Mutual Obligation Requirements) Providers <b>must</b> formally notify the job seeker (either face to face or over the phone) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement within two Business Days of sending the Job Plan. The verbal formal notification script will display in the Department’s IT Systems for their Provider to read to the job seeker. This includes a compliance warning that <b>must</b> be given to job seekers (with Mutual Obligation Requirements) if they do not agree to the Job Plan within two Business Days.</p> <p>If the job seeker has not agreed to the Job Plan online within the two Business Day the provider</p>

Process	Details
	<p>should consider whether submitting a Participation Report is appropriate. For further information refer to the <a href="#">Job seeker Compliance Framework Guideline</a>.</p> <p>When the job seeker agrees to the Job Plan, this will automatically result in the Job Plan's status being set to 'approved' in the Department's IT Systems.</p> <p><b>Job seeker agreement—hard copy</b></p> <p>Providers <b>must</b> approve the Job Plan in the Department's IT Systems as soon as the job seeker and the Provider have signed the Job Plan.</p> <p>Providers must provide a copy of the signed Job Plan to the job seeker.</p> <p>Note: once the Job Plan has been approved, the job seeker can access it on their Job Seeker Dashboard.</p>
<p><b>What happens if the job seeker refuses/fails to agree to a Job Plan?</b></p>	<p>If the Job Plan is not approved, no action is possible under the compliance framework for failure to meet compulsory Activities recorded in the Job Plan.</p> <p>Therefore, if the job seeker refuses to sign a Job Plan (and does not wish to use 'think time', see below), the Provider should discuss with the job seeker their obligation, the consequences of not agreeing to a Job Plan, and record in the Department's IT Systems the discussion with the job seeker. If the job seeker has Mutual Obligation Requirements and still refuses to sign a Job Plan the Provider <b>should</b> submit a Participation Report.</p> <p><b>Think time</b></p> <p>Prior to signing or accepting a Job Plan, job seekers with or without Mutual Obligation Requirements must be given two Business Days 'think time' to consider the proposed requirements of the Job Plan or to discuss them with a third party if they wish to do so.</p> <p>Where the job seeker decides to take up the two Business Days 'think time', the provider <b>should</b> book another Appointment with the job seeker after two Business Days.</p> <p>If the job seeker does not attend the appointment or refuses to accept the Job Plan online, or sign a hard copy of the Job Plan, after two Business Days 'think Time' the provider <b>should</b> consider whether submitting a Participation Report is appropriate.</p> <p>If the job seeker attends the Appointment but fails to agree to the Job Plan without a good reason their payment may be cancelled by the Department of Human Services until they do agree to a Job Plan.</p> <p>A job seeker can only utilise 'think time' once each time a Job Plan is created or updated.</p> <p>See the <a href="#">Job Seeker Compliance Framework Guideline</a> for more information on submitting Participation Reports.</p>

### Additional information

Process	Details
<p><b>Intervention Management Tool</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 38</b></p>	<p>The Intervention Management Tool in the Job Plan section of the Department's IT System is an optional tool for Providers. It can be used to review and manage a job seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including any identified by the job seeker.</p> <p>The Intervention Management Tool can help Providers to:</p> <ul style="list-style-type: none"> <li>• ensure that the job seeker has Activities in the Job Plan appropriate to their circumstances;</li> <li>• include Employment Services Assessment recommended Interventions in the Job Plan; and</li> <li>• record additional vocational or non-vocational issues.</li> </ul>

Process	Details
	Note: In case job seekers request access to their Records contained in the Intervention Management Tool, Providers <b>should</b> familiarise themselves with relevant Deed provisions.
<b>Non-government programmes approved for Annual Activity Requirement purposes</b>	Providers <b>must</b> use the Free Text code and the following statement when entering details of a non-government programme approved for Annual Activity Requirement purposes into a job seeker's Job Plan – see sample text below.  FTXT— I agree to undertake XXX (name of programme) for [X] hours per fortnight with [Organisation] from [Start Date] to [End Date].
<b>Contact and Non-contact study hours for Annual Activity Requirement purposes</b>	Providers <b>must</b> use the Free Text field under the Study - Part-Time or Full-Time (ET59) code when entering details of contact and non-contact study hours into a job seeker's Job Plan where this study is being used to meet or contribute towards meeting the Annual Activity Requirement— see sample text below.  The hours of study will include [X] contact hours and [X] non-contact hours per fortnight.
<b>Privacy and information sharing</b>  <b>Deed Reference: Clause 35</b>	The Deed requires Providers to comply with Australian privacy legislation. A job seeker's Personal Information <b>must</b> only be used or disclosed for the purpose for which it was collected, except in limited circumstances such as where: the job seeker gives permission, where Commonwealth laws allow it, or in other special circumstances.  Providers <b>must</b> also ensure that they comply with Social Security Law.  Providers <b>should</b> seek independent legal advice if they have any concerns regarding their obligations under any relevant privacy, or any other relevant, legislation.

### Notes:

- Principal Carer Parents with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A Principal Carer Parent can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a Principal Carer Parent is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight— refer to the [activities that can meet part-time Mutual Obligation Requirements](#) section of this Guideline.
- Job seekers with a Partial Capacity to Work can fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of study and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).
- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement. Different rules apply to Principal Carer Parents and those with a Partial Capacity to Work.
- Principal Carer Parents on Parenting Payment Single on the Age Pension do not have Mutual Obligation Requirements

## • ATTACHMENT B

### MUTUAL OBLIGATION REQUIREMENTS FOR EARLY SCHOOL LEAVERS

Activities to Meet Early School Leaver Requirements	Suitable Job Search
Full time education or training	No job search
Combination of part-time education/training and part-time paid work for required number (i.e. 25 or 15) hours per week.	No job search
Other approved Activities for required number (i.e. 25 or 15) hours per week.	Up to 20 job searches

- Where an Early School Leaver is not participating in a full-time education or training course (or not fully meeting their part-time Mutual Obligation Requirements), they are required to undertake 25 hours a week (15 hours per week for Early School Leavers who are also Principal Carer Parents or job seekers with a Partial Capacity to Work of 15 to 29 hours per week) of either:
  - part-time education and part-time work; or
  - other suitable Activities, in addition to compulsory job search requirements of up to 20 per month.
- If a Certificate III course is not considered to be appropriate for the Early School Leaver based on their circumstances, an Early School Leaver may undertake a Certificate I or II course if participation in this lower level course will help them to go on to complete their Year 12 or a Certificate III or above qualification. The job seeker will continue to be considered an Early School Leaver until a Year 12 or equivalent Certificate III level of education is attained or they turn 22 years of age.
- Early School Leavers who are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer Early School Leavers to an employment opportunity when the position does not conflict with the Early School Leaver's education or training Activities (if any). Similarly, Early School Leavers can be required to accept a job if it does not interfere with their current or future education or training Activities.

#### **Job Search**

- Jobactive providers **must** include job search requirements in the Job Plan of an Early School Leaver if they are not in full-time education, or a combination of part-time education and part-time work, for the required number of hours per week.
- However, if the Early School Leaver is meeting their requirements through full-time education and training or a combination of part-time education and training and part-time work for the required number of hours per week (25 hours for those with full-time requirements/15 hours for those with part-time requirements) they **should not** have job search requirements in their Job Plan.

#### **Skills for Education and Employment, Adult Migrant English Programme or other accredited Language, Literacy and Numeracy training**

- Early School Leavers can also participate in programmes such as the Skills for Education and Employment programme and other programmes that help build foundation skills.
- Full-time participation in the Skills for Education and Employment or the Adult Migrant English Programme will satisfy an Early School Leaver's requirements.
- Part-time study will count towards an Early School Leaver's requirements if undertaken with part-time work totalling 25 hours per week (15 hours per week for Early School Leavers who are also Principal Carer Parents or job seekers with a Partial Capacity to Work of 15 to 29 hours per week).

#### **Paid work**

- Paid work can include self-employment and may count towards meeting an Early School Leaver's mutual obligation requirements, where undertaken in combination with part-time education or training.
- Early School Leavers who are undertaking an approved education or training course cannot be compelled to accept work if it would interfere with their study.

# Mutual Obligation Requirements and Job Plan Guideline

**Note: This guideline replaces the former Mutual Obligation Requirements (including Annual Activity Requirements) Guideline and the Job Plan Guideline.**

## Document change history

Version	Start Date	Effective date	End date	Change and location
1.1	01 10 16	14 10 16		Changes to reflect that, from 1 October 2016, job seekers in Stream A and Stronger Participation Incentive job seekers in Stream A and Stream B who have not already entered the Work for the Dole Phase will enter that Phase after 12 months in jobactive rather than 6 months. (pg 15 and Attachment A).
1.0 Mutual Obligation Requirements and Job Plan Guideline	10 08 16	12 09 16	30 09 16	Replaces former Mutual Obligation Requirements (including Annual Activity Requirement) Guideline and Job Plans Guideline. Clarification on previously raised issues.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, **‘must’** means that compliance is mandatory and **‘should’** means that compliance represents best practice and is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers’ obligations. It **must be** read in conjunction with the Deed and any relevant Guidelines or reference Material issued by Department of Employment under, or in connection with, the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for Activity-tested job seekers. It includes Providers’ responsibilities and required actions to enable job seekers with Mutual Obligation Requirements to meet those requirements.

It also includes the Providers’ responsibilities and required actions when creating, reviewing and updating a job seeker’s Job Plan. Providers **must** consult with the job seeker when determining the activities to be included in the Job Plan.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the jobactive Deed 2015–2020 (the Deed) include:

### Mutual Obligation Requirements

- Clause 93 – Suspensions
- Clause 95 – Exits
- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements

### Job Plan

- Annexure A1—Definitions
- Clause 35—Personal and Protected Information
- Clause 87—General requirements for a Job Plan
- Clause 119—Delegate obligations

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements must show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for Activity-tested income support. These include: attending Provider Appointments; undertaking Job Search and acting on referrals to specific jobs; participating in approved Activities to meet the Annual Activity Requirement; and participating in any other Activity at any time that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects. For a full list of Activities, refer to <a href="#">Guide to Social Security 3.2.9.10 Suitable Activities</a>.</p> <p>Job seekers on the following income support payments <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six)</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under Social Security Law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to an Employment Services Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements refer to the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p> <p>Job seekers who have reached Age Pension age and who are receiving Parenting Payment Single do not have Mutual Obligation Requirements.</p>
<p><b>Role of Providers</b></p> <p><b>Deed Reference:</b></p> <p>Clause 87</p> <p>Clause 106</p>	<p>The Provider <b>must</b> consult with the job seeker and then <b>must</b> set suitable activities for the job seeker to meet their fortnightly Mutual Obligation Requirements within the job seeker's Job Plan. This includes activities to meet the Annual Activity Requirement where relevant.</p> <p>The Provider <b>must</b> set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, Guideline and Social Security Law.</p>
<p><b>Mutual Obligation Requirements—general expectations</b></p> <p><a href="#">Guide to Social Security 3.2.8.10</a></p>	<p>The level of a job seeker's Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age;</li> <li>• their assessed work capacity; and</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Providers can find information on a job seeker's individual circumstances in the Participation Profile screen of the Department's IT system.</p> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a full-time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents once the youngest child in their care turns six years of age; and</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>• job seekers with a Partial Capacity to Work of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, Providers <b>must</b> ensure that all job seekers have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments;</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers;</li> <li>• undertake Job Search (job seekers are generally required to undertake 20 Job Searches per month during the Case Management, Work for the Dole and Self Service Phase);</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity (that is, the default Activity where another Activity is not undertaken for the 18-49 year old cohort). For further information on suitable Activities to meet a job seeker's Annual Activity Requirement please refer to the Activities to meet <a href="#">Annual Activity Requirements</a> section of this guideline; and</li> <li>• undertake suitable Activities at any time. These Activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase the job seeker's immediate employability.</li> </ul> <p><a href="#">Attachment A</a> provides a table outlining Mutual Obligation Requirements for different cohorts of job seekers.</p>
<p><b>Considering a job seeker's circumstances</b></p> <p><a href="#">Guide to Social Security 3.2.8.50</a></p>	<p>When determining a job seeker's Mutual Obligation Requirements, and when setting the terms of a Job Plan, the Provider <b>must</b> consult with the job seeker and <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker's individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs;</li> <li>• the person's education, experience, skills and age;</li> <li>• the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person's ability to work, look for work or participate in Activities;</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market;</li> <li>• the participation opportunities and activities available to the person;</li> <li>• the family and caring responsibilities of the person (including availability of child care);</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work);</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information;</li> <li>• whether the job seeker has any vulnerability indicators (as identified by the Department of Human Services) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown;</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements, to help ensure they do so in the future;</li> <li>• cultural factors;</li> <li>• if they are an Early School Leaver;</li> <li>• the number of hours a fortnight the job seeker is required to undertake in the Work for the Dole Phase; and</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>After consultation with the job seeker, Providers <b>must</b> determine the Activities that the job seeker must undertake to meet their Mutual Obligation Requirements in accordance with the</p>

Process	Details
	<p>Deed, this Guideline and Social Security Law. The Provider must record these in the job seeker's Job Plan, including any relevant hours of participation the job seeker needs to undertake each fortnight. While the Provider should take into account the job seeker's preferences wherever possible, as the Delegate of the Secretary of the Department of Employment, employment services staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake Activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed Partial Capacity to Work or a Temporary Reduced Work Capacity. These will generally be identified by an Employment Services Assessment or Job Capacity Assessment. Where there is no Employment Services Assessment or Job Capacity Assessment, the Job Seeker Classification Instrument may also help identify personal issues that may affect a job seeker's employability.</p> <p>When setting the job seeker's Mutual Obligation Requirements, the Provider <b>must</b> review any barriers identified through an Employment Services Assessment or Job Capacity Assessment, or other issues disclosed to the Provider. This will inform the Activities job seeker will undertake to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement.</p> <p>Providers <b>must</b> consider the job seeker's assessed work capacity when setting requirements. The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker <b>must</b> be capable of undertaking any Activity or requirements included in a Job Plan. If a job seeker cannot reasonably undertake an Activity (or a combination of Activities), then that Activity (or combination of Activities) must not be included in their Job Plan.</p> <p><b>Partial Capacity to Work</b></p> <p>Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per fortnight.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity</b></p> <p>A job seeker may have a temporary medical condition and have a Temporary Reduced Work Capacity which is identified through an Employment Services Assessment. Job seekers will have reduced requirements for the period of their Temporary Reduced Work Capacity.</p> <p>Providers <b>must</b> take into account a job seeker's Temporary Reduced Work Capacity when setting suitable approved Activities and the level of participation.</p> <p>There may also be circumstances where it is clear to the Provider that a medical condition will temporarily impact upon a job seeker, but the job seeker does not have a Temporary Reduced Work Capacity in the Department's IT system. Provider's should use judgement and also ensure that these personal circumstances are appropriately taken into account when setting Mutual Obligation Requirements.</p> <p><b>Principal Carer Parents</b></p> <p>Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements.</p> <p>During school terms, face-to-face provider Appointments and participation in Activities should</p>

Process	Details
	<p>typically be scheduled during school hours (that is, generally between 9am and 3pm) unless it is otherwise agreed by the Principal Carer Parent.</p> <p>Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during school holidays. However, Providers <b>must</b> consider whether the Principal Carer Parent can access suitable care and supervision for their children during this time when setting requirements.</p> <p>During the fortnight in which the Christmas public holiday falls, Principal Carer Parents do not have Mutual Obligation Requirements. Refer to the <a href="#">Guide to Social Security 3.2.9.10</a> for additional information.</p> <p>If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the Principal Carer Parent has a Valid Reason or Reasonable Excuse for not attending an appointment or activities, such as no suitable child care, alternative requirements <b>must</b> be set to enable the job seeker to meet their Mutual Obligation Requirements.</p> <p><b>Pregnant Job Seekers</b></p> <p>Generally the Mutual Obligation Requirements for pregnant job seekers will not change during the first trimester of pregnancy. However, the Provider must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including appropriate hours of participation in Activities each fortnight during that phase.</p>
<p><b>Approved programs of work for income support payments</b></p>	<p>Under Social Security Law, job seekers participating in an Approved Program of Work are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight. Currently, Approved Programs of Work are:</p> <ul style="list-style-type: none"> <li>• Work for the Dole;</li> <li>• the National Work Experience Programme; and</li> <li>• the Green Army Programme.</li> </ul> <p>Social Security Law precludes job seekers under the age of 18 from participating in an Approved Program of Work for the purposes of meeting their mutual obligation requirements.</p> <p>There is also a requirement that job seekers who are on a reduced rate of payment in any fortnight under the income test, due to their own earnings, or their partner's earnings, cannot be compelled to undertake Work for the Dole in that fortnight. However, these job seekers can be compelled to undertake another Activity to enable them to meet their Annual Activity Requirement.</p> <p><b>Work for the Dole</b></p> <p>In a Job Plan, Providers <b>must not</b> include participation in Work for the Dole (or these other Approved Programs of Work) as a <i>compulsory activity</i> in the following circumstances:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (a reduced rate can result from the job seeker's own income and/ or their partner's income);</li> <li>• for Special Benefit—Nominated Visa Holders, if the person or the person's partner has</li> </ul>

Process	Details
	<p>income;</p> <ul style="list-style-type: none"> <li>• where the Activity is more than 50 hours per fortnight; or</li> <li>• where the job seeker is aged under 18 years, or 60 years and over.</li> </ul> <p>Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances, except for job seekers aged under 18 years.</p> <p>If the job seeker is receiving anything less than the full rate of income support they may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary Activity in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.</p> <p>Providers can view a job seeker's previous four fortnights' income support payment rate on the Department's IT system Notification screen (that is, whether they received a full rate on a reduced rate due to the income test). This will help providers to determine if a job seeker is in receipt of a part or nil rate of payment and therefore if they should be undertaking Work for the Dole on a compulsory basis.</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to the Department of Human Services or is on a reduced rate of income support for other reasons.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.</p> <p><b>National Work Experience Programme</b></p> <p>In the case of the National Work Experience Programme, placements are on a voluntary short-term basis only, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will receive the Approved Program of Work Supplement.</p> <p><b>Green Army Programme</b></p> <p>If a job seeker is participating in the Green Army Programme, they will generally be suspended from jobactive for the duration of that programme's participation. Please refer to the <a href="#">Period of Service, Suspensions and Exits Guideline</a>. Where a job seeker is in the Work for the Dole phase when they commence in the Green Army Programme and has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will meet their Annual Activity Requirement.</p>
<p><b>Activities that can fully meet Mutual Obligation Requirements for some job seekers</b></p>	<p>Most job seekers with Mutual Obligation Requirements are required to undertake a range of Activities, such as: attending Appointments; undertaking Job Search; acting on referrals to specific jobs; attending job interviews; and accepting and commencing in any offers of suitable work.</p> <p>Principal Carer Parents, job seekers with a Partial Capacity to Work of 15 to 29 hours per week and job seekers aged 55 years and over are able to fully meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p>

Process	Details
<p><b>Clause 93</b></p>	<p><b>Principal Carer Parents</b></p> <p>Principal Carer Parents can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study, and in some circumstances Voluntary Work (or a combination of these Activities).</p> <p>When fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and will be Suspended from the Provider’s caseload. This also applies if the Principal Carer Parent is participating in the Green Army Programme for 30 hours per fortnight. For further information on approved study refer to <a href="#">Approved Short Courses</a> section of this Guideline.</p> <p>In limited circumstances Principal Carer Parents are able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work or in combination with other approved activities. The following criteria <b>must</b> be met for Voluntary Work in these circumstances:</p> <ul style="list-style-type: none"> <li>• the Provider determines that the Principal Carer Parent lives in a poor labour market;</li> <li>• there are limited training opportunities locally available (online courses may be considered ‘locally available’ if the Principal Carer Parents has access to a computer); and</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>Principal Carer Parents undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers must not require the Principal Carer Parent to undertake Job Search or undertake other additional requirements.</p> <p>Where a Principal Carer Parent is aged 55 years or over and has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser level of requirement should be applied.</p> <p><b><u>Financial suitable test for Principal Carer Parents</u></b></p> <p>A Principal Carer Parents is not required to accept a job offer or continue in a job which fails to make them financially better off compared to not doing the job. If a Principal Carer Parent is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the Principal Carer Parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="#">Department of Human Services online estimator</a>.</p> <p><b>Mature Age Job Seekers</b></p> <p>Job seekers aged 55 years and over can fully meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake Job Search or undertake other additional requirements and attend Appointments with their Provider.</p> <p>However, they <b>must</b> remain connected with a Provider (although they will be Suspended on a Provider’s caseload). They must attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals and <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have full-time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a full-time job or no longer receive income support.</p> <p>The Department of Human Services will make an initial Appointment with the Provider for job seekers aged 55 years and over, even if they are already satisfying their Mutual Obligation Requirements at their first contact with the Department of Human Services. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. Refer to the <a href="#">Job</a></p>

Process	Details
	<p><a href="#">Seeker Compliance Framework Guideline</a> for more information.</p> <p><b>Partial Capacity to Work</b></p> <p>Job seekers who have been assessed as having a Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements in this way, they cannot be required to undertake Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and will be suspended on a Provider's caseload. This also applies if the job seeker is participating in the Green Army Programme for 30 hours per fortnight.</p> <p>Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with the Department of Human Services and do not need to remain connected to a Provider. As such, they will be Suspended from the Provider's caseload.</p> <p><b>Temporary Reduced Work Capacity</b></p> <p>Job seekers who have been assessed as having a Temporary Reduced Work Capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements.</p> <p>Job seekers who have been assessed as having a Temporary Reduced Work Capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the Department of Human Services. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.</p> <p>Refer to <a href="#">Guide to Social Security 3.2.8.10</a> for additional information.</p> <p><b>Ministers of Religion</b></p> <p>Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is fully meeting their requirements through sufficient participation in the activities outlined above, they will be suspended from Employment Services. A job seeker with Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:</p> <ul style="list-style-type: none"> <li>• being contacted by their employment services provider to discuss and agree to voluntarily participate while Suspended;</li> <li>• notifying the Department of Human Services, who will either call their employment services provider or book an Appointment for them; or</li> <li>• directly contacting their employment services provider to request Services.</li> </ul> <p>If a Suspended job seeker advises that they are electing to voluntarily participate in employment services, the employment services provider must provide Services to the job seeker.</p> <p>If a job seeker participates voluntarily in Employment Services, Providers <b>must not</b> remove the relevant compulsory Activities that the Department of Human Services has included in the job seeker's Job Plan. Any additional Activities included in the Job Plan <b>must</b> only be added as voluntary Activities.</p>

Process	Details
	<p><b><u>Role of the Department of Human Services</u></b></p> <p>For these cohorts of job seekers, the Department of Human Services is responsible for determining whether the individual job seeker is actually fully meeting their Mutual Obligation Requirements, as outlined above. Where the Department of Human Services establishes that they are participating sufficiently in the relevant approved Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once the Department of Human Services determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>However, in the case of Principal Carer Parent and job seekers with a Partial Capacity to Work of 15-29 hours per week who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course, the Provider is responsible for approving the short course and updating the Job Plan accordingly. These job seekers will be Suspended from the Provider's Caseload. Refer to the <a href="#">Approved Short Course</a> section of this guideline for additional information.</p>

## Early School Leavers

Process	Details
<p><b>Defining who is an Early School Leaver</b></p>	<p>An Early School Leaver is a person who is in receipt of Youth Allowance (other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of education (Certificate III level or above, under the Australian Qualifications Framework).</p>
<p><b>Suitable activities for an Early School Leaver</b></p> <p><b><u>Guide to Social Security 3.2.9.95</u></b></p> <p><b>Deed Reference: Clause 105</b></p>	<p>Early School Leavers are generally required to participate in:</p> <ul style="list-style-type: none"> <li>• full-time education or training;</li> <li>• a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week); or</li> <li>• other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week);</li> </ul> <p>until they turn 22 years of age or attain Year 12 or an equivalent qualification.</p> <p>Providers <b>must not</b> include Job Search requirements in the Job Plan of Early School Leavers who are in full-time education or training, or undertaking a combination of part-time education or training and part-time work for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week). For a full list of suitable Activities for Early School Leavers please refer to <a href="#">Attachment B</a>.</p> <p>Up to 20 Job Searches <b>must</b> be included in the Job Plan of all other Early School Leavers if they are not participating in 25 hours per week of approved activities.</p> <p>Once an Early School Leaver has completed Year 12 or an equivalent qualification (as verified by the Department of Human Services), or turns 22 years of age, the young person will no longer be an Early School Leaver and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers.</p>
<p><b>Verifying educational qualifications</b></p>	<p>Only the Department of Human Services can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. For the purposes of verification, the Department of Human Services will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies or an 'equivalent qualification', being:</li> </ul>

Process	Details
<p><b>Deed Reference:</b> <b>Clause 105</b></p>	<ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate III;</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution;</li> <li>○ a Certificate III or IV of General Education for Adults;</li> <li>○ the International Baccalaureate; or</li> <li>○ other higher education pre-entry course.</li> </ul> <p>Providers <b>must</b> fax the Department of Human Services' Business Hotline on 1300 786 102 to have an Early School Leaver's qualifications verified, using the cover sheet at <a href="#">Attachment D</a> together with:</p> <ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original), or if the original qualification has been lost or destroyed: <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification; or</li> <li>○ a letter from the relevant education institution formally verifying attainment of the qualification; or</li> </ul> </li> <li>• if none of the above can be obtained, a statutory declaration by Early School Leaver detailing the name of the course, date completed, institution and institution contact details.</li> </ul> <p>Providers <b>should not</b> send verification to the Department of Human Services where the education level is below Year 12.</p> <p>The Provider <b>should</b> also update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's newly advised higher level of educational attainment.</p> <p>If the Department of Human Services does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the Early School Leaver to advise them of the reason why the qualification was not verified by the Department of Human Services.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b></p> <p><b>Deed Reference:</b> <b>Clause 113</b></p>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker's Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Early School Leavers who are not meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) <b>should</b> also have up to 20 Job Search contacts each month in their Job Plan.</p> <p>All job seekers cannot be required to undertake more than 20 Job Searches per month.</p> <p>Job seekers with Mutual Obligation Requirements will usually have to look for work or undertake work in order to satisfy their Mutual Obligation Requirements. The minimum number of hours for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight. For job seekers aged 55 years and over, Principal Carer Parents and job seekers with a Partial Capacity to Work, the number of hours is 30 hours per fortnight.</p> <p><b>Setting Job Search requirements in the Job Plan</b></p>

Process	Details
	<p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring Job Plans and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans should contain JS09; and</li> <li>• for Stream C job seekers, most Job Plans should contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul> <p>For further information refer to <a href="#">Guide to Social Security 3.2.9.30</a>.</p>
<p><b>Reasons Providers may reduce the number of Job Searches</b></p> <p><a href="#">Social Security Guide: 3.2.9.30</a></p>	<p><b>For All Job Seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment;</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search;</li> <li>• substantially elevated level of family and caring responsibilities;</li> <li>• accommodation situation, where this is likely to impede Job Search;</li> <li>• education or skill level, where this is likely to substantially limit job opportunities;</li> <li>• current Employment status (Part-Time or casual work);</li> <li>• domestic violence (including family violence) or family relationship breakdown (the Department of Human Services may also grant an Exemption from Mutual Obligation Requirements in these circumstances);</li> <li>• final three months of pregnancy;</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills;</li> <li>• cultural factors;</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.</p> <p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities—in particular study or during the Work for the Dole Phase.</p> <p><b>Pregnant job seekers</b></p> <p>During the three months before a pregnant job seeker's expected due date they will not be required to undertake Job Search. During this time Providers cannot compel these job seekers to accept job offers or referrals to job interviews.</p> <p><b>Language, Literacy and Numeracy courses</b></p> <p>For those job seekers who Providers have identified as needing to improve their Language Literacy and Numeracy skills, Providers may reduce the number of Job Searches during but not remove job searches for the period when the job seeker is actively participating in a Language Literacy and Numeracy course. The job seeker would need to be undertaking the Skills for Education and Employment programme, Adult Migrant English Programme or another accredited Language Literacy and Numeracy course. However, Providers must ensure that the job seeker has some Job Search recorded in their Job Plan while participating in these programmes.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and</p>

Process	Details
	<p>over depends on their capacity. However, in general they would be expected to undertake 10 Job Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed; and</li> <li>• whether the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme.</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved (if the job seeker is undertaking a significant number of hours of paid work per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further); and</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved; and</li> <li>• if undertaking 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.</li> </ul> <p><b>Other circumstances</b></p> <p>Providers <b>must not</b> include Job Search requirements for Early School Leavers undertaking appropriate hours of education or training as part of meeting their Mutual Obligation Requirements, or for Early School Leavers who are also Principal Carer Parents or have a Partial Capacity to Work of 15-29 hours per fortnight and are fully meeting their part-time Mutual Obligation Requirements. However, Early School Leavers with full-time Mutual Obligation Requirements who are not engaged in education or education in combination with paid work for 25 hours a week <b>must</b> have a compulsory requirement to look for up to 20 jobs each month included in their Job Plans.</p> <p>Providers <b>must not</b> include Job Search requirements for job seekers while they are undertaking <b>NEIS Training</b> or the <b>NEIS Programme</b>.</p> <p>Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week who are fully meeting their part-time Mutual Obligation Requirements <b>must not</b> have any Job Search requirements included in their Job Plans.</p> <p>Job seekers <b>aged 55 years and over</b> who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must not</b> have Job Search requirements included in their Job Plans.</p>
<p><b>Defining 'Suitable work'</b></p> <p><b>Guide to Social Security 3.2.8.60</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. 'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent and Part-Time or Full-Time work (depending on the job seeker's assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in Social Security</p>

Process	Details
	<p>Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work is unsuitable if it:</p> <ul style="list-style-type: none"> <li>• would aggravate a job seeker’s medical illness, disability or injury;</li> <li>• is above the job seeker’s assessed work capacity within the next two years with Intervention;</li> <li>• does not meet the applicable statutory conditions of work;</li> <li>• requires the person to change their place of residence where they are unwilling to move;</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for Principal Carer Parents and those with a Partial Capacity to Work and more than 90 minutes one way for other job seekers); or</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the employer.</li> </ul> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the Principal Carer Parent has access to appropriate care and supervision for their Child/Children during the times when the Principal Carer Parent would be required to work;</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable; and</li> <li>• the Principal Carer Parent will be financially better off as a result of undertaking the work. Refer to the <a href="#">Financial Suitable Test</a> section of this guideline for further information.</li> </ul> <p>Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law 3.2.8.50</a> for further information.</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the Principal Carer Parent to travel to and from work. Suitable care and supervision means:</p> <ul style="list-style-type: none"> <li>• child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>);</li> <li>• any other care or supervision arrangements that the parent deems suitable; or</li> <li>• where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with a Partial Capacity to Work if:</p> <ul style="list-style-type: none"> <li>• it does not provide appropriate support or facilities to take account of the illness, disability or injury; or</li> <li>• the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker’s normal means of transport.</li> </ul>

## Annual Activity Requirement

Process	Details
<b>Defining Annual Activity</b>	The Annual Activity Requirement is the set number of hours that a job seeker <b>must</b> complete in approved Activities when in the Work for the Dole Phase.

Process	Details
<p><b>Requirement</b></p>	<p>All job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and <b>must</b> participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>From 1 July 2015, Stream A job seekers, as well as Stronger Participation Incentives (SPI) Participants in Stream A or Stream B, enter the Work for the Dole Phase after six months in their first year of service and every subsequent year that they remain unemployed. Where they have entered the Work for the Dole Phase for the first time by 30 September 2016, if they are still unemployed their second Work for the Dole Phase will commence after they have been in jobactive for 18 months, and so on.</p> <p>As of 1 October 2016, Stream A job seekers and Stronger Participation Incentives (SPI) Participants in Stream A or Stream B who have not commenced in the Work for the Dole Phase for the first time will begin the Phase after they have been in jobactive for 12 months rather than six months. This is in line with other Stream B and Stream C job seekers. If they are still unemployed, their second Work for the Dole Phase will commence when they have been in jobactive for two years, and so on.</p> <p>After consultation with the job seeker, Providers <b>must</b> determine the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law. The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>Early School Leavers with full-time Mutual Obligation Requirements typically need to undertake 25 hours a week of approved Activities, so the concept of an Annual Activity Requirement is not applicable as they are participating in this level of Activities all the time.</p> <p>Job seekers with no Annual Activity Requirement include:</p> <ul style="list-style-type: none"> <li>• job seekers aged 60 years and over;</li> <li>• job seekers who are fully meeting their part-time Mutual Obligation Requirements, please refer to the <a href="#">Activities that can fully meet Mutual Obligation Requirements for some job seekers</a> section of this Guideline;</li> <li>• job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work;</li> <li>• job seekers with a Partial Capacity to Work or Temporary Reduced Work Capacity of 0 to 14 hours per week; and</li> <li>• job seekers with Community Service Orders of 20 or more hours per week.</li> </ul>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 107</b></p> <p><b>Clause 108</b></p>	<p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment;</li> <li>• National Work Experience Programme Placements;</li> <li>• Voluntary Work;</li> <li>• Part-time study/training, which must be in: <ul style="list-style-type: none"> <li>○ a Certificate III course or higher (but not a Masters or Doctorate course); or</li> <li>○ an accredited course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement);</li> </ul> </li> </ul>

Process	Details
<p><b>Clause 109</b></p>	<ul style="list-style-type: none"> <li>• accredited language, literacy and numeracy courses, which can include: <ul style="list-style-type: none"> <li>○ the Skills for Education and Employment programme; or</li> <li>○ Adult Migrant English Programme;</li> </ul> </li> <li>• Defence Reserves;</li> <li>• other government programmes, including state government programmes and the Green Army Programme; or</li> <li>• non-government programmes approved for Annual Activity Requirement purposes (refer to the Activity Management Guideline for more information).</li> </ul> <p><b>Job Seekers aged under 18</b> Job seekers aged under 18 with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme; however, may undertake any other Activity to meet their Annual Activity Requirement subject to the eligibility criteria of that Activity.</p> <p><b>Job Seekers aged 18-49 years</b> For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement; or</li> <li>• are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p><b>Job Seekers aged 50-59 years</b> Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p><b>Principal Carer Parents and job seekers with a Partial Capacity to Work</b> Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity as soon as possible after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the <a href="#">Activity Management Guideline</a>.</p> <p>Full-time study/training can also be undertaken where it meets the conditions for part-time study/training as above as well as the Short Course approval conditions, see the <a href="#">Approved Short Courses</a> section below.</p> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.</p> <p><b>Activities that do not count towards the Annual Activity Requirement</b></p>

Process	Details
	<p>There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)</li> <li>• full-time study outside of the Approved Short Course conditions (including Masters and Doctorate courses)</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul> <p><b>Community Service Orders</b> Job seekers with Community Service Orders of 20 hours or more are exempt from having Mutual Obligation Requirements. If a job seeker has a Community Service Order of under 20 hours a week (i.e. part time) they still have Mutual Obligation Requirements; however, the Community Service Orders should take precedence. If these job seeker is in the Work for the Dole phase they will still need to meet their Annual Activity Requirement in addition to their Community Service Order.</p> <p>Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the <a href="#">Activity Management Guideline</a>.</p>
<p><b>Hours of participation to meet the Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.</p> <p>Providers <b>must</b> ensure job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Participation is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>Job seekers with part-time Mutual Obligation Requirements: Principal Carer Parent and Partial Capacity to Work (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight).</li> <li>• Aged 30 to 59: in most circumstances <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight)</li> </ul> <p><b>Defence Reserves</b> For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p> <p><b>Annual Activity Requirement Calculator</b> The Annual Activity Requirement Calculator can be found on the Department's IT System and provides information on how many hours of participation job seekers will need to complete to meet their Annual Activity Requirement. See the <a href="#">Department's IT Systems Online</a> Help for more</p>

Process	Details
	<p>information on how to access the Annual Activity Requirement Calculator.</p> <p><b>Study/training hours</b>  <b>Full-time load</b>  Where a job seeker is undertaking a full-time study load as indicated by the training provider, then the study can meet their fortnightly hours requirement for the fortnights in which they are doing full-time study. This is regardless of the actual contact hours undertaken. For example, a job seeker who has an Annual Activity Requirement of 50 hours requirement and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load. This includes full-time participation in the Skills for Education and Employment Programme or Adult Migrant English Programme.</p> <p><b>Non-contact hours</b>  Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.</p> <p>For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. However, where the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will need to be undertaken to meet the Annual Activity Requirement.</p>
<p><b>Setting required hours in the Activity Diary</b></p> <p><b>Deed Reference:</b>  <b>Clause 107</b></p>	<p><b>Work for the Dole</b>  For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b>  Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the Activity Diary user Guide on the <a href="#">Learning Centre Website</a>.</p>
<p><b>Recording job seeker participation against the Annual Activity Requirement in the Activity Diary</b></p> <p><b>Deed Reference:</b>  <b>Clause 107</b></p>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using the Activity Diary component of the Department's IT Systems.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This <b>should</b> reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department's <a href="#">User Guide</a> and the <a href="#">IT Systems Online Help</a>.</p> <p><b>Mobile Supervisor Apps</b>  Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile</p>

Process	Details
	<p>Supervisor App, refer to the <a href="#">Work for the Dole IT Supporting Document</a>.</p> <p><b>Work for the Dole</b> For Work for the Dole Activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>must</b> be done within 10 Business Days of the job seeker's scheduled participation (this cannot be done as a monthly bulk entry). If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met.</p> <p><b>Other approved Activities</b> For all other approved activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded in the Activity Diary either:</p> <ul style="list-style-type: none"> <li>• through the same process as for Work for the Dole activities; or</li> <li>• on a monthly basis, as a total number of hours.</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>For job seekers not doing Work for the Dole, Providers <b>must</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. If nothing has been entered into the system after this timeframe, the job seeker's required hours will be recorded as not met for that period.</p>
<p><b>Recording completion of the Annual Activity Requirement in the Activity Diary</b></p> <p><b>Deed Reference:</b> <b>Clause 107</b></p>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the Activity Diary Job Seeker Summary screen correctly displays whether the job seeker has met their Annual Activity Requirement.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the Activity Diary Job Seeker Summary screen will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement; and</li> <li>• record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's <a href="#">IT Systems Online Help</a>.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p>Job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:</p> <ul style="list-style-type: none"> <li>• any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the</li> </ul>

Process	Details
	<p>Dole must be created as a voluntary component of their Job Plan; and</p> <ul style="list-style-type: none"> <li>job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any appropriate activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.</p> <p><b>Stream A job seekers</b></p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers must:</p> <ul style="list-style-type: none"> <li>participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12 month period); and</li> <li>during this continuous participation, complete the relevant number of fortnightly hours required to meet their Annual Activity Requirement.</li> </ul> <p>The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for job seekers in Stream B or Stream C only after 6 months (but before 12 months) in the Case Management Phase if the Provider considers the job seeker is not benefiting from, or actively participating in interventions.</p> <p><b>Change of circumstances during the Work for the Dole Phase</b></p> <p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation <b>must</b> match their new requirement.</p> <p>For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p>

Process	Details
<b>Undertaking a Compliance Activity during the Work for the Dole Phase</b>	If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the following Case Management Period.
<b>Participation in the Green Army Programme</b>	<p>If a job seeker is participating in the Green Army Programme, they will generally be suspended from jobactive for the duration of their Green Army programme's participation. Please refer to the <a href="#">Period of Service, Suspensions and Exits Guideline</a>. Where a job seeker is in the Work for the Dole phase when they commence in the Green Army Programme and has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will meet their Annual Activity Requirement.</p> <p>Note: If a job seeker is in the Work for the Dole phase and commences in the Green Army programme, but they do not complete the programme, the number of hours they completed in the programme can also count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Programmes' in the Monthly Hours Summary.</p>

### Additional information

Process	Details
<b>Breaks in Activities</b>	<p>There will be times when a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other Activities that the job seeker must undertake to meet their Mutual Obligation Requirements.</p> <p>There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker is required to undertake other approved Activities, such as Job Search, for the period of the break. The Job Plan should be revised to include the adjusted requirements.</p> <p>Separate rules apply to Principal Carer Parents and job seekers with a Partial Capacity to Work when they are undertaking casual part-time paid employment to fully meet their part-time Mutual Obligation Requirements.</p> <p>For further information these rules refer to <a href="#">Guide to Social Security 3.5.1.70</a>.</p>
<b>Sufficient Work Test</b>  <a href="#">Guide to Social Security 3.2.2.10</a>	<p>The decision that a person is doing sufficient work would generally be restricted to cases where a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). Where there is significant variation in hours worked and earnings from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements <b>must</b> be determined on a fortnightly basis.</p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.</p> <p>Providers are required to document a job seeker's satisfactory participation in self-employment as per the <a href="#">Documentary Evidence Guidelines</a>. If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>

Process	Details
<p><b>When can study be approved as an activity</b></p>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to first test their eligibility for a student payment with the Department of Human Services.</p> <p>Recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve participation in a short course of education or training if they determine that participation is necessary and the course is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated;</li> <li>• less than 12 months (two semesters) in duration; and</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul> <p>Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of 12 months (two semesters) or longer in duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can only be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects;</li> <li>• the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement for the academic course (or a longer course—that is, 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course;</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by the Department of Human Services); or</li> <li>• the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) (and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by the Department of Human Services).</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker’s Job Plan, job seekers are still required to look for and accept work, but not where it conflicts with the time of the course or if it would prevent them from completing the course. However, job seekers are required to accept any suitable work that does not conflict with the course and are not permitted to limit their Job Searches only to areas relating to the course.</p> <p>A Principal Carer Parent or those with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements and will be suspended from their Provider’s caseload. Refer <a href="#">Activities to Meet Mutual Obligation Requirements</a> for some job seekers section of this guideline.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>

Process	Details
<b>Exemptions</b>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. Under Social Security law, the Department of Human Services may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in job search, paid work, Work for the Dole, vocational training or other Activities. In the first instance, the Department of Human Services will usually look to reduce a job seeker's Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker does not have capacity to undertake any job search or other approved Activity and should be considered for an Exemption from their Mutual Obligation Requirements, the job seeker should be advised to contact the Department of Human Services to test their eligibility for an Exemption. Job seekers need to provide any evidence supporting their claim to the Department of Human Services. For example, an appropriate medical certificate from their doctor, if they are applying for a medical Exemption.</p> <p>If a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p>For further information on these and other Exemptions can be at <a href="#">Guide to Social Security 3.2.11</a>.</p> <p>Some of the specific Exemptions that providers <b>should</b> be aware of are:</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a Principal Carer Parent and subject to domestic violence, an Exemption must be granted by the Department of Human Services.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a Department of Human Services social worker. Providers should also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant Job Seekers</b></p> <p>Once a pregnant job seeker is six weeks from their expected due date, the Department of Human Services will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p>

## Job Plan

Process	Details
<p><b>What is a Job Plan?</b></p> <p><b>Deed Reference:</b> <b>Annexure A1</b></p>	<p>The Job Plan is the key document which outlines all the agreed Activities that the job seeker is required to undertake to satisfy their Mutual Obligation Requirements under Social Security Law and help get them into paid work.</p> <p>The Job Plan <b>must</b> be recorded in the Department's IT System.</p> <p>Note: For the purposes of Social Security Law, a Job Plan is an 'employment pathway plan'; and a 'participation plan' for Disability Support Pension recipients with compulsory requirements.</p> <p>For further information on Job Plans for Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>
<p><b>Who must have a Job Plan?</b></p>	<p>Providers <b>must</b> ensure that all job seekers have a current Job Plan in place at all times.</p>

Process	Details
<p><b>Deed Reference:</b></p> <p><b>Annexure A1 Clause 87</b></p>	<p><b>Job Plans (compulsory)</b></p> <p>Under Social Security Law, job seekers receiving the following income support payments with Mutual Obligation Requirements <b>must</b> enter into a Job Plan to remain qualified to receive payment:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when the youngest child turns six )</li> <li>• Special Benefit (Nominated Visa Holders)</li> <li>• Disability Support Pension (Participants under the age of 35 with compulsory participation requirements).</li> </ul> <p><b>Job Plans (voluntary)</b></p> <p>Job seekers without Mutual Obligation Requirements, such as those volunteering to participate in employment services programmes and other Fully Eligible Participants, including Vulnerable Youth and Special Benefit recipients who are not Nominated Visa Holders, must also enter into a Job Plan (voluntary).</p> <p>ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext Provider. As such, jobactive Providers <b>must not</b> create or edit a Job Plan for ParentsNext Volunteers.</p>
<p><b>Who can consult on and approve and vary a Job Plan?</b></p>	<p>Providers are Delegates of the Secretary of the Department of Employment and have the power to:</p> <ul style="list-style-type: none"> <li>• require a job seeker with Mutual Obligation Requirements to enter into a Job Plan;</li> <li>• approve a Job Plan; and</li> <li>• vary the terms of a Job Plan.</li> </ul> <p>The Department of Human Services may also update a Job Plan when required. If the job seeker is managed by a Provider, the Department of Human Services will consult with the relevant Provider prior to updating the Job Plan or may request the Provider to update the Job Plan at the job seeker's next Appointment. A provider <b>should not</b> remove any updates made to a Job Plan by the Department of Human Services without consultation.</p>
<p><b>When must a Job Plan be created, reviewed and updated?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1 Clause 87</b></p>	<p>An initial Job Plan <b>must</b> be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.</p> <p>Providers <b>must</b> regularly review, and update, as required, the Job Plan to ensure all requirements are up to date and remain relevant, including:</p> <ul style="list-style-type: none"> <li>• when the job seeker's circumstances change;</li> <li>• when the job seeker enters into a new phase of their Stream;</li> <li>• when the job seeker enters in to a new Stream;</li> <li>• when a job seeker commences a new Activity;</li> <li>• when the job seeker completes an Activity that was in their Job Plan; and</li> <li>• if the job seeker decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the job seeker compliance framework.</li> </ul> <p>If a Participation Plan for ParentsNext Volunteers requires review or update, Providers must contact the participant's ParentsNext Provider.</p>
<p><b>What are suitable approved Activities for inclusion in a Job</b></p>	<p>Refer to the <a href="#">Guide to Social Security 3.2.8.50</a> or the <a href="#">Mutual Obligation Requirements</a> section of this guideline for a list of the types of Activities that can be included in a Job Plan.</p> <p>Job seekers with Mutual Obligation Requirements may have compulsory and voluntary Activities in their Job Plan. There <b>must</b> be at least one compulsory Activity as voluntary Activities are not subject to the job seeker compliance framework and job seekers will not be at risk of incurring a penalty if they do not participate in such Activities.</p>

Process	Details
<p><b>Plan?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87</b></p>	<p>Providers <b>must</b> identify a job seeker's strengths and any issues they have relating to finding employment. They <b>must</b> ensure that the details of any vocational and non-vocational Activities are specified tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help them overcome any vocational barriers and non-vocational barriers.</p> <p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p> <p>Any Fully Eligible Participant (Voluntary) who is fully meeting their requirements and has chosen to access Services on a voluntary basis must have a compulsory (rather than voluntary) Job Plan. Any additional Activities they agree to be included in their Job Plan while voluntarily accessing Services must be included in their Job Plan as a voluntary Activity only.</p>
<p><b>Who can have a voluntary Job Plan and what should be included in a voluntary Job Plan?</b></p>	<p>Volunteers and job seekers exempt from their Mutual Obligation Requirements will have a voluntary Job Plan.</p> <p>Fully Eligible Participants without Mutual Obligation Requirements can undertake the same Activities as other job seekers; however, these Activities <b>must</b> be included as voluntary Activities in the Volunteer's Job Plan.</p> <p>The voluntary Job Plan will include voluntary Activities discussed and agreed to based on the individual's circumstances and reason for registering for employment services. In most cases, this will include Appointments with the Provider and other voluntary Activities, such as Job Search, education or other skills development, or other Activities to improve their employability.</p> <p>All Activities <b>must</b> be included as voluntary Activities in the Job Plan, and will not be subject to the job seeker compliance framework if they do not participate in these Activities.</p>
<p><b>What must be explained to the job seeker?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 97.2</b></p>	<p>Providers <b>must</b> explain the Job Plan to each job seeker including:</p> <ul style="list-style-type: none"> <li>• the purpose of the Job Plan;</li> <li>• the job seeker's rights and responsibilities under the Job Plan (including that they have two Business Days 'think time' to consider the requirements outlined in their Job Plan before accepting it);</li> <li>• what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan;</li> <li>• the consequences of failing to meet those requirements, and any impact on the job seeker's income support payment;</li> <li>• the consequences of the job seeker failing to give prior Notice (with a Valid Reason) when they cannot attend compulsory Appointments or participate in compulsory Activities;</li> <li>• their right to appeal decisions and where they can find assistance;</li> <li>• how the Provider intends to support the job seeker;</li> <li>• the Service Guarantee and Service Delivery Plan;</li> <li>• the section entitled 'Information You Need to Know' in the Job Plan; and</li> <li>• how their information is protected under privacy legislation and under Social Security Law.</li> </ul> <p>When a job seeker requests or where the Provider considers it appropriate, Providers <b>must</b> use an Interpreter to ensure that the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.</p> <p>Job seekers may also bring a third party to the appointment to discuss the terms of the Job Plan if they wish.</p> <p>Under Social Security Law, job seekers <b>must</b> be formally notified of the date, time, location and other additional requirements for attending Appointments and participating in Activities, such as requiring work boots. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p>

Process	Details
<p><b>How is a Job Plan created and updated?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87.2</b></p>	<p><b>Using the Department's IT Systems</b></p> <p>The Job Plan <b>must</b> be created and recorded using the Department's IT Systems unless the Department's IT Systems are temporarily unavailable or there is no computer access. In this case, Providers must use the compulsory/voluntary Job Plan template (whichever is applicable) available on the Provider Portal.</p> <p>Details of the Activities included <b>must</b> be entered into the Department's IT Systems as soon as possible after the Job Plan is created.</p> <p>The contents of the Job Plan recorded in the Department's IT Systems must be exactly the same as the hardcopy Job Plan.</p> <p><b>Using Job Plan codes</b></p> <p>Providers <b>must</b> use the comprehensive list of available codes at <a href="#">Attachment C</a>, as they have been developed to be consistent with legislative requirements. This will enable pre-population and linkages through the Department's IT Systems, the Job Seeker's Dashboard on the jobactive powered by JobSearch website (the jobactive website) and also the Department of Human Services' IT system.</p> <p>When setting compulsory Job Search Requirements, Providers <b>must</b> use the Job Search Requirements (JS09) code. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. This will enable Providers to monitor the setting of Job Search Requirements across their caseload. The Department will also actively monitor the setting of Job Search Requirements.</p> <p>Where applicable, Providers <b>must</b> also use the JS05 or JS06 (Job Search with Disability) codes, as these trigger the higher rate of Mobility Allowance. The Free text code can only be used where no available code covers an Activity that the Provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and as such is viewable to Providers and the Department of Human Services.</p> <p><b>Linking Job Plan Codes to Activity Placements</b></p> <p>Activity placements can be linked to Job Plan codes in Activity Diary in the Department's IT System. It is best practice that Providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from Activity Diary. Providers will also be able to record attendance results in the Activity Diary.</p>
<p><b>How is a Job Plan approved?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87.2</b></p>	<p>Once the terms of the Job Plan have been determined and the Job Plan created in the Department's IT Systems, the Job Plan <b>must</b> be provided to the job seeker for their agreement.</p> <p>Job Plans can be agreed to online or by signing a hard copy.</p> <p><b>Job seeker agreement—online</b></p> <p>Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree online. If the Provider decides to use this option they <b>must</b> ensure that the job seeker has access to and is aware of how to agree to the terms of the Job Plan on their Dashboard.</p> <p>For all job seekers (including those with voluntary Mutual Obligation Requirements) Providers <b>must</b> formally notify the job seeker (either face to face or over the phone) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement within two Business Days of sending the Job Plan. The verbal formal notification script will display in the Department's IT Systems for their Provider to read to the job seeker. This includes a compliance warning that <b>must</b> be given to job seekers (with Mutual Obligation Requirements) if they do not agree to the Job Plan within two Business Days.</p> <p>If the job seeker has not agreed to the Job Plan online within the two Business Day the provider</p>

Process	Details
	<p>should consider whether submitting a Participation Report is appropriate. For further information refer to the <a href="#">Job seeker Compliance Framework Guideline</a>.</p> <p>When the job seeker agrees to the Job Plan, this will automatically result in the Job Plan's status being set to 'approved' in the Department's IT Systems.</p> <p><b>Job seeker agreement—hard copy</b></p> <p>Providers <b>must</b> approve the Job Plan in the Department's IT Systems as soon as the job seeker and the Provider have signed the Job Plan.</p> <p>Providers must provide a copy of the signed Job Plan to the job seeker.</p> <p>Note: once the Job Plan has been approved, the job seeker can access it on their Job Seeker Dashboard.</p>
<p><b>What happens if the job seeker refuses/fails to agree to a Job Plan?</b></p>	<p>If the Job Plan is not approved, no action is possible under the compliance framework for failure to meet compulsory Activities recorded in the Job Plan.</p> <p>Therefore, if the job seeker refuses to sign a Job Plan (and does not wish to use 'think time', see below), the Provider should discuss with the job seeker their obligation, the consequences of not agreeing to a Job Plan, and record in the Department's IT Systems the discussion with the job seeker. If the job seeker has Mutual Obligation Requirements and still refuses to sign a Job Plan the Provider <b>should</b> submit a Participation Report.</p> <p><b>Think time</b></p> <p>Prior to signing or accepting a Job Plan, job seekers with or without Mutual Obligation Requirements must be given two Business Days 'think time' to consider the proposed requirements of the Job Plan or to discuss them with a third party if they wish to do so.</p> <p>Where the job seeker decides to take up the two Business Days 'think time', the provider <b>should</b> book another Appointment with the job seeker after two Business Days.</p> <p>If the job seeker does not attend the appointment or refuses to accept the Job Plan online, or sign a hard copy of the Job Plan, after two Business Days 'think Time' the provider <b>should</b> consider whether submitting a Participation Report is appropriate.</p> <p>If the job seeker attends the Appointment but fails to agree to the Job Plan without a good reason their payment may be cancelled by the Department of Human Services until they do agree to a Job Plan.</p> <p>A job seeker can only utilise 'think time' once each time a Job Plan is created or updated.</p> <p>See the <a href="#">Job Seeker Compliance Framework Guideline</a> for more information on submitting Participation Reports.</p>

### Additional information

Process	Details
<p><b>Intervention Management Tool</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 38</b></p>	<p>The Intervention Management Tool in the Job Plan section of the Department's IT System is an optional tool for Providers. It can be used to review and manage a job seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including any identified by the job seeker.</p> <p>The Intervention Management Tool can help Providers to:</p> <ul style="list-style-type: none"> <li>• ensure that the job seeker has Activities in the Job Plan appropriate to their circumstances;</li> <li>• include Employment Services Assessment recommended Interventions in the Job Plan; and</li> <li>• record additional vocational or non-vocational issues.</li> </ul>

Process	Details
	Note: In case job seekers request access to their Records contained in the Intervention Management Tool, Providers <b>should</b> familiarise themselves with relevant Deed provisions.
<b>Non-government programmes approved for Annual Activity Requirement purposes</b>	Providers <b>must</b> use the Free Text code and the following statement when entering details of a non-government programme approved for Annual Activity Requirement purposes into a job seeker's Job Plan – see sample text below.  FTXT— I agree to undertake XXX (name of programme) for [X] hours per fortnight with [Organisation] from [Start Date] to [End Date].
<b>Contact and Non-contact study hours for Annual Activity Requirement purposes</b>	Providers <b>must</b> use the Free Text field under the Study - Part-Time or Full-Time (ET59) code when entering details of contact and non-contact study hours into a job seeker's Job Plan where this study is being used to meet or contribute towards meeting the Annual Activity Requirement— see sample text below.  The hours of study will include [X] contact hours and [X] non-contact hours per fortnight.
<b>Privacy and information sharing</b>  <b>Deed Reference: Clause 35</b>	The Deed requires Providers to comply with Australian privacy legislation. A job seeker's Personal Information <b>must</b> only be used or disclosed for the purpose for which it was collected, except in limited circumstances such as where: the job seeker gives permission, where Commonwealth laws allow it, or in other special circumstances.  Providers <b>must</b> also ensure that they comply with Social Security Law.  Providers <b>should</b> seek independent legal advice if they have any concerns regarding their obligations under any relevant privacy, or any other relevant, legislation.

### Notes:

- Principal Carer Parents with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A Principal Carer Parent can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a Principal Carer Parent is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight— refer to the [activities that can meet part-time Mutual Obligation Requirements](#) section of this Guideline.
- Job seekers with a Partial Capacity to Work can fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of study and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement. Different rules apply to Principal Carer Parents and those with a Partial Capacity to Work.
- Principal Carer Parents on Parenting Payment Single on the Age Pension do not have Mutual Obligation Requirements.

Document 22

## • ATTACHMENT B

### MUTUAL OBLIGATION REQUIREMENTS FOR EARLY SCHOOL LEAVERS

Activities to Meet Early School Leaver Requirements	Suitable Job Search
Full time education or training	No job search
Combination of part-time education/training and part-time paid work for required number (i.e. 25 or 15) hours per week.	No job search
Other approved Activities for required number (i.e. 25 or 15) hours per week.	Up to 20 job searches

- Where an Early School Leaver is not participating in a full-time education or training course (or not fully meeting their part-time Mutual Obligation Requirements), they are required to undertake 25 hours a week (15 hours per week for Early School Leavers who are also Principal Carer Parents or job seekers with a Partial Capacity to Work of 15 to 29 hours per week) of either:
  - part-time education and part-time work; or
  - other suitable Activities, in addition to compulsory job search requirements of up to 20 per month.
- If a Certificate III course is not considered to be appropriate for the Early School Leaver based on their circumstances, an Early School Leaver may undertake a Certificate I or II course if participation in this lower level course will help them to go on to complete their Year 12 or a Certificate III or above qualification. The job seeker will continue to be considered an Early School Leaver until a Year 12 or equivalent Certificate III level of education is attained or they turn 22 years of age.
- Early School Leavers who are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer Early School Leavers to an employment opportunity when the position does not conflict with the Early School Leaver's education or training Activities (if any). Similarly, Early School Leavers can be required to accept a job if it does not interfere with their current or future education or training Activities.

#### **Job Search**

- Jobactive providers **must** include job search requirements in the Job Plan of an Early School Leaver if they are not in full-time education, or a combination of part-time education and part-time work, for the required number of hours per week.
- However, if the Early School Leaver is meeting their requirements through full-time education and training or a combination of part-time education and training and part-time work for the required number of hours per week (25 hours for those with full-time requirements/15 hours for those with part-time requirements) they **should not** have job search requirements in their Job Plan.

#### **Skills for Education and Employment, Adult Migrant English Programme or other accredited Language, Literacy and Numeracy training**

- Early School Leavers can also participate in programmes such as the Skills for Education and Employment programme and other programmes that help build foundation skills.
- Full-time participation in the Skills for Education and Employment or the Adult Migrant English Programme will satisfy an Early School Leaver's requirements.
- Part-time study will count towards an Early School Leaver's requirements if undertaken with part-time work totalling 25 hours per week (15 hours per week for Early School Leavers who are also Principal Carer Parents or job seekers with a Partial Capacity to Work of 15 to 29 hours per week).

#### **Paid work**

- Paid work can include self-employment and may count towards meeting an Early School Leaver's mutual obligation requirements, where undertaken in combination with part-time education or training.
- Early School Leavers who are undertaking an approved education or training course cannot be compelled to accept work if it would interfere with their study.

## Explanatory Note

All capitalised terms have the same meaning as in the jobactive Deed 2015–2020. In this document, '**must**' means that compliance is mandatory and '**should**' means that compliance represents best practice and is discretionary.

## Disclaimer

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It **must be** read in conjunction with the Deed and any relevant Guidelines or reference Material issued by Department of Employment under, or in connection with, the Deed.

## Summary

This Guideline outlines the Mutual Obligation Requirements for Activity-tested job seekers. It includes Providers' responsibilities and required actions to enable job seekers with Mutual Obligation Requirements to meet those requirements.

It also includes the Providers' responsibilities and required actions when creating, reviewing and updating a job seeker's Job Plan. Providers **must** consult with the job seeker when determining the activities to be included in the Job Plan.

## Policy Intent

In return for the safety net of receiving taxpayer-funded income support, job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in activities that will improve their employment prospects. The key intent of Mutual Obligation Requirements is to help get the job seeker into paid work and reduce their reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## Relevant Deed clause/s

The relevant clauses in the jobactive Deed 2015–2020 (the Deed) include:

### Mutual Obligation Requirements

- Clause 93 – Suspensions
- Clause 95 – Exits
- Clause 87—General Requirements for a Job Plan
- Clause 102—SPI Participants
- Clause 103—Stream A (General) Participants
- Clause 104—Stream B (General) Participants and Stream C Participants
- Clause 105—Early School Leavers
- Clause 106—Mutual Obligation Requirements
- Clause 107—Activities
- Clause 108—Work for the Dole
- Clause 109—National Work Experience Programme Placements
- Clause 113—Job Search Requirements

### Job Plan

- Annexure A1—Definitions
- Clause 35—Personal and Protected Information
- Clause 87—General requirements for a Job Plan
- Clause 119—Delegate obligations

## Mutual Obligation Requirements

Process	Details
<p><b>Defining Mutual Obligation Requirements</b></p>	<p>Under Social Security Law, generally people receiving income support payments with Mutual Obligation Requirements must show that they are actively looking for work and are participating in a range of activities that will help them into employment, unless the Department of Human Services has granted the job seeker an Exemption from these requirements.</p> <p>Mutual Obligation Requirements include the range of requirements a job seeker can be compelled to fulfil under Social Security Law in return for Activity-tested income support. These include: attending Provider Appointments; undertaking Job Search and acting on referrals to specific jobs; participating in approved Activities to meet the Annual Activity Requirement; and participating in any other Activity at any time that is relevant to their personal circumstances and that will help the job seeker improve their employment prospects. For a full list of Activities, refer to <a href="#">Guide to Social Security 3.2.9.10 Suitable Activities</a>.</p> <p>Job seekers on the following income support payments <b>must</b> meet their Mutual Obligation Requirements to continue to receive their income support payment:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when their youngest child turns six)</li> <li>• Special Benefit (Nominated Visa Holders).</li> </ul> <p>Job seeker income support payments are generally paid in fortnightly instalments. Therefore, under Social Security Law, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.</p> <p>Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to an Employment Services Provider. Providers will be able to view this in the Department's IT Systems.</p> <p>For Disability Support Pension recipients with compulsory requirements refer to the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p> <p>Job seekers who have reached Age Pension age and who are receiving Parenting Payment Single do not have Mutual Obligation Requirements.</p>
<p><b>Role of Providers</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 87</b></p> <p><b>Clause 106</b></p>	<p>The Provider <b>must</b> consult with the job seeker and then <b>must</b> set suitable activities for the job seeker to meet their fortnightly Mutual Obligation Requirements within the job seeker's Job Plan. This includes activities to meet the Annual Activity Requirement where relevant.</p> <p>The Provider <b>must</b> set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, Guideline and Social Security Law.</p>

Process	Details
<p><b>Mutual Obligation Requirements—general expectations</b></p> <p><a href="#">Guide to Social Security Law 3.2.8.10</a></p>	<p>The level of a job seeker’s Mutual Obligation Requirements are generally determined by:</p> <ul style="list-style-type: none"> <li>• their age;</li> <li>• their assessed work capacity; and</li> <li>• whether they have the primary responsibility for the care of a child.</li> </ul> <p>Providers can find information on a job seeker’s individual circumstances in the Participation Profile screen of the Department’s IT system.</p> <p>Job seekers will have either full-time or part-time Mutual Obligation Requirements. Job seekers with full-time Mutual Obligation Requirements <b>should</b> be looking for work on a full-time basis and actively addressing individual circumstances that may affect their capacity to undertake paid work.</p> <p>The following Job Seekers have part-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• Principal Carer Parents once the youngest child in their care turns six years of age; and</li> <li>• job seekers with a Partial Capacity to Work of 15 to 29 hours per week.</li> </ul> <p>The extent and combination of activities that the job seeker is to undertake will vary, depending on the requirements for different job seeker cohorts. In general, Providers <b>must</b> ensure that all job seekers have a requirement to:</p> <ul style="list-style-type: none"> <li>• attend Provider Appointments;</li> <li>• act on referrals to particular jobs from their Provider and attend job interviews offered by Employers;</li> <li>• undertake Job Search (job seekers are generally required to undertake 20 Job Searches per month during the Case Management, Work for the Dole and Self Service Phase);</li> <li>• undertake Activities to meet their Annual Activity Requirement, including Work for the Dole or another approved Activity for six months each year while they remain unemployed. In most cases, Work for the Dole will be the principal Activity (that is, the default Activity where another Activity is not undertaken for the 18-49 year old cohort). For further information on suitable Activities to meet a job seeker’s Annual Activity Requirement please refer to the <a href="#">Activities that enable a job seeker to meet their Annual Activity Requirement</a> section of this guideline; and</li> <li>• undertake suitable Activities at any time. These Activities <b>should</b> increase their job competitiveness, address non-vocational issues, and increase the job seeker’s immediate employability.</li> </ul> <p><a href="#">Attachment A</a> provides a table outlining Mutual Obligation Requirements for different cohorts of job seekers.</p>
<p><b>Considering a job seeker’s circumstances</b></p> <p><a href="#">Guide to Social Security Law 3.2.8.50</a></p>	<p>When determining a job seeker’s Mutual Obligation Requirements, and when setting the terms of a Job Plan, the Provider <b>must</b> consult with the job seeker and <b>must</b> take into account:</p> <ul style="list-style-type: none"> <li>• the job seeker’s individual circumstances—in particular, their assessed work capacity (where relevant), their capacity to comply with the requirements and their personal needs;</li> <li>• the person’s education, experience, skills and age;</li> <li>• the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person’s ability to work, look for work or participate in Activities;</li> <li>• the state of the local labour market and the transport options available to the person in accessing that market;</li> <li>• the participation opportunities and activities available to the person;</li> </ul>

Process	Details
	<ul style="list-style-type: none"> <li>• the family and caring responsibilities of the person (including availability of child care);</li> <li>• the length of travel time required to comply with the requirements (90 minutes each way or 60 minutes if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work);</li> <li>• the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs. See the <a href="#">Guide to Social Security Law</a> for further information;</li> <li>• whether the job seeker has any vulnerability indicators (as identified by the Department of Human Services) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown;</li> <li>• any history of the job seeker not complying with their Mutual Obligation Requirements, to help ensure they do so in the future;</li> <li>• cultural factors;</li> <li>• if they are an Early School Leaver;</li> <li>• the number of hours a fortnight the job seeker is required to undertake in the Work for the Dole Phase; and</li> <li>• any other matters that the Provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).</li> </ul> <p>After consultation with the job seeker, Providers <b>must</b> determine the Activities that the job seeker must undertake to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. The Provider must record these in the job seeker's Job Plan, including any relevant hours of participation the job seeker needs to undertake each fortnight. While the Provider should take into account the job seeker's preferences wherever possible, as the Delegate of the Secretary of the Department of Employment, employment services staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.</p>
<p><b>Considering a job seeker's capacity to undertake activities</b></p>	<p><b>Capacity of a job seeker to undertake Activities</b></p> <p>Some job seekers may have vocational or non-vocational issues, an assessed Partial Capacity to Work or a Temporary Reduced Work Capacity. These will generally be identified by an Employment Services Assessment or Job Capacity Assessment. Where there is no Employment Services Assessment or Job Capacity Assessment, the Job Seeker Classification Instrument may also help identify personal issues that may affect a job seeker's employability.</p> <p>When setting the job seeker's Mutual Obligation Requirements, the Provider <b>must</b> review any barriers identified through an Employment Services Assessment or Job Capacity Assessment, or other issues disclosed to the Provider. This will inform the Activities job seeker will undertake to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement.</p> <p>Providers <b>must</b> consider the job seeker's assessed work capacity when setting requirements. The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker <b>must</b> be capable of undertaking any Activity or requirements included in a Job Plan. If a job seeker cannot reasonably undertake an Activity (or a combination of Activities), then that Activity (or combination of Activities) must not be included in their Job Plan.</p> <p><b>Partial Capacity to Work</b></p> <p>Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years with Intervention are less than 30 hours per week.</p> <p>Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work</p>

Process	Details
	<p>capacity. Rather, the job seeker’s capacity to participate can be increased through participation in a suitable programme of assistance or other appropriate Employment Service.</p> <p>When a job seeker’s work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.</p> <p><b>Temporary Reduced Work Capacity</b></p> <p>A job seeker may have a temporary medical condition and have a Temporary Reduced Work Capacity which is identified through an Employment Services Assessment. Job seekers will have reduced requirements for the period of their Temporary Reduced Work Capacity.</p> <p>Providers <b>must</b> take into account a job seeker’s Temporary Reduced Work Capacity when setting suitable approved Activities and the level of participation.</p> <p>There may also be circumstances where it is clear to the Provider that a medical condition will temporarily impact upon a job seeker, but the job seeker does not have a Temporary Reduced Work Capacity in the Department’s IT system. Provider’s should use judgement and also ensure that these personal circumstances are appropriately taken into account when setting Mutual Obligation Requirements.</p> <p><b>Principal Carer Parents</b></p> <p>Providers must consider a Principal Carer Parent’s family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements.</p> <p>During school terms, face-to-face provider Appointments and participation in Activities should typically be scheduled during school hours (that is, generally between 9am and 3pm) unless it is otherwise agreed by the Principal Carer Parent.</p> <p>Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during school holidays. However, Providers <b>must</b> consider whether the Principal Carer Parent can access suitable care and supervision for their children during this time when setting requirements.</p> <p>During the fortnight in which the Christmas public holiday falls, Principal Carer Parents do not have Mutual Obligation Requirements. Refer to the <a href="#">Guide to Social Security Law 3.2.9.10</a> for additional information.</p> <p>If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for further information.</p> <p>If the Principal Carer Parent has a Valid Reason or Reasonable Excuse for not attending an appointment or activities, such as no suitable child care, alternative requirements <b>must</b> be set to enable the job seeker to meet their Mutual Obligation Requirements.</p> <p><b>Pregnant Job Seekers</b></p> <p>Generally the Mutual Obligation Requirements for pregnant job seekers will not change during the first trimester of pregnancy. However, the Provider must take into account the job seeker’s personal circumstances when setting their Mutual Obligation Requirements.</p>
<p><b>Considering what phase a job seeker is in</b></p>	<p>Providers <b>must</b> consider the job seeker’s Stream and phase when setting a job seeker’s Mutual Obligation Requirements—in particular, whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.</p> <p>The Provider <b>must</b> include approved Activities in the job seeker’s Job Plan that will enable the job seeker to meet their Annual Activity Requirement, including appropriate hours of participation in Activities each fortnight during that phase.</p>

Process	Details
<p><b>Approved programs of work for income support payments</b></p>	<p>Under Social Security Law, job seekers participating in an Approved Program of Work are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight. Currently, Approved Programs of Work are:</p> <ul style="list-style-type: none"> <li>• Work for the Dole;</li> <li>• the National Work Experience Programme; and</li> <li>• the Green Army Programme.</li> </ul> <p>Social Security Law precludes job seekers under the age of 18 from participating in an Approved Program of Work for the purposes of meeting their mutual obligation requirements.</p> <p>There is also a requirement that job seekers who are on a reduced rate of payment in any fortnight under the income test, due to their own earnings, or their partner's earnings, cannot be compelled to undertake Work for the Dole in that fortnight. However, these job seekers can be compelled to undertake another Activity to enable them to meet their Annual Activity Requirement.</p> <p><b>Work for the Dole</b></p> <p>In a Job Plan, Providers <b>must not</b> include participation in Work for the Dole (or these other Approved Programs of Work) as a <i>compulsory activity</i> in the following circumstances:</p> <ul style="list-style-type: none"> <li>• for job seekers receiving less than the full rate of Newstart Allowance, Youth Allowance (other) or Parenting Payment Single, where the rate is reduced due to the income test (a reduced rate can result from the job seeker's own income and/ or their partner's income);</li> <li>• for Special Benefit—Nominated Visa Holders, if the person or the person's partner has income;</li> <li>• where the Activity is more than 50 hours per fortnight; or</li> <li>• where the job seeker is aged under 18 years, or 60 years and over.</li> </ul> <p>Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances, except for job seekers aged under 18 years.</p> <p>If the job seeker is receiving anything less than the full rate of income support they may choose to undertake Work for the Dole in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, Work for the Dole <b>must</b> only be included as a voluntary Activity in their Job Plan.</p> <p>Providers <b>should</b> regularly review whether the job seeker is continuing to receive less than the full rate of income support. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.</p> <p>Providers can view a job seeker's previous four fortnights' income support payment rate on the Department's IT system Notification screen (that is, whether they received a full rate on a reduced rate due to the income test). This will help providers to determine if a job seeker is in receipt of a part or nil rate of payment and therefore if they should be undertaking Work for the Dole on a compulsory basis.</p> <p>Providers may also consider requesting documentary evidence from the job seeker to determine whether a job seeker is declaring income to the Department of Human Services or is on a reduced rate of income support for other reasons.</p> <p>If the job seeker subsequently fails to actively participate in Work for the Dole, the Provider <b>should</b> consider replacing the voluntary Work for the Dole Activity with an alternative compulsory approved Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to undertake some voluntary work in order to achieve the required hours each fortnight. However, the job seeker will not receive the Approved Program of Work Supplement</p>

Process	Details
	<p>in a fortnight in which they did not actively participate in Work for the Dole.</p> <p><b>National Work Experience Programme</b></p> <p>In the case of the National Work Experience Programme, placements are on a voluntary short-term basis only, regardless of whether the job seeker is receiving a full or part rate of income support payment. Job seekers undertaking National Work Experience Programme Placements on a voluntary basis will receive the Approved Program of Work Supplement.</p> <p><b>Green Army Programme</b></p> <p>If a job seeker is participating in the Green Army Programme, they will generally be suspended from jobactive for the duration of that programme's participation. Please refer to the <a href="#">Period of Service, Suspensions and Exits Guideline</a>. Where a job seeker is in the Work for the Dole phase when they commence in the Green Army Programme and has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will meet their Annual Activity Requirement.</p>
<p><b>Activities that can fully meet Mutual Obligation Requirements for some job seekers</b></p> <p><b>Clause 93</b></p>	<p>Most job seekers with Mutual Obligation Requirements are required to undertake a range of Activities, such as: attending Appointments; undertaking Job Search; acting on referrals to specific jobs; attending job interviews; and accepting and commencing in any offers of suitable work.</p> <p>Principal Carer Parents, job seekers with a Partial Capacity to Work of 15 to 29 hours per week and job seekers aged 55 years and over are able to fully meet their Mutual Obligation Requirements by undertaking certain approved Activities for at least 30 hours per fortnight.</p> <p><b>Principal Carer Parents</b></p> <p>Principal Carer Parents can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) or approved study, and in some circumstances Voluntary Work (or a combination of these Activities).</p> <p>When fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and will be Suspended from the Provider's caseload. This also applies if the Principal Carer Parent is participating in the Green Army Programme for 30 hours per fortnight. For further information on approved study refer to <a href="#">Approved Short Courses - When can study be approved as an activity</a> section of this Guideline.</p> <p>In limited circumstances Principal Carer Parents are able to meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of Voluntary Work or in combination with other approved activities. The following criteria <b>must</b> be met for Voluntary Work in these circumstances:</p> <ul style="list-style-type: none"> <li>• the Provider determines that the Principal Carer Parent lives in a poor labour market;</li> <li>• there are limited training opportunities locally available (online courses may be considered 'locally available' if the Principal Carer Parents has access to a computer); and</li> <li>• there is a significant vocational aspect to the voluntary work.</li> </ul> <p>Principal Carer Parents undertaking Voluntary Work alone, or in combination with paid work or study, for 30 hours per fortnight will not be Suspended from Employment Services. However, Providers must not require the Principal Carer Parent to undertake Job Search or undertake other additional requirements.</p> <p>Where a Principal Carer Parent is aged 55 years or over and has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser level of requirement should be applied.</p>

Process	Details
	<p><b><u>Financial suitability test for Principal Carer Parents</u></b></p> <p>A Principal Carer Parents is not required to accept a job offer or continue in a job which fails to make them financially better off compared to not doing the job. If a Principal Carer Parent is not at least \$50 per fortnight better off than if they did not accept or continue in that job then the Principal Carer Parent is able to decline the offer or leave the job. The financial suitability test is available at <a href="#">Department of Human Services online estimator</a>.</p> <p><b>Mature Age Job Seekers</b></p> <p>Job seekers aged 55 years and over can fully meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake Job Search or undertake other additional requirements and attend Appointments with their Provider.</p> <p>However, they <b>must</b> remain connected with a Provider (although they will be Suspended on a Provider's caseload). They must attend any notified Appointments with their Provider; however, these Appointments <b>should</b> only be related to employment opportunities or job referrals and <b>must</b> be made around the times of their paid and/or Voluntary Work hours.</p> <p>These job seekers still have full-time Mutual Obligation Requirements and, as such, are also required to attend job interviews with Employers and accept increased hours of paid work until they obtain a full-time job or no longer receive income support.</p> <p>The Department of Human Services will make an initial Appointment with the Provider for job seekers aged 55 years and over, even if they are already satisfying their Mutual Obligation Requirements at their first contact with the Department of Human Services. Job seekers who fail to attend this Appointment or any other notified Provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the job seeker compliance framework. Refer to the <a href="#">Job Seeker Compliance Framework Guideline</a> for more information.</p> <p><b>Partial Capacity to Work</b></p> <p>Job seekers who have been assessed as having a Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements in this way, they cannot be required to undertake Job Search or meet any other additional requirements. As such, they do not need to remain connected with a Provider and will be suspended on a Provider's caseload. This also applies if the job seeker is participating in the Green Army Programme for 30 hours per fortnight.</p> <p>Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with the Department of Human Services and do not need to remain connected to a Provider. As such, they will be Suspended from the Provider's caseload.</p> <p><b>Temporary Reduced Work Capacity</b></p> <p>Job seekers who have been assessed as having a Temporary Reduced Work Capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional requirements.</p> <p>Job seekers who have been assessed as having a Temporary Reduced Work Capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the Department of Human Services. Where fully meeting their Mutual Obligation Requirements, they cannot be required to undertake any Job Search or meet any other additional</p>

Process	Details
	<p>requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.</p> <p>Refer to <a href="#">Guide to Social Security Law 3.2.8.10</a> for additional information.</p> <p><b>Ministers of Religion</b></p> <p>Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation. The amount of remuneration received does not have to be at the National Minimum Wage.</p> <p><b>Continuing voluntarily in Employment Provider Services</b></p> <p>Where a job seeker is fully meeting their requirements through sufficient participation in the activities outlined above, they will be suspended from Employment Services. A job seeker with Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:</p> <ul style="list-style-type: none"> <li>• being contacted by their employment services provider to discuss and agree to voluntarily participate while Suspended;</li> <li>• notifying the Department of Human Services, who will either call their employment services provider or book an Appointment for them; or</li> <li>• directly contacting their employment services provider to request Services.</li> </ul> <p>If a Suspended job seeker advises that they are electing to voluntarily participate in employment services, the employment services provider must provide Services to the job seeker.</p> <p>If a job seeker participates voluntarily in Employment Services, Providers <b>must not</b> remove the relevant compulsory Activities that the Department of Human Services has included in the job seeker's Job Plan. Any additional Activities included in the Job Plan <b>must</b> only be added as voluntary Activities.</p> <p><b>Role of the Department of Human Services</b></p> <p>For these cohorts of job seekers, the Department of Human Services is responsible for determining whether the individual job seeker is actually fully meeting their Mutual Obligation Requirements, as outlined above. Where the Department of Human Services establishes that they are participating sufficiently in the relevant approved Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once the Department of Human Services determines that a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be Suspended in Employment Provider Services.</p> <p>However, in the case of Principal Carer Parent and job seekers with a Partial Capacity to Work of 15-29 hours per week who are fully meeting their part-time Mutual Obligation Requirements through 30 hours per fortnight in an approved short course, the Provider is responsible for approving the short course and updating the Job Plan accordingly. These job seekers will be Suspended from the Provider's Caseload. Refer to the <a href="#">Approved Short Course - When can study be approved as an activity</a> section of this guideline for additional information.</p>

## Early School Leavers

Process	Details
<b>Defining who is an Early School Leaver</b>	<p>An Early School Leaver is a person who is in receipt of Youth Allowance (other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent level of education (Certificate III level or above, under the Australian Qualifications Framework).</p>
<b>Suitable activities for an Early School Leaver</b>  <u>Guide to Social Security Law</u> <b>3.2.9.95</b>  <b>Deed Reference:</b> <b>Clause 105</b>	<p>Early School Leavers are generally required to participate in:</p> <ul style="list-style-type: none"> <li>• full-time education or training; or</li> <li>• a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week); or</li> <li>• other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) in addition to up to 20 Job Searches per month;</li> </ul> <p>until they turn 22 years of age or attain Year 12 or an equivalent qualification.</p> <p>Job Search <b>must not</b> be included in the Job Plan of Early School Leavers <u>who are meeting</u> their requirements through either:</p> <ul style="list-style-type: none"> <li>• full-time education or training; or</li> <li>• undertaking a combination of part-time education or training <u>and</u> part-time work for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week).</li> </ul> <p>Up to 20 Job Searches <b>must</b> be included in the Job Plan of <u>all other</u> Early School Leavers; that is, in the Job Plans of those who are required to participate in other approved Activities for 25 hours per week (or 15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week).</p> <p>Once an Early School Leaver has completed Year 12 or an equivalent qualification (as verified by the Department of Human Services) or turns 22 years of age, the young person will no longer be an Early School Leaver and will instead become subject to the Mutual Obligation Requirements that apply to other job seekers.</p> <p>For a full list of suitable Activities for Early School Leavers please refer to <a href="#">Attachment B</a>.</p>
<b>Verifying educational qualifications</b>  <b>Deed Reference:</b> <b>Clause 105</b>	<p>Only the Department of Human Services can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. For the purposes of verification, the Department of Human Services will accept:</p> <ul style="list-style-type: none"> <li>• a Year 12 Certificate issued by a Senior Secondary Board of Studies or an 'equivalent qualification', being: <ul style="list-style-type: none"> <li>○ an Australian Qualification Framework Certificate III;</li> <li>○ a higher qualification issued by a Registered Training Organisation or higher educational institution;</li> <li>○ a Certificate III or IV of General Education for Adults;</li> <li>○ the International Baccalaureate; or</li> <li>○ other higher education pre-entry course.</li> </ul> </li> </ul> <p>Providers <b>must</b> fax the Department of Human Services' Business Hotline on 1300 786 102 to have an Early School Leaver's qualifications verified, using the cover sheet at <a href="#">Attachment D</a> together with:</p>

Process	Details
	<ul style="list-style-type: none"> <li>• a copy of the original relevant qualification (having sighted the original), or if the original qualification has been lost or destroyed: <ul style="list-style-type: none"> <li>○ a certified true copy of the qualification; or</li> <li>○ a letter from the relevant education institution formally verifying attainment of the qualification; or</li> </ul> </li> <li>• if none of the above can be obtained, a statutory declaration by Early School Leaver detailing the name of the course, date completed, institution and institution contact details.</li> </ul> <p>Providers <b>should not</b> send verification to the Department of Human Services where the education level is below Year 12.</p> <p>The Provider <b>should</b> also update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver’s newly advised higher level of educational attainment.</p> <p>If the Department of Human Services does not verify the qualification, they will contact the Provider. Providers <b>must</b> then contact the Early School Leaver to advise them of the reason why the qualification was not verified by the Department of Human Services.</p>

## Job Searches

Process	Details
<p><b>Job Search requirements</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 113</b></p>	<p>Providers <b>must</b> determine the appropriate number of Job Searches a job seeker is required to undertake per month and specify this in the job seeker’s Job Plan.</p> <p>Providers <b>must</b> set the number of Job Searches required in accordance with the Deed, this Guideline and Social Security Law.</p> <p>The number of Job Searches generally expected to be undertaken by job seekers (including Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) is:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers—20 Job Searches per month</li> <li>• for Stream C job seekers—Job Search depends on capacity</li> <li>• for job seekers aged 60 years and over (regardless of Stream)—Job Search depends on capacity.</li> </ul> <p>Early School Leavers who are not meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) <b>must</b> have up to 20 Job Searches each month in their Job Plan as well as other approved Activities (refer page 11).</p> <p>All job seekers cannot be required to undertake more than 20 Job Searches per month.</p> <p>Job seekers with Mutual Obligation Requirements will usually have to look for work or undertake work in order to satisfy their Mutual Obligation Requirements. The minimum number of hours for most job seekers with full-time Mutual Obligation Requirements is 70 hours per fortnight. For job seekers aged 55 years and over, Principal Carer Parents and job seekers with a Partial Capacity to Work, the number of hours is 30 hours per fortnight.</p> <p><b>Setting Job Search requirements in the Job Plan</b></p> <p>When setting compulsory Job Searches, Providers <b>must</b> use the JS09 code. The Department will be actively monitoring Job Plans and would expect that:</p> <ul style="list-style-type: none"> <li>• for Stream A and Stream B job seekers, all Job Plans should contain JS09; and</li> <li>• for Stream C job seekers, most Job Plans should contain JS09—in some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.</li> </ul>

Process	Details
	For further information refer to <a href="#">Guide to Social Security Law 3.2.9.30</a> .
<p><b>Reasons Providers may reduce the number of Job Searches</b></p> <p>Guide <a href="#">Social Security Law: 3.2.9.30</a></p>	<p><b>For All Job Seekers</b></p> <p>There are some prescribed circumstances in which the number of Job Searches may be reduced. Providers may reduce the number of Job Searches as a result of a job seeker's:</p> <ul style="list-style-type: none"> <li>• physical, intellectual or psychiatric impairment;</li> <li>• alcohol or drug abuse, where this is likely to impede Job Search;</li> <li>• substantially elevated level of family and caring responsibilities;</li> <li>• accommodation situation, where this is likely to impede Job Search;</li> <li>• education or skill level, where this is likely to substantially limit job opportunities;</li> <li>• current Employment status (Part-Time or casual work);</li> <li>• domestic violence (including family violence) or family relationship breakdown (the Department of Human Services may also grant an Exemption from Mutual Obligation Requirements in these circumstances);</li> <li>• final three months of pregnancy;</li> <li>• level of English language skills, where the job seeker is undertaking a course to improve these skills;</li> <li>• cultural factors;</li> <li>• the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).</li> </ul> <p>For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to a metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.</p> <p>Providers <b>must</b> not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities—in particular study or during the Work for the Dole Phase.</p> <p><b>Pregnant job seekers</b></p> <p>During the three months before a pregnant job seeker's expected due date they will not be required to undertake Job Search. During this time Providers cannot compel these job seekers to accept job offers or referrals to job interviews.</p> <p><b>Language, Literacy and Numeracy courses</b></p> <p>For those job seekers who Providers have identified as needing to improve their Language Literacy and Numeracy skills, Providers may reduce the number of Job Searches during but not remove job searches for the period when the job seeker is actively participating in a Language Literacy and Numeracy course. The job seeker would need to be undertaking the Skills for Education and Employment (SEE) programme, Adult Migrant English Programme (AMEP) or another accredited Language Literacy and Numeracy course. However, Providers must ensure that the job seeker has some Job Search recorded in their Job Plan while participating in these programmes.</p> <p><b>For Stream C job seekers and job seekers aged 60 years and over</b></p> <p>The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depends on their capacity. However, in general they would be expected to undertake 10 Job</p>

Process	Details
	<p>Searches per month.</p> <p>In setting an appropriate number of Job Searches, in addition to the considerations outlined above, Providers may also consider the extent to which:</p> <ul style="list-style-type: none"> <li>• other non-vocational issues or vocational issues are being, or have been, addressed; and</li> <li>• whether the job seeker has undertaken re-skilling or re-training.</li> </ul> <p>For Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation programme.</p> <p>The number of Job Searches required of Stream C job seekers would be expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.</p> <p><b>Paid work</b></p> <p>For job seekers with full-time Mutual Obligation Requirements:</p> <ul style="list-style-type: none"> <li>• if undertaking at least 40 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved (if the job seeker is undertaking a significant number of hours of paid work per week and receiving only a residual amount of income support, Providers have the discretion to reduce the number of Job Search further); and</li> <li>• if undertaking at least 70 hours of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.</li> </ul> <p>For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):</p> <ul style="list-style-type: none"> <li>• if undertaking 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved; and</li> <li>• if undertaking 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.</li> </ul> <p><b>Other circumstances</b></p> <p>Providers <b>must not</b> include Job Search requirements for Early School Leavers undertaking appropriate hours of education or training as part of meeting their Mutual Obligation Requirements, or for Early School Leavers who are also Principal Carer Parents or have a Partial Capacity to Work of 15-29 hours per fortnight and are fully meeting their part-time Mutual Obligation Requirements. However, Early School Leavers with full-time Mutual Obligation Requirements who are not engaged in education or education in combination with paid work for 25 hours a week <b>must</b> have a compulsory requirement to look for up to 20 jobs each month included in their Job Plans.</p> <p>Providers <b>must not</b> include Job Search requirements for job seekers while they are undertaking <b>NEIS Training</b> or the <b>NEIS Programme</b>.</p> <p>Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week who are fully meeting their part-time Mutual Obligation Requirements <b>must not</b> have any Job Search requirements included in their Job Plans.</p> <p>Job seekers <b>aged 55 years and over</b> who are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work <b>must not</b> have Job Search requirements included in their Job Plans.</p>
<p><b>Defining 'Suitable work'</b></p> <p><b>Guide to Social</b></p>	<p>Job seekers <b>must</b> actively look for work and be prepared to accept any offer of suitable work in a variety of fields. 'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent</p>

Process	Details
<p><b><u>Security Law</u></b> <b><u>3.2.8.60</u></b></p>	<p>and Part-Time or Full-Time work (depending on the job seeker's assessed capacity).</p> <p>Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations. Job seekers are therefore required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.</p> <p>Work is unsuitable if it:</p> <ul style="list-style-type: none"> <li>• would aggravate a job seeker's medical illness, disability or injury;</li> <li>• is above the job seeker's assessed work capacity within the next two years with Intervention;</li> <li>• does not meet the applicable statutory conditions of work;</li> <li>• requires the person to change their place of residence where they are unwilling to move;</li> <li>• involves unreasonable commuting time from home to work (more than 60 minutes one way for Principal Carer Parents and those with a Partial Capacity to Work and more than 90 minutes one way for other job seekers); or</li> <li>• involves skills the job seeker does not possess and appropriate training will not be provided by the employer.</li> </ul> <p><b>Unsuitable work for Principal Carer Parents</b></p> <p>Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers <b>should</b> consider whether:</p> <ul style="list-style-type: none"> <li>• the Principal Carer Parent has access to appropriate care and supervision for their Child/Children during the times when the Principal Carer Parent would be required to work;</li> <li>• the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable; and</li> <li>• the Principal Carer Parent will be financially better off as a result of undertaking the work. Refer to the <a href="#">Financial Suitability Test</a> section of this guideline for further information.</li> </ul> <p>Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their Children at the times when they would be required to work. See the <a href="#">Guide to Social Security Law 3.2.8.50</a> for further information.</p> <p>Accordingly, where a job offer would involve employment outside school hours or on school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work, including the time it would take the Principal Carer Parent to travel to and from work. Suitable care and supervision means:</p> <ul style="list-style-type: none"> <li>• child care provided by an approved child care service (within the meaning of the <i>Family Assistance Administration Act 1999</i>);</li> <li>• any other care or supervision arrangements that the parent deems suitable; or</li> <li>• where the child is attending school.</li> </ul> <p><b>Unsuitable work for job seekers with a Partial Capacity to Work</b></p> <p>Additionally, work will be unsuitable for job seekers with a Partial Capacity to Work if:</p> <ul style="list-style-type: none"> <li>• it does not provide appropriate support or facilities to take account of the illness, disability or injury; or</li> <li>• the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required</li> </ul>

Process	Details
	for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's normal means of transport.

## Annual Activity Requirement

Process	Details
<b>Defining Annual Activity Requirement</b>	<p>The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.</p> <p><b>Timing of the Work for the Dole Phase</b></p> <p>From 1 July 2015 to 30 September 2016:</p> <ul style="list-style-type: none"> <li>all Stream A job seekers, as well as Stronger Participation Incentives (SPI) Participants in Stream A or Stream B, entered the Work for the Dole Phase after six months in their first year of service and every subsequent year that they remain unemployed. Where they entered the Work for the Dole Phase for the first time by 30 September 2016, if they are still unemployed, their second Work for the Dole Phase will commence after they have been in jobactive for 18 months, and so on.</li> <li>all other Stream B and Stream C job seekers entered the Work from the Dole Phase for the first time after 12 months, with their second Work for the Dole Phase when they have been in jobactive for two years, and so on.</li> </ul> <p>From 1 October 2016, all job seekers who have not already commenced in the Work for the Dole Phase for the first time will start in that Phase after they have been in jobactive for 12 months, with their second Work for the Dole Phase after two years and so on.</p> <p><b>Setting Annual Activity Requirements</b></p> <p>All job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.</p> <p>After consultation with the job seeker, Providers <b>must</b> determine the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law. The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.</p> <p>When placing job seekers into Activities, the Provider <b>must</b> prioritise job seekers with Mutual Obligation Requirements over other job seekers.</p> <p>Early School Leavers with full-time Mutual Obligation Requirements typically need to undertake 25 hours a week of approved Activities, so the concept of an Annual Activity Requirement is not applicable as they are participating in this level of Activities all the time.</p> <p>Job seekers with no Annual Activity Requirement include:</p> <ul style="list-style-type: none"> <li>job seekers aged 60 years and over;</li> <li>job seekers who are fully meeting their part-time Mutual Obligation Requirements, please refer to the <a href="#">Activities that can fully meet Mutual Obligation Requirements for some job seekers</a> section of this Guideline;</li> <li>job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or</li> </ul>

Process	Details
	<p>approved Voluntary Work;</p> <ul style="list-style-type: none"> <li>• job seekers with a Partial Capacity to Work or Temporary Reduced Work Capacity of 0 to 14 hours per week; and</li> <li>• job seekers with Community Service Orders of 20 or more hours per week.</li> </ul>
<p><b>Activities that enable a job seeker to meet their Annual Activity Requirement</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 107</b> <b>Clause 108</b> <b>Clause 109</b></p>	<p>In addition to Work for the Dole, the other approved Activities that will enable a job seeker to meet their Annual Activity Requirement are:</p> <ul style="list-style-type: none"> <li>• Part-Time Employment;</li> <li>• National Work Experience Programme Placements;</li> <li>• Voluntary Work;</li> <li>• Study/training (part-time or full-time) which meets approved short course conditions (see the 'Approved short courses - <a href="#">When can study be approved as an activity</a>' section of this guideline) and must be in: <ul style="list-style-type: none"> <li>○ a Certificate III course or higher (but not a Masters or Doctorate course); or</li> <li>○ a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement);</li> </ul> </li> <li>• accredited language, literacy and numeracy courses, which can include: <ul style="list-style-type: none"> <li>○ the Skills for Education and Employment programme; or</li> <li>○ Adult Migrant English Programme;</li> </ul> </li> <li>• Defence Reserves;</li> <li>• other government programmes, including state government programmes, the Green Army Programme and 'Exploring Being My Own Boss' Workshops; or</li> <li>• non-government programmes approved for Annual Activity Requirement purposes (refer to the <a href="#">Activity Management Guideline</a> for more information).</li> </ul> <p><b>Job Seekers aged under 18</b></p> <p>Job seekers aged under 18 with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme; however, may undertake any other Activity to meet their Annual Activity Requirement subject to the eligibility criteria of that Activity.</p> <p><b>Job Seekers aged 18-49 years</b></p> <p>For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:</p> <ul style="list-style-type: none"> <li>• arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement; or</li> <li>• are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.</li> </ul> <p><b>Job Seekers aged 50-59 years</b></p> <p>Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p>

Process	Details
	<p><b>Principal Carer Parents and job seekers with a Partial Capacity to Work</b></p> <p>Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may choose to undertake Work for the Dole or other approved Activities to meet their Annual Activity Requirement.</p> <p><b>Commencement in Activities</b></p> <p>Regardless of the Activity type, Providers <b>must</b> commence job seekers who have an Annual Activity Requirement in an Activity as soon as possible after entering the Work for the Dole Phase.</p> <p>Time to commence a job seeker in Work for the Dole or another Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework Guideline</a>.</p> <p>For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the <a href="#">Activity Management Guideline</a>.</p> <p>Job seekers may also undertake a combination of the Activities listed above where it is deemed suitable or necessary by the Provider. For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.</p> <p><b>Activities that do not count towards the Annual Activity Requirement</b></p> <p>There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:</p> <ul style="list-style-type: none"> <li>• non-accredited education and training</li> <li>• Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)</li> <li>• Study outside of the approved short course conditions (including Masters and Doctorate courses)</li> <li>• non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.</li> </ul> <p><b>Community Service Orders</b></p> <p>Job seekers with Community Service Orders of 20 hours or more are exempt from having Mutual Obligation Requirements. If a job seeker has a Community Service Order of under 20 hours a week (i.e. part time) they still have Mutual Obligation Requirements; however, the Community Service Orders should take precedence. If these job seekers are in the Work for the Dole phase they will still need to meet their Annual Activity Requirement in addition to their Community Service Order.</p> <p>Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the <a href="#">Activity Management Guideline</a>.</p>
<p><b>Hours of participation to meet the Annual Activity Requirement</b></p>	<p>The number of hours of participation in approved Activities that a job seeker requires in order to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.</p> <p>Providers <b>must</b> ensure job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Participation is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, refer to the <a href="#">Performance Framework</a></p>

Process	Details
	<p><a href="#">Guideline</a>.</p> <p>Providers <b>must</b> consider the number of hours specified below when determining a job seeker's Annual Activity Requirement.</p> <p><b>Job seekers with full-time Mutual Obligation Requirements</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: generally <b>must</b> participate for 650 hours over 26 weeks (50 hours per fortnight)</li> <li>• Aged 30 to 59: generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight)</li> </ul> <p><b>Job seekers with part-time Mutual Obligation Requirements: Principal Carer Parent and Partial Capacity to Work (15–29 hours per week)</b></p> <ul style="list-style-type: none"> <li>• Aged under 30 years: generally <b>must</b> participate for 390 hours over 26 weeks (30 hours per fortnight).</li> <li>• Aged 30 to 59: in most circumstances <b>must</b> participate for 200 hours over 26 weeks (15 to 16 hours per fortnight)</li> </ul> <p><b>Defence Reserves</b></p> <p>For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).</p> <p><b>Annual Activity Requirement Calculator</b></p> <p>The Annual Activity Requirement Calculator can be found on the Department's IT System and provides information on how many hours of participation job seekers will need to complete to meet their Annual Activity Requirement. See the <a href="#">Department's IT Systems Online</a> Help for more information on how to access the Annual Activity Requirement Calculator.</p> <p><b>Study/training hours</b></p> <p><b>Full-time load</b></p> <p>Where a job seeker is undertaking a full-time study load as indicated by the training provider, then the study can meet their fortnightly hours requirement for the fortnights in which they are doing full-time study. This is regardless of the actual contact hours undertaken. For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.</p> <p>This includes full-time participation in SEE or AMEP training.</p> <p><b>Non-contact hours</b></p> <p>Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.</p> <p>For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. However, where the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will need to be undertaken to meet the Annual Activity Requirement.</p>

Process	Details
<p><b>Setting required hours in the Activity Diary</b></p> <p>Deed Reference: <b>Clause 107</b></p>	<p><b>Work for the Dole</b></p> <p>For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers <b>must</b> use the Activity Diary to record the job seeker’s required participation, start and finish times as notified to the job seeker.</p> <p><b>Other Approved Activities</b></p> <p>Providers are encouraged to use the Activity Diary to set required hours for all Activities.</p> <p>For further information regarding how to set a job seeker’s required hours in the Activity Diary, refer to the Activity Diary user Guide on the <a href="#">Learning Centre Website</a>.</p>
<p><b>Recording job seeker participation against the Annual Activity Requirement</b></p> <p>Deed Reference: <b>Clause 107</b></p>	<p>For job seekers with an Annual Activity Requirement, Providers <b>must</b> record all hours of attendance using either the Activity Diary or the Monthly Hours section of the AAR Details screen of the Department’s IT System.</p> <p>For all Activity types, the Provider <b>must</b> negotiate with the Supervisor the most appropriate recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This <b>should</b> reflect the Host Organisation’s normal business practices. For short breaks, these may form part of the job seeker’s normal hours of participation, and count toward their Annual Activity Requirement.</p> <p>For further information regarding how to record attendance in the Activity Diary, refer to the Department’s <a href="#">Activity Diary and AAR Details IT Supporting Document</a> and the <a href="#">IT Systems Online Help</a>.</p> <p><b>Mobile Supervisor App</b></p> <p>Supervisors are able to use the Mobile Supervisor App to record job seeker’s attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the <a href="#">Work for the Dole IT Supporting Document</a>.</p> <p><b>Work for the Dole</b></p> <p>For Work for the Dole Activities, Providers <b>must</b> record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This <b>should</b> be done within 10 Business Days of the job seeker’s scheduled participation (this should not be done as a monthly bulk entry).</p> <p><b>Other approved Activities</b></p> <p>For all other approved activities, hours of attendance or attendance results, to meet the Annual Activity Requirement <b>must</b> be recorded either:</p> <ul style="list-style-type: none"> <li>• through the Activity Diary (the same process as for Work for the Dole activities); or</li> <li>• via the AAR Details (Recording Monthly AAR Hours) screen (as a total number of hours).</li> </ul> <p>Providers are also encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.</p> <p>For job seekers not doing Work for the Dole, Providers <b>are encouraged to</b> record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation. Providers <b>must</b> record the hours completed by the job seeker in all approved activities during the Work for the Dole Phase within 10 business days of a job seeker exiting the Work for the Dole phase or when they exit the provider’s caseload (e.g. exiting from jobactive or transferring to another provider). If nothing has been entered into the system within this timeframe, the job seeker’s required hours will be recorded as zero for that period.</p>

Process	Details
<p><b>Recording completion of the Annual Activity Requirement</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 107</b></p>	<p>At the end of the Work for the Dole Phase, Providers <b>must</b> ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement. Providers have up to 10 business days from when a job seeker exits the Work for the Dole phase or when they exit the provider's caseload (e.g. exiting from jobactive or transferring to another provider) to enter hours of participation that the job seeker undertook within the phase.</p> <p>Where the total hours recorded are equal to or greater than the job seeker's required Annual Activity Requirement hours, the AAR Details screen will display that the Annual Activity Requirement has been met and the Provider is not required to take any further action.</p> <p>Where the recorded hours are lower than the required Annual Activity Requirement hours and the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 10 Business Days of the end of the Work for the Dole Phase:</p> <ul style="list-style-type: none"> <li>• select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement; and</li> <li>• record that the Annual Activity Requirement has been met.</li> </ul> <p>Where the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will be considered not to have met their Annual Activity Requirement.</p> <p>For further information regarding how to record the Annual Activity Requirement, refer to the Department's <a href="#">IT Systems Online Help</a>.</p>
<p><b>Meeting the Annual Activity Requirement early</b></p>	<p><b>Within the Work for the Dole Phase</b></p> <p>Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:</p> <ul style="list-style-type: none"> <li>• any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan; and</li> <li>• job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement.</li> </ul> <p>Job seekers <b>should</b> not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.</p> <p>If the Annual Activity Requirement is completed early, the Provider <b>must</b> ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any appropriate activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.</p> <p><b>Early Commencement for Stream A job seekers whose first Work for the Dole Phase started before 1 October 2016</b></p> <p>The following arrangements apply only to Stream A job seekers whose first work for the Dole</p>

Process	Details
	<p>Phase started before 1 October 2016.</p> <p>In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.</p> <p>For early participation to count towards meeting their Annual Activity Requirement, these job seekers must:</p> <ul style="list-style-type: none"> <li>• participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12 month period); and</li> <li>• during this continuous participation, complete the relevant number of fortnightly hours required to meet their Annual Activity Requirement.</li> </ul> <p>The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.</p> <p>The Work for the Dole Phase can be brought forward for all stream job seekers after 6 months (but before 12 months) of job active services if the Provider considers the job seeker is not benefiting from, or actively participating in interventions/ services designed to improve their employment prospects.</p>
<p><b>Change of circumstances during the Work for the Dole Phase</b></p>	<p>Where a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation <b>must</b> match their new requirement.</p> <p>For example, when a job seeker who is 29 and has an overall requirement of 650 hours turns 30 while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they would have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.</p>
<p><b>Undertaking a Compliance Activity during the Work for the Dole Phase</b></p>	<p>If a job seeker is undertaking a Compliance Activity (under the job seeker compliance framework) either before entering into or during the Work for the Dole Phase, they will still be required to undertake their full Annual Activity Requirement separate to their Compliance Activity requirement; that is, the Compliance Activity will not count toward meeting their Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase, the job seeker will need to complete their remaining Annual Activity Requirement hours in the following Case Management Period.</p>
<p><b>Participation in the Green Army Programme</b></p>	<p>If a job seeker is participating in the Green Army Programme, they will generally be suspended from jobactive for the duration of their Green Army programme's participation. Please refer to the <a href="#">Period of Service, Suspensions and Exits Guideline</a>. Where a job seeker is in the Work for the Dole phase when they commence in the Green Army Programme and has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will meet their Annual Activity Requirement.</p> <p>Note: If a job seeker is in the Work for the Dole phase and commences in the Green Army programme, but they do not complete the programme, the number of hours they completed in the programme can also count towards their Annual Activity Requirement. In these cases, providers can</p>

Process	Details
	record these hours under 'Other Approved Programmes' in the Monthly Hours Summary.

### Additional information

Process	Details
<b>Breaks in Activities</b>	<p>There will be times when a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements. In this case, Providers <b>must</b> update a job seeker's Job Plan with other Activities that the job seeker must undertake to meet their Mutual Obligation Requirements.</p> <p>There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker is required to undertake other approved Activities, such as Job Search, for the period of the break. The Job Plan should be revised to include the adjusted requirements.</p> <p>Separate rules apply to Principal Carer Parents and job seekers with a Partial Capacity to Work when they are undertaking casual part-time paid employment to fully meet their part-time Mutual Obligation Requirements.</p> <p>For further information these rules refer to <a href="#">Guide to Social Security Law 3.5.1.70</a>.</p>
<b>Sufficient Work Test</b>  <a href="#">Guide to Social Security Law 3.2.2.10</a>	<p>The decision that a person is doing sufficient work would generally be restricted to cases where a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). Where there is significant variation in hours worked and earnings from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements <b>must</b> be determined on a fortnightly basis.</p> <p>The conditions for satisfying the sufficient work test also apply to self-employment. Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. Where self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.</p> <p>Providers are required to document a job seeker's satisfactory participation in self-employment as per the <a href="#">Documentary Evidence Guidelines</a>. If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support, will not satisfy the Mutual Obligation Requirements and, therefore, will not qualify for income support payments.</p>
<b>Approved Short Courses - when can study be approved as an activity</b>	<p>Most people who undertake Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to first test their eligibility for a student payment with the Department of Human Services.</p> <p><b>Approved Short Courses</b></p> <p>Recipients of job seeker income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.</p> <p>Providers can approve participation in a short course of education or training if they determine that participation is necessary and the course is:</p> <ul style="list-style-type: none"> <li>• vocationally orientated;</li> <li>• less than 12 months (two semesters) in duration; and</li> <li>• highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified area of skills shortage.</li> </ul>

Process	Details
	<p>Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region, as there is no defined list.</p> <p>Full-time courses of 12 months (two semesters) or longer in duration, Masters courses and Doctorate courses cannot be approved under short course conditions.</p> <p>Tertiary study can only be an approved short course if:</p> <ul style="list-style-type: none"> <li>• the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects;</li> <li>• the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement for the academic course (or a longer course—that is, 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course;</li> <li>• the job seeker is in receipt of Parenting Payment Single (this would usually be approved by the Department of Human Services); or</li> <li>• the job seeker was a Parenting Payment recipient who transferred to Newstart Allowance or Youth Allowance (other) (and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other)) who is continuing their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by the Department of Human Services) for which they receive the Pensioner Education Supplement (PES) for.</li> </ul> <p>Where a Provider approves the Activity as an approved short course and includes it on a compulsory basis in the job seeker’s Job Plan, job seekers are still required to look for and accept work, attend appointments with their provider, but not where it conflicts with the scheduled time of the course. However, job seekers are required to accept any suitable work that does not conflict with scheduled course times and are not permitted to limit their Job Searches only to areas relating to the course. Principal Carer Parents and job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight are considered to be fully meeting their part-time Mutual Obligation Requirements and will be suspended from their Provider’s caseload. Refer to the <a href="#">Activities to Meet Mutual Obligation Requirements</a> for some job seekers section of this guideline.</p> <p>For information regarding the circumstances under which Providers may fund an education or training course, refer to the <a href="#">Employment Fund General Account Guideline</a>.</p>
<p><b>Exemptions</b></p>	<p>There are some circumstances where a job seeker may be temporarily unable to meet their Mutual Obligation Requirements. Under Social Security law, the Department of Human Services may grant the job seeker an Exemption from their requirements for a specified period. This recognises the different family and personal situations that job seekers face and that may prevent them from participating in job search, paid work, Work for the Dole, vocational training or other Activities. In the first instance, the Department of Human Services will usually look to reduce a job seeker’s Mutual Obligation Requirements, rather than exempting them completely.</p> <p>If a Provider believes that the job seeker does not have capacity to undertake any job search or other approved Activity and should be considered for an Exemption from their Mutual Obligation Requirements, the job seeker should be advised to contact the Department of Human Services to test their eligibility for an Exemption. Job seekers need to provide any evidence supporting their claim to the Department of Human Services. For example, an appropriate medical certificate from</p>

Process	Details
	<p>their doctor, if they are applying for a medical Exemption.</p> <p>If a job seeker is granted an Exemption, they will be Suspended from a Provider's caseload for the duration of the Exemption (some job seekers with longer-term Exemptions may be Exited from a Provider's caseload). However, job seekers may voluntarily choose to continue with Employment Provider Services for the period of their Exemption.</p> <p>For further information on these and other Exemptions refer to the <a href="#">Guide to Social Security Law 3.2.11</a>.</p> <p>Some of the specific Exemptions that providers <b>should</b> be aware of are:</p> <p><b>Domestic violence</b></p> <p>Exemptions may be granted where a job seeker is subject to domestic violence (including family violence). If the job seeker is a Principal Carer Parent and subject to domestic violence, an Exemption must be granted by the Department of Human Services.</p> <p>In situations where there is any suspicion of domestic violence, Providers <b>must</b> refer the job seeker to a Department of Human Services social worker. Providers should also refer a job seeker to the range of national and state-based organisations that offer advice and information concerning domestic violence.</p> <p><b>Pregnant Job Seekers</b></p> <p>Once a pregnant job seeker is six weeks from their expected due date, the Department of Human Services will grant the job seeker an Exemption from their Mutual Obligation Requirements.</p>

## Job Plan

Process	Details
<p><b>What is a Job Plan?</b></p> <p><b>Deed Reference:</b> <b>Annexure A1</b></p>	<p>The Job Plan is the key document which outlines all the agreed Activities that the job seeker is required to undertake to satisfy their Mutual Obligation Requirements under Social Security Law and help get them into paid work.</p> <p>The Job Plan <b>must</b> be recorded in the Department's IT System. Note: For the purposes of Social Security Law, a Job Plan is an 'employment pathway plan'; and a 'participation plan' for Disability Support Pension recipients with compulsory requirements.</p> <p>For further information on Job Plans for Disability Support Pension recipients with compulsory requirements see the <a href="#">Disability Support Pension Recipients (Compulsory Requirements) Guideline</a>.</p>
<p><b>Who must have a Job Plan?</b></p> <p><b>Deed Reference:</b> <b>Annexure A1</b> <b>Clause 87</b></p>	<p>Providers <b>must</b> ensure that all job seekers have a current Job Plan in place at all times.</p> <p><b>Job Plans (compulsory)</b></p> <p>Under Social Security Law, job seekers receiving the following income support payments with Mutual Obligation Requirements <b>must</b> enter into a Job Plan to remain qualified to receive payment:</p> <ul style="list-style-type: none"> <li>• Newstart Allowance</li> <li>• Youth Allowance (other)</li> <li>• Parenting Payment Single (when the youngest child turns six )</li> <li>• Special Benefit (Nominated Visa Holders)</li> <li>• Disability Support Pension (Participants under the age of 35 with compulsory participation requirements).</li> </ul> <p><b>Job Plans (voluntary)</b></p> <p>Job seekers without Mutual Obligation Requirements, such as those volunteering to participate in employment services programmes and other Fully Eligible Participants, including Vulnerable Youth</p>

Process	Details
	<p>and Special Benefit recipients who are not Nominated Visa Holders, must also enter into a Job Plan (voluntary).</p> <p>ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext Provider. As such, jobactive Providers <b>must not</b> create or edit a Job Plan for ParentsNext Volunteers.</p>
<p><b>Who can consult on and approve and vary a Job Plan?</b></p>	<p>Providers are Delegates of the Secretary of the Department of Employment and have the power to:</p> <ul style="list-style-type: none"> <li>• require a job seeker with Mutual Obligation Requirements to enter into a Job Plan;</li> <li>• approve a Job Plan; and</li> <li>• vary the terms of a Job Plan.</li> </ul> <p>The Department of Human Services may also update a Job Plan when required. If the job seeker is managed by a Provider, the Department of Human Services will consult with the relevant Provider prior to updating the Job Plan or may request the Provider to update the Job Plan at the job seeker's next Appointment. A provider <b>should not</b> remove any updates made to a Job Plan by the Department of Human Services without consultation.</p>
<p><b>When must a Job Plan be created, reviewed and updated?</b></p> <p>Deed Reference: Annexure A1 Clause 87</p>	<p>An initial Job Plan <b>must</b> be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.</p> <p>Providers <b>must</b> regularly review, and update, as required, the Job Plan to ensure all requirements are up to date and remain relevant, including:</p> <ul style="list-style-type: none"> <li>• when the job seeker's circumstances change;</li> <li>• when the job seeker enters into a new phase of their Stream;</li> <li>• when the job seeker enters in to a new Stream;</li> <li>• when a job seeker commences a new Activity;</li> <li>• when the job seeker completes an Activity that was in their Job Plan; and</li> <li>• if the job seeker decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the job seeker compliance framework.</li> </ul> <p>If a Participation Plan for ParentsNext Volunteers requires review or update, Providers must contact the participant's ParentsNext Provider.</p>
<p><b>What are suitable approved Activities for inclusion in a Job Plan?</b></p> <p>Deed Reference: Annexure A1 Clause 87</p>	<p>Refer to the <a href="#">Guide to Social Security 3.2.8.50</a> or the <a href="#">Mutual Obligation Requirements</a> section of this guideline for a list of the types of Activities that can be included in a Job Plan.</p> <p>Job seekers with Mutual Obligation Requirements may have compulsory and voluntary Activities in their Job Plan. There <b>must</b> be at least one compulsory Activity as voluntary Activities are not subject to the job seeker compliance framework and job seekers will not be at risk of incurring a penalty if they do not participate in such Activities.</p> <p>Providers <b>must</b> identify a job seeker's strengths and any issues they have relating to finding employment. They <b>must</b> ensure that the details of any vocational and non-vocational Activities are specified tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help them overcome any vocational barriers and non-vocational barriers.</p> <p><b>Job seekers fully meeting their Mutual Obligation Requirements</b></p> <p>Any Fully Eligible Participant (Voluntary) who is fully meeting their requirements and has chosen to access Services on a voluntary basis must have a compulsory (rather than voluntary) Job Plan. Any</p>

Process	Details
	additional Activities they agree to be included in their Job Plan while voluntarily accessing Services must be included in their Job Plan as a voluntary Activity only.
<p><b>Who can have a voluntary Job Plan and what should be included in a voluntary Job Plan?</b></p>	<p>Volunteers and job seekers exempt from their Mutual Obligation Requirements will have a voluntary Job Plan.</p> <p>Fully Eligible Participants without Mutual Obligation Requirements can undertake the same Activities as other job seekers; however, these Activities <b>must</b> be included as voluntary Activities in the Volunteer’s Job Plan.</p> <p>The voluntary Job Plan will include voluntary Activities discussed and agreed to based on the individual’s circumstances and reason for registering for employment services. In most cases, this will include Appointments with the Provider and other voluntary Activities, such as Job Search, education or other skills development, or other Activities to improve their employability.</p> <p>All Activities <b>must</b> be included as voluntary Activities in the Job Plan, and will not be subject to the job seeker compliance framework if they do not participate in these Activities.</p>
<p><b>What must be explained to the job seeker?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 97.2</b></p>	<p>Providers <b>must</b> explain the Job Plan to each job seeker including:</p> <ul style="list-style-type: none"> <li>• the purpose of the Job Plan;</li> <li>• the job seeker’s rights and responsibilities under the Job Plan (including that they have two Business Days ‘think time’ to consider the requirements outlined in their Job Plan before accepting it);</li> <li>• what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan;</li> <li>• the consequences of failing to meet those requirements, and any impact on the job seeker’s income support payment;</li> <li>• the consequences of the job seeker failing to give prior Notice (with a Valid Reason) when they cannot attend compulsory Appointments or participate in compulsory Activities;</li> <li>• their right to appeal decisions and where they can find assistance;</li> <li>• how the Provider intends to support the job seeker;</li> <li>• the Service Guarantee and Service Delivery Plan;</li> <li>• the section entitled ‘Information You Need to Know’ in the Job Plan; and</li> <li>• how their information is protected under privacy legislation and under Social Security Law.</li> </ul> <p>When a job seeker requests or where the Provider considers it appropriate, Providers <b>must</b> use an Interpreter to ensure that the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.</p> <p>Job seekers may also bring a third party to the appointment to discuss the terms of the Job Plan if they wish.</p> <p>Under Social Security Law, job seekers <b>must</b> be formally notified of the date, time, location and other additional requirements for attending Appointments and participating in Activities, such as requiring work boots. See the <a href="#">Job Seeker Compliance Framework Guideline</a> for additional information.</p> <p><b>Sharing Job Plans with SEE/AMEP Providers</b></p> <p>Providers should encourage job seekers who are participating in SEE or AMEP to share their Job Plans with their SEE or AMEP providers. This ensures that their SEE or AMEP provider is aware of the job seeker’s requirements and can, if available place the job seeker in a SEE or AMEP course with sufficient hours for the job seeker to meet fully their Annual Activity Requirement (refer to ‘Hours of participation to meet the Annual Activity Requirement – study/training hours’ section of this Guideline).</p>

Process	Details
<p><b>How is a Job Plan created and updated?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87.2</b></p>	<p><b>Using the Department's IT Systems</b></p> <p>The Job Plan <b>must</b> be created and recorded using the Department's IT Systems unless the Department's IT Systems are temporarily unavailable or there is no computer access. In this case, Providers must use the compulsory/voluntary Job Plan template (whichever is applicable) available on the Provider Portal.</p> <p>Details of the Activities included <b>must</b> be entered into the Department's IT Systems as soon as possible after the Job Plan is created.</p> <p>The contents of the Job Plan recorded in the Department's IT Systems must be exactly the same as the hardcopy Job Plan.</p> <p><b>Using Job Plan codes</b></p> <p>Providers <b>must</b> use the comprehensive list of available codes at <a href="#">Attachment C</a>, as they have been developed to be consistent with legislative requirements. This will enable pre-population and linkages through the Department's IT Systems, the Job Seeker's Dashboard on the jobactive powered by JobSearch website (the jobactive website) and also the Department of Human Services' IT system.</p> <p>When setting compulsory Job Search Requirements, Providers <b>must</b> use the Job Search Requirements (JS09) code. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. This will enable Providers to monitor the setting of Job Search Requirements across their caseload. The Department will also actively monitor the setting of Job Search Requirements.</p> <p>Where applicable, Providers <b>must</b> also use the JS05 or JS06 (Job Search with Disability) codes, as these trigger the higher rate of Mobility Allowance for job seekers who are eligible to continue to qualify for the higher rate of Mobility Allowance whilst looking for work, under grandfathering provisions from 1 January 2017. <i>[The 1 January 2017 change to the Qualification for Mobility Allowance is subject to the passage of legislation. In the event of a delay in the passage of legislation, this change will commence on 1 July 2017]. Details can be found at <a href="https://www.humanservices.gov.au/corporate/budget/budget-2016-17/disability-and-carers/mobility-allowance">https://www.humanservices.gov.au/corporate/budget/budget-2016-17/disability-and-carers/mobility-allowance</a>.]</i></p> <p>The Free text code can only be used where no available code covers an Activity that the Provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and as such is viewable to Providers and the Department of Human Services.</p> <p><b>Linking Job Plan Codes to Activity Placements</b></p> <p>Activity placements can be linked to Job Plan codes in Activity Diary in the Department's IT System. It is best practice that Providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from Activity Diary. Providers will also be able to record attendance results in the Activity Diary.</p>
<p><b>How is a Job Plan approved?</b></p> <p><b>Deed Reference:</b></p> <p><b>Annexure A1</b></p> <p><b>Clause 87.2</b></p>	<p>Once the terms of the Job Plan have been determined and the Job Plan created in the Department's IT Systems, the Job Plan <b>must</b> be provided to the job seeker for their agreement.</p> <p>Job Plans can be agreed to online or by signing a hard copy.</p> <p><b>Job seeker agreement—online</b></p> <p>Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree online. If the Provider decides to use this option they <b>must</b> ensure that the job seeker has access to and is aware of how to agree to the terms of the Job Plan on their Dashboard.</p> <p>For all job seekers (including those with voluntary Mutual Obligation Requirements) Providers <b>must</b></p>

Process	Details
	<p>formally notify the job seeker (either face to face or over the phone) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement within two Business Days of sending the Job Plan. The verbal formal notification script will display in the Department's IT Systems for their Provider to read to the job seeker. This includes a compliance warning that <b>must</b> be given to job seekers (with Mutual Obligation Requirements) if they do not agree to the Job Plan within two Business Days.</p> <p>If the job seeker has not agreed to the Job Plan online within the two Business Days the provider should consider whether submitting a Participation Report is appropriate. For further information refer to the <a href="#">Job seeker Compliance Framework Guideline</a>.</p> <p>When the job seeker agrees to the Job Plan, this will automatically result in the Job Plan's status being set to 'approved' in the Department's IT Systems.</p> <p><b>Job seeker agreement—hard copy</b></p> <p>Providers <b>must</b> approve the Job Plan in the Department's IT Systems as soon as the job seeker and the Provider have signed the Job Plan.</p> <p>Providers must provide a copy of the signed Job Plan to the job seeker.</p> <p>Note: once the Job Plan has been approved, the job seeker can access it on their Job Seeker Dashboard.</p>
<p><b>What happens if the job seeker refuses/fails to agree to a Job Plan?</b></p>	<p>If the Job Plan is not approved, no action is possible under the compliance framework for failure to meet compulsory Activities recorded in the Job Plan.</p> <p>Therefore, if the job seeker refuses to sign a Job Plan (and does not wish to use 'think time', see below), the Provider should discuss with the job seeker their obligation, the consequences of not agreeing to a Job Plan, and record in the Department's IT Systems the discussion with the job seeker. If the job seeker has Mutual Obligation Requirements and still refuses to sign a Job Plan the Provider <b>should</b> submit a Participation Report.</p> <p><b>Think time</b></p> <p>Prior to signing or accepting a Job Plan, job seekers with or without Mutual Obligation Requirements must be given two Business Days 'think time' to consider the proposed requirements of the Job Plan or to discuss them with a third party if they wish to do so.</p> <p>Where the job seeker decides to take up the two Business Days 'think time', the provider <b>should</b> book another Appointment with the job seeker after two Business Days.</p> <p>If the job seeker does not attend the appointment or refuses to accept the Job Plan online, or sign a hard copy of the Job Plan, after two Business Days 'think Time' the provider <b>should</b> consider whether submitting a Participation Report is appropriate.</p> <p>If the job seeker attends the Appointment but fails to agree to the Job Plan without a good reason their payment may be cancelled by the Department of Human Services until they do agree to a Job Plan.</p> <p>A job seeker can only utilise 'think time' once each time a Job Plan is created or updated.</p> <p>See the <a href="#">Job Seeker Compliance Framework Guideline</a> for more information on submitting Participation Reports.</p>

### Additional information

Process	Details
<p><b>Intervention Management</b></p>	<p>The Intervention Management Tool in the Job Plan section of the Department's IT System is an optional tool for Providers. It can be used to review and manage a job seeker's personal</p>

Process	Details
<p><b>Tool</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 38</b></p>	<p>circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including any identified by the job seeker.</p> <p>The Intervention Management Tool can help Providers to:</p> <ul style="list-style-type: none"> <li>• ensure that the job seeker has Activities in the Job Plan appropriate to their circumstances;</li> <li>• include Employment Services Assessment recommended Interventions in the Job Plan; and</li> <li>• record additional vocational or non-vocational issues.</li> </ul> <p>Note: In case job seekers request access to their Records contained in the Intervention Management Tool, Providers <b>should</b> familiarise themselves with relevant Deed provisions.</p>
<p><b>Non-government programmes approved for Annual Activity Requirement purposes</b></p>	<p>Providers <b>must</b> use the Free Text code and the following statement when entering details of a non-government programme approved for Annual Activity Requirement purposes into a job seeker's Job Plan – see sample text below.</p> <p>FTXT— I agree to undertake XXX (name of programme) for [X] hours per fortnight with [Organisation] from [Start Date] to [End Date].</p>
<p><b>Contact and Non-contact study hours for Annual Activity Requirement purposes</b></p>	<p>Providers <b>must</b> use the Free Text field under the Study - Part-Time or Full-Time (ET59) code when entering details of contact and non-contact study hours into a job seeker's Job Plan where this study is being used to meet or contribute towards meeting the Annual Activity Requirement— see sample text below.</p> <p>The hours of study will include [X] contact hours and [X] non-contact hours per fortnight.</p>
<p><b>Privacy and information sharing</b></p> <p><b>Deed Reference:</b></p> <p><b>Clause 35</b></p>	<p>The Deed requires Providers to comply with Australian privacy legislation. A job seeker's Personal Information <b>must</b> only be used or disclosed for the purpose for which it was collected, except in limited circumstances such as where: the job seeker gives permission, where Commonwealth laws allow it, or in other special circumstances.</p> <p>Providers <b>must</b> also ensure that they comply with Social Security Law.</p> <p>Providers <b>should</b> seek independent legal advice if they have any concerns regarding their obligations under any relevant privacy, or any other relevant, legislation.</p>

### Notes:

- Principal Carer Parents with the youngest child aged six years or over have to meet part time Mutual Obligation Requirements. A Principal Carer Parent can choose to fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of (or any combination of) suitable paid work and / or approved study (where the total number of hours includes contact and non-contact hours). In limited circumstances, a Principal Carer Parent is also able to meet their part-time Mutual Obligation Requirements through Voluntary Work alone, or in combination, with paid work or study for 30 hours per fortnight— refer to the [activities that can meet part-time Mutual Obligation Requirements](#) section of this Guideline.
- Job seekers with a Partial Capacity to Work can fully meet their Mutual Obligation Requirements by undertaking 30 hours per fortnight of study and/or paid work.
- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- All job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

- Job Seekers who participate in the Green Army Programme (aged 18 to 24 years) will generally stop receiving income support and be Suspended from Employment Services. Where a job seeker has successfully completed their participation on a Green Army project in accordance with the rules of the Green Army Programme, this participation will count towards meeting their Annual Activity Requirement. Different rules apply to Principal Carer Parents and those with a Partial Capacity to Work.
- Principal Carer Parents on Parenting Payment Single on the Age Pension do not have Mutual Obligation Requirements.

Document 23

## • ATTACHMENT B

### MUTUAL OBLIGATION REQUIREMENTS FOR EARLY SCHOOL LEAVERS

Activities to Meet Early School Leaver Requirements	Suitable Job Search
Full time education or training	No job search
Combination of part-time education/training and part-time paid work for required number (i.e. 25 or 15) hours per week.	No job search
Other approved Activities for required number (i.e. 25 or 15) hours per week.	Up to 20 job searches

- Where an Early School Leaver is not participating in a full-time education or training course (or not fully meeting their part-time Mutual Obligation Requirements), they are required to undertake 25 hours a week (15 hours per week for Early School Leavers who are also Principal Carer Parents or job seekers with a Partial Capacity to Work of 15 to 29 hours per week) of either:
  - part-time education and part-time work; or
  - other suitable Activities, in addition to compulsory job search requirements of up to 20 per month.
- If a Certificate III course is not considered to be appropriate for the Early School Leaver based on their circumstances, an Early School Leaver may undertake a Certificate I or II course if participation in this lower level course will help them to go on to complete their Year 12 or a Certificate III or above qualification. The job seeker will continue to be considered an Early School Leaver until a Year 12 or equivalent Certificate III level of education is attained or they turn 22 years of age.
- Early School Leavers who are enrolled and commenced in an approved education or training course cannot be compelled to accept work if it would interfere with their current or future study. Providers may refer Early School Leavers to an employment opportunity when the position does not conflict with the Early School Leaver's education or training Activities (if any). Similarly, Early School Leavers can be required to accept a job if it does not interfere with their current or future education or training Activities.

#### **Job Search**

- Jobactive providers **must** include job search requirements in the Job Plan of an Early School Leaver if they are not in full-time education, or a combination of part-time education and part-time work, for the required number of hours per week.
- However, if the Early School Leaver is meeting their requirements through full-time education and training or a combination of part-time education and training and part-time work for the required number of hours per week (25 hours for those with full-time requirements/15 hours for those with part-time requirements) they **should not** have job search requirements in their Job Plan.

#### **Skills for Education and Employment, Adult Migrant English Programme or other accredited Language, Literacy and Numeracy training**

- Early School Leavers can also participate in programmes such as the Skills for Education and Employment programme and other programmes that help build foundation skills.
- Full-time participation in the Skills for Education and Employment or the Adult Migrant English Programme will satisfy an Early School Leaver's requirements.
- Part-time study will count towards an Early School Leaver's requirements if undertaken with part-time work totalling 25 hours per week (15 hours per week for Early School Leavers who are also Principal Carer Parents or job seekers with a Partial Capacity to Work of 15 to 29 hours per week).

#### **Paid work**

- Paid work can include self-employment and may count towards meeting an Early School Leaver's mutual obligation requirements, where undertaken in combination with part-time education or training.
- Early School Leavers who are undertaking an approved education or training course cannot be compelled to accept work if it would interfere with their study.

## Attachment D – Early School Leaver Facsimile Cover Sheet

Early School Leaver - Facsimile Cover Sheet

Fax to: DHS Business Hotline **1300 786 102**

### Verification of Year 12 or equivalent qualification (Office use only: CBHESL)

Attached to this Verification Facsimile Cover Sheet is evidence of a completed Year 12 or equivalent qualification (i.e. Certificate III or higher) for:

Job seeker's name

CRN

#### Declaration by Provider

I have sighted:

*(tick as to which applies)*

the original qualification

a certified true copy of the qualification

a letter from the relevant school or educational institution formally verifying attainment of the qualification

a Statutory Declaration detailing the name of the course, date completed, institution and institution contact details.

Signed: \_\_\_\_\_

Name (Please print): \_\_\_\_\_

Organisation: \_\_\_\_\_

Office telephone & fax numbers: \_\_\_\_\_

Number of pages (including cover sheet): \_\_\_\_\_

Guideline:

# Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

The job seeker's Job Plan outlines the items that will satisfy their Mutual Obligation Requirements and any other items agreed with their Employment Provider (provider). All job seekers, including job seekers without Mutual Obligation Requirements, must have a Job Plan which is created, reviewed and updated by their provider in consultation with the job seeker.

Version: 2.1

Published on: 22 February 2017

Effective from: 27 March 2017

---

Changes from the previous version (Mutual Obligation Requirements and Job Plan Guideline v1.2)

**Policy changes:**

Inclusion of Youth Jobs PaTH Employability Skills Training and PaTH Internships as approved activities.

**Wording changes:**

Re-written into new template.

Renaming of Guideline from Mutual Obligation Requirements and Job Plan Guideline.

## 1. Defining Mutual Obligation Requirements

Job seekers on the following income support payments must meet their Mutual Obligation Requirements to receive their income support payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker income support payments are generally paid in fortnightly instalments, therefore job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering the job seeker's:

- age
- assessed work capacity
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing their individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements:

- Principal Carer Parents whose youngest child is at least 6 years of age
- Job seekers with a Partial Capacity to Work of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all provider appointments
- acting on referrals to jobs from their provider and attend job interviews offered by Employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity at any time that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities and items can be used to meet a job seeker's Mutual Obligation Requirements. For a list of items that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10 Suitable Activities](#). Also refer to [Attachment B](#) Job Plan codes, for a comprehensive range of suitable items to meet a job seeker's Mutual Obligation Requirements.

The items job seekers undertake must be included in their Job Plan as either a compulsory or voluntary item. There must be at least one compulsory item included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary items are not subject to the job seeker compliance framework.

If a job seeker fails to meet their Mutual Obligation Requirements, the provider can take appropriate action within the [Job Seeker Compliance Framework Guideline](#) or use their discretion to ensure job seekers meet their Mutual Obligation Requirements.

## Determining Mutual Obligation Requirements

Providers must identify a job seeker's strengths and identify any issues they have in finding employment when determining Mutual Obligation Requirements. They must ensure any vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant). Providers must create Activities designed to help job seekers overcome or manage any vocational and non-vocational issues. See [Guide to Social Security Law 3.2.8.50](#) for a list of the types of items that can be included in a Job Plan.

The items in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any item and meeting all requirements included in their Job Plan.

After consulting with the job seeker, providers must determine the items to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Employment, employment services provider staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation requirements under Social Security Law.

Providers must record the Activities and other relevant items in the job seeker's Job Plan, including the hours of participation the job seeker needs to complete each fortnight.

Under Social Security Law, job seekers must be formally notified of the dates, times and location for attending appointments and participating in Activities, along with additional relevant requirements such as wearing work boots.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, providers must consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age
- the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person's ability to work, look for work or participate in Activities
- the state of the local labour market and the transport options available to the person in accessing that market
- the participation opportunities and Activities available to the person
- their family and care responsibilities (including availability of child care)

- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes)
- the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown.
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake of approved Activities in the Work for the Dole Phase
- any other matters that the provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).

(Guide to Social Security 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, the provider must review any barriers identified through an Employment Services Assessment or Job Capacity Assessment, or other issues disclosed to the provider. The Job Seeker Classification Instrument and intervention management tool may also help identify personal issues that may affect a job seeker's employability. These will help the provider decide on Activities and other items required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Providers can find information on a job seeker's circumstances in the Participation Profile screen of the Department's IT system.

#### Using the *intervention management tool* to review a job seeker's circumstances

The *intervention management tool* in the Job Plan section of the Department's IT System is an optional tool for providers. It can be used to review and manage a job seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including those disclosed by the job seeker.

The *intervention management tool* can help providers to:

- ensure that the job seeker has items in the Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their Records in the *intervention management tool*.

(Deed references: Clause 38, 87, Annexure A1)

### *Continuing voluntarily in Employment Provider Services*

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their provider or book an Appointment for them
- directly contacting their provider to request Services.

If a job seeker who is suspended from employment services elects to voluntarily participate in Employment Services, the provider must provide Services to the job seeker.

If a job seeker who is fully meeting their Mutual obligation Requirements participates voluntarily in Employment Services, providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional items included in the Job Plan must be added as voluntary terms.

### *Principal Carer Parents - employer initiated shut down period over the long school holiday break*

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the long school holiday Christmas/New Year period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in shutdown period.

### Mutual Obligation Requirements for Principal Carer Parents

Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed by the Principal Carer Parent.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below)
- participation in the Green Army Programme, or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the provider determines the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the voluntary work.

The Voluntary Work must be in an organisation approved by the DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to do any Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider), if participation in the approved activity is likely to be ongoing, or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Where a Principal Carer Parent is either aged 55 years or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

#### *Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods*

If a Principal Carer Parent is unable to obtain suitable child care during the school holiday period, the provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent would not be required to attend Work for the Dole or another activity outside of their home during the school holidays where appropriate care and supervision of their children is not available/affordable.

For example, while Principal Carers are not required to attend face-to-face appointments with their provider during school holidays, they can engage with their provider through other means, such as by telephone or via Skype/face-time etc. Job search can also be conducted from home, or the provider may also decide to reduce job search requirements over the school holiday period, while the Principal Carer is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

#### *Inability to obtain suitable child care is a Valid Reason or Reasonable Excuse.*

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. If this occurs alternative requirements must be set to enable the job seeker to meet their Mutual Obligation requirements.

#### *Mutual Obligation Requirements for job seekers with a Partial Capacity to Work*

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Employment Service.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study, participating in the Green Army Program or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a provider and will be suspended on a provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Employment Provider), if participation in the approved activity is likely to be ongoing, or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

### Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seeker's may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved items and the level of participation in the Job Plan.

A provider may consider that a medical condition will temporarily impact upon a job seeker, but the job seeker does not have a temporary reduced work capacity in the Department's IT system. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a provider and will be Suspended from the provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed

manually by the Employment Provider), if participation in the approved activity is likely to be ongoing, or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers aged 55 years and over can meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a provider but will be Suspended on a provider's caseload. However, providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the provider for job seekers aged 55 years and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the Compliance Framework. See Job Seeker Compliance Framework Guideline.

### Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

#### *Monitoring by the Department of Human Services for job seekers fully meeting their requirements*

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the provider's caseload.

#### *Sufficient work test*

The decision that a person is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours, and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirement and other Approved Activities section](#) of this guideline (or the Documentary Evidence Guideline).

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

### Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent (Australian Qualifications Framework Certificate III level or above).

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training (no job search requirement)
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), (no job search requirement)
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake job search. For further information on these programs, refer to [Youth Jobs PaTH Employability Skills Training \(EST\)](#) (effective from April 2017) of this guideline.

Once an Early School Leaver has completed Year 12 (or an equivalent qualification) or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

### *Verification of an Early School Leaver's qualifications*

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III

- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with [Attachment C](#). If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The declaration must include the name of the course, date completed, name of institution and institution contact details. (Do not send verification requests to DHS if the education level is below Year 12.)

If DHS does not verify the qualification, they will contact the provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

Where verified by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for Pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

### Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in job search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include (but are not limited to) the following situations:

- temporary medical incapacity
- serious illness

- pre and post natal
- children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a provider believes the job seeker does not have capacity to meet their Mutual Obligation Requirements, the job seeker should contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a provider's caseload. However, job seekers may voluntarily choose to continue participating with Employment Services.

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### *Job seekers subject to domestic violence*

If there is any suspicion of domestic violence (including family violence) then providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

If a job seeker is subject to domestic violence (including family violence), DHS can grant the job seeker an Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

### *Suitable Items to meet Mutual Obligation Requirements (including the Annual Activity Requirement)*

Providers must consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Providers must include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements. In the Work for the Dole Phase, the Job Plan must include appropriate hours of participation in approved Activities each fortnight during that phase.

Depending on a job seeker's circumstances, there are a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

## Approved Programs of Work

Job seekers over the age of 18 can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers are:

- Work for the Dole
- the National Work Experience Program
- the Green Army Program

Approved Programs of Work can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is aged under 18 years, or 60 years and over.

In all other circumstances, Work for the Dole and the Green Army can be included as a compulsory Activity in the job seeker's Job Plan.

## Work for the Dole

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances (except for job seekers under 18 years). However job seekers in these circumstances can be compelled to take on another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnights income support payment rate on the Department's IT system Notification screen. If a job seeker returns to the full rate of income support, the provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole activity then a provider should consider replacing it with an alternative compulsory activity so the job seeker can meet their Annual Activity Requirement. For example,

the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Program

The National Work Experience Program provides voluntary short-term placements, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Green Army Program

Job seekers participating in the Green Army Program will generally be suspended from jobactive for the duration of their participation. See the Period of Service, Suspensions and Exits Guideline.

If a job seeker is in the Work for the Dole Phase when they start in the Green Army Program, and they complete their participation project in accordance with the rules of the Green Army Program, they will meet their Annual Activity Requirement. If they do not complete the program, the number of hours they have completed can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Program' in the Monthly Hours Summary.

### Youth Jobs PaTH Employability Skills Training (EST) (effective from April 2017)

A job seeker is Employability Skills Training (EST) Eligible if they are aged between 15 and 24 years receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with a full time Mutual Obligation Requirement and 15 hours per week over five weeks for job seekers with a part-time Mutual Obligation Requirement.

Providers must consider the suitability of EST for EST Eligible job seekers once they have received services through jobactive for five months.

At this point, their provider has discretion not to refer a job seeker (for whom EST would otherwise be compulsory) to an EST Course or include EST as a compulsory Activity in the Job Plan if the provider considers that the job seeker:

- has non-vocational issues that must be addressed first as a priority before they can benefit from the training. This could include language issues, health issues or family problems
- already demonstrates employability skills (such as through having relevant recent workforce experience or already having a part time job)
- has already completed similar training.

Job seekers who are EST Eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in ESS Web when job seekers have been serviced through jobactive for five months. The Activity Management Guideline provides

details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents and those with Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity - for information on how to do this refer to the jobactive EST IT Supporting Document. Job seekers participating in EST Courses are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course's hours, then a more suitable Activity should be considered.

#### PaTH Internship Placements (effective from April 2017)

Young job seekers aged 17–24 years, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

For example: a job seeker can do six months in jobactive; or two months in DES and then four months in jobactive to reach the six months servicing.

Early School Leavers will be able to participate in a PaTH Internship (after continuous servicing) PaTH Internship placements can only be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the provider should place them in an alternative compulsory Activity.

See the Managing PaTH Internships for further information.

#### Approved study and short courses

Most people who undertake approved Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to test their eligibility for a student payment with DHS.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

#### *Determining what is an appropriate course of study*

Providers can approve a job seeker's participation in tertiary study or training under the following short course provisions:

- vocationally based
- less than 12 months (two semesters) in duration
- the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects
- the provider determines participation is necessary and the course is vocationally orientated

- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in demand area (determined by the provider)
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) (and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES) for.

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters courses or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 job searches per month.

### *Approving a Short Course*

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

Where a provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their provider as long as it does not conflict with the scheduled time of the course. They are required to accept any suitable work that does not

conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the provider's caseload.

For information about providers deciding to fund an education or training course, see the Employment Fund General Account Guideline

## Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements then the provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. Update the Job Plan with the new requirements.

(Guide to Social Security 3.5.1.70)

---

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and Part-Time or Full-time work (depending on the job seeker's assessed capacity). Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have, and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work, and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces

- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their Child/Children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their children at the times when they would be required to work.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- child care provided by an approved child care service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable, or
- the child is attending school.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job ; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Providers must set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline, and Social Security Law. Providers must specify this in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirement

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- Job seekers aged 55 years and over

Pregnant job seekers will not be required to undertake Job Search from three months before their due date.

Job seekers undertaking NEIS Training or who are NEIS Participants will not be required to undertake Job Search.

Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Providers must not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities- in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- alcohol or drug abuse, where this is likely to impede Job Search
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current Employment status (part-time or casual work)

- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

(Guide to Social Security 3.2.9.30)

#### Job Search requirements while studying Language, Literacy and Numeracy courses

If a provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers aged 60 years and over

The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depend on their capacity. Generally, 10 Job Searches per month are expected.

In setting an appropriate number of Job Searches, in addition to other considerations, providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re skilling or re- training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation program.

For Stream C job seekers the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and

receiving only a residual amount of income support, the number of Job Searches may be reduced further.

- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

#### Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and Participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

### Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

### Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

#### Job seekers with no Annual Activity Requirement

- job seekers aged 60 years and over
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours a fortnight

- job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week

Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT Systems Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Aged under 30 years: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- Aged 30 to 59: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Aged under 30 years: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- Aged 30 to 59: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).

### Participation in the Green Army Program

If a job seeker is in the Work for the Dole Phase when they commence in the Green Army Program, and they complete participation in accordance with the rules of the Green Army Program, they will meet their Annual Activity Requirement.

If the job seeker does not complete the program, the number of hours they do complete can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Programs' in the Monthly Hours Summary of the Activity Diary in ESS Web.

If a job seeker is participating in the Green Army Program, they will generally be Suspended from jobactive for the duration of their Green Army program's participation. Please refer to the [Period of Service, Suspensions and Exits Guideline](#).

## Participation hours in study/training

### Full-time load

If the training provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hours requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.

### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.

### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will also need to be undertaken.

**System step:** For study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

## Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 29 years of age and has an overall requirement of 650 hours turns 30 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

## Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline, and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- Part-Time Employment
- National Work Experience Program
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Voluntary Work
- Study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- non-vocational assistance and Interventions (but only for Stream C job seekers)
- Defence Reserves
- other government programs, including NEIS, Green Army, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), Work for the Dole Guideline, and Managing PaTH Internships Guideline.

(Deed references: Clauses 107, 108, 109)

### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- Study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.

(Deed references: Clauses 107, 108, 109)

## Considerations when selecting Activities to meet Annual Activity Requirement

### Job seekers aged under 18 years

Job seekers aged under 18 years with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Program.

(Deed references: Clauses 107, 108, 109)

### Job seekers aged 15-24 years

Employability Skills Training (EST) is available to eligible job seekers aged between 15 to 24 years who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers aged 17–24 years, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hours requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the Activity Management Guideline and Managing PaTH Internships Guideline.

### Job seekers aged 18-49 years

For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

### Job seekers aged 50-59 years

Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements. However, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Job seekers undertaking a Compliance Activity during the Work for the Dole Phase

The Compliance Activity will not count toward meeting a job seeker's Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase they are still required to undertake their full Annual Activity Requirement hours, however the job seeker can, if required, complete outstanding Annual Activity Requirement hours in the following Case Management phase.

### Placing the jobseeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For Stream C job seekers, participation for the relevant number of hours in non-vocational assistance and interventions will meet their Annual Activity Requirement.

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#).

(Deed references: Clauses 107, 108, 109)

## Setting the required hours in the Activity Diary

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, providers must use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, providers are encouraged to use the Activity Diary to set the required hours for all Activities.

For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the Activity Diary user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

## Recording job seeker participation against the Annual Activity Requirement

**System step:** For job seekers with an Annual Activity Requirement, providers must record all hours of attendance in approved Activities using either the Activity Diary or the Monthly Hours section of the AAR Details screen of the Department's IT System. The following must be recorded:

- the number of hours completed by the job seeker during that month
- confirmation of whether the job seeker has completed the required hours for that month
- in addition, for study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

For further information regarding how to record attendance in the Activity Diary, refer to the Department's [Activity Diary and AAR Details IT Supporting Document](#) and the [IT Systems Online Help](#).

(Deed reference: Clause 107)

EST providers will enter course details into the Activity Management component of ESS Web. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

## Recording participation via the Mobile Supervisor App

Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST providers use a Supervisor App to record job seekers attendance at EST courses. Refer to the jobactive EST IT Supporting Document for details.

**Documentary evidence:** Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

### Recording of Work for the Dole participation in the Activity Diary

**System step:** For Work for the Dole Activities, providers must record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This should be done within 10 Business Days of the job seeker's scheduled participation. This should not be done as a monthly bulk entry.

(Deed reference: Clause 107)

### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement must be recorded either:

- through the Activity Diary (the same process as for Work for the Dole activities) or,
- via the AAR Details (Recording Monthly AAR Hours) screen (as a total number of hours).

Providers are encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.

For job seekers not doing Work for the Dole, providers are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation.

Providers must record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 10 business days after a job seeker exits the Work for the Dole Phase, or exits the provider's caseload (for example, exiting from jobactive or transferring to another provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, providers must ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 10 business days from when a job seeker exits the Work for the Dole Phase or when they exit the provider's caseload (e.g. exiting from

jobactive or transferring to another provider) to enter hours of participation that the job seeker undertook within the Phase.

The provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the provider must within 10 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Program Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining

part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

#### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after 6 months (but before 12 months) of jobactive services if the provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

#### Early Commencement for Stream A job seekers whose first Work for the Dole Phase started before 1 October 2016

*The following arrangements apply only to Stream A job seekers whose first work for the Dole Phase started before 1 October 2016.*

In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.

For early participation to count towards meeting their Annual Activity Requirement, these job seekers must:

- participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12 month period)
- during this continuous participation, complete the relevant number of fortnightly hours required to meet their Annual Activity Requirement.

The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.

#### Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT system, providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work the National Work Experience Program and PaTH Internships.
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income

support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked.

- Additionally, documentary evidence for self-employment can include:
  - a Profit and Loss Statement
  - a signed and dated written statement from an accountant and/or registered bookkeeper
  - copies of records from the Australian Taxation Office and/or a tax return statement.

---

## 5. Creating and Approving a Job Seeker's Job Plan

(For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, aged under 35 years, with compulsory requirements).

Providers must ensure that all job seekers have a Job Plan in place at all times.

A Job Plan must be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.

Providers must consult with the job seeker and identify a job seeker's strengths and any issues they have relating to finding employment. They must ensure that the details of any specified vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help the job seeker overcome any vocational and non-vocational issues.

Providers must set suitable Activities for job seekers according to their Mutual Obligation Requirements. These Activities need to be included in the job seeker's Job Plan. This includes Activities to meet the Annual Activity Requirement, if relevant.

Refer to the [Guide to Social Security 3.2.8.50](#) or the [Mutual Obligation Requirements](#) section of this guideline to determine what to include in a Job Plan.

### Explaining a Job Plan to the job seeker

The Job Plan outlines all the agreed items that the job seeker is required to do to satisfy their Mutual Obligation Requirements or will be doing voluntarily and which will help get them into paid work.

Providers must explain to the job seeker:

- the purpose of the Job Plan
- if applicable, the Mutual Obligation Requirements the job seeker needs to undertake in return for income support
- the job seeker's rights and responsibilities under the Job Plan (including 'thinking time' to consider the Job Plan before accepting it)
- what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan

- the consequences of failing to meet the requirements, and any impact on the job seeker's income support payment
- the consequences of not giving Notice (with a Valid Reason) if they cannot attend compulsory Appointments or participate in compulsory Activities
- their right to appeal decisions and where they can find assistance
- how the provider intends to support the job seeker
- the Service Guarantee and Service Delivery Plan
- the section entitled 'Information You Need To Know' in the Job Plan, and
- how information is protected under privacy legislation and Social Security Law

(Deed references: Clause 97.2, Annexure A1)

### Interpreters and support persons

When a job seeker requests or where the provider considers it appropriate, providers must use an Interpreter to ensure the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.

### Job seeker requiring 'think time' to consider the terms of their Job Plan

Before signing or accepting a Job Plan, all job seekers may have two Business Days 'think time' to consider the requirements of the Job Plan. They may discuss them with a third party if they wish. The 'think time' can only be used once each time a Job Plan is created or updated.

If the job seeker wants to use the 'think time', the Provider should book another Appointment for two Business Days ahead.

### Job seekers with a Compulsory Job Plan

Job seekers with Mutual Obligation Requirements must have a compulsory Job Plan. Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to a provider. Providers will be able to view this in the Department's IT Systems.

There must be at least one compulsory item, as voluntary items are not subject to the job seeker compliance framework. No action can be taken under the compliance framework if the item is not recorded as compulsory.

Job seekers will not be at risk of incurring a penalty if they do not participate in voluntary items.

Job seekers who are fully meeting their Mutual Obligation Requirements, but have chosen to access jobactive on a voluntary basis are Fully Eligible Participants (Voluntary). These job seekers must have a compulsory Job Plan which includes the Activity they are undertaking to fully meet their requirements. Any additional items they agree to must only be included in their Job Plan as a voluntary item.

### Job seekers with a Voluntary Job Plan

Job seekers without Mutual Obligation Requirements, who are participating in jobactive, must have a voluntary Job Plan. These job seekers can be Volunteers receiving six months of service in Stream A or Fully Eligible Participants who don't

have Mutual Obligation Requirements and are participating voluntarily in jobactive such as:

- Structural Adjustment Program job seekers not on income support
- Pre-Release Prisoners
- job seekers with an Exemption
- job seeker with an assessed Partial Capacity to Work or a temporary reduced work capacity of less than 15 hours per week
- Vulnerable Youth or Vulnerable Youth (Student)
- Special Benefit recipients who are not Nominated Visa Holders.

Voluntary job plans can only include voluntary items as these job seekers do not have compulsory requirements and are not subject to the job seeker compliance framework if they do not participate in these items.

Note: Job Plan contents are discussed and agreed upon based on the individual's circumstances and their reason for registering for jobactive. Usually this will include Appointments with their provider, Job Search, education or other skills development, or other Activities to improve their employability.

#### *Job seekers participating in ParentsNext*

ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext provider. A jobactive provider must not create or edit a Job Plan for ParentsNext Volunteers.

#### Approving a Job Plan

Provider staff are Delegates of the Secretary of the Department of Employment and have the power to:

- require a job seeker with Mutual Obligation Requirements to enter into a Job Plan
- approve a Job Plan
- vary the terms of a Job Plan.

**Documentary evidence:** Once the terms of the Job Plan have been determined and the Job Plan created in the Department's IT System, the Job Plan must be provided to the job seeker for their agreement. Job Plans can be agreed to online or by signing a hard copy.

#### *Job seeker agreeing to the Job Plan – online*

**Documentary evidence:** Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree online. Before using this option check that the job seeker has access to the Job Plan on their Dashboard and know how to agree to it.

**Documentary evidence:** Providers must formally notify the job seeker (including those with voluntary requirements) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement. Do this either face to face or over the phone within two Business Days of sending the Job Plan. The verbal formal notification script is available on the Department's IT System for the provider to read to the job seeker. The script includes a compliance warning that must be given to job seekers

(with Mutual Obligation Requirements) about what will happen if they do not agree to the Job Plan within two Business Days.

When the job seeker agrees to the Job Plan, the Job Plan's status will automatically set to 'approved' in the Department's IT System.

#### Job seeker agreeing to the Job Plan – hard copy

The job seeker and the provider may sign a hard copy of the Job Plan. The provider must provide the job seeker with a signed copy and approve the Job Plan in the Department's IT System.

When the Job Plan has been approved and entered in the Department's IT System, the job seeker will be able to access it from their Job Seeker Dashboard.

#### Job Seeker not agreeing to the Job Plan

If the job seeker does not agree to the Job Plan without good reason, they may incur a penalty under the Job Seeker Compliance Framework. Their payment may be also be cancelled by DHS until they agree to a Job Plan.

If the job seeker refuses to sign a Job Plan (and does not wish to use their 'think time') the provider should discuss with the job seeker their obligations and the consequences of not agreeing to a Job Plan. Record the discussion in the Department's IT System. If the Job seeker has Mutual Obligation Requirements and refuses to sign a Job Plan the provider can consider submitting a Participation Report at the end of the 'think time'.

For further information see the Job seeker Compliance Framework Guideline.

(Deed references: Clause 97.2, Annexure A1)

#### Recording a Job Plan

**Documentary evidence:** The Job Plan must be recorded in the Department's IT System as soon as possible, after the Job Plan has been created. The contents of the Job Plan recorded in the Department's IT System must be exactly the same as the hardcopy.

If the Department's IT System is temporarily unavailable or there is no computer access, providers must use the applicable compulsory or voluntary Job Plan template available on the Provider Portal.

#### Using Job Plan codes

Providers must use the comprehensive list of codes at [Attachment C](#). These codes have been developed consistent with legislative requirements and will enable data to be pre-populated and linked through the Department's IT Systems to the Job Seeker's Dashboard on the jobactive website and the DHS' IT system.

Use the Job Search Requirements (JS09) code when setting compulsory Job Search requirements. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. Providers are able to monitor how Job Search Requirements are set across their caseload. The Department will also actively monitor how Job Search Requirements are set.

If applicable, providers must use the JS05 or JS06 (Job Search with Disability) codes. These codes will trigger the higher rate of Mobility Allowance.

The Free text code can only be used if no available code covers an Activity that the provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and can be viewed by providers and DHS.

Note: The Job Plan can be used as formal notification if it contains the full details of the Activity or Appointment. If the provider is unable to include all of the details at the time the Job Plan is created, then the provider must issue the job seeker with separate formal notification to support the requirements in the Job Plan. See the Job Seeker Compliance Framework Guideline for further information on how to record formal notification.

### Linking Job Plan Codes to Activity Placements

Activity placements can be linked to Job Plan codes in the Activity Diary in the Department's IT System. It is best practice that providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from Activity Diary. Providers will also be able to record attendance results in the Activity Diary.

---

## 6. Reviewing, Updating and Monitoring a Job Plan

Providers must set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline, and Social Security Law.

Providers must regularly review the Job Plan and update when required so as to ensure all requirements are up to date and remain relevant. Job Plans must be reviewed (if appropriate) and updated when the:

- job seeker's circumstances change
- job seeker enters into a new phase of their Stream
- job seeker enters in to a new Stream
- job seeker commences a new Activity
- job seeker completes an Activity that was in their Job Plan
- job seeker decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the Job Seeker Compliance Framework.

DHS may also update a Job Plan when required. If the job seeker is managed by a provider, DHS will consult with the relevant provider before updating the Job Plan or may request the provider to update the Job Plan at the job seeker's next Appointment. Providers should not remove any updates made to a Job Plan by DHS without consultation.

If a Participation Plan for ParentsNext Volunteers requires review or an update then providers must contact the participant's ParentsNext provider.

---

## 7. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission, or where Commonwealth laws allow, or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

## Sharing Job Plans with SEE or AMEP providers

Providers should encourage job seekers participating in a Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) to share their Job Plans with their SEE or AMEP providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP providers in ensuring they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

---

## 8. Summary of Required Documentary Evidence

### Job Plan

- The provider must create/update a Job Plan for each job seeker during the Initial Interview by entering the Job Plan in the Department's IT System.
- The provider must enter into the Job Plan the various requirements the job seeker will undertake and ensure that all information required under clause 87.5 of the jobactive Deed has been included in the Job Plan.
- Providers must ensure all job seekers enter into a Job Plan in a timely manner (within two Business Days, including 'think time'), either by signing a hard copy or by agreeing online through the jobactive website. Providers and job seekers can decide which method is used.
- For Job Plans that are signed in hard copy, providers must enter into the Department's IT System the date the Job Plan was signed and that the Job Plan has been approved. A copy must be retained by the provider.
- Job Plans that have been agreed to online by the job seeker will automatically set to 'approved'.

(Deed clause reference: Section B4)

### Notification to job seekers of their Mutual Obligation Requirements

- The provider must notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The provider must create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the provider is in direct contact with the job seeker, the provider must record as the notification method that the appointment was booked directly with the job seeker.
- Where an Activity or Appointment is rescheduled by the provider, formal notification must be issued to the job seeker of their new requirements.

Note: If the provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed clause reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT system, Employment providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work and the National Work Experience Program
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked.
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement
    - a Business Activity Statement.

Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

Providers must record job seeker's attendance at their internship and record the hours completed by the job seeker at the end of each month to ensure they counted against the job seeker's Annual Activity Requirement.

## Notes:

- NEIS Participants will not generally have an Annual Activity Requirement for the period they are participating in NEIS.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed).

This Guideline is not a stand-alone document and does not contain the entirety of Employment Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Employment under or in connection with the Deed.

Australian Government

Guideline:

# Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

The job seeker's Job Plan outlines the items that will satisfy their Mutual Obligation Requirements and any other items agreed with their Employment Provider (provider). All job seekers, including job seekers without Mutual Obligation Requirements, must have a Job Plan which is created, reviewed and updated by their provider in consultation with the job seeker.

Version: 2.2

Published on: 1 June 2017

Effective from: 1 June 2017

---

Changes from the previous version (Mutual Obligation Requirements and Job Plan Guideline 2.0)

**Policy changes:**

Inclusion of Work Experience (Other) as an approved activity..

**Wording changes:**

Clarification around NEIS Training and NEIS Assistance as an approved activity at pgs 21 and 45. .

Removing Managing Employability Skills Training Guideline from list of related documents and references. .

## 1. Defining Mutual Obligation Requirements

Job seekers on the following income support payments must meet their Mutual Obligation Requirements to receive their income support payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker income support payments are generally paid in fortnightly instalments, therefore job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving income support payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering the job seeker's:

- age
- assessed work capacity
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing their individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements:

- Principal Carer Parents whose youngest child is at least 6 years of age
- Job seekers with a Partial Capacity to Work of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all provider appointments
- acting on referrals to jobs from their provider and attend job interviews offered by Employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity at any time that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities and items can be used to meet a job seeker's Mutual Obligation Requirements. For a list of items that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10 Suitable Activities](#). Also refer to [Attachment B](#) Job Plan codes, for a comprehensive range of suitable items to meet a job seeker's Mutual Obligation Requirements.

The items job seekers undertake must be included in their Job Plan as either a compulsory or voluntary item. There must be at least one compulsory item included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary items are not subject to the job seeker compliance framework.

If a job seeker fails to meet their Mutual Obligation Requirements, the provider can take appropriate action within the [Job Seeker Compliance Framework Guideline](#) or use their discretion to ensure job seekers meet their Mutual Obligation Requirements.

## Determining Mutual Obligation Requirements

Providers must identify a job seeker's strengths and identify any issues they have in finding employment when determining Mutual Obligation Requirements. They must ensure any vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant). Providers must create Activities designed to help job seekers overcome or manage any vocational and non-vocational issues. See [Guide to Social Security Law 3.2.8.50](#) for a list of the types of items that can be included in a Job Plan.

The items in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any item and meeting all requirements included in their Job Plan.

After consulting with the job seeker, providers must determine the items to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Employment, employment services provider staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation requirements under Social Security Law.

Providers must record the Activities and other relevant items in the job seeker's Job Plan, including the hours of participation the job seeker needs to complete each fortnight.

Under Social Security Law, job seekers must be formally notified of the dates, times and location for attending appointments and participating in Activities, along with additional relevant requirements such as wearing work boots.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, providers must consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age
- the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person's ability to work, look for work or participate in Activities
- the state of the local labour market and the transport options available to the person in accessing that market
- the participation opportunities and Activities available to the person
- their family and care responsibilities (including availability of child care)

- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes)
- the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown.
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake of approved Activities in the Work for the Dole Phase
- any other matters that the provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).

(Guide to Social Security 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, the provider must review any barriers identified through an Employment Services Assessment or Job Capacity Assessment, or other issues disclosed to the provider. The Job Seeker Classification Instrument and intervention management tool may also help identify personal issues that may affect a job seeker's employability. These will help the provider decide on Activities and other items required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Providers can find information on a job seeker's circumstances in the Participation Profile screen of the Department's IT system.

#### Using the *intervention management tool* to review a job seeker's circumstances

The *intervention management tool* in the Job Plan section of the Department's IT System is an optional tool for providers. It can be used to review and manage a job seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including those disclosed by the job seeker.

The *intervention management tool* can help providers to:

- ensure that the job seeker has items in the Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their Records in the *intervention management tool*.

(Deed references: Clause 38, 87, Annexure A1)

### *Continuing voluntarily in Employment Provider Services*

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their provider or book an Appointment for them
- directly contacting their provider to request Services.

If a job seeker who is suspended from employment services elects to voluntarily participate in Employment Services, the provider must provide Services to the job seeker.

If a job seeker who is fully meeting their Mutual obligation Requirements participates voluntarily in Employment Services, providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional items included in the Job Plan must be added as voluntary terms.

### *Principal Carer Parents - employer initiated shut down period over the long school holiday break*

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the long school holiday Christmas/New Year period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in shutdown period.

### Mutual Obligation Requirements for Principal Carer Parents

Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed by the Principal Carer Parent.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below)
- participation in the Green Army Programme, or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the provider determines the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the voluntary work.

The Voluntary Work must be in an organisation approved by the DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to do any Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider), if participation in the approved activity is likely to be ongoing, or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Where a Principal Carer Parent is either aged 55 years or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable child care during the school holiday period, the provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent would not be required to attend Work for the Dole or another activity outside of their home during the school holidays where appropriate care and supervision of their children is not available/affordable.

For example, while Principal Carers are not required to attend face-to-face appointments with their provider during school holidays, they can engage with their provider through other means, such as by telephone or via Skype/face-time etc. Job search can also be conducted from home, or the provider may also decide to reduce job search requirements over the school holiday period, while the Principal Carer is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

### *Inability to obtain suitable child care is a Valid Reason or Reasonable Excuse.*

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. If this occurs alternative requirements must be set to enable the job seeker to meet their Mutual Obligation requirements.

### Mutual Obligation Requirements for job seekers with a Partial Capacity to Work

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention; however, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to

participate can be increased through participation in a suitable program of assistance or other appropriate Employment Service.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study, participating in the Green Army Program or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a provider and will be suspended on a provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Employment Provider), if participation in the approved activity is likely to be ongoing, or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

### Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seeker's may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved items and the level of participation in the Job Plan.

A provider may consider that a medical condition will temporarily impact upon a job seeker, but the job seeker does not have a temporary reduced work capacity in the Department's IT system. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a provider and will be Suspended from the provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Employment Provider), if participation in the approved activity is likely to be ongoing, or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers aged 55 years and over can meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a provider but will be Suspended on a provider's caseload. However, providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the provider for job seekers aged 55 years and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified provider Appointments, or who fail to accept referrals to jobs, may be subject to action under the Compliance Framework. See Job Seeker Compliance Framework Guideline.

### Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

### Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the provider's caseload.

### *Sufficient work test*

The decision that a person is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of

employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours, and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirement and other Approved Activities section](#) of this guideline (or the Documentary Evidence Guideline).

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

## Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12 (the final year of secondary school) or an equivalent (Australian Qualifications Framework Certificate III level or above).

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training (no job search requirement)
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), (no job search requirement)
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake job search. For further information on these programs, refer to [Youth Jobs PaTH Employability Skills Training \(EST\)](#) (effective from April 2017) of this guideline.

Once an Early School Leaver has completed Year 12 (or an equivalent qualification) or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

## Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III

- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with [Attachment C](#). If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The declaration must include the name of the course, date completed, name of institution and institution contact details. (Do not send verification requests to DHS if the education level is below Year 12.)

If DHS does not verify the qualification, they will contact the provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

Where verified by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for Pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

### Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in job search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include (but are not limited to) the following situations:

- temporary medical incapacity
- serious illness

- pre and post natal
- children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a provider believes the job seeker does not have capacity to meet their Mutual Obligation Requirements, the job seeker should contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a provider's caseload. However, job seekers may voluntarily choose to continue participating with Employment Services.

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

#### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

If a job seeker is subject to domestic violence (including family violence), DHS can grant the job seeker an Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

#### Suitable Items to meet Mutual Obligation Requirements (including the Annual Activity Requirement)

Providers must consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Providers must include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements. In the Work for the Dole Phase, the Job Plan must include appropriate hours of participation in approved Activities each fortnight during that phase.

Depending on a job seeker's circumstances, there are a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

## Approved Programs of Work

Job seekers over the age of 18 can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers are:

- Work for the Dole
- the National Work Experience Programme
- the Green Army Program

Approved Programs of Work can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is aged under 18 years, or 60 years and over.

In all other circumstances, Work for the Dole and the Green Army can be included as a compulsory Activity in the job seeker's Job Plan.

## Work for the Dole

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances (except for job seekers under 18 years). However job seekers in these circumstances can be compelled to take on another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnights income support payment rate on the Department's IT system Notification screen. If a job seeker returns to the full rate of income support, the provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole activity then a provider should consider replacing it with an alternative compulsory activity so the job seeker can meet their Annual Activity Requirement. For example,

the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers aged 18 years or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers aged 15 years or over, regardless of whether the job seeker is receiving an income support payment.

Participation in this activity can contribute towards a job seeker's mutual obligations, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Green Army Program

Job seekers participating in the Green Army Program will generally be suspended from jobactive for the duration of their participation. See the Period of Service, Suspensions and Exits Guideline.

If a job seeker is in the Work for the Dole Phase when they start in the Green Army Program, and they complete their participation project in accordance with the rules of the Green Army Program, they will meet their Annual Activity Requirement. If they do not complete the program, the number of hours they have completed can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Program' in the Monthly Hours Summary.

### Youth Jobs PaTH Employability Skills Training (EST) (effective from April 2017)

A job seeker is Employability Skills Training (EST) Eligible if they are aged between 15 and 24 years receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with a full time Mutual Obligation Requirement and 15 hours per week over five weeks for job seekers with a part-time Mutual Obligation Requirement.

Providers must consider the suitability of EST for EST Eligible job seekers once they have received services through jobactive for five months.

At this point, their provider has discretion not to refer a job seeker (for whom EST would otherwise be compulsory) to an EST Course or include EST as a compulsory Activity in the Job Plan if the provider considers that the job seeker:

- has non-vocational issues that must be addressed first as a priority before they can benefit from the training. This could include language issues, health issues or family problems
- already demonstrates employability skills (such as through having relevant recent workforce experience or already having a part time job)
- has already completed similar training.

Job seekers who are EST Eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in ESS Web when job seekers have been serviced through jobactive for five months. The Activity Management Guideline provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents and those with Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity - for information on how to do this refer to the jobactive EST IT Supporting Document. Job seekers participating in EST Courses are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course's hours, then a more suitable Activity should be considered.

#### PaTH Internship Placements (effective from April 2017)

Young job seekers aged 17–24 years, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

For example: a job seeker can do six months in jobactive; or two months in DES and then four months in jobactive to reach the six months servicing.

Early School Leavers will be able to participate in a PaTH Internship (after continuous servicing) PaTH Internship placements can only be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the provider should place them in an alternative compulsory Activity.

See the Managing PaTH Internships for further information.

#### Approved study and short courses

Most people who undertake approved Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to test their eligibility for a student payment with DHS.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

## Determining what is an appropriate course of study

Providers can approve a job seeker's participation in tertiary study or training under the following short course provisions:

- vocationally based
- less than 12 months (two semesters) in duration
- the job seeker has a semester (or six months full-time equivalent) remaining to complete their degree and the degree would greatly improve their Employment prospects
- the provider determines participation is necessary and the course is vocationally orientated
- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in demand area (determined by the provider)
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) (and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other)). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES) for.

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters courses or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a

Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 job searches per month.

### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

Where a provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their provider as long as it does not conflict with the scheduled time of the course. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the provider's caseload.

For information about providers deciding to fund an education or training course, see the Employment Fund General Account Guideline

### Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements then the provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. Update the Job Plan with the new requirements.

(Guide to Social Security 3.5.1.70)

---

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and Part-Time or Full-time work (depending on the job seeker's assessed capacity). Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have, and appropriate training will not be provided by the employer

- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work, and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their Child/Children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their children at the times when they would be required to work.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- child care provided by an approved child care service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable, or
- the child is attending school.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury

- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job ; disability aids required for participation in the job that are not covered by the Employer; and the cost of travel to and from the job by the job seeker's means of transport.

### 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Providers must set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline, and Social Security Law. Providers must specify this in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work. The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

#### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirement

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- Job seekers aged 55 years and over

Pregnant job seekers will not be required to undertake Job Search from three months before their due date.

NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training. .

NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.

Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

## Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

## Circumstances that may reduce Job Search requirements

Providers must not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities- in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- alcohol or drug abuse, where this is likely to impede Job Search
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current Employment status (part-time or casual work)
- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market (for example, taking into account travel time).

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

(Guide to Social Security 3.2.9.30)

## Job Search requirements while studying Language, Literacy and Numeracy courses

If a provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

## Job Search requirements for Stream C job seekers and job seekers aged 60 years and over

The number of Job Searches required by Stream C job seekers and job seekers aged 60 years and over depend on their capacity. Generally, 10 Job Searches per month are expected.

In setting an appropriate number of Job Searches, in addition to other considerations, providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re skilling or re- training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation program.

For Stream C job seekers the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

## Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.
- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

## Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved

Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and Participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

## Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

## Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

### Job seekers with no Annual Activity Requirement

- job seekers aged 60 years and over
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours a fortnight
- job seekers aged 55 years and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week

Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT Systems Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Aged under 30 years: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- Aged 30 to 59: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Aged under 30 years: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- Aged 30 to 59: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).

### Participation in the Green Army Program

If a job seeker is in the Work for the Dole Phase when they commence in the Green Army Program, and they complete participation in accordance with the rules of the Green Army Program, they will meet their Annual Activity Requirement.

If the job seeker does not complete the program, the number of hours they do complete can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Programs' in the Monthly Hours Summary of the Activity Diary in ESS Web.

If a job seeker is participating in the Green Army Program, they will generally be Suspended from jobactive for the duration of their Green Army program's participation. Please refer to the [Period of Service, Suspensions and Exits Guideline](#).

### Participation hours in study/training

#### Full-time load

If the training provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hours requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.

#### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.

#### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the

training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will also need to be undertaken.

**System step:** For study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes, or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 29 years of age and has an overall requirement of 650 hours turns 30 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline, and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- Part-Time Employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Voluntary Work
- Study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into

the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)

- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- non-vocational assistance and Interventions (but only for Stream C job seekers)
- Defence Reserves
- other government programs, including NEIS Training, Green Army, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), Work for the Dole Guideline, and Managing PaTH Internships Guideline.

(Deed references: Clauses 107, 108, 109)

### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- Study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and Interventions (except for Stream C job seekers). For example, careers counselling, personal development courses and addictions interventions.

(Deed references: Clauses 107, 108, 109)

### Considerations when selecting Activities to meet Annual Activity Requirement

#### Job seekers aged under 18 years

Job seekers aged under 18 years with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

#### Job seekers aged 15-24 years

Employability Skills Training (EST) is available to eligible job seekers aged between 15 to 24 years who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers aged 17–24 years, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hours requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the Activity Management Guideline and Managing PaTH Internships Guideline.

#### Job seekers aged 18-49 years

For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

#### Job seekers aged 50-59 years

Job seekers aged 50 to 59 with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

#### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

#### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements. However, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

#### Job seekers undertaking a Compliance Activity during the Work for the Dole Phase

The Compliance Activity will not count toward meeting a job seeker's Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity

during the Work for the Dole Phase they are still required to undertake their full Annual Activity Requirement hours, however the job seeker can, if required, complete outstanding Annual Activity Requirement hours in the following Case Management phase.

### Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity.

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Setting the required hours in the Activity Diary

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, providers must use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, providers are encouraged to use the Activity Diary to set the required hours for all Activities.

For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the Activity Diary user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

### Recording job seeker participation against the Annual Activity Requirement

**System step:** For job seekers with an Annual Activity Requirement, providers must record all hours of attendance in approved Activities using either the Activity Diary or the Monthly Hours section of the AAR Details screen of the Department's IT System. The following must be recorded:

- the number of hours completed by the job seeker during that month
- confirmation of whether the job seeker has completed the required hours for that month
- in addition, for study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

For further information regarding how to record attendance in the Activity Diary, refer to the Department's [Activity Diary and AAR Details IT Supporting Document](#) and the [IT Systems Online Help](#).

(Deed reference: Clause 107)

EST providers will enter course details into the Activity Management component of ESS Web. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

### Recording participation via the Mobile Supervisor App

Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST providers use a Supervisor App to record job seekers attendance at EST courses. Refer to the jobactive EST IT Supporting Document for details.

**Documentary evidence:** Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

### Recording of Work for the Dole participation in the Activity Diary

**System step:** For Work for the Dole Activities, providers must record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This should be done within 10 Business Days of the job seeker's scheduled participation. This should not be done as a monthly bulk entry.

(Deed reference: Clause 107)

### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement must be recorded either:

- through the Activity Diary (the same process as for Work for the Dole activities) or,
- via the AAR Details (Recording Monthly AAR Hours) screen (as a total number of hours).

Providers are encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.

For job seekers not doing Work for the Dole, providers are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 10 Business Days of each month of participation.

Providers must record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 10 business days after a job seeker exits the Work for the Dole Phase, or exits the provider's caseload (for example, exiting from jobactive or transferring to another provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, providers must ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 10 business days from when a job seeker exits the Work for the Dole Phase or when they exit the provider's caseload (e.g. exiting from jobactive or transferring to another provider) to enter hours of participation that the job seeker undertook within the Phase.

The provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the provider must within 10 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after 6 months (but before 12 months) of jobactive services if the provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

### Early Commencement for Stream A job seekers whose first Work for the Dole Phase started before 1 October 2016

*The following arrangements apply only to Stream A job seekers whose first work for the Dole Phase started before 1 October 2016.*

In certain circumstances, Stream A job seekers who commence an approved Activity before entering into the Work for the Dole Phase in their second or subsequent anniversary year may have this count towards meeting their next Annual Activity Requirement.

For early participation to count towards meeting their Annual Activity Requirement, these job seekers must:

- participate continuously in the Activity that was started before commencing in the Work for the Dole Phase (to make six months in total of the relevant 12 month period)

- during this continuous participation, complete the relevant number of fortnightly hours required to meet their Annual Activity Requirement.

The job seeker does not need to have completed the full six months of approved Activities before commencement in the Work for the Dole Phase as long as the required hours in the Activities are completed over six continuous months.

## Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT system, providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked.
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement.

---

## 5. Creating and Approving a Job Seeker's Job Plan

(For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, aged under 35 years, with compulsory requirements).

Providers must ensure that all job seekers have a Job Plan in place at all times.

A Job Plan must be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.

Providers must consult with the job seeker and identify a job seeker's strengths and any issues they have relating to finding employment. They must ensure that the

details of any specified vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help the job seeker overcome any vocational and non-vocational issues.

Providers must set suitable Activities for job seekers according to their Mutual Obligation Requirements. These Activities need to be included in the job seeker's Job Plan. This includes Activities to meet the Annual Activity Requirement, if relevant.

Refer to the [Guide to Social Security 3.2.8.50](#) or the [Mutual Obligation Requirements](#) section of this guideline to determine what to include in a Job Plan.

### Explaining a Job Plan to the job seeker

The Job Plan outlines all the agreed items that the job seeker is required to do to satisfy their Mutual Obligation Requirements or will be doing voluntarily and which will help get them into paid work.

Providers must explain to the job seeker:

- the purpose of the Job Plan
- if applicable, the Mutual Obligation Requirements the job seeker needs to undertake in return for income support
- the job seeker's rights and responsibilities under the Job Plan (including 'thinking time' to consider the Job Plan before accepting it)
- what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan
- the consequences of failing to meet the requirements, and any impact on the job seeker's income support payment
- the consequences of not giving Notice (with a Valid Reason) if they cannot attend compulsory Appointments or participate in compulsory Activities
- their right to appeal decisions and where they can find assistance
- how the provider intends to support the job seeker
- the Service Guarantee and Service Delivery Plan
- the section entitled 'Information You Need To Know' in the Job Plan, and
- how information is protected under privacy legislation and Social Security Law

(Deed references: Clause 97.2, Annexure A1)

### Interpreters and support persons

When a job seeker requests or where the provider considers it appropriate, providers must use an Interpreter to ensure the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.

### Job seeker requiring 'think time' to consider the terms of their Job Plan

Before signing or accepting a Job Plan, all job seekers may have two Business Days 'think time' to consider the requirements of the Job Plan. They may discuss them with a third party if they wish. The 'think time' can only be used once each time a Job Plan is created or updated.

If the job seeker wants to use the 'think time', the Provider should book another Appointment for two Business Days ahead.

### Job seekers with a Compulsory Job Plan

Job seekers with Mutual Obligation Requirements must have a compulsory Job Plan. Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to a provider. Providers will be able to view this in the Department's IT Systems.

There must be at least one compulsory item, as voluntary items are not subject to the job seeker compliance framework. No action can be taken under the compliance framework if the item is not recorded as compulsory.

Job seekers will not be at risk of incurring a penalty if they do not participate in voluntary items.

Job seekers who are fully meeting their Mutual Obligation Requirements, but have chosen to access jobactive on a voluntary basis are Fully Eligible Participants (Voluntary). These job seekers must have a compulsory Job Plan which includes the Activity they are undertaking to fully meet their requirements. Any additional items they agree to must only be included in their Job Plan as a voluntary item.

### Job seekers with a Voluntary Job Plan

Job seekers without Mutual Obligation Requirements, who are participating in jobactive, must have a voluntary Job Plan. These job seekers can be Volunteers receiving six months of service in Stream A or Fully Eligible Participants who don't have Mutual Obligation Requirements and are participating voluntarily in jobactive such as:

- Structural Adjustment Program job seekers not on income support
- Pre-Release Prisoners
- job seekers with an Exemption
- job seeker with an assessed Partial Capacity to Work or a temporary reduced work capacity of less than 15 hours per week
- Vulnerable Youth or Vulnerable Youth (Student)
- Special Benefit recipients who are not Nominated Visa Holders.

Voluntary job plans can only include voluntary items as these job seekers do not have compulsory requirements and are not subject to the job seeker compliance framework if they do not participate in these items.

Note: Job Plan contents are discussed and agreed upon based on the individual's circumstances and their reason for registering for jobactive. Usually this will include Appointments with their provider, Job Search, education or other skills development, or other Activities to improve their employability.

### *Job seekers participating in ParentsNext*

ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext provider. A jobactive provider must not create or edit a Job Plan for ParentsNext Volunteers.

## Approving a Job Plan

Provider staff are Delegates of the Secretary of the Department of Employment and have the power to:

- require a job seeker with Mutual Obligation Requirements to enter into a Job Plan
- approve a Job Plan
- vary the terms of a Job Plan.

**Documentary evidence:** Once the terms of the Job Plan have been determined and the Job Plan created in the Department's IT System, the Job Plan must be provided to the job seeker for their agreement. Job Plans can be agreed to online or by signing a hard copy.

### Job seeker agreeing to the Job Plan – online

**Documentary evidence:** Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree online. Before using this option check that the job seeker has access to the Job Plan on their Dashboard and know how to agree to it.

**Documentary evidence:** Providers must formally notify the job seeker (including those with voluntary requirements) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement. Do this either face to face or over the phone within two Business Days of sending the Job Plan. The verbal formal notification script is available on the Department's IT System for the provider to read to the job seeker. The script includes a compliance warning that must be given to job seekers (with Mutual Obligation Requirements) about what will happen if they do not agree to the Job Plan within two Business Days.

When the job seeker agrees to the Job Plan, the Job Plan's status will automatically set to 'approved' in the Department's IT System.

### Job seeker agreeing to the Job Plan – hard copy

The job seeker and the provider may sign a hard copy of the Job Plan. The provider must provide the job seeker with a signed copy and approve the Job Plan in the Department's IT System.

When the Job Plan has been approved and entered in the Department's IT System, the job seeker will be able to access it from their Job Seeker Dashboard.

### Job Seeker not agreeing to the Job Plan

If the job seeker does not agree to the Job Plan without good reason, they may incur a penalty under the Job Seeker Compliance Framework. Their payment may be also be cancelled by DHS until they agree to a Job Plan.

If the job seeker refuses to sign a Job Plan (and does not wish to use their 'think time') the provider should discuss with the job seeker their obligations and the consequences of not agreeing to a Job Plan. Record the discussion in the Department's IT System. If the Job seeker has Mutual Obligation Requirements and refuses to sign a Job Plan the provider can consider submitting a Participation Report at the end of the 'think time'.

For further information see the Job seeker Compliance Framework Guideline.

(Deed references: Clause 97.2, Annexure A1)

## Recording a Job Plan

**Documentary evidence:** The Job Plan must be recorded in the Department's IT System as soon as possible, after the Job Plan has been created. The contents of the Job Plan recorded in the Department's IT System must be exactly the same as the hardcopy.

If the Department's IT System is temporarily unavailable or there is no computer access, providers must use the applicable compulsory or voluntary Job Plan template available on the Provider Portal.

### Using Job Plan codes

Providers must use the comprehensive list of codes at [Attachment C](#). These codes have been developed consistent with legislative requirements and will enable data to be pre-populated and linked through the Department's IT Systems to the Job Seeker's Dashboard on the jobactive website and the DHS' IT system.

Use the Job Search Requirements (JS09) code when setting compulsory Job Search requirements. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. Providers are able to monitor how Job Search Requirements are set across their caseload. The Department will also actively monitor how Job Search Requirements are set.

If applicable, providers must use the JS05 or JS06 (Job Search with Disability) codes. These codes will trigger the higher rate of Mobility Allowance.

The Free text code can only be used if no available code covers an Activity that the provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and can be viewed by providers and DHS.

Note: The Job Plan can be used as formal notification if it contains the full details of the Activity or Appointment. If the provider is unable to include all of the details at the time the Job Plan is created, then the provider must issue the job seeker with separate formal notification to support the requirements in the Job Plan. See the Job Seeker Compliance Framework Guideline for further information on how to record formal notification.

### Linking Job Plan Codes to Activity Placements

Activity placements can be linked to Job Plan codes in the Activity Diary in the Department's IT System. It is best practice that providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from Activity Diary. Providers will also be able to record attendance results in the Activity Diary.

---

## 6. Reviewing, Updating and Monitoring a Job Plan

Providers must set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline, and Social Security Law.

Providers must regularly review the Job Plan and update when required so as to ensure all requirements are up to date and remain relevant. Job Plans must be reviewed (if appropriate) and updated when the:

- job seeker's circumstances change

- job seeker enters into a new phase of their Stream
- job seeker enters in to a new Stream
- job seeker commences a new Activity
- job seeker completes an Activity that was in their Job Plan
- job seeker decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the Job Seeker Compliance Framework.

DHS may also update a Job Plan when required. If the job seeker is managed by a provider, DHS will consult with the relevant provider before updating the Job Plan or may request the provider to update the Job Plan at the job seeker's next Appointment. Providers should not remove any updates made to a Job Plan by DHS without consultation.

If a Participation Plan for ParentsNext Volunteers requires review or an update then providers must contact the participant's ParentsNext provider.

---

## 7. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission, or where Commonwealth laws allow, or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP providers

Providers should encourage job seekers participating in a Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) to share their Job Plans with their SEE or AMEP providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP providers in ensuring they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

---

## 8. Summary of Required Documentary Evidence

### Job Plan

- The provider must create/update a Job Plan for each job seeker during the Initial Interview by entering the Job Plan in the Department's IT System.
- The provider must enter into the Job Plan the various requirements the job seeker will undertake and ensure that all information required under clause 87.5 of the jobactive Deed has been included in the Job Plan.
- Providers must ensure all job seekers enter into a Job Plan in a timely manner (within two Business Days, including 'think time'), either by signing a hard copy or by agreeing online through the jobactive website. Providers and job seekers can decide which method is used.
- For Job Plans that are signed in hard copy, providers must enter into the Department's IT System the date the Job Plan was signed and that the Job Plan has been approved. A copy must be retained by the provider.

- Job Plans that have been agreed to online by the job seeker will automatically set to 'approved'.

(Deed clause reference: Section B4)

### Notification to job seekers of their Mutual Obligation Requirements

- The provider must notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The provider must create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the provider is in direct contact with the job seeker, the provider must record as the notification method that the appointment was booked directly with the job seeker.
- Where an Activity or Appointment is rescheduled by the provider, formal notification must be issued to the job seeker of their new requirements.

Note: If the provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed clause reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT system, Employment providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked.
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper

- copies of records from the Australian Taxation Office and/or a tax return statement
- a Business Activity Statement.

Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

Providers must record job seeker's attendance at their internship and record the hours completed by the job seeker at the end of each month to ensure they counted against the job seeker's Annual Activity Requirement.

## Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements..
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers aged 60 years and over do not have an Annual Activity Requirement but may choose to undertake activities.
- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

The job seeker's Job Plan outlines the items that will satisfy their Mutual Obligation Requirements and any other items agreed to with their Employment Services Provider (provider). All job seekers, including job seekers without Mutual Obligation Requirements, must have a Job Plan which is created, reviewed and updated regularly by their provider in consultation with the job seeker.

Version: 3.0

Published on 16 February 2018

Effective from: 16 February 2018

Changes from the previous version (Version 2.2)

**Effective end: 28 March 2018****Policy changes:**

Inclusion of Work Experience (Other) as an approved activity

Inclusion of Launch into Work program pre-employment projects as an approved activity

Recording participation in paid work in the AAR Details screen

Annual Activity Requirement recordkeeping - paid work or self-employment

Policy change to allow participation in drug or alcohol addiction treatment (including rehabilitation) to count towards Stream A and Stream B job seekers' Annual Activity Requirement.

Policy change to allow participation in Preventative Health treatments and interventions to count towards Indigenous jobactive job seekers' Annual Activity

**Wording changes:**

Amend titles for NEIS guidelines

Grammatical and spelling errors corrected

## 1. Defining Mutual Obligation Requirements

Job seekers on the following income support payments must meet their Mutual Obligation Requirements to receive their income support payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker income support payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight that they are receiving income support payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering the job seeker's:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and provider appointments
- acting on referrals to jobs from their provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity at any time that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10 Suitable Activities](#). Also refer to [Attachment B](#) Job Plan codes for a comprehensive range of suitable Activities to meet a job seeker's Mutual Obligation Requirements.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the job seeker compliance framework.

If a job seeker fails to meet their Mutual Obligation Requirements, the Provider can take appropriate action or use their discretion to ensure that the job seeker meets their Mutual Obligation Requirements. Please refer to the Job Seeker Compliance Framework Guideline for the actions a Provider can take.

### Determining Mutual Obligation Requirements

Providers must identify a job seeker's strengths and identify any issues they have in finding employment when determining Mutual Obligation Requirements. They must ensure that any vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant).

Providers must create Activities designed to help job seekers overcome or manage any vocational and non-vocational issues. See [Guide to Social Security Law 3.2.8.50](#) for a list of the types of Activities that can be included in a Job Plan.

For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, aged less than 35 years, with compulsory requirements.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, providers must determine the Activities to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, employment services provider staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.

Providers must record the Activities and other relevant items in the job seeker's Job Plan, including the hours of participation the job seeker needs to complete each fortnight and the hours of participation required for each activity. Where drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the provider must record this in the job seeker's Job Plan.

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with additional relevant requirements such as wearing work boots and other safety gear.

### Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, providers must consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person's ability to work, look for work or participate in Activities – including drug and alcohol dependency
- the state of the local labour market and the transport options available to the person in accessing that market
- the participation opportunities and Activities available to the person
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes)
- the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake of approved Activities in the Work for the Dole Phase
- where the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan - (Providers can find the Transition Plan in the Department's IT System)
- any other matters that the provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).

(Guide to Social Security 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, the provider must review any barriers identified through an Employment Services Assessment or Job Capacity Assessment or other issues disclosed to the provider. The Job Seeker Classification Instrument and *intervention management tool* may also help identify personal issues that may affect a job seeker's employability. These will help the provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Providers can find information on a job seeker's circumstances in the Participation Profile screen of the Department's IT System.

#### Using the *intervention management tool* to review a job seeker's circumstances

The *intervention management tool* in the Job Plan section of the Department's IT System is an optional tool for providers. It can be used to review and manage a job seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including those disclosed by the job seeker.

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

The *intervention management tool* can help providers to:

- ensure that the job seeker has Activities in the Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the *intervention management tool*.

(Deed references: Clause 38, 87, Annexure A1)

### *Continuing voluntarily in Employment Services*

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their provider or book an Appointment for them
- contacting their provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

### *Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break*

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in shutdown period.

### Mutual Obligation Requirements for Principal Carer Parents

Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below)
- participation in the Green Army Programme, or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the voluntary work.

The Voluntary Work must be in an organisation approved by the DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to do any Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider) if participation in the approved activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Where a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable child care during the school holiday period, the provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent would not be required to attend Work for the Dole or another activity outside of their home during the school holidays where appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers are not required to attend face-to-face appointments with their provider during school holidays, they can engage with their provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

*Inability to obtain suitable child care is a Valid Reason or Reasonable Excuse.*

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. If this occurs alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

**Mutual Obligation Requirements for job seekers with a Partial Capacity to Work**

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, participating in the Green Army Programme or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a provider and will be Suspended on a provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider) if participation in the approved activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

**Mutual Obligation Requirements for job seekers with temporary reduced work capacity**

Job seeker's may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements.

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a provider and will be Suspended from the provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider) if participation in the approved activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a provider but will be Suspended on a provider's caseload. However, providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Compliance Framework. See [Job Seeker Compliance Framework Guideline](#).

### Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

## Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the provider's caseload.

### Sufficient work test

The decision that a person is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline (or the [Documentary Evidence Guideline](#)).

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

### Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no job search requirement
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) (effective from April 2017) of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

### Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with [Attachment C](#). If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for Pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

## Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and post natal
- children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

## Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

If a job seeker is subject to domestic violence (including family violence), DHS can grant the job seeker an Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

## Suitable Activities to meet Mutual Obligation Requirements (including the Annual Activity Requirement)

Providers must consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Providers must include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements. In the Work for the Dole Phase, the Job Plan must include appropriate hours of participation in approved Activities each fortnight during that phase.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Job seekers over the age of 18 can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- Work for the Dole
- the National Work Experience Programme
- the Green Army Programme

Approved Programs of Work can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is less than 18 years of age or 60 years of age and over.

In all other circumstances, Work for the Dole and the Green Army Programme can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances (except for job seekers less than 18 years of age). However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnights income support payment rate on the Department's IT system Notification screen. If a job seeker returns to the full rate of income support, the provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole activity, then a provider should consider replacing it with an alternative compulsory activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 18 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Green Army Programme

Job seekers participating in the Green Army Programme will generally be Suspended from jobactive for the duration of their participation. See the [Period of Service, Suspensions and Exits Guideline](#).

If a job seeker is in the Work for the Dole Phase when they start in the Green Army Programme, and they complete their participation project in accordance with the rules of the Green Army Programme, they will meet their Annual Activity Requirement. If they do not complete the programme, the number of hours they have completed can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Program' in the Monthly Hours Summary.

**Youth Jobs PaTH Employability Skills Training (EST)**

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with a full time Mutual Obligation Requirement and 15 hours per week over five weeks for job seekers with a part-time Mutual Obligation Requirement.

Providers must consider the suitability of EST for EST Eligible job seekers once they have received services through jobactive for five months.

At this point, their provider has discretion not to refer a job seeker (for whom EST would otherwise be compulsory) to an EST Course or include EST as a compulsory Activity in the Job Plan if the provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has non-vocational barriers that must be addressed first as a priority before they can benefit from the training. This could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another suitable activity

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST compulsory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST compulsory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST Eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in ESS Web when job seekers have been serviced through jobactive for five months. The Activity Management Guideline provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents and those with Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity - for information on how to do this refer to the jobactive EST IT Supporting Document. Job seekers participating in EST Courses are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, then a more suitable Activity should be considered.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services.

For example: a job seeker can do six months in jobactive, or two months in DES and then four months in jobactive to reach the six months servicing.

Early School Leavers will be able to participate in a PaTH Internship (after continuous servicing). PaTH Internship placements can only be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the provider should place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Approved study and short courses

Most people who undertake approved Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to test their eligibility for a student payment with DHS.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

### Determining what is an appropriate course of study

Providers can approve a job seeker's participation in tertiary study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their degree and the degree would greatly improve their employment prospects
- the provider determines that participation is necessary and the course is vocationally orientated

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the provider
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters courses or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend provider appointments and undertake up to 20 Job Searches per month.

### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

Where a provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their provider as long as it does not conflict with the scheduled time of the course. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the provider's caseload.

For information about providers deciding to fund an education or training course, see the [Employment Fund General Account Guideline](#).

## Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, then the provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. Update the Job Plan with the new requirements.

(Guide to Social Security 3.5.1.70)

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and Part-Time or Full-time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their children at the times when they would be required to work.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- child care provided by an approved child care service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable, or
- the child is attending school.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Providers must set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Providers must specify this in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

## Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirement

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- Job seekers 55 years of age and over

Pregnant job seekers will not be required to undertake Job Search from three months before their due date.

NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.

NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.

Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

## Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

## Circumstances that may reduce Job Search requirements

Providers must not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- treatment for drug and alcohol dependency – (in some Exceptional Circumstances to have no Job Searches)
- participation in a residential drug and alcohol rehabilitation program – (in some Exceptional Circumstances to have no Job Searches) preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

(Guide to Social Security 3.2.9.30)

#### Job Search requirements while studying Language, Literacy and Numeracy courses

If a provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

In setting an appropriate number of Job Searches, in addition to other considerations, providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation program.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

receiving only a residual amount of income support, the number of Job Searches may be reduced further.

- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

#### Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

### Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

### Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

#### Job seekers with no Annual Activity Requirement

- job seekers 60 years of age and over
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours a fortnight

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- 30 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).

### Participation in the Green Army Programme

If a job seeker is in the Work for the Dole Phase when they commence in the Green Army Programme, and they complete participation in accordance with the rules of the Green Army Programme, they will meet their Annual Activity Requirement.

If the job seeker does not complete the program, the number of hours they do complete can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Programs' in the Monthly Hours Summary of the Activity Diary in ESS Web.

If a job seeker is participating in the Green Army Programme, they will generally be Suspended from jobactive for the duration of their Green Army Programme participation. Please refer to the [Period of Service, Suspensions and Exits Guideline](#).

### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

ParentsNext Participants that agree to be referred to a Launch into Work program pre-employment project are expected to fully participate in the project where this Activity is included as a compulsory activity in their Participation Plan. Where this is not possible, the ParentsNext Participant is required to re-connect as soon as possible with their ParentsNext Provider for referral to an alternative Activity.

### Participation hours in study/training

#### Full-time load

If the training provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.

#### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.

#### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will also need to be undertaken.

**System step:** For study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 29 years of age and has an overall requirement of 650 hours turns 30 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Voluntary Work
- Launch into Work program pre-employment projects
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- treatment and interventions for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- preventative health related activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, Green Army, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. *For example, careers counselling and personal development courses.* Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

### Considerations when selecting Activities to meet Annual Activity Requirement

#### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

#### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 to 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

#### Job seekers 18-49 years of age

For job seekers 18 to 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

#### Job seekers 50-59 years of age

Job seekers 50 to 59 of age with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

#### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

#### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements. However, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

#### Job seekers undertaking a Compliance Activity during the Work for the Dole Phase

The Compliance Activity will not count toward meeting a job seeker's Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase they are still required to undertake their full Annual Activity Requirement hours, however the job seeker can, if required,

complete outstanding Annual Activity Requirement hours in the following Case Management phase.

#### Certain job seekers undertaking non-vocational activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction treatments (including rehabilitation)) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

#### Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Setting the required hours in the Activity Diary

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, providers must use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, providers must use the Activity Diary to set the required hours for all Activities.

**System step:** for job seekers undertaking a Launch into Work program pre-employment project, use of the Activity Diary is not required. Providers should manually record monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the Activity Diary user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

## Recording job seeker participation against the Annual Activity Requirement

**System step:** For job seekers with an Annual Activity Requirement, providers must record all hours of attendance in approved Activities using either the Activity Diary or the Monthly Hours section of the AAR Details screen of the Department's IT System. The following must be recorded:

- the number of hours completed by the job seeker during that month  
confirmation of whether the job seeker has completed the required hours for that month
- in addition, for study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

For further information regarding how to record attendance in the Activity Diary, refer to the Department's [Activity Diary and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST providers will enter course details into the Activity Management component of ESS Web. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

## Recording participation via the Mobile Supervisor App

Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST providers use a Supervisor App to record job seekers attendance at EST courses. Refer to the jobactive EST IT Supporting Document for details.

**Documentary evidence:** Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

## Recording of Work for the Dole participation in the Activity Diary

**System step:** For Work for the Dole Activities, providers must record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This should be done within 10 Business Days of the job seeker's scheduled participation. This should not be done as a monthly bulk entry.

(Deed reference: Clause 107)

## Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period.

## Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement must be recorded either:

- through the Activity Diary (the same process as for Work for the Dole activities) or,
- via the AAR Details (Recording Monthly AAR Hours) screen (as a total number of hours).

Providers are encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.

For job seekers not doing Work for the Dole, providers are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

Providers must record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 business days after a job seeker exits the Work for the Dole Phase, or exits the provider's caseload (for example, exiting from jobactive or transferring to another provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

## Recording requirements

**System step:** At the end of the Work for the Dole Phase, providers must ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the provider's caseload (e.g. exiting from jobactive or transferring to another provider) to enter hours of participation that the job seeker undertook within the Phase.

The provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements.

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after 6 months (but before 12 months) of jobactive services if the provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

### Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol treatment and rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Activity Diary and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the provider chooses to override the hours declared to DHS, the provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Creating and Approving a Job Seeker's Job Plan

(For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, under 35 years of age, with compulsory requirements).

Providers must ensure that all job seekers have a Job Plan in place at all times.

A Job Plan must be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.

Providers must consult with the job seeker and identify a job seeker's strengths and any issues they have relating to finding employment. They must ensure that the details of any specified vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help the job seeker overcome any vocational and non-vocational issues.

Providers must set suitable Activities for job seekers according to their Mutual Obligation Requirements. These Activities need to be included in the job seeker's Job Plan. This includes Activities to meet the Annual Activity Requirement, if relevant.

Refer to the [Guide to Social Security 3.2.8.50](#) or the [Mutual Obligation Requirements](#) section of this guideline to determine what to include in a Job Plan.

### Explaining a Job Plan to the job seeker

The Job Plan outlines all the agreed items that the job seeker is required to do to satisfy their Mutual Obligation Requirements or will be doing voluntarily and which will help get them into paid work.

Providers must explain to the job seeker:

- the purpose of the Job Plan
- if applicable, the Mutual Obligation Requirements the job seeker needs to undertake in return for income support
- the job seeker's rights and responsibilities under the Job Plan (including 'thinking time' to consider the Job Plan before accepting it)
- what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan
- the consequences of failing to meet the requirements, and any impact on the job seeker's income support payment
- the consequences of not giving Notice (with a Valid Reason) if they cannot attend compulsory Appointments or participate in compulsory Activities
- their right to appeal decisions and where they can find assistance
- how the provider intends to support the job seeker
- the Service Guarantee and Service Delivery Plan
- the section entitled 'Information You Need To Know' in the Job Plan, and
- how information is protected under privacy legislation and Social Security Law

(Deed references: Clause 97.2, Annexure A1)

### Interpreters and support persons

When a job seeker requests or where the provider considers it appropriate, providers must use an Interpreter to ensure the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.

### Job seeker requiring 'think time' to consider the terms of their Job Plan

Before signing or accepting a Job Plan, all job seekers may have two Business Days 'think time' to consider the requirements of the Job Plan. They may discuss them with a third party if they wish. The 'think time' can only be used once each time a Job Plan is created or updated.

If the job seeker wants to use the 'think time', the Provider should book another Appointment for two Business Days ahead.

### Job seekers with a Compulsory Job Plan

Job seekers with Mutual Obligation Requirements must have a compulsory Job Plan. Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to a provider. Providers will be able to view this in the Department's IT System.

There must be at least one compulsory item, as voluntary items are not subject to the job seeker compliance framework. No action can be taken under the compliance framework if the item is not recorded as compulsory.

Job seekers will not be at risk of incurring a penalty if they do not participate in voluntary items.

Job seekers who are fully meeting their Mutual Obligation Requirements, but have chosen to access jobactive on a voluntary basis are Fully Eligible Participants (Voluntary). These job seekers must have a compulsory Job Plan which includes the Activity they are undertaking to fully meet their requirements. Any additional items they agree to must only be included in their Job Plan as a voluntary item.

### Job seekers with a Voluntary Job Plan

Job seekers without Mutual Obligation Requirements, who are participating in jobactive, must have a voluntary Job Plan. These job seekers can be Volunteers receiving six months of service in Stream A or Fully Eligible Participants who don't have Mutual Obligation Requirements and are participating voluntarily in jobactive such as:

- Structural Adjustment Program job seekers not on income support
- Pre-Release Prisoners
- job seekers with an Exemption
- job seeker with an assessed Partial Capacity to Work or a temporary reduced work capacity of less than 15 hours per week
- Vulnerable Youth or Vulnerable Youth (Student)
- a previous recipient of Widows Allowance granted Newstart Allowance after 1 January 2018 and exempt from mutual obligation requirements
- Special Benefit recipients who are not Nominated Visa Holders.

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

Voluntary job plans can only include voluntary activities as these job seekers do not have compulsory requirements and are not subject to the job seeker compliance framework if they do not participate in these activities.

Note: Job Plan contents are discussed and agreed to - based on the individual's circumstances and their reason for registering for jobactive. Usually this will include Appointments with their provider, Job Search, education or other skills development or other Activities to improve their employability.

### *Job seekers participating in ParentsNext*

ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext provider. A jobactive provider must not create or edit a Job Plan for ParentsNext Volunteers.

### Approving a Job Plan

Provider staff are delegates of the Secretary of the Department of Jobs and Small Business and have the power to:

- require a job seeker with Mutual Obligation Requirements to enter into a Job Plan
- approve a Job Plan
- vary the terms of a Job Plan.

**Documentary evidence:** Once the terms of the Job Plan have been determined and the Job Plan created in the Department's IT System, the Job Plan must be provided to the job seeker for their agreement. Job Plans can be agreed to online or by signing a hard copy.

### *Job seeker agreeing to the Job Plan – online*

**Documentary evidence:** Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree to online. Before using this option check that the job seeker has access to the Job Plan on their Dashboard and know how to agree to it.

**Documentary evidence:** Providers must formally notify the job seeker (including those with voluntary requirements) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement. Do this either face to face or over the phone within two Business Days of sending the Job Plan. The verbal formal notification script is available on the Department's IT System for the provider to read to the job seeker. The script includes a compliance warning that must be given to job seekers (with Mutual Obligation Requirements) about what will happen if they do not agree to the Job Plan within two Business Days.

When the job seeker agrees to the Job Plan, the Job Plan's status will automatically set to 'approved' in the Department's IT System.

### *Job seeker agreeing to the Job Plan – hard copy*

The job seeker and the provider may sign a hard copy of the Job Plan. The provider must provide the job seeker with a signed copy and approve the Job Plan in the Departments IT System.

When the Job Plan has been approved and entered in the Department's IT System, the job seeker will be able to access it from their Job Seeker Dashboard.

### Job Seeker not agreeing to the Job Plan

If the job seeker does not agree to the Job Plan without good reason, they may incur a penalty under the Job Seeker Compliance Framework. Their payment may be also be cancelled by DHS until they agree to a Job Plan.

If the job seeker refuses to sign a Job Plan (and does not wish to use their 'think time') the provider should discuss with the job seeker their obligations and the consequences of not agreeing to a Job Plan. Record the discussion in the Department's IT System. If the Job seeker has Mutual Obligation Requirements and refuses to sign a Job Plan the provider can consider submitting a Participation Report at the end of the 'think time'.

For further information see the [Job seeker Compliance Framework Guideline](#).

(Deed references: Clause 97.2, Annexure A1)

### Recording a Job Plan

**Documentary evidence:** The Job Plan must be recorded in the Department's IT System as soon as possible, after the Job Plan has been created. The contents of the Job Plan recorded in the Department's IT System must be exactly the same as the hard copy.

If the Department's IT System is temporarily unavailable or there is no computer access, providers must use the applicable compulsory or voluntary Job Plan template available on the Provider Portal.

### Using Job Plan codes

Providers must use the comprehensive list of codes at [Attachment C](#). These codes have been developed to be consistent with legislative requirements and will enable data to be pre-populated and linked through the Department's IT Systems to the Job Seeker Dashboard on the jobactive website and the DHS IT system.

Use the Job Search Requirements (JS09) code when setting compulsory Job Search requirements. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. Providers are able to monitor how Job Search Requirements are set across their caseload. The Department will also actively monitor how Job Search Requirements are set.

If applicable, providers must use the JS05 or JS06 (Job Search with Disability) codes. These codes will trigger the higher rate of Mobility Allowance.

The Free text code can only be used if no available code covers an Activity that the provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and can be viewed by providers and DHS.

**Note:** The Job Plan can be used as formal notification if it contains the full details of the Activity or Appointment. If the provider is unable to include all of the details at the time the Job Plan is created, then the provider must issue the job seeker with a separate formal notification to support the requirements in the Job Plan. See the Job Seeker Compliance Framework Guideline for further information on how to record formal notification.

### Linking Job Plan Codes to Activity Placements

Activity placements can be linked to Job Plan codes in the Activity Diary in the Department's IT System. It is best practice that providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from the Activity Diary. Providers will also be able to record attendance results in the Activity Diary.

## 6. Reviewing, Updating and Monitoring a Job Plan

Providers must set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law.

Providers must regularly review the Job Plan and update when required so as to ensure that all requirements are up to date and remain relevant. Job Plans must be reviewed (if appropriate) and updated when the job seeker:

- has a change in their circumstances
- enters into a new phase of their Stream
- enters in to a new Stream
- commences a new Activity
- completes an Activity that was in their Job Plan
- decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the Job Seeker Compliance Framework

DHS may also update a Job Plan when required. If the job seeker is managed by a provider, DHS will consult with the relevant provider before updating the Job Plan or may request the provider to update the Job Plan at the job seeker's next Appointment. Providers should not remove any updates made to a Job Plan by DHS without consultation.

If a Participation Plan for ParentsNext Volunteers requires review or an update, then providers must contact the participant's ParentsNext provider.

## 7. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP providers

Providers should encourage job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) to share their Job Plans with their SEE or AMEP providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

## 8. Summary of Required Documentary Evidence

### Job Plan

- The provider must create or update a Job Plan for each job seeker during the Initial Interview by entering the Job Plan in the Department's IT System.
- The provider must enter into the Job Plan the various requirements the job seeker will undertake and ensure that all information required under clause 87.6 of the jobactive Deed has been included in the Job Plan.
- Providers must ensure that all job seekers enter into a Job Plan in a timely manner (within two Business Days, including 'think time') either by signing a hard copy or by agreeing online through the jobactive website. Providers and job seekers can decide which method is used.
- For Job Plans that are signed in hard copy, providers must enter into the Department's IT System the date the Job Plan was signed and that the Job Plan has been approved. A copy must be retained by the provider.
- Job Plans that have been agreed to online by the job seeker will automatically set to 'approved'.
- Job Plans must be reviewed and updated regularly by providers to ensure that the information is current.

(Deed reference: Section B4)

### Notification to job seekers of their Mutual Obligation Requirements

- The provider must notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The provider must create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the provider is in direct contact with the job seeker, the provider must record as the notification method that the appointment was booked directly with the job seeker.
- Where an Activity or Appointment is rescheduled by the provider, formal notification must be issued to the job seeker of their new requirements.

**Note:** If the provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement
    - a Business Activity Statement.

Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

Providers must record job seeker's attendance at their internship and record the hours completed by the job seeker at the end of each month to ensure they counted against the job seeker's Annual Activity Requirement.

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed). This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

## Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers 60 years of age and over do not have an Annual Activity Requirement but may choose to undertake activities.
- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

The job seeker's Job Plan outlines the items that will satisfy their Mutual Obligation Requirements and any other items agreed to with their Employment Services Provider (provider). All job seekers, including job seekers without Mutual Obligation Requirements, must have a Job Plan which is created, reviewed and updated regularly by their provider in consultation with the job seeker.

## 1. Defining Mutual Obligation Requirements

Job seekers on the following income support payments must meet their Mutual Obligation Requirements to receive their income support payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker income support payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight that they are receiving income support payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering the job seeker's:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and provider appointments
- acting on referrals to jobs from their provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity at any time that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10 Suitable Activities](#). Also refer to [Attachment B](#) Job Plan codes for a comprehensive range of suitable Activities to meet a job seeker's Mutual Obligation Requirements.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the job seeker compliance framework.

If a job seeker fails to meet their Mutual Obligation Requirements, the Provider can take appropriate action or use their discretion to ensure that the job seeker meets their Mutual Obligation Requirements. Please refer to the Job Seeker Compliance Framework Guideline for the actions a Provider can take.

### Determining Mutual Obligation Requirements

Providers must identify a job seeker's strengths and identify any issues they have in finding employment when determining Mutual Obligation Requirements. They must ensure that any vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant).

Providers must create Activities designed to help job seekers overcome or manage any vocational and non-vocational issues. See [Guide to Social Security Law 3.2.8.50](#) for a list of the types of Activities that can be included in a Job Plan.

For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, aged less than 35 years, with compulsory requirements.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, providers must determine the Activities to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, employment services provider staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.

Providers must record the Activities and other relevant items in the job seeker's Job Plan, including the hours of participation the job seeker needs to complete each fortnight and the hours of participation required for each activity. Where drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the provider must record this in the job seeker's Job Plan.

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with additional relevant requirements such as wearing work boots and other safety gear.

### Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, providers must consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- the impact of any disability, illness, mental condition or physical condition or other non-vocational issue on the person's ability to work, look for work or participate in Activities – including drug and alcohol dependency
- the state of the local labour market and the transport options available to the person in accessing that market
- the participation opportunities and Activities available to the person
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes)
- the financial costs (such as travel costs) of complying with the requirements and the person's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake of approved Activities in the Work for the Dole Phase
- where the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan - (Providers can find the Transition Plan in the Department's IT System)
- any other matters that the provider considers relevant in the circumstances (including if the job seeker discloses that they are a victim of family violence).

(Guide to Social Security 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, the provider must review any barriers identified through an Employment Services Assessment or Job Capacity Assessment or other issues disclosed to the provider. The Job Seeker Classification Instrument and *intervention management tool* may also help identify personal issues that may affect a job seeker's employability. These will help the provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Providers can find information on a job seeker's circumstances in the Participation Profile screen of the Department's IT System.

#### Using the *intervention management tool* to review a job seeker's circumstances

The *intervention management tool* in the Job Plan section of the Department's IT System is an optional tool for providers. It can be used to review and manage a job seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including those disclosed by the job seeker.

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

The *intervention management tool* can help providers to:

- ensure that the job seeker has Activities in the Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the *intervention management tool*.

(Deed references: Clause 38, 87, Annexure A1)

### *Continuing voluntarily in Employment Services*

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their provider or book an Appointment for them
- contacting their provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

### *Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break*

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in shutdown period.

### *Mutual Obligation Requirements for Principal Carer Parents*

Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below)
- participation in the Green Army Programme, or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the voluntary work.

The Voluntary Work must be in an organisation approved by the DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to do any Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider) if participation in the approved activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Where a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable child care during the school holiday period, the provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent would not be required to attend Work for the Dole or another activity outside of their home during the school holidays where appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers are not required to attend face-to-face appointments with their provider during school holidays, they can engage with their provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

*Inability to obtain suitable child care is a Valid Reason or Reasonable Excuse.*

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have a Valid Reason or Reasonable Excuse to not undertake that Activity. If this occurs alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

**Mutual Obligation Requirements for job seekers with a Partial Capacity to Work**

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, participating in the Green Army Programme or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a provider and will be Suspended on a provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider) if participation in the approved activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

**Mutual Obligation Requirements for job seekers with temporary reduced work capacity**

Job seeker's may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements.

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a provider and will be Suspended from the provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the provider) if participation in the approved activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a provider but will be Suspended on a provider's caseload. However, providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Compliance Framework. See [Job Seeker Compliance Framework Guideline](#).

### Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

## Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the provider's caseload.

### Sufficient work test

The decision that a person is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

### Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no job search requirement
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) (effective from April 2017) of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

### Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with [Attachment C](#). If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for Pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

## Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and post natal
- children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

If a job seeker is subject to domestic violence (including family violence), DHS can grant the job seeker an Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

## Suitable Activities to meet Mutual Obligation Requirements (including the Annual Activity Requirement)

Providers must consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Providers must include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements. In the Work for the Dole Phase, the Job Plan must include appropriate hours of participation in approved Activities each fortnight during that phase.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Job seekers over the age of 18 can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- Work for the Dole
- the National Work Experience Programme
- the Green Army Programme

Approved Programs of Work can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is less than 18 years of age or 60 years of age and over.

In all other circumstances, Work for the Dole and the Green Army Programme can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances (except for job seekers less than 18 years of age). However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnights income support payment rate on the Department's IT system Notification screen. If a job seeker returns to the full rate of income support, the provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole activity, then a provider should consider replacing it with an alternative compulsory activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 18 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Green Army Programme

Job seekers participating in the Green Army Programme will generally be Suspended from jobactive for the duration of their participation. See the [Period of Service, Suspensions and Exits Guideline](#).

If a job seeker is in the Work for the Dole Phase when they start in the Green Army Programme, and they complete their participation project in accordance with the rules of the Green Army Programme, they will meet their Annual Activity Requirement. If they do not complete the programme, the number of hours they have completed can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Program' in the Monthly Hours Summary.

**Youth Jobs PaTH Employability Skills Training (EST)**

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with a full time Mutual Obligation Requirement and 15 hours per week over five weeks for job seekers with a part-time Mutual Obligation Requirement.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months.

At this point, their provider has discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course or include EST as a compulsory Activity in the Job Plan if the provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has non-vocational barriers that must be addressed first as a priority before they can benefit from the training. This could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another suitable activity

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST Eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in ESS Web when job seekers have been serviced through jobactive for five months. The Activity Management Guideline provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents and those with Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity - for information on how to do this refer to the jobactive EST IT Supporting Document. Job seekers participating in EST Courses are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, then a more suitable Activity should be considered.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services.

For example: a job seeker can do six months in jobactive, or two months in DES and then four months in jobactive to reach the six months servicing.

Early School Leavers will be able to participate in a PaTH Internship (after continuous servicing). PaTH Internship placements can only be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the provider should place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Approved study and short courses

Most people who undertake approved Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to test their eligibility for a student payment with DHS.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

### Determining what is an appropriate course of study

Providers can approve a job seeker's participation in tertiary study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their degree and the degree would greatly improve their employment prospects
- the provider determines that participation is necessary and the course is vocationally orientated

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the provider
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters courses or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend provider appointments and undertake up to 20 Job Searches per month.

### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

Where a provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their provider as long as it does not conflict with the scheduled time of the course. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the provider's caseload.

For information about providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

## Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, then the provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. Update the Job Plan with the new requirements.

(Guide to Social Security 3.5.1.70)

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and Part-Time or Full-time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their children at the times when they would be required to work.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- child care provided by an approved child care service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable, or
- the child is attending school.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Providers must set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Providers must specify this in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

## Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirement

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- Job seekers 55 years of age and over

Pregnant job seekers will not be required to undertake Job Search from three months before their due date.

NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.

NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.

Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

## Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

## Circumstances that may reduce Job Search requirements

Providers must not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- treatment for drug and alcohol dependency – (in some Exceptional Circumstances to have no Job Searches)
- participation in a residential drug and alcohol rehabilitation program – (in some Exceptional Circumstances to have no Job Searches) preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

(Guide to Social Security 3.2.9.30)

#### Job Search requirements while studying Language, Literacy and Numeracy courses

If a provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

In setting an appropriate number of Job Searches, in addition to other considerations, providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation program.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

receiving only a residual amount of income support, the number of Job Searches may be reduced further.

- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

#### Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

### Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

### Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

#### Job seekers with no Annual Activity Requirement

- job seekers 60 years of age and over
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours a fortnight

---

 jobactive guideline      **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- 30 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).

### Participation in the Green Army Programme

If a job seeker is in the Work for the Dole Phase when they commence in the Green Army Programme, and they complete participation in accordance with the rules of the Green Army Programme, they will meet their Annual Activity Requirement.

If the job seeker does not complete the program, the number of hours they do complete can count towards their Annual Activity Requirement. In these cases, providers can record these hours under 'Other Approved Programs' in the Monthly Hours Summary of the Activity Diary in ESS Web.

If a job seeker is participating in the Green Army Programme, they will generally be Suspended from jobactive for the duration of their Green Army Programme participation. Please refer to the [Period of Service, Suspensions and Exits Guideline](#).

### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

ParentsNext Participants that agree to be referred to a Launch into Work program pre-employment project are expected to fully participate in the project where this Activity is included as a compulsory activity in their Participation Plan. Where this is not possible, the ParentsNext Participant is required to re-connect as soon as possible with their ParentsNext Provider for referral to an alternative Activity.

### Participation hours in study/training

#### Full-time load

If the training provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.

#### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study hours, as well as face-to-face hours per fortnight, need to be clearly reflected in the Job Plan.

#### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other activities will also need to be undertaken.

**System step:** For study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 29 years of age and has an overall requirement of 650 hours turns 30 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Voluntary Work
- Launch into Work program pre-employment projects
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- treatment and interventions for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

- preventative health related activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, Green Army, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. *For example, careers counselling and personal development courses.* Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

### Considerations when selecting Activities to meet Annual Activity Requirement

#### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

#### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 to 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, will be able to participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

### Job seekers 18-49 years of age

For job seekers 18 to 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

### Job seekers 50-59 years of age

Job seekers 50 to 59 of age with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements. However, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Job seekers undertaking a Compliance Activity during the Work for the Dole Phase

The Compliance Activity will not count toward meeting a job seeker's Annual Activity Requirement. Where the job seeker needs to undertake a Compliance Activity during the Work for the Dole Phase they are still required to undertake their full Annual Activity Requirement hours, however the job seeker can, if required,

complete outstanding Annual Activity Requirement hours in the following Case Management phase.

#### Certain job seekers undertaking non-vocational activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction treatments (including rehabilitation)) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

#### Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Setting the required hours in the Activity Diary

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, providers must use the Activity Diary to record the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, providers must use the Activity Diary to set the required hours for all Activities.

**System step:** for job seekers undertaking a Launch into Work program pre-employment project, use of the Activity Diary is not required. Providers should manually record monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Activity Diary, refer to the Activity Diary user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

## Recording job seeker participation against the Annual Activity Requirement

**System step:** For job seekers with an Annual Activity Requirement, providers must record all hours of attendance in approved Activities using either the Activity Diary or the Monthly Hours section of the AAR Details screen of the Department's IT System. The following must be recorded:

- the number of hours completed by the job seeker during that month  
confirmation of whether the job seeker has completed the required hours for that month
- in addition, for study or training Activities, providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

For further information regarding how to record attendance in the Activity Diary, refer to the Department's [Activity Diary and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST providers will enter course details into the Activity Management component of ESS Web. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

## Recording participation via the Mobile Supervisor App

Supervisors are able to use the Mobile Supervisor App to record job seeker's attendance in Work for the Dole and other approved Activities. For further information on the Mobile Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST providers use a Supervisor Mobile App to record job seekers daily attendance at EST courses which automatically updates the job seekers Activity Diary. Refer to the jobactive EST IT Supporting Document for details.

**Documentary evidence:** Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

## Recording of Work for the Dole participation in the Activity Diary

**System step:** For Work for the Dole Activities, providers must record results against all required participation in the Activity Diary for every day that the job seeker was required to participate, as per notification issued to the job seeker. This should be done within 10 Business Days of the job seeker's scheduled participation. This should not be done as a monthly bulk entry.

(Deed reference: Clause 107)

## Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period.

## Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, hours of attendance or attendance results, to meet the Annual Activity Requirement must be recorded either:

- through the Activity Diary (the same process as for Work for the Dole activities) or,
- via the AAR Details (Recording Monthly AAR Hours) screen (as a total number of hours).

Providers are encouraged to use the Activity Diary to record daily job seeker attendance for all Activities.

For job seekers not doing Work for the Dole, providers are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

Providers must record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 business days after a job seeker exits the Work for the Dole Phase, or exits the provider's caseload (for example, exiting from jobactive or transferring to another provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

## Recording requirements

**System step:** At the end of the Work for the Dole Phase, providers must ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the provider's caseload (e.g. exiting from jobactive or transferring to another provider) to enter hours of participation that the job seeker undertook within the Phase.

The provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements.

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after 6 months (but before 12 months) of jobactive services if the provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

### Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol treatment and rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Activity Diary and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the provider chooses to override the hours declared to DHS, the provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Creating and Approving a Job Seeker's Job Plan

(For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, under 35 years of age, with compulsory requirements).

Providers must ensure that all job seekers have a Job Plan in place at all times.

A Job Plan must be created at the initial interview with a job seeker. Once the job seeker attends the initial interview and the Job Plan is approved the job seeker is automatically commenced in Services.

Providers must consult with the job seeker and identify a job seeker's strengths and any issues they have relating to finding employment. They must ensure that the details of any specified vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant), and that Activities are designed to help the job seeker overcome any vocational and non-vocational issues.

Providers must set suitable Activities for job seekers according to their Mutual Obligation Requirements. These Activities need to be included in the job seeker's Job Plan. This includes Activities to meet the Annual Activity Requirement, if relevant.

Refer to the [Guide to Social Security 3.2.8.50](#) or the [Mutual Obligation Requirements](#) section of this guideline to determine what to include in a Job Plan.

### Explaining a Job Plan to the job seeker

The Job Plan outlines all the agreed items that the job seeker is required to do to satisfy their Mutual Obligation Requirements or will be doing voluntarily and which will help get them into paid work.

Providers must explain to the job seeker:

- the purpose of the Job Plan
- if applicable, the Mutual Obligation Requirements the job seeker needs to undertake in return for income support
- the job seeker's rights and responsibilities under the Job Plan (including 'thinking time' to consider the Job Plan before accepting it)
- what the job seeker needs to do if they have a change in circumstances that affects their ability to meet the requirements in their Job Plan
- the consequences of failing to meet the requirements, and any impact on the job seeker's income support payment
- the consequences of not giving Notice (with a Valid Reason) if they cannot attend compulsory Appointments or participate in compulsory Activities
- their right to appeal decisions and where they can find assistance
- how the provider intends to support the job seeker
- the Service Guarantee and Service Delivery Plan
- the section entitled 'Information You Need To Know' in the Job Plan, and
- how information is protected under privacy legislation and Social Security Law

(Deed references: Clause 97.2, Annexure A1)

### Interpreters and support persons

When a job seeker requests or where the provider considers it appropriate, providers must use an Interpreter to ensure that the job seeker understands their requirements before the job seeker agrees to or signs the Job Plan.

Providers must work cooperatively with Humanitarian Settlement Program Case Managers, who may accompany some humanitarian entrant (refugee) job seekers to interviews. A Humanitarian Settlement Program Case Manager can provide advice on appropriate employment strategies and activities that can help the provider to develop a suitable Job Plan. (Note that a Case Manager is not an interpreter).

### Job seeker requiring 'think time' to consider the terms of their Job Plan

Before signing or accepting a Job Plan, all job seekers may have two Business Days 'think time' to consider the requirements of the Job Plan. They may discuss them with a third party if they wish. The 'think time' can only be used once each time a Job Plan is created or updated.

If the job seeker wants to use the 'think time', the Provider should book another Appointment for two Business Days ahead.

### Job seekers with a Compulsory Job Plan

Job seekers with Mutual Obligation Requirements must have a compulsory Job Plan. Some Disability Support Pension recipients under 35 years of age and Special Benefit recipients (who are not Nominated Visa Holders) have compulsory requirements and may be referred to a provider. Providers will be able to view this in the Department's IT System.

There must be at least one compulsory item, as voluntary items are not subject to the job seeker compliance framework. No action can be taken under the compliance framework if the item is not recorded as compulsory.

Job seekers will not be at risk of incurring a penalty if they do not participate in voluntary items.

Job seekers who are fully meeting their Mutual Obligation Requirements, but have chosen to access jobactive on a voluntary basis are Fully Eligible Participants (Voluntary). These job seekers must have a compulsory Job Plan which includes the Activity they are undertaking to fully meet their requirements. Any additional items they agree to must only be included in their Job Plan as a voluntary item.

### Job seekers with a Voluntary Job Plan

Job seekers without Mutual Obligation Requirements, who are participating in jobactive, must have a voluntary Job Plan. These job seekers can be Volunteers receiving six months of service in Stream A or Fully Eligible Participants who don't have Mutual Obligation Requirements and are participating voluntarily in jobactive such as:

- Structural Adjustment Program job seekers not on income support
- Pre-Release Prisoners
- job seekers with an Exemption

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

- job seeker with an assessed Partial Capacity to Work or a temporary reduced work capacity of less than 15 hours per week
- Vulnerable Youth or Vulnerable Youth (Student)
- a previous recipient of Widows Allowance granted Newstart Allowance after 1 January 2018 and exempt from mutual obligation requirements
- Special Benefit recipients who are not Nominated Visa Holders.

Voluntary job plans can only include voluntary activities as these job seekers do not have compulsory requirements and are not subject to the job seeker compliance framework if they do not participate in these activities.

**Note:** Job Plan contents are discussed and agreed to - based on the individual's circumstances and their reason for registering for jobactive. Usually this will include Appointments with their provider, Job Search, education or other skills development or other Activities to improve their employability.

### *Job seekers participating in ParentsNext*

ParentsNext Volunteers who choose to volunteer into jobactive services will already have a Participation Plan created by their ParentsNext provider. A jobactive provider must not create or edit a Job Plan for ParentsNext Volunteers.

### Approving a Job Plan

Provider staff are delegates of the Secretary of the Department of Jobs and Small Business and have the power to:

- require a job seeker with Mutual Obligation Requirements to enter into a Job Plan
- approve a Job Plan
- vary the terms of a Job Plan.

**Documentary evidence:** Once the terms of the Job Plan have been determined and the Job Plan created in the Department's IT System, the Job Plan must be provided to the job seeker for their agreement. Job Plans can be agreed to online or by signing a hard copy.

### *Job seeker agreeing to the Job Plan – online*

**Documentary evidence:** Providers may send a Job Plan to the Job Seeker Dashboard through the jobactive website or Job Seeker App for the job seeker to review and agree to online. Before using this option check that the job seeker has access to the Job Plan on their Dashboard and know how to agree to it.

**Documentary evidence:** Providers must formally notify the job seeker (including those with voluntary requirements) that the Job Plan has been sent to their Job Seeker Dashboard for their agreement. Do this either face to face or over the phone within two Business Days of sending the Job Plan. The verbal formal notification script is available on the Department's IT System for the provider to read to the job seeker. The script includes a compliance warning that must be given to job seekers (with Mutual Obligation Requirements) about what will happen if they do not agree to the Job Plan within two Business Days.

When the job seeker agrees to the Job Plan, the Job Plan's status will automatically set to 'approved' in the Department's IT System.

### Job seeker agreeing to the Job Plan – hard copy

The job seeker and the provider may sign a hard copy of the Job Plan. The provider must provide the job seeker with a signed copy and approve the Job Plan in the Department's IT System.

When the Job Plan has been approved and entered in the Department's IT System, the job seeker will be able to access it from their Job Seeker Dashboard.

### Job Seeker not agreeing to the Job Plan

If the job seeker does not agree to the Job Plan without good reason, they may incur a penalty under the Job Seeker Compliance Framework. Their payment may be also be cancelled by DHS until they agree to a Job Plan.

If the job seeker refuses to sign a Job Plan (and does not wish to use their 'think time') the provider should discuss with the job seeker their obligations and the consequences of not agreeing to a Job Plan. Record the discussion in the Department's IT System. If the Job seeker has Mutual Obligation Requirements and refuses to sign a Job Plan the provider can consider submitting a Participation Report at the end of the 'think time'.

For further information see the [Job seeker Compliance Framework Guideline](#).

(Deed references: Clause 97.2, Annexure A1)

### Recording a Job Plan

**Documentary evidence:** The Job Plan must be recorded in the Department's IT System as soon as possible, after the Job Plan has been created. The contents of the Job Plan recorded in the Department's IT System must be exactly the same as the hard copy.

If the Department's IT System is temporarily unavailable or there is no computer access, providers must use the applicable compulsory or voluntary Job Plan template available on the Provider Portal.

### Using Job Plan codes

Providers must use the comprehensive list of codes at [Attachment C](#). These codes have been developed to be consistent with legislative requirements and will enable data to be pre-populated and linked through the Department's IT Systems to the Job Seeker Dashboard on the jobactive website and the DHS IT system.

Use the Job Search Requirements (JS09) code when setting compulsory Job Search requirements. Job seekers can report their job search efforts against their Job Search Requirements on the Job Seeker Dashboard on the jobactive website. Providers are able to monitor how Job Search Requirements are set across their caseload. The Department will also actively monitor how Job Search Requirements are set.

If applicable, providers must use the JS05 or JS06 (Job Search with Disability) codes. These codes will trigger the higher rate of Mobility Allowance.

The Free text code can only be used if no available code covers an Activity that the provider has decided to include in the Job Plan. Free text is auto-populated into the Job Plan and can be viewed by providers and DHS.

**Note:** The Job Plan can be used as formal notification if it contains the full details of the Activity or Appointment. If the provider is unable to include all of the details at

the time the Job Plan is created, then the provider must issue the job seeker with a separate formal notification to support the requirements in the Job Plan. See the Job Seeker Compliance Framework Guideline for further information on how to record formal notification.

#### Linking Job Plan Codes to Activity Placements

Activity placements can be linked to Job Plan codes in the Activity Diary in the Department's IT System. It is best practice that providers link Activity placements to the appropriate code in the Job Plan. This will enable the Activity details to be auto-populated into any formal notification created from the Activity Diary. Providers will also be able to record attendance results in the Activity Diary.

---

## 6. Reviewing, Updating and Monitoring a Job Plan

Providers must set and monitor a job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law.

Providers must regularly review the Job Plan and update when required so as to ensure that all requirements are up to date and remain relevant. Job Plans must be reviewed (if appropriate) and updated when the job seeker:

- has a change in their circumstances
- enters into a new phase of their Stream
- enters in to a new Stream
- commences a new Activity
- completes an Activity that was in their Job Plan
- decides to undertake a Compliance Activity rather than serve an eight-week non-payment penalty under the Job Seeker Compliance Framework

This means that activities which are to be undertaken in the present and the future cannot be recorded in the same Job Plan. For example, Mary agrees to undertake 50 hours per fortnight of education and training for the next three months. Mary also agrees that if she does not obtain work before the end of that three months she will begin a Work for the Dole activity of 50 hours per fortnight for the following three months. If these activities are recorded in the same Job Plan it will be deemed inappropriate as there will be 100 hours of activities. The Job Plan must be reviewed after Mary finishes her education and training activities and a new Job Plan must be entered into when Mary starts her Work for the Dole activities.

DHS may also update a Job Plan when required. If the job seeker is managed by a provider, DHS will consult with the relevant provider before updating the Job Plan or may request the provider to update the Job Plan at the job seeker's next Appointment. Providers should not remove any updates made to a Job Plan by DHS without consultation.

If a Participation Plan for ParentsNext Volunteers requires review or an update, then providers must contact the participant's ParentsNext provider.

---

## 7. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

---

**jobactive guideline      Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

---

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP providers

Providers should encourage job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) to share their Job Plans with their SEE or AMEP providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

---

## 8. Summary of Required Documentary Evidence

### Job Plan

- The provider must create or update a Job Plan for each job seeker during the Initial Interview by entering the Job Plan in the Department's IT System.
- The provider must enter into the Job Plan the various requirements the job seeker will undertake and ensure that all information required under clause 87.6 of the jobactive Deed has been included in the Job Plan.
- Providers must ensure that all job seekers enter into a Job Plan in a timely manner (within two Business Days, including 'think time') either by signing a hard copy or by agreeing online through the jobactive website. Providers and job seekers can decide which method is used.
- For Job Plans that are signed in hard copy, providers must enter into the Department's IT System the date the Job Plan was signed and that the Job Plan has been approved. A copy must be retained by the provider.
- Job Plans that have been agreed to online by the job seeker will automatically set to 'approved'.
- Job Plans must be reviewed and updated regularly by providers to ensure that the information is current.

(Deed reference: Section B4)

### Notification to job seekers of their Mutual Obligation Requirements

- The provider must notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The provider must create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the provider is in direct contact with the job seeker, the provider must record as the notification method that the appointment was booked directly with the job seeker.
- Where an Activity or Appointment is rescheduled by the provider, formal notification must be issued to the job seeker of their new requirements.

## jobactive guideline **Managing and Monitoring Mutual Obligation Requirements and Job Plan Guideline**

**Note:** If the provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement
    - a Business Activity Statement.

Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, offline records are not required to be kept.

Providers must record job seeker's attendance at their internship and record the hours completed by the job seeker at the end of each month to ensure they counted against the job seeker's Annual Activity Requirement.

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed). This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

## Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, providers can require job seekers to participate in other activities (in addition to Job Search and Provider Appointments).
- Job seekers 60 years of age and over do not have an Annual Activity Requirement but may choose to undertake activities.
- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## 1. Defining Mutual Obligation Requirements

Job seekers on the following Income Support Payments must meet their Mutual Obligation Requirements to receive their payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker Income Support Payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight that they are receiving Income Support Payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering the job seeker's:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and Provider appointments
- acting on referrals to jobs from their Provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity at any time that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10](#).

Also refer to the Job Plan and Setting Mutual Obligation Guidelines for information about Job Plan codes for a comprehensive range of Suitable Activities to meet a job seeker's Mutual Obligation Requirements.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the job seeker targeted compliance framework.

If a job seeker fails to meet their Mutual Obligation Requirements, they have committed a Mutual Obligation Failure.

Please refer to the Targeted Compliance Framework Guideline for more information.

## Determining Mutual Obligation Requirements

Providers must identify a job seeker's strengths and identify any issues they have in finding employment when determining Mutual Obligation Requirements. They must ensure that any vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant).

Providers must create Activities designed to help job seekers overcome or manage any vocational and non-vocational issues. See [Guide to Social Security Law 3.2.8.50](#) for a list of the types of Activities that can be included in a Job Plan.

For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, under 35 years of age, with compulsory requirements.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, Providers must determine the Activities to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, employment services Provider staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.

Providers must record the Activities and other relevant items in the job seeker's Job Plan, and schedule Activities in the Calendar. Where drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the Provider must record this in the job seeker's Job Plan. They can also record this information on the Job Seeker's Personal Summary Page ('What you need to know').

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with any special requirements such as wearing work boots and other safety gear.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, Providers must consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs

- education, experience, skills and age
- the impact of any disability, illness, mental condition or physical condition or other non-vocational issue that affects a job seekers ability to work, look for work or participate in Activities – including drug and alcohol dependency
- the state of the local labour market and the transport options available to the job seeker in accessing that market
- the participation opportunities and Activities available to the job seeker
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes each way)
- the financial costs (such as travel costs) of complying with the requirements and the job seeker’s capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake of approved Activities in the Work for the Dole Phase
- where the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan - (Providers can find the Transition Plan in the Department’s IT System)
- any other matters that the Provider considers relevant to the job seeker’s circumstances (including if the job seeker discloses that they are a victim of family violence).

(Guide to Social Security 3.2.8.10)

When setting the job seeker’s Mutual Obligation Requirements, the Provider must review any barriers identified through an Employment Services Assessment (EASt) or Job Capacity Assessment (JSA) or other issues disclosed to the Provider. The Job Seeker Classification Instrument and Capability Management Tool may also help identify personal issues that may affect a job seeker’s employability. These will help the Provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Providers can find information on a job seeker’s circumstances in the Participation Profile screen of the Department’s IT System.

### Using the Capability Management Tool to review a job seeker’s circumstances

The Capability Management Tool in the Job Plan section of the Department’s IT System is a recommended tool for Providers. It is required to be updated when conducting a Capability Interview. It can be used to review and manage a job

seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including those disclosed by the job seeker.

The Capability Management Tool can help Providers to:

- ensure that the job seeker has requirement in their Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the Capability Management Tool

(Deed references: Clause 38, 87, Annexure A1)

### *Continuing voluntarily in Employment Services*

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their Provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their Provider or book an Appointment for them
- contacting their Provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the Provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, Providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

### Mutual Obligation Requirements for Principal Carer Parents

Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

The Department's IT System will automatically identify time outside of school hours in the Principal Carer Parent's Calendar. Providers will be able to set requirements at times outside school hours, including weekends. However, Providers will need to discuss this with the Principal Carer Parent to ensure they are available at that time and record the reason in the Department's IT System. This information will be attached to the requirement.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)

- Voluntary Work (as described below), or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the Provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the voluntary work.

The Voluntary Work must be in an organisation approved by the DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to complete Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Where a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

#### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable child care during the school holiday period, the Provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent would not be required to attend Work for the Dole or another Activity outside of their home during the school holidays where appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers Parents are not required to attend face-to-face appointments with their Provider during school holidays, they can engage with their Provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the Provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer Parent is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

#### *Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break*

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a

combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employment resumes in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in the shutdown period.

#### *Inability to obtain suitable child care is a Valid Reason or Reasonable Excuse.*

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have an Acceptable or Valid Reason to not undertake that requirement. If this occurs alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

#### Mutual Obligation Requirements for job seekers with a Partial Capacity to Work

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a Provider and will be Suspended on a Provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

## Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seeker's may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A Provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

## Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment), approved Voluntary Work or a combination of these Activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a Provider but will be Suspended on a Provider's caseload. However, Providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the Provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation

Requirements (as above). Job seekers who fail to attend this Appointment or any other notified Provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Compliance Framework. See [Targeted Compliance Framework Guideline](#).

### Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

#### Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the Provider's caseload.

#### Sufficient work test

The decision that a job seeker is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

### Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no Job Search requirement, including Certificate I and II level courses
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

### Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

## Mutual Obligation Requirements for pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, Providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

## Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and post natal
- children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a Provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a Provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a Provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

NOTE: some job seekers considering an application for a Disability Support Pension may need to demonstrate that they have actively participated in a Program of Support to be eligible for Disability Support Pension. You should advise these job seekers that periods of exemption will not be counted as participation in a Program

of Support. More information for providers can be found in the [Program of Support Fact Sheet](#).

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then Providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

Providers notified of domestic violence (including family violence) as the reason for not meeting Mutual Obligation Requirements, must consider this in their assessment of Valid Reason.

If a job seeker is subject to domestic violence (including family violence), DHS will make an assessment on whether an Exemption is granted and the appropriate length of the Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS **must** grant an Exemption.

### Suitable Activities to meet Mutual Obligation Requirements (including the Annual Activity Requirement)

Providers must consider the job seeker's Stream and Phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Providers must include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements using the correct Job Plan code linked to the Activity scheduled in the Calendar. If the job seeker is in the Work for the Dole Phase, sufficient hours must be scheduled in Activities to allow the job seeker to meet their Annual Activity Requirement.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Job seekers over the age of 18 can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- Work for the Dole
- the National Work Experience Programme

The National Work Experience Programme can only be included as a voluntary (not compulsory) Activity in the Job Plan.

Work for the Dole can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is less than 18 years of age or 60 years of age and over.

In all other circumstances, Work for the Dole can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances (except for job seekers less than 18 years of age). However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnights income support payment rate on the Department's IT system Notification screen. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole Activity, then a Provider should consider replacing it with an alternative compulsory Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 18 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this Activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Youth Jobs PaTH Employability Skills Training (EST)

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with a full time Mutual Obligation Requirement and 15 hours per week over five weeks for job seekers with a part-time Mutual Obligation Requirement.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months.

At this point, their Provider has discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course or include EST as a compulsory Activity in the Job Plan if the Provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has non-vocational barriers that must be addressed first as a priority before they can benefit from the training. This could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another Suitable Activity

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST Eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in the Department's IT System when job seekers have been serviced through jobactive for five months. The [Activity Management Guideline](#) provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents and those with Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded

separately in the Job Plan as a voluntary Activity - for information on how to do this refer to the [jobactive EST IT Supporting Document](#). Job seekers participating in EST Courses are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, then a more suitable Activity should be considered.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services (DES).

For example, to reach the six months servicing requirement, a job seeker could do six months in jobactive, or two months in DES followed by four months in jobactive.

Early School Leavers can participate in a PaTH Internship (after continuous servicing). PaTH Internship placements are to be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the Provider will need to place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Career Transition Assistance (CTA) Trial 2018-2020

All job seekers 50 years of age and over, and registered with a jobactive Provider in one of the CTA Trial Regions, are eligible to participate in CTA. The CTA Trial Regions are:

- Ballarat, Victoria
- Somerset, Queensland
- Central West, New South Wales
- Adelaide South, South Australia, and
- Perth North, Western Australia.

CTA comprises two Elements: Tailored Career Assistance and Functional Digital Literacy. Eligible job seekers can be referred to one, or both elements of CTA, depending on their needs. Participation in CTA will be for the following duration:

- Tailored Career Assistance: a minimum of 50 hours over six weeks,
- Functional Digital Literacy: a minimum of 25 hours over two weeks, and
- Job seekers referred to both elements at the same time will complete a minimum of 75 hours over eight weeks.

Where a job seeker with part-time Mutual Obligation Requirements is referred to CTA, the CTA Provider will take this into account when negotiating the weekly hourly requirement for the job seeker. Employment Providers must advise CTA Providers at the point of Referral if a job seeker has a reduced work capacity and what that capacity is.

For job seekers in the Work for the Dole Phase, CTA is an Approved Activity for the purposes of meeting a job seeker's AAR and will meet the job seeker's AAR for the duration of their participation in CTA.

Participation in CTA is voluntary, and CTA can only be added to a job seeker's Job Plan as a voluntary Activity. CTA Providers will advise the job seeker's jobactive

Provider if the job seeker stops attending CTA, so that the jobactive Provider can exit the job seeker from CTA and place them in an alternative compulsory Activity.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Approved study and short courses

Most people who undertake approved Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to test their eligibility for a student payment with DHS.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

### Determining what is an appropriate course of study

Providers can approve a job seeker's participation in tertiary study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their course and the course would greatly improve their employment prospects
- the Provider determines that participation is necessary and the course is vocationally orientated
- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the Provider
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer

Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course

- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters courses or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 Job Searches per month.

### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

Where a Provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their Provider as long as it does not conflict with the scheduled time of the course. Job seekers with full time mutual obligation requirements cannot fully meet their requirements with full time study. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the Provider's caseload.

For information about Providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

### Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, then the Provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. Update the Job Plan with the new requirements.

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and part-time or full time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their children at the times when they would be required to work.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- child care provided by an approved child care service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable, or
- the child is attending school.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Providers must set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Providers must specify this in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers 60 years of age and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirements

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- Job seekers 55 years of age and over

Pregnant job seekers will not be required to undertake Job Search from three months before their due date.

NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.

NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.

Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, Providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Providers must not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- treatment for drug and alcohol dependency – (in some Exceptional Circumstances to have no Job Searches)
- participation in a residential drug and alcohol rehabilitation program – (in some Exceptional Circumstances to have no Job Searches) preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)
- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

(Guide to Social Security 3.2.9.30)

#### Job Search requirements while studying Language, Literacy and Numeracy courses

If a Provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

In setting an appropriate number of Job Searches, in addition to other considerations, Providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation program.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.
- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

### Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers under 60 years of age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

### Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

### Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

#### Job seekers with no Annual Activity Requirement

- job seekers 60 years of age and over
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through 30 hours per fortnight of paid work or approved Voluntary Work
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

**Note:** Under the Targeted Compliance Framework, where Activities are recorded in the Calendar which contribute to a job seeker's Annual Activity Requirements, the Department's IT System will calculate hours. There are exceptions, however, where hours will still need to be manually calculated such as CTA.

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- 30 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).

### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR Activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

ParentsNext Participants that agree to be referred to a Launch into Work program pre-employment project are expected to fully participate in the project where this Activity is included as a compulsory Activity in their Participation Plan. Where this is not possible, the ParentsNext Participant is required to re-connect as soon as possible with their ParentsNext Provider for referral to an alternative Activity.

## Participation hours in study/training

### Full-time load

If the training Provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.

### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study can be reflected in the Job Plan by using the appropriate Job Plan code, with study recorded in the job seeker's Calendar.

### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other Activities will also need to be undertaken.

**System step:** For study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 29 years of age and has an overall requirement of 650 hours turns 30 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

## Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, Providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

**System step:** For CTA Activities, Employment Providers must record the minimum hours of participation required for the CTA Activity Sub-Type that the job seeker is participating in.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Career Transition Assistance
- Voluntary Work
- Launch into Work program pre-employment projects
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- treatment and interventions for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers
- preventative health related Activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, Green Army, state government programs and 'Exploring Being My Own Boss' Workshops

- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. *For example, careers counselling and personal development courses.* Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

#### Considerations when selecting Activities to meet Annual Activity Requirement

##### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole or the National Work Experience Programme.

Job seekers under 17 years of age are not eligible to participate in the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

##### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 to 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

### Job seekers 18-49 years of age

For job seekers 18 to 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

### Job seekers 50-59 years of age

Job seekers 50 to 59 of age with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements. However, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Certain job seekers undertaking non-vocational Activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction treatments (including rehabilitation)) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully

meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

### Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the Provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline Activity Management Guideline and the Job Plan and Setting Mutual Obligation Requirements Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Setting the required hours in the Calendar

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers must use the Calendar to schedule the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, Providers must use the Calendar to schedule the required hours for all Activities.

**System step:** for job seekers participating in CTA or undertaking a Launch into Work program pre-employment project, Calendar scheduling these Activities in the Calendar is not required. Providers should manually record monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Calendar, refer to the Calendar user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

### Recording job seeker participation against the Annual Activity Requirement

**System step:** Job seekers will be responsible for recording their attendance at Activities. However, for those job seekers found not capable of recording attendance, Providers must record attendance in approved Activities using the Calendar. All results must be recorded by close of business on the day of participation in the activity

- for study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the Provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

Alternatively, when setting up the Activities in the Calendar, it is recommended that the Provider request evidence based attendance recording, which will include a QR code and passcode to be generated by the Department's IT System. They must have the contact details of the Supervisor up to date so that the Supervisor can receive the QR code and passcode the day of the Activity. Job seekers will then be able to scan the QR code when they attend the Activity. If the Activity is longer than four hours, the Department's IT System will generate two codes: one for the start of the Activity and one for the end of the Activity.

For further information regarding how to record attendance in the Calendar, refer to the Department's [Calendar and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST Providers will enter course details into the Calendar component of the Department's IT System. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

**System step:** For CTA activities, satisfactory participation in the relevant number of hours in CTA will meet the job seeker's Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in CTA, regardless of the contact hours. Employment Providers must record the relevant hours as per the job seeker's Annual Activity Requirement using the Monthly Hours section of the AAR Details screen of the Department's IT Systems.

### Recording participation via the Supervisor App

Supervisors can use the Supervisor App to record a job seeker's attendance in Work for the Dole and other approved Activities. However, they should be encouraged to only do so for job seekers who:

- have been assessed as not being capable of recording or reporting their own attendance

or

- have been assessed as being capable of recording or reporting their own attendance but who are having issues doing so themselves on the day.

In most cases it is expected that the Supervisor will receive a QR code or passcode that has been generated by the Department's IT System, and job seekers will be able to scan it with their mobile devices to record their own attendance. If the activity is longer than four hours, the Supervisor will receive two QR codes or passcodes: one for the morning when the job seekers arrive, and one for the afternoon when the job seekers leave for the day.

For further information on the Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST Providers will continue to have access to the Supervisor App to record job seekers attendance at EST courses where appropriate. Refer to the [jobactive EST IT Supporting Document](#) for details.

**Documentary evidence:** Where job seekers have used evidence to record their attendance directly into the Department's IT System, offline records are not required to be kept. The same applies where Activity attendance information has been entered by the Activity Host Organisation into the Supervisor App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

#### Recording of Work for the Dole participation in the Calendar

**System step:** Job seekers will be able to record their own attendance at Work for the Dole Activities. Where job seekers are not capable of recording their own attendance, or are unable to due to certain circumstances, Providers must record results against all required participation in the Calendar for every day that the job seeker was required to participate, as per notification issued to the job seeker by the close of business each day.

(Deed reference: Clause 107)

#### Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, Providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period and hold documentary evidence supporting the updated hours.

#### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, attendance results, to meet the Annual Activity Requirement must be recorded through the Calendar (using the same process as for Work for the Dole activities).

For job seekers doing on-line courses not required to be recorded in the job seekers Calendar are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

Where a job seeker is participating in an Activity that fully meets their Annual Activity Requirement, the Calendar will only count those hours that are scheduled towards the job seeker's Annual Activity Requirement. The remaining hours should be credited by entering them in using the monthly hours section of the AAR Details screen.

Providers must record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 Business Days after a job seeker exits the Work for the Dole Phase, or exits the Provider's caseload (for example, exiting from jobactive or transferring to another Provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

Where Providers are aware that duplicate hours have been created for AAR, Providers must reduce the number of hours within 20 Business Days. This may occur when a job seeker is in paid work, a day of Activity is resulted as No Longer Required (NLR) as the job seeker is working on that day and declares the hours worked. The job seeker would be created the Activity hours and the hours declared. The job seeker should have credited the higher of the two hours for the individual day.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, Providers must ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the Provider's caseload (e.g. exiting from jobactive or transferring to another Provider) to enter hours of participation that the job seeker undertook within the Phase that were not required to be entered daily in the Calendar.

The Provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement

- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan using the Job Plan code and recording Activities in the Calendar.
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the Provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after six months (but before 12 months) of jobactive services if the Provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

## Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol treatment and rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- CTA Agreement (for CTA Activities) and Career Pathway Plan
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Calendar and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the Provider chooses to override the hours declared to DHS, the Provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP Providers

Providers should encourage job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) to share their Job Plans with their SEE or AMEP Providers in order to make them aware of their full

Mutual Obligation Requirements. This will assist SEE and AMEP Providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

## 6. Summary of Required Documentary Evidence

(Deed reference: Section B4)

### Notification to job seekers of their Mutual Obligation Requirements

- The Provider must notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The Provider must create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the Provider is in direct contact with the job seeker, the Provider must record as the notification method that the appointment was booked directly with the job seeker.
- Where an Activity or Appointment is rescheduled by the Provider, formal notification must be issued to the job seeker of their new requirements.

**Note:** If the Provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked

- Additionally, documentary evidence for self-employment can include:
  - a Profit and Loss Statement
  - a signed and dated written statement from an accountant and/or registered bookkeeper
  - copies of records from the Australian Taxation Office and/or a tax return statement
  - a Business Activity Statement.

Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, or the job seeker has used evidenced based recording of attendance, offline records are not required to be kept.

Providers must record job seeker's attendance at their internship and record the hours completed by the job seeker at the end of each month to ensure they counted against the job seeker's Annual Activity Requirement.

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed). This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

## Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other Activities (in addition to Job Search and Provider Appointments).
- Job seekers 60 years of age and over do not have an Annual Activity Requirement but may choose to undertake Activities.
- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. A secondary intent is for job seekers to contribute to the community that supports them while they are unemployed.

## 1. Defining Mutual Obligation Requirements

Job seekers on the following Income Support Payments must meet their Mutual Obligation Requirements to receive their payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker Income Support Payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight that they are receiving Income Support Payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering the job seeker's:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and Provider appointments
- acting on referrals to jobs from their Provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity at any time that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10](#).

Also refer to the Job Plan and Setting Mutual Obligation Guidelines for information about Job Plan codes for a comprehensive range of Suitable Activities to meet a job seeker's Mutual Obligation Requirements.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the job seeker targeted compliance framework.

If a job seeker fails to meet their Mutual Obligation Requirements, they have committed a Mutual Obligation Failure.

Please refer to the Targeted Compliance Framework Guideline for more information.

## Determining Mutual Obligation Requirements

Providers must identify a job seeker's strengths and identify any issues they have in finding employment when determining Mutual Obligation Requirements. They must ensure that any vocational and non-vocational Activities are tailored to address the job seeker's individual needs or reduced work capacity (if relevant).

Providers must create Activities designed to help job seekers overcome or manage any vocational and non-vocational issues. See [Guide to Social Security Law 3.2.8.50](#) for a list of the types of Activities that can be included in a Job Plan.

For the purposes of Social Security Law, a Job Plan is an 'Employment Pathway Plan' and a 'Participation Plan' for Disability Support Pension recipients, aged less than 35 years, with compulsory requirements.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, Providers must determine the Activities to meet their Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, employment services Provider staff will ultimately determine what requirements the job seeker must satisfy to meet their Mutual Obligation Requirements under Social Security Law.

Providers must record the Activities and other relevant items in the job seeker's Job Plan, and schedule Activities in the Calendar. Where drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the Provider must record this in the job seeker's Job Plan. They can also record this information on the Job Seeker's Personal Summary Page ('What you need to know').

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with any special requirements such as wearing work boots and other safety gear.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, Providers must consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs

- education, experience, skills and age
- the impact of any disability, illness, mental condition or physical condition or other non-vocational issue that affects a job seekers ability to work, look for work or participate in Activities – including drug and alcohol dependency
- the state of the local labour market and the transport options available to the job seeker in accessing that market
- the participation opportunities and Activities available to the job seeker
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes each way)
- the financial costs (such as travel costs) of complying with the requirements and the job seeker’s capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental illness, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake of approved Activities in the Work for the Dole Phase
- where the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan - (Providers can find the Transition Plan in the Department’s IT System)
- any other matters that the Provider considers relevant to the job seeker’s circumstances (including if the job seeker discloses that they are a victim of family violence).

(Guide to Social Security 3.2.8.10)

When setting the job seeker’s Mutual Obligation Requirements, the Provider must review any barriers identified through an Employment Services Assessment (EASt) or Job Capacity Assessment (JSA) or other issues disclosed to the Provider. The Job Seeker Classification Instrument and Capability Management Tool may also help identify personal issues that may affect a job seeker’s employability. These will help the Provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Providers can find information on a job seeker’s circumstances in the Participation Profile screen of the Department’s IT System.

### Using the Capability Management Tool to review a job seeker’s circumstances

The Capability Management Tool in the Job Plan section of the Department’s IT System is an recommended tool for Providers. It is required to be updated when conducting a Capability Interview. It can be used to review and manage a job

seeker's personal circumstances that may affect their capacity to participate in Activities or result in identifying specific vocational or non-vocational issues, including those disclosed by the job seeker.

The Capability Management Tool can help Providers to:

- ensure that the job seeker has requirement in their Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the Capability Management Tool

(Deed references: Clause 38, 87, Annexure A1)

### *Continuing voluntarily in Employment Services*

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their Provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their Provider or book an Appointment for them
- contacting their Provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the Provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, Providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

### Mutual Obligation Requirements for Principal Carer Parents

Providers must consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable child care, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

The Department's IT System will automatically identify time outside of school hours in the Principal Carer Parent's Calendar. Providers will be able to set requirements at times outside school hours, including weekends. However, Providers will need to discuss this with the Principal Carer Parent to ensure they are available at that time and record the reason in the Department's IT System. This information will be attached to the requirement.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)

- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below), or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the Provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the Voluntary Work.

The Voluntary Work must be in an organisation approved by the DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to complete Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Where a Principal Carer Parent is either aged 55 years up to (but not including) the Pension Age or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable child care during the school holiday period, the Provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent would not be required to attend Work for the Dole or another Activity outside of their home during the school holidays where appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers Parents are not required to attend face-to-face appointments with their Provider during school holidays, they can engage with their Provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the Provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer Parent is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

*Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break*

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employment resumes in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in the shutdown period.

*Inability to obtain suitable child care is a Valid Reason or Reasonable Excuse.*

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable child care, they will have an Acceptable or Valid Reason to not undertake that requirement. If this occurs alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

*Mutual Obligation Requirements for job seekers with a Partial Capacity to Work*

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to immediately participate at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a Provider and will be Suspended on a Provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the

Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

### Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seeker's may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A Provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers aged 55 years up to (but not including) the Pension Age can meet their full-time Mutual Obligation Requirements by participating in paid work (including self-employment), approved Voluntary Work or a combination of these Activities, depending on their age and circumstances.

- If the job seeker is aged 55 to 59 years and in their first 12 months of receiving an Income Support Payment, they can fully meet their Mutual Obligation Requirements by participating in 30 hours per fortnight of:
  - paid work; or
  - a combination of approved Voluntary Work and paid work. However, this must include at least 15 hours per fortnight of paid work.
- If the job seeker is aged 55 to 59 years and has been receiving an Income Support Payment for more than 12 months, they can fully meet their Mutual Obligation Requirements by participating in at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two Activities.
- If the job seeker is aged 60 years up to (but not including) the Pension Age, they can fully meet their Mutual Obligation Requirements by participating in at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two Activities.

These job seekers are not subject to other requirements (such as Job Search requirements) if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a Provider but will be Suspended on a Provider's caseload. However, Providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the Provider for job seekers aged 55 years up to (but not including) the Pension Age, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified Provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Compliance Framework. See [Targeted Compliance Framework Guideline](#).

## Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

## Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the Provider's caseload.

*Sufficient work test*

The decision that a job seeker is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

### Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is aged under 22 years and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no Job Search requirement, including Certificate I and II level courses
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

### Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, Providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

### Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This

recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and post natal
- children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a Provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a Provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a Provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

NOTE: some job seekers considering an application for a Disability Support Pension may need to demonstrate that they have actively participated in a Program of Support to be eligible for Disability Support Pension. You should advise these job seekers that periods of exemption will not be counted as participation in a Program of Support. More information for providers can be found in the [Program of Support Fact Sheet](#).

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then Providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

Providers notified of domestic violence (including family violence) as the reason for not meet Mutual Obligation Requirements, must consider this in their assessment of Valid Reason.

If a job seeker is subject to domestic violence (including family violence), DHS will make an assessment on whether an Exemption is granted and the appropriate length of the Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS **must** grant an Exemption.

### Suitable Activities to meet Mutual Obligation Requirements (including the Annual Activity Requirement)

Providers must consider the job seeker's Stream and phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Providers must include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements using the correct Job Plan code linked to the Activity scheduled in the Calendar. If the job seeker is in the Work for the Dole Phase, sufficient hours must be scheduled in Activities to allow the job seeker to meet their Annual Activity Requirement.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

#### Approved Programs of Work

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- Work for the Dole
- the National Work Experience Programme

The National Work Experience Programme can only be included as a voluntary (not compulsory) Activity in the Job Plan.

Work for the Dole can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is aged less than 18 years of age or aged over 60 years.

In all other circumstances, Work for the Dole can be included as a compulsory Activity in the job seeker's Job Plan.

#### Work for the Dole

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances (except for job seekers aged less than 18 years). However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnights income support payment rate on the Department's IT system Notification screen. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole Activity, then a Provider should consider replacing it with an alternative compulsory Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

#### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers aged 17 years or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

#### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers aged 15 years or over, regardless of whether the job seeker is receiving an income support payment. Participation in this Activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

#### Youth Jobs PaTH Employability Skills Training (EST)

A job seeker is Employability Skills Training (EST) Eligible if they are aged between 15 and 24 years, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with a full time Mutual Obligation Requirement and 15 hours per week over five weeks for job seekers with a part-time Mutual Obligation Requirement.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months.

At this point, their Provider has discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course or include EST as a compulsory Activity in the Job Plan if the Provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has non-vocational barriers that must be addressed first as a priority before they can benefit from the training. This could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another Suitable Activity

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST Eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in the Department's IT System when job seekers have been serviced through jobactive for five months. The [Activity Management Guideline](#) provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents and those with Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity - for information on how to do this refer to the [jobactive EST IT Supporting Document](#). Job seekers participating in EST Courses are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, then a more suitable Activity should be considered.

### PaTH Internship Placements

Young job seekers aged between 17 and 24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services (DES).

For example, to reach the six months servicing requirement, a job seeker could do six months in jobactive, or two months in DES followed by four months in jobactive.

Early School Leavers can participate in a PaTH Internship (after continuous servicing). PaTH Internship placements are to be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the Provider will need to place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

---

### Career Transition Assistance (CTA) Trial 2018-2020

All job seekers aged 50 years and over, and registered with a jobactive Provider in one of the CTA Trial Regions, are eligible to participate in CTA. The CTA Trial Regions are:

- Ballarat, Victoria
- Somerset, Queensland
- Central West, New South Wales
- Adelaide South, South Australia, and
- Perth North, Western Australia.

CTA comprises two Elements: Tailored Career Assistance and Functional Digital Literacy. Eligible job seekers can be referred to one, or both elements of CTA, depending on their needs. Participation in CTA will be for the following duration:

- Tailored Career Assistance: a minimum of 50 hours over six weeks,
- Functional Digital Literacy: a minimum of 25 hours over two weeks, and
- Job seekers referred to both elements at the same time will complete a minimum of 75 hours over eight weeks.

Where a job seeker with part-time Mutual Obligation Requirements is referred to CTA, the CTA Provider will take this into account when negotiating the weekly hourly requirement for the job seeker. Employment Providers must advise CTA Providers at the point of Referral if a job seeker has a reduced work capacity and what that capacity is.

For job seekers in the Work for the Dole Phase, CTA is an Approved Activity for the purposes of meeting a job seeker's AAR and will meet the job seeker's AAR for the duration of their participation in CTA.

Participation in CTA is voluntary, and CTA can only be added to a job seeker's Job Plan as a voluntary Activity. CTA Providers will advise the job seeker's jobactive Provider if the job seeker stops attending CTA, so that the jobactive Provider can exit the job seeker from CTA and place them in an alternative compulsory Activity.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Regional Employment Trials – 10 Selected Trial Regions

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity.

Participation in a Regional Employment Trials Activity is voluntary, and providers should record participation in a Regional Employment Trials Activity as a voluntary activity in the job seeker's Job Plan.

See the Regional Employment Trials Guideline for further information, including on selected trial regions.

### Approved study and short courses

Most people who undertake approved Full-Time Study are placed on a student payment such as Austudy, Youth Allowance (student) or ABSTUDY Living Allowance. Job seekers undertaking Full-Time Study should be advised to test their eligibility for a student payment with DHS.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

### Determining what is an appropriate course of study

Providers can approve a job seeker's participation in tertiary study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their course and the course would greatly improve their employment prospects
- the Provider determines that participation is necessary and the course is vocationally orientated
- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the Provider
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course

- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters courses or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 Job Searches per month.

### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

Where a Provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their Provider as long as it does not conflict with the scheduled time of the course. Job seekers with full time mutual obligation requirements cannot fully meet their requirements with full time study. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 to 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the Provider's caseload.

For information about Providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

### Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, then the Provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than

four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. Update the Job Plan with the new requirements.

(Guide to Social Security 3.5.1.70)

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

‘Suitable work’ includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and part-time or full time work depending on the job seeker’s assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above ‘unsuitable work’, Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

Work is unsuitable for Principal Carer Parents if they do not have access to appropriate care and supervision for their children at the times when they would be required to work.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- child care provided by an approved child care service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable, or
- the child is attending school.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Providers must set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Providers must specify this in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

## Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirements

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- Job seekers aged 55 years and over

Pregnant job seekers will not be required to undertake Job Search from three months before their due date.

NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.

NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.

Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, Providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Providers must not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- treatment for drug and alcohol dependency – (in some Exceptional Circumstances to have no Job Searches)
- participation in a residential drug and alcohol rehabilitation program – (in some Exceptional Circumstances to have no Job Searches) preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)

- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

(Guide to Social Security 3.2.9.30)

#### Job Search requirements while studying Language, Literacy and Numeracy courses

If a Provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers aged 60 years and over

The number of Job Searches required by Stream C job seekers and job seekers aged 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

In setting an appropriate number of Job Searches, in addition to other considerations, Providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed. For example, where a job seeker is undertaking a residential drug and alcohol rehabilitation program.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment)

per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.

- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

#### Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers under the Pension Age have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

### Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

### Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

#### Job seekers with no Annual Activity Requirement

- job seekers who have reached Pension Age.

- job seekers aged over 60 years with part-time Mutual Obligation Requirements
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

**Note:** Under the Targeted Compliance Framework, where Activities are recorded in the Calendar which contribute to a job seeker's Annual Activity Requirements, the Department's IT System will calculate hours. There are exceptions, however, where hours will still need to be manually calculated such as CTA.

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Aged up to 49 years: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- Aged 50 to 59 years: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).
- Aged 60 years up to (but not including) the Pension Age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Aged under 30 years: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- Aged 30 to 59 years: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).
- Aged 60 years to the aged pension age: No AAR

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 to 20 hours per fortnight).

### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's

duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR Activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

### Participation in Regional Employment Trials Activities

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity. If the participant stops attending the activity they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

See the Regional Employment Trials Guideline for further information.

### Participation hours in study/training

#### Full-time load

If the training Provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are doing a full-time study load.

#### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study can be reflected in the Job Plan by using the appropriate Job Plan code, with study recorded in the job seeker's Calendar.

#### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other Activities will also need to be undertaken.

**System step:** For study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 49 years of age and has an overall requirement of 650 hours turns 50 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, Providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

**System step:** When recording CTA Activities in the Job Plan, Employment Providers must select the CTA Activity Sub-Type that the job seeker is participating in. Based on this selection, the minimum hours of participation required will automatically populate, along with the timeframe for participation. Valid results will include:

- 25 hours over 2 Weeks (when *Functional Digital Literacy Element only* is selected)
- 50 hours over 6 Weeks (when *Tailored Career Assistance Element only* is selected)
- 75 hours over 8 Weeks (when *both Elements of Career Transition Assistance* is selected)

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Career Transition Assistance
- Voluntary Work
- Launch into Work program pre-employment projects

- Regional Employment Trials Activities
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- treatment and interventions for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers
- preventative health related Activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, Green Army, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- study outside of the approved short course conditions (including Masters and Doctorate courses)

(Deed references: Clauses 107, 108, 109)

#### Considerations when selecting Activities to meet Annual Activity Requirement

##### Job seekers aged under 18 years

Job seekers aged under 18 years with Mutual Obligation Requirements are not eligible to participate in Work for the Dole.

Job seekers aged under 17 years are not eligible to participate in the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

#### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers aged between 15 to 24 years who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers aged between 17–24 years, with Mutual Obligation Requirements, can participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

#### Job seekers aged 18-49 years

For job seekers aged 18 to 49 years with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

#### Job seekers aged over 50 years

Job seekers aged over 50 years with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

#### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

#### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements. However, the Community Service Orders

take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Certain job seekers undertaking non-vocational Activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction treatments (including rehabilitation)) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

### Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the Provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline Activity Management Guideline and the Job Plan and Setting Mutual Obligation Requirements Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Setting the required hours in the Calendar

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers must use the Calendar to schedule the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, Providers must use the Calendar to schedule the required hours for all Activities.

**System step:** for job seekers participating in CTA, undertaking a Launch into Work program pre-employment project, or Regional Employment Trial activity, scheduling these Activities in the Calendar is not required. Providers should manually record

monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Calendar, refer to the Calendar user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

## Recording job seeker participation against the Annual Activity Requirement

**System step:** Job seekers will be responsible for recording their attendance at Activities. However, for those job seekers found not capable of recording attendance, Providers must record attendance in approved Activities using the Calendar. All results must be recorded by close of business on the day of participation in the activity

- for study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the Provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

Alternatively, when setting up the Activities in the Calendar, it is recommended that the Provider request evidence based attendance recording, which will include a QR code and passcode to be generated by the Department's IT System. They must have the contact details of the Supervisor up to date so that the Supervisor can receive the QR code and passcode the day of the Activity. Job seekers will then be able to scan the QR code when they attend the Activity. If the Activity is longer than four hours, the Department's IT System will generate two codes: one for the start of the Activity and one for the end of the Activity.

For further information regarding how to record attendance in the Calendar, refer to the Department's [Calendar and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST Providers will enter course details into the Calendar component of the Department's IT System. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

**System step:** For CTA and Regional Employment Trial activities, satisfactory participation in the relevant number of hours in CTA or Regional Employment Trial activity will meet the job seeker's Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in CTA and Regional Employment Trial activities, regardless of the contact hours. Employment Providers must record the relevant

hours as per the job seeker's Annual Activity Requirement using the Monthly Hours section of the AAR Details screen of the Department's IT Systems.

### Recording participation via the Supervisor App

Supervisors can use the Supervisor App to record a job seeker's attendance in Work for the Dole and other approved Activities. However, they should be encouraged to only do so for job seekers who:

- have been assessed as not being capable of recording or reporting their own attendance

or

- have been assessed as being capable of recording or reporting their own attendance but who are having issues doing so themselves on the day.

In most cases it is expected that the Supervisor will receive a QR code or passcode that has been generated by the Department's IT System, and job seekers will be able to scan it with their mobile devices to record their own attendance. If the activity is longer than four hours, the Supervisor will receive two QR codes or passcodes: one for the morning when the job seekers arrive, and one for the afternoon when the job seekers leave for the day.

For further information on the Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST Providers will continue to have access to the Supervisor App to record job seekers attendance at EST courses where appropriate. Refer to the [jobactive EST IT Supporting Document](#) for details.

**Documentary evidence:** Where job seekers have used evidence to record their attendance directly into the Department's IT System, offline records are not required to be kept. The same applies where Activity attendance information has been entered by the Activity Host Organisation into the Supervisor App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

### Recording of Work for the Dole participation in the Calendar

**System step:** Job seekers will be able to record their own attendance at Work for the Dole Activities. Where job seekers are not capable of recording their own attendance, or are unable to due to certain circumstances, Providers must record results against all required participation in the Calendar for every day that the job seeker was required to participate, as per notification issued to the job seeker by the close of business each day.

(Deed reference: Clause 107)

### Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, Providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period and hold documentary evidence supporting the updated hours.

### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, attendance results, to meet the Annual Activity Requirement must be recorded through the Calendar (using the same process as for Work for the Dole activities).

For job seekers doing on-line courses not required to be recorded in the job seekers Calendar are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

Where a job seeker is participating in an Activity that fully meets their Annual Activity Requirement, the Calendar will only count those hours that are scheduled towards the job seeker's Annual Activity Requirement. The remaining hours should be credited by entering them in using the monthly hours section of the AAR Details screen.

Providers must record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 Business Days after a job seeker exits the Work for the Dole Phase, or exits the Provider's caseload (for example, exiting from jobactive or transferring to another Provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

Where Providers are aware that duplicate hours have been created for AAR, Providers must reduce the number of hours within 20 Business Days. This may occur when a job seeker is in paid work, a day of Activity is resulted as No Longer Required (NLR) as the job seeker is working on that day and declares the hours worked. The job seeker would be created the Activity hours and the hours declared. The job seeker should have credited the higher of the two hours for the individual day.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, Providers must ensure that the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the Provider's caseload (e.g. exiting from jobactive or transferring to another Provider) to enter hours of participation that the job seeker undertook within the Phase that were not required to be entered daily in the Calendar.

The Provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement

hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan using the Job Plan code and recording Activities in the Calendar.
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the Provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after six months (but before 12 months) of jobactive services if the Provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

### Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol treatment and rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- CTA Agreement (for CTA Activities) and Career Pathway Plan
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Calendar and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the Provider chooses to override the hours declared to DHS, the Provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it

was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP Providers

Providers should encourage job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) to share their Job Plans with their SEE or AMEP Providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP Providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

## 6. Summary of Required Documentary Evidence

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business Activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of completed cover sheet with Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

**Documentary evidence:** Where job seekers have used evidence to record their attendance directly into the Department's IT System, offline records are not required to be kept. The same applies where Activity attendance information has been entered by the Activity Host Organisation into the Supervisor App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol treatment and rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- CTA Agreement (for CTA Activities) and Career Pathway Plan
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Calendar and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the Provider chooses to override the hours declared to DHS, the Provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

### Notification to job seekers of their Mutual Obligation Requirements

- The Provider must notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The Provider must create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the Provider is in direct contact with the job seeker, the Provider must record as the notification method that the appointment was booked directly with the job seeker.
- Where an Activity or Appointment is rescheduled by the Provider, formal notification must be issued to the job seeker of their new requirements.

**Note:** If the Provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement
    - a Business Activity Statement.

Where Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, or the job seeker has used evidenced based recording of attendance, offline records are not required to be kept.

Providers must record job seeker's attendance at their internship and record the hours completed by the job seeker at the end of each month to ensure they counted against the job seeker's Annual Activity Requirement.

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed). This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

**Notes:**

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other Activities (in addition to Job Search and Provider Appointments).
- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. It also allows for job seekers to contribute to the community that supports them while they are unemployed.

Version: 3.4

## 1. Defining Mutual Obligation Requirements

Job seekers on the following Income Support Payments must meet their Mutual Obligation Requirements to receive their payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker Income Support Payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving Income Support Payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering their:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work or a temporary reduced work capacity of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and Provider appointments
- acting on referrals to jobs from their Provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Suitable Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10](#).

Also refer to the Job Plan and Scheduling Mutual Obligation Requirements Guidelines for information about Job Plan codes.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the Targeted Compliance Framework.

Please refer to the [Targeted Compliance Framework Guideline](#) for more information.

(Deed References: Clauses 82, 83, 85, 106, 114)

## Determining Mutual Obligation Requirements

When determining Mutual Obligation Requirements it is important to identify both a job seeker's strengths as well as any barriers they have to finding employment. Any vocational and non-vocational Activities are to be tailored to address the job seeker's individual needs and work capacity

Seek out Activities to help job seekers overcome or manage any vocational and non-vocational barriers. See Guide to Social Security Law 3.2.8.50 for what can be included in a Job Plan.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, determine the Activities to meet the job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, Employment Services Provider staff will ultimately determine what requirements the job seeker must do to meet their Mutual Obligation Requirements under Social Security Law.

Record the Activities and other relevant items in the job seeker's Job Plan, and schedule Activities in the Calendar. If drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the Provider must record this information on the Job Seeker's Personal Summary Page ('What you need to know').

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with any special requirements such as wearing work boots and other safety gear.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age
- the impact of any disability, illness, physical or mental health condition or other non-vocational issue` including drug and alcohol dependency, affecting a job seeker's ability to work, look for work or participate in Activities

- the state of the local labour market and the transport options available to the job seeker in accessing that market
- the participation opportunities and Activities available to the job seeker
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes each way)
- the financial costs (such as travel costs) of complying with the requirements and the job seeker's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental health conditions, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake approved Activities in the Work for the Dole Phase
- if the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan (Providers can find the Transition Plan in the Department's IT System)
- any other matters that the Provider considers relevant to the job seeker's circumstances (including if the job seeker discloses they are a victim of family violence).

(Guide to Social Security Law 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, review any barriers identified through an Employment Services Assessment (ESAt) or Job Capacity Assessment (JSA) or other issues disclosed to the Provider. The Job Seeker Classification Instrument and Capability Management Tool may also help identify personal issues affecting a job seeker's employability. These will help the Provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Information about a job seeker's circumstances can be found on the Participation Profile screen of the Department's IT System.

### Using the Capability Management Tool to review a job seeker's circumstances

The Capability Management Tool in the Job Plan section of the Department's IT System needs to be updated when conducting a Capability Interview. It should be used to review and manage a job seeker's personal circumstances which may affect their capacity to participate in Activities and can assist in identifying specific vocational or non-vocational barriers, including those disclosed by the job seeker.

The Capability Management Tool can help to:

- ensure the job seeker has requirements in their Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the Capability Management Tool

(Deed references: Clause 38, 87, Annexure A1)

## Mutual Obligation Requirements for Principal Carer Parents

Consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable childcare, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

The Department's IT System will automatically identify time outside of school hours in the Principal Carer Parent's Calendar. Providers will be able to set requirements at times outside school hours, including weekends. However, Providers will need to discuss this with the Principal Carer Parent to ensure they are available at that time and record the PCP's availability in the Department's IT System. This information will be attached to the requirement.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below), or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the Provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the Voluntary Work.

The Voluntary Work must be in an organisation approved by DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to complete Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks.

See the [Period of Service, Suspensions and Exits Guideline](#).

If a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

#### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable childcare during the school holiday period, the Provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent will not be required to attend Work for the Dole or another Activity during the school holidays if appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers Parents are not required to attend face-to-face appointments with their Provider during school holidays, they can engage with their Provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the Provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer Parent is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

#### Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes business in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in the shutdown period.

#### Inability to obtain suitable childcare is a Valid Reason or Reasonable Excuse.

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable childcare, they will have an Acceptable or Valid Reason to not undertake that requirement. If this occurs, alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

#### Mutual Obligation Requirements for job seekers with a Partial Capacity to Work

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to participate immediately at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a Provider and will be Suspended on a Provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

### Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seekers may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A Provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through paid work (including self-employment), approved Voluntary Work or a combination of these Activities, depending on their age and circumstances as follows:

- If the job seeker is 55 – 59 years of age and in their first 12 months of receiving payment, they can fully meet their Mutual Obligation Requirements by completing 30 hours per fortnight of paid work. This can also be met by completing 30 hours per fortnight of a combination of approved Voluntary Work and paid work. However, this must include at least 15 hours per fortnight of paid work.
- If the job seeker is 55 – 59 years of age and has been receiving payment for more than 12 months, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two Activities.
- If the job seeker is aged between 60 and the age pension age, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a Provider but will be Suspended on a Provider's caseload. However, Providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the Provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified Provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Targeted Compliance Framework.

See the [Targeted Compliance Framework Guideline](#).

## Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

## Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the Provider's caseload.

## Continuing voluntarily in Employment Services

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their Provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their Provider or book an Appointment for them
- contacting their Provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the Provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, Providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

## Sufficient work test

The decision that a job seeker is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

## Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no Job Search requirement, including Certificate I and II level courses
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) section of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

## Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of the completed qualification with the cover sheet at Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, Providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

### Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and postnatal
- caring for children with a disability or other special family circumstances
- domestic violence

- other special circumstances.

If a Provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should be encouraged to contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a Provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a Provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

NOTE: some job seekers considering an application for a Disability Support Pension may need to demonstrate that they have actively participated in a Program of Support to be eligible for Disability Support Pension. You should advise these job seekers that periods of exemption will not be counted as participation in a Program of Support. More information for providers can be found in the Program of Support Fact Sheet that is available on the Provider Portal at <https://ecsnaccess.gov.au/sites/SecureSitePortal/jobactive/Guidelines/Services/default.aspx>

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then Providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

Providers notified of domestic violence (including family violence) as the reason for not meeting Mutual Obligation Requirements, must consider this in their assessment of whether or not the job seeker had a Valid Reason.

If a job seeker is subject to domestic violence (including family violence), DHS will make an assessment on whether an Exemption is granted and the appropriate length of the Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

### Suitable Activities to meet Mutual Obligation Requirements and the Annual Activity Requirement

Consider the job seeker's Stream and Phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements using the correct Job Plan code linked to the Activity scheduled in the Calendar. If the job seeker is in the Work for the Dole Phase, sufficient hours of Activities must be scheduled in the Calendar to allow the job seeker to meet their Annual Activity Requirement.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Only job seekers over 18 years of age can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- the National Work Experience Programme – the NWEPP can only be included as a voluntary not compulsory Activity in the Job Plan Work for the Dole - Only job seekers over 18 years of age can take part in Work for the Dole

Work for the Dole can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is 60 years of age and over.

In all other circumstances, except for job seekers under 18 years of age, Work for the Dole can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Only job seekers over 18 years of age can take part in Work for the Dole.

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances. However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's

previous four fortnight's income support payment rate on the Department's IT System Notification screen. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

**Documentary evidence:** Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole Activity, then a Provider should consider replacing it with an alternative compulsory Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 17 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this Activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Youth Jobs PaTH Employability Skills Training (EST)

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with full time Mutual Obligation Requirements and 15 hours per week over five weeks for job seekers with part-time Mutual Obligation Requirements.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months. An EST mandatory job seeker must be considered for both types of EST courses.

Reports are available in ESS Web and Qlik, which identify EST mandatory and eligible job seekers, including those not in any Activity.

An EST mandatory job seeker retains their mandatory status until they have completed both EST Courses. This is to encourage the development of employability skills. ESS Web recognises completion of an EST Course when a completion payment is claimed by the EST Provider.

Once a job seeker has completed both types of EST Courses and the associated completion payments have been claimed by the EST Provider, the job seeker will revert to and maintain an EST Eligible status for as long as they meet the eligibility criteria.

Providers have discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course, or include EST as a compulsory Activity in the Job Plan if the Provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has Non-Vocational Barriers that must be addressed first as a priority before they can benefit from the training - this could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another suitable Activity - this should only be used when there is an active referral or commencement to another Activity in ESS Web. Where another Activity referral is in place with an end date in the near future, Providers should consider creating an EST referral for a future course. This provides an opportunity for the job seeker to move from their current activity into EST

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST Mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST Mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in the Department's IT System when job seekers have been serviced in jobactive for five months. The [Activity Management Guideline](#) provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents or others with a Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity. -For information on how to do this refer to the jobactive EST IT Supporting Document. These job seekers are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, the Provider should consider a more suitable Activity.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services (DES).

For example, to reach the six months servicing requirement, a job seeker could do six months in jobactive, or two months in DES followed by four months in jobactive.

Early School Leavers can participate in a PaTH Internship (after continuous servicing). PaTH Internship placements are to be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the Provider will need to place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Career Transition Assistance (CTA) Trial 2018-2020

All job seekers aged 50 years and over, and registered with a jobactive Provider in one of the CTA Trial Regions, are eligible to participate in CTA. The CTA Trial Regions are:

- Ballarat, Victoria
- Somerset, Queensland
- Central West, New South Wales
- Adelaide South, South Australia, and
- Perth North, Western Australia.

CTA comprises two elements: Tailored Career Assistance and Functional Digital Literacy. Eligible job seekers can be referred to one, or both elements of CTA, depending on their needs. Participation in CTA will be for the following duration:

- Tailored Career Assistance: a minimum of 50 hours over six weeks,
- Functional Digital Literacy: a minimum of 25 hours over two weeks, and
- Job seekers referred to both elements at the same time will complete a minimum of 75 hours over eight weeks.

If a job seeker with part-time Mutual Obligation Requirements is referred to CTA, the CTA Provider will take this into account when negotiating the weekly hourly requirement for the job seeker. Employment Providers must advise CTA Providers at the point of Referral if a job seeker has a reduced work capacity and what that capacity is.

For job seekers in the Work for the Dole Phase, CTA is an Approved Activity for the purposes of meeting a job seeker's AAR and will meet the job seeker's AAR for the duration of their participation in CTA.

Participation in CTA is voluntary, and CTA can only be added to a job seeker's Job Plan as a voluntary Activity. CTA Providers will advise the job seeker's jobactive Provider if the job seeker stops attending CTA, so that the jobactive Provider can exit the job seeker from CTA and place them in an alternative compulsory Activity.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Regional Employment Trials – 10 Selected Trial Regions

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity.

Participation in a Regional Employment Trials Activity is voluntary, and providers should record participation in a Regional Employment Trials Activity as a voluntary activity in the job seeker's Job Plan.

See the Regional Employment Trials Guideline for further information, including on selected trial regions.

### Approved study and short courses

People undertaking full time study should be placed on a student allowance. Providers should refer full time students to DHS for an income support payment eligibility check.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

Job seekers undertaking an approved full time short course will still be required to undertake Job Search and accept suitable work.

In some circumstances PCPs receiving PES may continue to receive income support payments to complete their full time study.

### What is an appropriate course of study

Providers can approve a job seeker's participation in study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their course and the course would greatly improve their employment prospects
- the Provider determines that participation is necessary and the course is vocationally orientated
- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the Provider

- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 Job Searches per month.

#### A Short Course:

- is vocationally based
- is less than 12 months or two semesters in duration
- is necessary so the job seeker can accept an offer of work
- leads to an early employment outcome
- leads to qualifications in an identified area of skills shortage

#### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

If a Provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their Provider as long as it does not conflict with the scheduled time of the course. Job seekers with full time mutual obligation requirements **cannot** fully meet their mutual obligation requirements with full time study. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 - 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the Provider's caseload.

For information for Providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

### Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, the Provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. The Job Plan must be updated to include the new requirements.

(Guide to Social Security 3.5.1.70)

---

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and part-time or full time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)

- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- childcare provided by an approved childcare service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Record the number of Job Searches required in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search **while they are fully meeting** their Mutual Obligation Requirements:

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- job seekers 55 years of age and over
- job seekers undertaking Drug and Alcohol rehabilitation in a Residential Program
- refugee job seekers undertaking activities to help adjust to life in Australia and to increase chances of finding work.
- The following job seekers will not be required to undertake Job Search while they are meeting their Mutual Obligation Requirements pregnant job seekers will not be required to undertake Job Search from three months before their due date.
- NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.
- NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.
- Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, Providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09.
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Do not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- non-residential treatments or counselling for drug and alcohol dependency
- preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)
- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

(Guide to Social Security 3.2.9.30)

### Job Search requirements while studying Language, Literacy and Numeracy courses

If a Provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

When setting an appropriate number of Job Searches, in addition to other considerations, Providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re-skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.
- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

(Deed references: Clause 113)

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

(Deed references: Clauses 107, 108, 109)

## Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

## Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

### Job seekers with no Annual Activity Requirement:

- job seekers who have reached Age Pension age.
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

**Note:** Under the Targeted Compliance Framework, where Activities are recorded in the Calendar which contribute to a job seeker's Annual Activity Requirements, the Department's IT System will calculate hours. There are exceptions, however, where hours will still need to be manually calculated such as CTA.

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Up to 49 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- Aged 50 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 - 20 hours per fortnight).

### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR Activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

### Participation in Regional Employment Trials Activities

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity. If the participant stops attending the activity they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

See the Regional Employment Trials Guideline for further information.

### Participation hours in study/training

#### Full-time load

If the training Provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are undertaking a full-time study load.

#### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study

can be reflected in the Job Plan by using the appropriate Job Plan code, with study recorded in the job seeker's Calendar.

### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other Activities will also need to be undertaken.

**System step:** For study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 49 years of age and has an overall requirement of 650 hours turns 50 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, Providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

**System step:** For CTA Activities, Employment Providers must record the minimum hours of participation required for the CTA Activity Sub-Type that the job seeker is participating in.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)

- PaTH Internships
- PaTH Employability Skills Training (EST)
- Career Transition Assistance
- Voluntary Work
- Launch into Work program pre-employment projects
- Regional Employment Trials Activities
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- rehabilitation for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers
- preventative health related Activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)

- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. *For example, careers counselling and personal development courses.* Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

## Considerations when selecting Activities to meet Annual Activity Requirement

### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole.

Job seekers under 17 years of age are not eligible to participate in the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 - 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

### Job seekers 18-49 years of age

For job seekers 18 - 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

### Job seekers 50-59 years of age

Job seekers 50 to 59 of age with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements, however, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Certain job seekers undertaking non-vocational Activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction rehabilitation will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

Note: the relevant number of hours refers to the number of hours deemed suitable by the Provider, for the job seeker, for that particular non-vocational assistance or intervention. While there is no fixed lower limit on the number of hours per fortnight of contact hours, a job seeker must not be referred to reduced hours of participation for the sole purposes of meeting their Annual Activity Requirement. The job seeker's participation in these Activities must be sufficient enough to be treating their condition in order to meet the job seeker's Annual Activity Requirement.

## Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the Provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#) and [the Job Plan and Setting Mutual Obligation Requirements Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Setting the required hours in the Calendar

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers must use the Calendar to schedule the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, Providers must use the Calendar to schedule the required hours for all Activities.

**System step:** For job seekers participating in CTA or Regional Employment Trial activity, scheduling these Activities in the Calendar is required. Attended hours will automatically accrue towards job seeker's AAR requirement. Providers should manually record additional monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement so that job seekers meet their full AAR requirement for the period of participation in CTA or a Regional Employment Trial activity.

**System step:** For job seekers undertaking a Launch into Work program pre-employment project, scheduling these Activities in the Calendar is not required. Providers should manually record monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Calendar, refer to the Calendar user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

### Recording job seeker participation against the Annual Activity Requirement

**System step:** Job seekers will be responsible for recording their attendance at Activities. However, for those job seekers found not capable of recording attendance, Providers must record attendance in approved Activities using the Calendar. All results must be recorded by close of business on the day of participation in the activity

- for study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the Provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

Alternatively, when setting up the Activities in the Calendar, it is recommended that the Provider request evidence based attendance recording, which will include a QR code and passcode to be generated by the Department's IT System. They must have the contact details of the Supervisor up to date so that the Supervisor can receive the QR code and passcode the day of the Activity. Job seekers will then be able to scan the QR code when they attend the Activity. If the Activity is longer than four hours, the Department's IT System will generate two codes: one for the start of the Activity and one for the end of the Activity.

For further information regarding how to record attendance in the Calendar, refer to the Department's [Calendar and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST Providers will enter course details into the Calendar component of the Department's IT System. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the jobactive EST IT Supporting Document for further information.

**System step:** For CTA and Regional Employment Trial activities, satisfactory participation in the relevant number of hours in CTA or Regional Employment Trial activity will meet the job seeker's Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in CTA and Regional Employment Trial activities, regardless of the contact hours. Employment Providers must record the relevant hours as per the job seeker's Annual Activity Requirement using the Monthly Hours section of the AAR Details screen of the Department's IT Systems.

### Recording participation via the Supervisor App

Supervisors can use the Supervisor App to record a job seeker's attendance in Work for the Dole and other approved Activities. However, they should be encouraged to only do so for job seekers who:

- have been assessed as not being capable of recording or reporting their own attendance

or

- have been assessed as being capable of recording or reporting their own attendance but who are unable to do for themselves on the day.

In most cases it is expected that the Supervisor will receive a QR code or passcode that has been generated by the Department's IT System, and job seekers will be able to scan it with their mobile devices to record their own attendance. If the activity is longer than four hours, the Supervisor will receive two QR codes or passcodes: one for the morning when the job seekers arrive, and one for the afternoon when the job seekers leave for the day.

For further information on the Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST Providers will continue to have access to the Supervisor App to record job seekers attendance at EST courses where appropriate. Refer to the [jobactive EST IT Supporting Document](#) for details.

**Documentary evidence:** Where job seekers have used evidence to record their attendance directly into the Department's IT System, offline records are not required to be kept. The same applies where Activity attendance information has been entered by the Activity Host Organisation into the Supervisor App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

#### Recording of Work for the Dole participation in the Calendar

**System step:** Job seekers will be able to record their own attendance at Work for the Dole Activities. Where job seekers are not capable of recording their own attendance, or are unable to due to certain circumstances, Providers must record results against all required participation in the Calendar for every day that the job seeker was required to participate, as per notification issued to the job seeker by the close of business each day.

(Deed reference: Clause 107)

#### Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, Providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period and hold documentary evidence supporting the updated hours.

#### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, attendance results, to meet the Annual Activity Requirement must be recorded through the Calendar (using the same process as for Work for the Dole activities).

For job seekers doing on-line courses not required to be recorded in the job seekers Calendar are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

If a job seeker is participating in an Activity that fully meets their Annual Activity Requirement, the Calendar will only count those hours that are scheduled towards the job seeker's Annual Activity Requirement. The remaining hours should be credited by entering them in using the monthly hours section of the AAR Details screen.

Providers are to record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 Business Days after a job seeker exits the Work for the Dole Phase, or exits the Provider's caseload (for example, exiting from jobactive or transferring to another Provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

If Providers are aware that duplicate hours have been created for AAR, Providers must reduce the number of hours within 20 Business Days. This may occur when a job seeker is in paid work, a day of Activity is resulted as No Longer Required (NLR) as the job seeker is working on that day and declares the hours worked. The job seeker would be created the Activity hours and the hours declared. The job seeker should have credited the higher of the two hours for the individual day.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, Providers must ensure the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the Provider's caseload (e.g. exiting from jobactive or transferring to another Provider) to enter hours of participation the job seeker undertook within the Phase that were not required to be entered daily in the Calendar..

The Provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has

not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

## Meeting the Annual Activity Requirement early

### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan using the Job Plan code and recording Activities in the Calendar.
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the Provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after six months (but before 12 months) of jobactive services if the Provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

## Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used

- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- CTA Agreement (for CTA Activities) and Career Pathway Plan
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Calendar and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the Provider chooses to override the hours declared to DHS, the Provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP Providers

Job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) should be encouraged to share their Job Plans with their SEE or AMEP Providers in order to make them aware of their full

Mutual Obligation Requirements. This will assist SEE and AMEP Providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

## 6. Summary of Required Documentary Evidence

### Notification to job seekers of their Mutual Obligation Requirements

- The Provider will notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The Provider will create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the Provider is in direct contact with the job seeker, the Provider must record as the notification method that the appointment was booked directly with the job seeker.
- If an Activity or Appointment is rescheduled by the Provider, formal notification must be issued to the job seeker of their new requirements.

Note: If the Provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked

- Additionally, documentary evidence for self-employment can include:
  - a Profit and Loss Statement
  - a signed and dated written statement from an accountant and/or registered bookkeeper
  - copies of records from the Australian Taxation Office and/or a tax return statement
  - a Business Activity Statement.

If Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, or the job seeker has used evidenced based recording of attendance, offline records are not required to be kept.

A job seeker's attendance at their internship will be recorded to ensure the hours completed by the job seeker end of each month are counted against the job seeker's Annual Activity Requirement.

(Deed reference: Section B4)

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed).

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other Activities (in addition to Job Search and Provider Appointments).

- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. It also allows for job seekers to contribute to the community that supports them while they are unemployed.

## 1. Defining Mutual Obligation Requirements

Job seekers on the following Income Support Payments must meet their Mutual Obligation Requirements to receive their payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker Income Support Payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving Income Support Payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering their:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work or a temporary reduced work capacity of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and Provider appointments
- acting on referrals to jobs from their Provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Suitable Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10](#).

Also refer to the Job Plan and Scheduling Mutual Obligation Requirements Guidelines for information about Job Plan codes.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the Targeted Compliance Framework.

Please refer to the [Targeted Compliance Framework Guideline](#) for more information.

(Deed References: Clauses 82, 83, 85, 106, 114)

## Determining Mutual Obligation Requirements

When determining Mutual Obligation Requirements it is important to identify both a job seeker's strengths as well as any barriers they have to finding employment. Any vocational and non-vocational Activities are to be tailored to address the job seeker's individual needs and work capacity

Seek out Activities to help job seekers overcome or manage any vocational and non-vocational barriers. See Guide to Social Security Law 3.2.8.50 for what can be included in a Job Plan.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, determine the Activities to meet the job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, Employment Services Provider staff will ultimately determine what requirements the job seeker must do to meet their Mutual Obligation Requirements under Social Security Law.

Record the Activities and other relevant items in the job seeker's Job Plan, and schedule Activities in the Calendar. If drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the Provider must record this information on the Job Seeker's Personal Summary Page ('What you need to know').

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with any special requirements such as wearing work boots and other safety gear.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age
- the impact of any disability, illness, physical or mental health condition or other non-vocational issue` including drug and alcohol dependency, affecting a job seeker's ability to work, look for work or participate in Activities

- the state of the local labour market and the transport options available to the job seeker in accessing that market
- the participation opportunities and Activities available to the job seeker
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes each way)
- the financial costs (such as travel costs) of complying with the requirements and the job seeker's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental health conditions, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake approved Activities in the Work for the Dole Phase
- if the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan (Providers can find the Transition Plan in the Department's IT System)
- any other matters that the Provider considers relevant to the job seeker's circumstances (including if the job seeker discloses they are a victim of family violence).

(Guide to Social Security Law 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, review any barriers identified through an Employment Services Assessment (ESAt) or Job Capacity Assessment (JSA) or other issues disclosed to the Provider. The Job Seeker Classification Instrument and Capability Management Tool may also help identify personal issues affecting a job seeker's employability. These will help the Provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Information about a job seeker's circumstances can be found on the Participation Profile screen of the Department's IT System.

### Using the Capability Management Tool to review a job seeker's circumstances

The Capability Management Tool in the Job Plan section of the Department's IT System needs to be updated when conducting a Capability Interview. It should be used to review and manage a job seeker's personal circumstances which may affect their capacity to participate in Activities and can assist in identifying specific vocational or non-vocational barriers, including those disclosed by the job seeker.

The Capability Management Tool can help to:

- ensure the job seeker has requirements in their Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the Capability Management Tool

(Deed references: Clause 38, 87, Annexure A1)

### Mutual Obligation Requirements for Principal Carer Parents

Consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable childcare, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

The Department's IT System will automatically identify time outside of school hours in the Principal Carer Parent's Calendar. Providers will be able to set requirements at times outside school hours, including weekends. However, Providers will need to discuss this with the Principal Carer Parent to ensure they are available at that time and record the PCP's availability in the Department's IT System. This information will be attached to the requirement.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below), or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the Provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the Voluntary Work.

The Voluntary Work must be in an organisation approved by DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to complete Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks.

See the [Period of Service, Suspensions and Exits Guideline](#).

If a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

#### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable childcare during the school holiday period, the Provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent will not be required to attend Work for the Dole or another Activity during the school holidays if appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers Parents are not required to attend face-to-face appointments with their Provider during school holidays, they can engage with their Provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the Provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer Parent is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

#### Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes business in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in the shutdown period.

#### Inability to obtain suitable childcare is a Valid Reason or Reasonable Excuse.

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable childcare, they will have an Acceptable or Valid Reason to not undertake that requirement. If this occurs, alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

#### Mutual Obligation Requirements for job seekers with a Partial Capacity to Work

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to participate immediately at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a Provider and will be Suspended on a Provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

### Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seekers may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A Provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through paid work (including self-employment), approved Voluntary Work or a combination of these Activities, depending on their age and circumstances as follows:

- If the job seeker is 55 – 59 years of age and in their first 12 months of receiving payment, they can fully meet their Mutual Obligation Requirements by completing 30 hours per fortnight of paid work. This can also be met by completing 30 hours per fortnight of a combination of approved Voluntary Work and paid work. However, this must include at least 15 hours per fortnight of paid work.
- If the job seeker is 55 – 59 years of age and has been receiving payment for more than 12 months, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two Activities.
- If the job seeker is aged between 60 and the age pension age, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a Provider but will be Suspended on a Provider's caseload. However, Providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the Provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified Provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Targeted Compliance Framework.

See the [Targeted Compliance Framework Guideline](#).

## Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

## Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the Provider's caseload.

## Continuing voluntarily in Employment Services

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their Provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their Provider or book an Appointment for them
- contacting their Provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the Provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, Providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

## Sufficient work test

The decision that a job seeker is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

## Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no Job Search requirement, including Certificate I and II level courses
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) section of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

## Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of the completed qualification with the cover sheet at Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, Providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

### Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and postnatal
- caring for children with a disability or other special family circumstances
- domestic violence

- other special circumstances.

If a Provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should be encouraged to contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a Provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a Provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

NOTE: some job seekers considering an application for a Disability Support Pension may need to demonstrate that they have actively participated in a Program of Support to be eligible for Disability Support Pension. You should advise these job seekers that periods of exemption will not be counted as participation in a Program of Support. More information for providers can be found in the Program of Support Fact Sheet that is available on the Provider Portal at <https://ecsnaccess.gov.au/sites/SecureSitePortal/jobactive/Guidelines/Service/Pages/default.aspx>

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then Providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

Providers notified of domestic violence (including family violence) as the reason for not meeting Mutual Obligation Requirements, must consider this in their assessment of whether or not the job seeker had a Valid Reason.

If a job seeker is subject to domestic violence (including family violence), DHS will make an assessment on whether an Exemption is granted and the appropriate length of the Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

### Suitable Activities to meet Mutual Obligation Requirements and the Annual Activity Requirement

Consider the job seeker's Stream and Phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements using the correct Job Plan code linked to the Activity scheduled in the Calendar. If the job seeker is in the Work for the Dole Phase, sufficient hours of Activities must be scheduled in the Calendar to allow the job seeker to meet their Annual Activity Requirement.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Only job seekers over 18 years of age can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- the National Work Experience Programme – the NWEPP can only be included as a voluntary not compulsory Activity in the Job Plan Work for the Dole - Only job seekers over 18 years of age can take part in Work for the Dole

Work for the Dole can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is 60 years of age and over.

In all other circumstances, except for job seekers under 18 years of age, Work for the Dole can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Only job seekers over 18 years of age can take part in Work for the Dole.

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances. However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's

previous four fortnight's income support payment rate on the Department's IT System Notification screen. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

**Documentary evidence:** Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole Activity, then a Provider should consider replacing it with an alternative compulsory Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 17 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this Activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Youth Jobs PaTH Employability Skills Training (EST)

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with full time Mutual Obligation Requirements and 15 hours per week over five weeks for job seekers with part-time Mutual Obligation Requirements.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months. An EST mandatory job seeker must be considered for both types of EST courses.

Reports are available in ESS Web and Qlik, which identify EST mandatory and eligible job seekers, including those not in any Activity.

An EST mandatory job seeker retains their mandatory status until they have completed both EST Courses. This is to encourage the development of employability skills. ESS Web recognises completion of an EST Course when a completion payment is claimed by the EST Provider.

Once a job seeker has completed both types of EST Courses and the associated completion payments have been claimed by the EST Provider, the job seeker will revert to and maintain an EST Eligible status for as long as they meet the eligibility criteria.

Providers have discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course, or include EST as a compulsory Activity in the Job Plan if the Provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has Non-Vocational Barriers that must be addressed first as a priority before they can benefit from the training - this could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another suitable Activity - this should only be used when there is an active referral or commencement to another Activity in ESS Web. Where another Activity referral is in place with an end date in the near future, Providers should consider creating an EST referral for a future course. This provides an opportunity for the job seeker to move from their current activity into EST

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST Mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST Mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in the Department's IT System when job seekers have been serviced in jobactive for five months. The [Activity Management Guideline](#) provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents or others with a Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity. -For information on how to do this refer to the [EST Provider ESSWeb Task Cards which is available in the Learning Centre EST Provider Resources on the Provider Portal](#) . These job seekers are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, the Provider should consider a more suitable Activity.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services (DES).

For example, to reach the six months servicing requirement, a job seeker could do six months in jobactive, or two months in DES followed by four months in jobactive.

Early School Leavers can participate in a PaTH Internship (after continuous servicing). PaTH Internship placements are to be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the Provider will need to place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Career Transition Assistance (CTA) Trial 2018-2020

All job seekers aged 50 years and over, and registered with a jobactive Provider in one of the CTA Trial Regions, are eligible to participate in CTA. The CTA Trial Regions are:

- Ballarat, Victoria
- Somerset, Queensland
- Central West, New South Wales
- Adelaide South, South Australia, and
- Perth North, Western Australia.

CTA comprises two elements: Tailored Career Assistance and Functional Digital Literacy. Eligible job seekers can be referred to one, or both elements of CTA, depending on their needs. Participation in CTA will be for the following duration:

- Tailored Career Assistance: a minimum of 50 hours over six weeks,
- Functional Digital Literacy: a minimum of 25 hours over two weeks, and
- Job seekers referred to both elements at the same time will complete a minimum of 75 hours over eight weeks.

If a job seeker with part-time Mutual Obligation Requirements is referred to CTA, the CTA Provider will take this into account when negotiating the weekly hourly requirement for the job seeker. Employment Providers must advise CTA Providers at the point of Referral if a job seeker has a reduced work capacity and what that capacity is.

For job seekers in the Work for the Dole Phase, CTA is an Approved Activity for the purposes of meeting a job seeker's AAR and will meet the job seeker's AAR for the duration of their participation in CTA.

Participation in CTA is voluntary, and CTA can only be added to a job seeker's Job Plan as a voluntary Activity. CTA Providers will advise the job seeker's jobactive Provider if the job seeker stops attending CTA, so that the jobactive Provider can exit the job seeker from CTA and place them in an alternative compulsory Activity.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Regional Employment Trials – 10 Selected Trial Regions

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity.

Participation in a Regional Employment Trials Activity is voluntary, and providers should record participation in a Regional Employment Trials Activity as a voluntary activity in the job seeker's Job Plan.

See the Regional Employment Trials Guideline for further information, including on selected trial regions.

### Approved study and short courses

People undertaking full time study should be placed on a student allowance. Providers should refer full time students to DHS for an income support payment eligibility check.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

Job seekers undertaking an approved full time short course will still be required to undertake Job Search and accept suitable work.

In some circumstances PCPs receiving PES may continue to receive income support payments to complete their full time study.

### What is an appropriate course of study

Providers can approve a job seeker's participation in study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their course and the course would greatly improve their employment prospects
- the Provider determines that participation is necessary and the course is vocationally orientated
- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the Provider

- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 Job Searches per month.

#### A Short Course:

- is vocationally based
- is less than 12 months or two semesters in duration
- is necessary so the job seeker can accept an offer of work
- leads to an early employment outcome
- leads to qualifications in an identified area of skills shortage

#### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

If a Provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their Provider as long as it does not conflict with the scheduled time of the course. Job seekers with full time mutual obligation requirements **cannot** fully meet their mutual obligation requirements with full time study. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 - 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the Provider's caseload.

For information for Providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

### Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, the Provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. The Job Plan must be updated to include the new requirements.

(Guide to Social Security 3.5.1.70)

---

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and part-time or full time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)

- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- childcare provided by an approved childcare service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Record the number of Job Searches required in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search **while they are fully meeting** their Mutual Obligation Requirements:

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- job seekers 55 years of age and over
- job seekers undertaking Drug and Alcohol rehabilitation in a Residential Program
- refugee job seekers undertaking activities to help adjust to life in Australia and to increase chances of finding work.
- The following job seekers will not be required to undertake Job Search while they are meeting their Mutual Obligation Requirements pregnant job seekers will not be required to undertake Job Search from three months before their due date.
- NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.
- NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.
- Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, Providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09.
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Do not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- non-residential treatments or counselling for drug and alcohol dependency
- preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)
- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

(Guide to Social Security 3.2.9.30)

### Job Search requirements while studying Language, Literacy and Numeracy courses

If a Provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

When setting an appropriate number of Job Searches, in addition to other considerations, Providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re-skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.
- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

(Deed references: Clause 113)

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

(Deed references: Clauses 107, 108, 109)

## Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

## Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

### Job seekers with no Annual Activity Requirement:

- job seekers who have reached Age Pension age.
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

**Note:** Under the Targeted Compliance Framework, where Activities are recorded in the Calendar which contribute to a job seeker's Annual Activity Requirements, the Department's IT System will calculate hours. There are exceptions, however, where hours will still need to be manually calculated such as CTA.

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Up to 49 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- Aged 50 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 - 20 hours per fortnight).

### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR Activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

### Participation in Regional Employment Trials Activities

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity. If the participant stops attending the activity they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

See the Regional Employment Trials Guideline for further information.

### Participation hours in study/training

#### Full-time load

If the training Provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are undertaking a full-time study load.

#### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study

can be reflected in the Job Plan by using the appropriate Job Plan code, with study recorded in the job seeker's Calendar.

### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other Activities will also need to be undertaken.

**System step:** For study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 49 years of age and has an overall requirement of 650 hours turns 50 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, Providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

**System step:** For CTA Activities, Employment Providers must record the minimum hours of participation required for the CTA Activity Sub-Type that the job seeker is participating in.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)

- PaTH Internships
- PaTH Employability Skills Training (EST)
- Career Transition Assistance
- Voluntary Work
- Launch into Work program pre-employment projects
- Regional Employment Trials Activities
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- rehabilitation for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers
- preventative health related Activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)

- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. *For example, careers counselling and personal development courses.* Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

## Considerations when selecting Activities to meet Annual Activity Requirement

### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole.

Job seekers under 17 years of age are not eligible to participate in the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 - 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

### Job seekers 18-49 years of age

For job seekers 18 - 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

### Job seekers 50-59 years of age

Job seekers 50 to 59 of age with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements, however, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Certain job seekers undertaking non-vocational Activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction rehabilitation will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

Note: the relevant number of hours refers to the number of hours deemed suitable by the Provider, for the job seeker, for that particular non-vocational assistance or intervention. While there is no fixed lower limit on the number of hours per fortnight of contact hours, a job seeker must not be referred to reduced hours of participation for the sole purposes of meeting their Annual Activity Requirement. The job seeker's participation in these Activities must be sufficient enough to be treating their condition in order to meet the job seeker's Annual Activity Requirement.

## Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the Provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#) and [the Job Plan and Setting Mutual Obligation Requirements Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Setting the required hours in the Calendar

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers must use the Calendar to schedule the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, Providers must use the Calendar to schedule the required hours for all Activities.

**System step:** For job seekers participating in CTA or Regional Employment Trial activity, scheduling these Activities in the Calendar is required. Attended hours will automatically accrue towards job seeker's AAR requirement. Providers should manually record additional monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement so that job seekers meet their full AAR requirement for the period of participation in CTA or a Regional Employment Trial activity.

**System step:** For job seekers undertaking a Launch into Work program pre-employment project, scheduling these Activities in the Calendar is not required. Providers should manually record monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Calendar, refer to the Calendar user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

### Recording job seeker participation against the Annual Activity Requirement

**System step:** Job seekers will be responsible for recording their attendance at Activities. However, for those job seekers found not capable of recording attendance, Providers must record attendance in approved Activities using the Calendar. All results must be recorded by close of business on the day of participation in the activity

- for study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the Provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

Alternatively, when setting up the Activities in the Calendar, it is recommended that the Provider request evidence based attendance recording, which will include a QR code and passcode to be generated by the Department's IT System. They must have the contact details of the Supervisor up to date so that the Supervisor can receive the QR code and passcode the day of the Activity. Job seekers will then be able to scan the QR code when they attend the Activity. If the Activity is longer than four hours, the Department's IT System will generate two codes: one for the start of the Activity and one for the end of the Activity.

For further information regarding how to record attendance in the Calendar, refer to the Department's [Calendar and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST Providers will enter course details into the Calendar component of the Department's IT System. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details. See the [EST Provider ESSWeb Task Cards which is available in the Learning Centre EST Provider Resources](#) on the Provider Portal for further information.

**System step:** For CTA and Regional Employment Trial activities, satisfactory participation in the relevant number of hours in CTA or Regional Employment Trial activity will meet the job seeker's Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in CTA and Regional Employment Trial activities, regardless of the contact hours. Employment Providers must record the relevant hours as per the job seeker's Annual Activity Requirement using the Monthly Hours section of the AAR Details screen of the Department's IT Systems.

### Recording participation via the Supervisor App

Supervisors can use the Supervisor App to record a job seeker's attendance in Work for the Dole and other approved Activities. However, they should be encouraged to only do so for job seekers who:

- have been assessed as not being capable of recording or reporting their own attendance

or

- have been assessed as being capable of recording or reporting their own attendance but who are unable to do for themselves on the day.

In most cases it is expected that the Supervisor will receive a QR code or passcode that has been generated by the Department's IT System, and job seekers will be able to scan it with their mobile devices to record their own attendance. If the activity is longer than four hours, the Supervisor will receive two QR codes or passcodes: one for the morning when the job seekers arrive, and one for the afternoon when the job seekers leave for the day.

For further information on the Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST Providers will continue to have access to the Supervisor App to record job seekers attendance at EST courses where appropriate. Refer to the [EST Provider ESSWeb Task Cards](#) which is available in the [Learning Centre EST Provider Resources](#) on the Provider Portal for details.

**Documentary evidence:** Where job seekers have used evidence to record their attendance directly into the Department's IT System, offline records are not required to be kept. The same applies where Activity attendance information has been entered by the Activity Host Organisation into the Supervisor App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

#### Recording of Work for the Dole participation in the Calendar

**System step:** Job seekers will be able to record their own attendance at Work for the Dole Activities. Where job seekers are not capable of recording their own attendance, or are unable to due to certain circumstances, Providers must record results against all required participation in the Calendar for every day that the job seeker was required to participate, as per notification issued to the job seeker by the close of business each day.

(Deed reference: Clause 107)

#### Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, Providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period and hold documentary evidence supporting the updated hours.

#### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, attendance results, to meet the Annual Activity Requirement must be recorded through the Calendar (using the same process as for Work for the Dole activities).

For job seekers doing on-line courses not required to be recorded in the job seekers Calendar are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

If a job seeker is participating in an Activity that fully meets their Annual Activity Requirement, the Calendar will only count those hours that are scheduled towards the job seeker's Annual Activity Requirement. The remaining hours should be credited by entering them in using the monthly hours section of the AAR Details screen.

Providers are to record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 Business Days after a job seeker exits the Work for the Dole Phase, or exits the Provider's caseload (for example, exiting from jobactive or transferring to another Provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

If Providers are aware that duplicate hours have been created for AAR, Providers must reduce the number of hours within 20 Business Days. This may occur when a job seeker is in paid work, a day of Activity is resulted as No Longer Required (NLR) as the job seeker is working on that day and declares the hours worked. The job seeker would be created the Activity hours and the hours declared. The job seeker should have credited the higher of the two hours for the individual day.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, Providers must ensure the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the Provider's caseload (e.g. exiting from jobactive or transferring to another Provider) to enter hours of participation the job seeker undertook within the Phase that were not required to be entered daily in the Calendar..

The Provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement

- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

### Meeting the Annual Activity Requirement early

#### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation. These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan using the Job Plan code and recording Activities in the Calendar.
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the Provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

#### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after six months (but before 12 months) of jobactive services if the Provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

## Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- CTA Agreement (for CTA Activities) and Career Pathway Plan
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Calendar and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the Provider chooses to override the hours declared to DHS, the Provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP Providers

Job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) should be encouraged to share their Job Plans with their SEE or AMEP Providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP Providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

## 6. Summary of Required Documentary Evidence

### Notification to job seekers of their Mutual Obligation Requirements

- The Provider will notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.
- The Provider will create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the Provider is in direct contact with the job seeker, the Provider must record as the notification method that the appointment was booked directly with the job seeker.
- If an Activity or Appointment is rescheduled by the Provider, formal notification must be issued to the job seeker of their new requirements.

**Note:** If the Provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

### Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements

- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement
    - a Business Activity Statement.

If Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, or the job seeker has used evidenced based recording of attendance, offline records are not required to be kept.

A job seeker's attendance at their internship will be recorded to ensure the hours completed by the job seeker end of each month are counted against the job seeker's Annual Activity Requirement.

(Deed reference: Section B4)

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed).

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other Activities (in addition to Job Search and Provider Appointments).

- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

Guideline:

# Managing and Monitoring Mutual Obligation Requirements Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. It also allows for job seekers to contribute to the community that supports them while they are unemployed.

## 1. Defining Mutual Obligation Requirements

Job seekers on the following Income Support Payments must meet their Mutual Obligation Requirements to receive their payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker Income Support Payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving Income Support Payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering their:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work or a temporary reduced work capacity of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and Provider appointments
- acting on referrals to jobs from their Provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Suitable Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10](#).

Also refer to the Job Plan and Scheduling Mutual Obligation Requirements Guidelines for information about Job Plan codes.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the Targeted Compliance Framework.

Please refer to the [Targeted Compliance Framework Guideline](#) for more information.

(Deed References: Clauses 82, 83, 85, 106, 114)

## Determining Mutual Obligation Requirements

When determining Mutual Obligation Requirements it is important to identify both a job seeker's strengths as well as any barriers they have to finding employment. Any vocational and non-vocational Activities are to be tailored to address the job seeker's individual needs and work capacity

Seek out Activities to help job seekers overcome or manage any vocational and non-vocational barriers. See Guide to Social Security Law 3.2.8.50 for what can be included in a Job Plan.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, determine the Activities to meet the job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, Employment Services Provider staff will ultimately determine what requirements the job seeker must do to meet their Mutual Obligation Requirements under Social Security Law.

Record the Activities and other relevant items in the job seeker's Job Plan, and schedule Activities in the Calendar. If drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the Provider must record this information on the Job Seeker's Personal Summary Page ('What you need to know').

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with any special requirements such as wearing work boots and other safety gear.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age
- the impact of any disability, illness, physical or mental health condition or other non-vocational issue` including drug and alcohol dependency, affecting a job seeker's ability to work, look for work or participate in Activities

- the state of the local labour market and the transport options available to the job seeker in accessing that market
- the participation opportunities and Activities available to the job seeker
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes each way)
- the financial costs (such as travel costs) of complying with the requirements and the job seeker's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental health conditions, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake approved Activities in the Work for the Dole Phase
- if the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan (Providers can find the Transition Plan in the Department's IT System)
- any other matters that the Provider considers relevant to the job seeker's circumstances (including if the job seeker discloses they are a victim of family violence).

(Guide to Social Security Law 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, review any barriers identified through an Employment Services Assessment (ESAt) or Job Capacity Assessment (JSA) or other issues disclosed to the Provider. The Job Seeker Classification Instrument and Capability Management Tool may also help identify personal issues affecting a job seeker's employability. These will help the Provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Information about a job seeker's circumstances can be found on the Participation Profile screen of the Department's IT System.

### Using the Capability Management Tool to review a job seeker's circumstances

The Capability Management Tool in the Job Plan section of the Department's IT System needs to be updated when conducting a Capability Interview. It should be used to review and manage a job seeker's personal circumstances which may affect their capacity to participate in Activities and can assist in identifying specific vocational or non-vocational barriers, including those disclosed by the job seeker.

The Capability Management Tool can help to:

- ensure the job seeker has requirements in their Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the Capability Management Tool

(Deed references: Clause 38, 87, Annexure A1)

### Mutual Obligation Requirements for Principal Carer Parents

Consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable childcare, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

The Department's IT System will automatically identify time outside of school hours in the Principal Carer Parent's Calendar. Providers will be able to set requirements at times outside school hours, including weekends. However, Providers will need to discuss this with the Principal Carer Parent to ensure they are available at that time and record the PCP's availability in the Department's IT System. This information will be attached to the requirement.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below), or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the Provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the Voluntary Work.

The Voluntary Work must be in an organisation approved by DHS. For further information refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to complete Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks.

See the [Period of Service, Suspensions and Exits Guideline](#).

If a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

#### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable childcare during the school holiday period, the Provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent will not be required to attend Work for the Dole or another Activity during the school holidays if appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers Parents are not required to attend face-to-face appointments with their Provider during school holidays, they can engage with their Provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the Provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer Parent is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

#### Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes business in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in the shutdown period.

#### Inability to obtain suitable childcare is a Valid Reason or Reasonable Excuse.

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable childcare, they will have an Acceptable or Valid Reason to not undertake that requirement. If this occurs, alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

#### Mutual Obligation Requirements for job seekers with a Partial Capacity to Work

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to participate immediately at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a Provider and will be Suspended on a Provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

### Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seekers may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A Provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through paid work (including self-employment), approved Voluntary Work or a combination of these Activities, depending on their age and circumstances as follows:

- If the job seeker is 55 – 59 years of age and in their first 12 months of receiving payment, they can fully meet their Mutual Obligation Requirements by completing 30 hours per fortnight of paid work. This can also be met by completing 30 hours per fortnight of a combination of approved Voluntary Work and paid work. However, this must include at least 15 hours per fortnight of paid work.
- If the job seeker is 55 – 59 years of age and has been receiving payment for more than 12 months, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two Activities.
- If the job seeker is aged between 60 and the age pension age, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a Provider but will be Suspended on a Provider's caseload. However, Providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the Provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation Requirements (as above). Job seekers who fail to attend this Appointment or any other notified Provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Targeted Compliance Framework.

See the [Targeted Compliance Framework Guideline](#).

## Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

## Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the Provider's caseload.

## Continuing voluntarily in Employment Services

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their Provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their Provider or book an Appointment for them
- contacting their Provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the Provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, Providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

## Sufficient work test

The decision that a job seeker is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

## Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no Job Search requirement, including Certificate I and II level courses
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) section of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

## Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution
- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of the completed qualification with the cover sheet at Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

### Mutual Obligation Requirements for pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, Providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

### Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness
- pre and postnatal
- caring for children with a disability or other special family circumstances
- domestic violence

- other special circumstances.

If a Provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should be encouraged to contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a Provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a Provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

NOTE: some job seekers considering an application for a Disability Support Pension may need to demonstrate that they have actively participated in a Program of Support to be eligible for Disability Support Pension. You should advise these job seekers that periods of exemption will not be counted as participation in a Program of Support. More information for providers can be found in the Program of Support Fact Sheet that is available on the Provider Portal at <https://ecsnaccess.gov.au/sites/SecureSitePortal/jobactive/Guidelines/Services/default.aspx>

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then Providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

Providers notified of domestic violence (including family violence) as the reason for not meeting Mutual Obligation Requirements, must consider this in their assessment of whether or not the job seeker had a Valid Reason.

If a job seeker is subject to domestic violence (including family violence), DHS will make an assessment on whether an Exemption is granted and the appropriate length of the Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

### Suitable Activities to meet Mutual Obligation Requirements and the Annual Activity Requirement

Consider the job seeker's Stream and Phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements using the correct Job Plan code linked to the Activity scheduled in the Calendar. If the job seeker is in the Work for the Dole Phase, sufficient hours of Activities must be scheduled in the Calendar to allow the job seeker to meet their Annual Activity Requirement.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Only job seekers over 18 years of age can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- the National Work Experience Programme – the NWEPP can only be included as a voluntary not compulsory Activity in the Job Plan Work for the Dole - Only job seekers over 18 years of age can take part in Work for the Dole

Work for the Dole can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is 60 years of age and over.

In all other circumstances, except for job seekers under 18 years of age, Work for the Dole can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Only job seekers over 18 years of age can take part in Work for the Dole.

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances. However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's

previous four fortnight's income support payment rate on the Department's IT System Notification screen. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

**Documentary evidence:** Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole Activity, then a Provider should consider replacing it with an alternative compulsory Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 17 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this Activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Youth Jobs PaTH Employability Skills Training (EST)

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with full time Mutual Obligation Requirements and 15 hours per week over five weeks for job seekers with part-time Mutual Obligation Requirements.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months. An EST mandatory job seeker must be considered for both types of EST courses.

Reports are available in ESS Web and Qlik, which identify EST mandatory and eligible job seekers, including those not in any Activity.

An EST mandatory job seeker retains their mandatory status until they have completed both EST Courses. This is to encourage the development of employability skills. ESS Web recognises completion of an EST Course when a completion payment is claimed by the EST Provider.

Once a job seeker has completed both types of EST Courses and the associated completion payments have been claimed by the EST Provider, the job seeker will revert to and maintain an EST Eligible status for as long as they meet the eligibility criteria.

Providers have discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course, or include EST as a compulsory Activity in the Job Plan if the Provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has Non-Vocational Barriers that must be addressed first as a priority before they can benefit from the training - this could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another suitable Activity - this should only be used when there is an active referral or commencement to another Activity in ESS Web. Where another Activity referral is in place with an end date in the near future, Providers should consider creating an EST referral for a future course. This provides an opportunity for the job seeker to move from their current activity into EST

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST Mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST Mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in the Department's IT System when job seekers have been serviced in jobactive for five months. The [Activity Management Guideline](#) provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents or others with a Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity. These job seekers are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, the Provider should consider a more suitable Activity.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship after six months of continuous servicing in jobactive, Transition to Work or Disability Employment Services (DES).

For example, to reach the six months servicing requirement, a job seeker could do six months in jobactive, or two months in DES followed by four months in jobactive.

Early School Leavers can participate in a PaTH Internship (after continuous servicing). PaTH Internship placements are to be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the Provider will need to place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Career Transition Assistance (CTA) Trial 2018-2020

All job seekers aged 50 years and over, and registered with a jobactive Provider in one of the CTA Trial Regions, are eligible to participate in CTA. The CTA Trial Regions are:

- Ballarat, Victoria
- Somerset, Queensland
- Central West, New South Wales
- Adelaide South, South Australia, and
- Perth North, Western Australia.

CTA comprises two elements: Tailored Career Assistance and Functional Digital Literacy. Eligible job seekers can be referred to one, or both elements of CTA, depending on their needs. Participation in CTA will be for the following duration:

- Tailored Career Assistance: a minimum of 50 hours over six weeks,
- Functional Digital Literacy: a minimum of 25 hours over two weeks, and
- Job seekers referred to both elements at the same time will complete a minimum of 75 hours over eight weeks.

If a job seeker with part-time Mutual Obligation Requirements is referred to CTA, the CTA Provider will take this into account when negotiating the weekly hourly requirement for the job seeker. Employment Providers must advise CTA Providers at the point of Referral if a job seeker has a reduced work capacity and what that capacity is.

For job seekers in the Work for the Dole Phase, CTA is an Approved Activity for the purposes of meeting a job seeker's AAR and will meet the job seeker's AAR for the duration of their participation in CTA.

Participation in CTA is voluntary, and CTA can only be added to a job seeker's Job Plan as a voluntary Activity. CTA Providers will advise the job seeker's jobactive Provider if the job seeker stops attending CTA, so that the jobactive Provider can exit the job seeker from CTA and place them in an alternative compulsory Activity.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project.

Participants will not have to complete other activities whilst participating in the project.

### Regional Employment Trials – 10 Selected Trial Regions

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity.

Participation in a Regional Employment Trials Activity is voluntary, and providers should record participation in a Regional Employment Trials Activity as a voluntary activity in the job seeker's Job Plan.

See the Regional Employment Trials Guideline for further information, including on selected trial regions.

### Approved study and short courses

People undertaking full time study should be placed on a student allowance. Providers should refer full time students to DHS for an income support payment eligibility check.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

Job seekers undertaking an approved full time short course will still be required to undertake Job Search and accept suitable work.

In some circumstances PCPs receiving PES may continue to receive income support payments to complete their full time study.

### What is an appropriate course of study

Providers can approve a job seeker's participation in study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their course and the course would greatly improve their employment prospects
- the Provider determines that participation is necessary and the course is vocationally orientated
- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the Provider
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their

Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course

- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 Job Searches per month.

#### A Short Course:

- is vocationally based
- is less than 12 months or two semesters in duration
- is necessary so the job seeker can accept an offer of work
- leads to an early employment outcome
- leads to qualifications in an identified area of skills shortage

#### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

If a Provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their Provider as long as it does not conflict with the scheduled time of the course. Job seekers with full time mutual obligation requirements **cannot** fully meet their mutual obligation requirements with full time study. They are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 - 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation

Requirements. These recipients are managed by DHS and will be Suspended from the Provider's caseload.

For information for Providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

### Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, the Provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. The Job Plan must be updated to include the new requirements.

(Guide to Social Security 3.5.1.70)

---

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and part-time or full time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions
- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- childcare provided by an approved childcare service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Record the number of Job Searches required in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity

- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search **while they are fully meeting** their Mutual Obligation Requirements:

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- job seekers 55 years of age and over
- job seekers undertaking Drug and Alcohol rehabilitation in a Residential Program
- refugee job seekers undertaking activities to help adjust to life in Australia and to increase chances of finding work.
- The following job seekers will not be required to undertake Job Search while they are meeting their Mutual Obligation Requirements pregnant job seekers will not be required to undertake Job Search from three months before their due date.
- NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.
- NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.
- Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, Providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09.
- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Do not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- non-residential treatments or counselling for drug and alcohol dependency
- preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)
- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

(Guide to Social Security 3.2.9.30)

#### Job Search requirements while studying Language, Literacy and Numeracy courses

If a Provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

When setting an appropriate number of Job Searches, in addition to other considerations, Providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re-skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.
- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

(Deed references: Clause 113)

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

## Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

### Job seekers with no Annual Activity Requirement:

- job seekers who have reached Age Pension age.
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator

**Note:** Under the Targeted Compliance Framework, where Activities are recorded in the Calendar which contribute to a job seeker's Annual Activity Requirements, the Department's IT System will calculate hours. There are exceptions, however, where hours will still need to be manually calculated such as CTA.

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Up to 49 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)
- Aged 50 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).

- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

#### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 - 20 hours per fortnight).

#### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR Activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

#### Participation in Regional Employment Trials Activities

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity. If the participant stops attending the activity they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

See the Regional Employment Trials Guideline for further information.

#### Participation hours in study/training

##### Full-time load

If the training Provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are undertaking a full-time study load.

##### Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study can be reflected in the Job Plan by using the appropriate Job Plan code, with study recorded in the job seeker's Calendar.

##### Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the

training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other Activities will also need to be undertaken.

**System step:** For study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

### Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 49 years of age and has an overall requirement of 650 hours turns 50 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

### Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, Providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

**System step:** For CTA Activities, Employment Providers must record the minimum hours of participation required for the CTA Activity Sub-Type that the job seeker is participating in.

### Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Career Transition Assistance
- Voluntary Work
- Launch into Work program pre-employment projects

---

 jobactive guideline **Managing and Monitoring Mutual Obligation Requirements Guideline**

---

- Regional Employment Trials Activities
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- rehabilitation for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers
- preventative health related Activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

#### Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. *For example, careers counselling and personal development courses.* Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

## Considerations when selecting Activities to meet Annual Activity Requirement

### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole.

Job seekers under 17 years of age are not eligible to participate in the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 - 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship (after six months of continuous servicing in jobactive, Transition to Work, or Disability Employment Services).

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

### Job seekers 18-49 years of age

For job seekers 18 - 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:

- arranged to meet their Annual Activity Requirement through another approved Activity that will start at the time they become subject to the Annual Activity Requirement, or
- are already undertaking other approved Activities at the time they enter the Work for the Dole Phase.

(Deed references: Clauses 107, 108, 109)

### Job seekers 50-59 years of age

Job seekers 50 to 59 of age with full-time Mutual Obligation Requirements may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in their Job Plan.

(Deed references: Clauses 107, 108, 109)

### Principal Carer Parents and job seekers with a Partial Capacity to Work

Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week of any age may select which approved Activity they will undertake to meet their Annual Activity Requirement. Once chosen, this Activity should generally be entered as a compulsory requirement in the Job Plan.

(Deed references: Clauses 107, 108, 109)

### Job seekers with Community Service Orders

Job seekers with Community Service Orders of 20 hours or more a week do not have Mutual Obligation Requirements for the period of the Order.

If a job seeker has a Community Service Order of less than 20 hours a week they still have Mutual Obligation Requirements, however, the Community Service Orders take precedence. If these job seekers are in the Work for the Dole phase they will need to meet their Annual Activity Requirement in addition to their Community Service Order.

(Deed references: Clauses 107, 108, 109)

### Certain job seekers undertaking non-vocational Activities/interventions

For Stream C job seekers, satisfactory participation for the relevant number of hours in non-vocational assistance or interventions (including preventative health treatments and drug or alcohol addiction rehabilitation) will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction rehabilitation will meet their Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in that Activity, regardless of contact hours.

For jobactive Indigenous job seekers and Stream C job seekers participation in preventative health treatments and interventions can be counted towards their Annual Activity Requirement.

Note: the relevant number of hours refers to the number of hours deemed suitable by the Provider, for the job seeker, for that particular non-vocational assistance or intervention. While there is no fixed lower limit on the number of hours per fortnight of contact hours, a job seeker must not be referred to reduced hours of participation for the sole purposes of meeting their Annual Activity Requirement. The job seeker's participation in these Activities must be sufficient enough to be treating their condition in order to meet the job seeker's Annual Activity Requirement.

### Placing the job seeker in Activities

Providers must commence job seekers who have an Annual Activity Requirement in an Activity immediately after entering the Work for the Dole Phase.

Job seekers may undertake a combination of Activities to meet an Annual Activity Requirement where it is deemed suitable or necessary by the Provider.

The time taken to commence a job seeker in an approved Activity at the start of the Work for the Dole Phase is a performance measure in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

For information on setting up and managing Activities, including important information on work health and safety, risk assessments and checks, refer to the [Activity Management Guideline](#) and [the Job Plan and Setting Mutual Obligation Requirements Guideline](#).

(Deed references: Clauses 107, 108, 109)

### Setting the required hours in the Calendar

**System step:** For job seekers undertaking Work for the Dole to meet their Annual Activity Requirement, Providers must use the Calendar to schedule the job seeker's required participation, start and finish times as notified to the job seeker.

**System step:** For job seekers undertaking other Approved Activities, Providers must use the Calendar to schedule the required hours for all Activities.

**System step:** For job seekers participating in CTA or Regional Employment Trial activity, scheduling these Activities in the Calendar is required. Attended hours will automatically accrue towards job seeker's AAR requirement. Providers should manually record additional monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement so that job seekers meet their full AAR requirement for the period of participation in CTA or a Regional Employment Trial activity.

**System step:** For job seekers undertaking a Launch into Work program pre-employment project, scheduling these Activities in the Calendar is not required. Providers should manually record monthly AAR hours for job seekers who are in the Work for the Dole Phase and who have an Annual Activity Requirement.

For further information regarding how to set a job seeker's required hours in the Calendar, refer to the Calendar user Guide on the [Learning Centre Website](#).

(Deed reference: Clause 107)

### Recording job seeker participation against the Annual Activity Requirement

**System step:** Job seekers will be responsible for recording their attendance at Activities. However, for those job seekers found not capable of recording attendance, Providers must record attendance in approved Activities using the Calendar. All results must be recorded by close of business on the day of participation in the activity

- for study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

For all Activity types, the Provider must negotiate with the Supervisor the most appropriate reporting and recording mechanism to ensure that the Provider can record in the system the number of hours a job seeker has participated in for each day (for Work for the Dole Activities) or month (for all other approved Activities). This should reflect the Host Organisation's normal business practices. For short breaks, these may form part of the job seeker's normal hours of participation, and count toward their Annual Activity Requirement.

Alternatively, when setting up the Activities in the Calendar, it is recommended that the Provider request evidence based attendance recording, which will include a QR code and passcode to be generated by the Department's IT System. They must have the contact details of the Supervisor up to date so that the Supervisor can receive the QR code and passcode the day of the Activity. Job seekers will then be able to scan the QR code when they attend the Activity. If the Activity is longer than four hours, the Department's IT System will generate two codes: one for the start of the Activity and one for the end of the Activity.

For further information regarding how to record attendance in the Calendar, refer to the Department's [Calendar and AAR Details IT Supporting Document](#) and the [IT System Online Help](#).

(Deed reference: Clause 107)

EST Providers will enter course details into the Calendar component of the Department's IT System. Providers will refer and place eligible job seekers from their caseload into the courses; the Activity Diary is automatically updated with the course details.

**System step:** For CTA and Regional Employment Trial activities, satisfactory participation in the relevant number of hours in CTA or Regional Employment Trial activity will meet the job seeker's Annual Activity Requirement i.e. the job seeker will be deemed to be fully meeting their fortnightly Annual Activity Requirement in the fortnights they are participating in CTA and Regional Employment Trial activities, regardless of the contact hours. Employment Providers must record the relevant hours as per the job seeker's Annual Activity Requirement using the Monthly Hours section of the AAR Details screen of the Department's IT Systems.

#### Recording participation via the Supervisor App

Supervisors can use the Supervisor App to record a job seeker's attendance in Work for the Dole and other approved Activities. However, they should be encouraged to only do so for job seekers who:

- have been assessed as not being capable of recording or reporting their own attendance

or

- have been assessed as being capable of recording or reporting their own attendance but who are unable to do for themselves on the day.

In most cases it is expected that the Supervisor will receive a QR code or passcode that has been generated by the Department's IT System, and job seekers will be able to scan it with their mobile devices to record their own attendance. If the activity is longer than four hours, the Supervisor will receive two QR codes or passcodes: one for the morning when the job seekers arrive, and one for the afternoon when the job seekers leave for the day.

For further information on the Supervisor App, refer to the [Work for the Dole IT Supporting Document](#).

**System step:** EST Providers will continue to have access to the Supervisor App to record job seekers attendance at EST courses where appropriate.

**Documentary evidence:** Where job seekers have used evidence to record their attendance directly into the Department's IT System, offline records are not required to be kept. The same applies where Activity attendance information has been entered by the Activity Host Organisation into the Supervisor App or directly into the Department's IT System, offline records are not required to be kept.

(Deed reference: Clause 107)

### Recording of Work for the Dole participation in the Calendar

**System step:** Job seekers will be able to record their own attendance at Work for the Dole Activities. Where job seekers are not capable of recording their own attendance, or are unable to due to certain circumstances, Providers must record results against all required participation in the Calendar for every day that the job seeker was required to participate, as per notification issued to the job seeker by the close of business each day.

(Deed reference: Clause 107)

### Recording participation in paid work in the AAR Details screen

**System step:** For participation in paid work Activities, ESS Web will automatically place the job seeker into a 'Part Time/Casual Paid Employment' Activity when the job seeker declares hours of paid work to DHS. If the job seeker is in the Work for the Dole Phase, the system will automatically populate the AAR Details Screen with the hours declared to DHS.

Where necessary, Providers can override the hours received from DHS e.g. if they disagree with the DHS hours for a period and hold documentary evidence supporting the updated hours.

### Recording other approved Activities either in the Activity Diary or AAR Details screen

**System step:** For all other Approved Activities, attendance results, to meet the Annual Activity Requirement must be recorded through the Calendar (using the same process as for Work for the Dole activities).

For job seekers doing on-line courses not required to be recorded in the job seekers Calendar are encouraged to record the total hours completed for each month in the Work for the Dole Phase within 20 Business Days of each month of participation.

If a job seeker is participating in an Activity that fully meets their Annual Activity Requirement, the Calendar will only count those hours that are scheduled towards the job seeker's Annual Activity Requirement. The remaining hours should be credited by entering them in using the monthly hours section of the AAR Details screen.

Providers are to record the hours completed by the job seeker in all Approved Activities during the Work for the Dole Phase by the deadline of 20 Business Days after a job seeker exits the Work for the Dole Phase, or exits the Provider's caseload (for example, exiting from jobactive or transferring to another Provider).

If nothing is entered into the system by then, the job seeker's required hours will be recorded as zero for that period.

If Providers are aware that duplicate hours have been created for AAR, Providers must reduce the number of hours within 20 Business Days. This may occur when a job seeker is in paid work, a day of Activity is resulted as No Longer Required (NLR) as the job seeker is working on that day and declares the hours worked. The job seeker would be created the Activity hours and the hours declared. The job seeker should have credited the higher of the two hours for the individual day.

(Deed reference: Clause 107)

## Completing the Annual Activity Requirement

### Recording requirements

**System step:** At the end of the Work for the Dole Phase, Providers must ensure the AAR Details screen correctly displays whether the job seeker has met their Annual Activity Requirement.

**System step:** Providers have up to 20 business days from when a job seeker exits the Work for the Dole Phase or when they exit the Provider's caseload (e.g. exiting from jobactive or transferring to another Provider) to enter hours of participation the job seeker undertook within the Phase that were not required to be entered daily in the Calendar..

The Provider is not required to take any further action if the total hours recorded is equal to or greater than the job seeker's required Annual Activity Requirement hours. In this case the AAR Details screen will display that the Annual Activity Requirement has been met.

If the recorded hours are lower than the required Annual Activity Requirement hours, but the job seeker has nevertheless met their Annual Activity Requirement (for example, the job seeker's Mutual Obligation Requirements changed from part-time to full-time while they were in the Work for the Dole Phase), the Provider must within 20 Business Days of the end of the Work for the Dole Phase:

- select a reason in the system to indicate how the job seeker has met their Annual Activity Requirement
- record that the Annual Activity Requirement has been met.

If the recorded hours are lower than the job seeker's required Annual Activity Requirement hours, no reason is selected and the Annual Activity Requirement has not been recorded as met, the job seeker will not have met their Annual Activity Requirement.

For further information regarding how to record completion of the Annual Activity Requirement, refer to the Department's [IT Systems Online Help](#).

(Deed reference: Clause 107)

### Meeting the Annual Activity Requirement early

#### Within the Work for the Dole Phase

Within the Work for the Dole Phase, job seekers may be permitted to complete additional hours in an Activity every week or fortnight, either to allow them flexibility if their particular circumstances require it, or to assist a Host Organisation.

These additional hours will count towards a job seeker's Annual Activity Requirement and, in effect, means that some job seekers will satisfy their Annual Activity Requirement early. However:

- any hours a job seeker agrees to do in excess of 50 hours per fortnight in Work for the Dole must be created as a voluntary component of their Job Plan using the Job Plan code and recording Activities in the Calendar.
- job seekers must not undertake more than 50 hours per fortnight in a National Work Experience Programme Placement or a Work Experience (Other) Placement.

Job seekers should not be allowed to choose to complete hours early of their own accord. Any additional hours in a week/fortnight can only occur when agreed upon between the Provider, the Host Organisation and the job seeker, where there is an identified benefit to the job seeker.

If the Annual Activity Requirement is completed early, the Provider must ensure that the job seeker's Job Plan continues to contain the other requirements that would enable the job seeker to continue to meet their Mutual Obligation Requirements. This includes attending Provider Appointments, undertaking any other appropriate Activities, undertaking Job Searches and acting on referrals to jobs in the remaining part of the Work for the Dole Phase after the Annual Activity Requirement for that year has already been met.

#### Early commencement of the Work for the Dole phase

The Work for the Dole Phase can be brought forward for all stream job seekers after six months (but before 12 months) of jobactive services if the Provider considers the job seeker is not benefiting from, or actively participating in services/interventions designed to improve their employment prospects.

#### Annual Activity Requirement Record Keeping

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions including drug or alcohol rehabilitation programs and preventative health treatments and interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme, Work Experience (Other) and PaTH Internships.
- CTA Agreement (for CTA Activities) and Career Pathway Plan

- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)

**Documentary evidence:** For part-time/casual work or self-employment, the hours of paid work reported by the job seeker to DHS to stimulate the job seeker's income support payment is acceptable documentary evidence. This information is automatically populated into the 'Recording of DHS Part Time/Casual Paid Employment AAR Hours' section of the AAR Details screen and no further documentation is required if this information is accepted. See the [Calendar and AAR Details IT Supporting Document](#) for more information about how paid employment is counted towards the AAR. Details of the hours of paid work completed by the job seeker can also be accessed from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings) or through the SUB316 – Declared Hours report through ES Reporting. If the Provider chooses to override the hours declared to DHS, the Provider must keep:

- For paid work: payslips or Employer payroll summaries,
- For self-employment:
  - a Profit and Loss Statement, a signed and dated written statement from an accountant and/or registered bookkeeper, or copies of records from the Australian Taxation Office and/or a tax return statement.

## 5. Privacy and information sharing

Providers must comply with Social Security Law and Australian privacy legislation. A job seeker's Personal Information must only be used or disclosed for the purpose it was collected, except in limited circumstances such as where the job seeker gives permission or where Commonwealth laws allow or other special circumstances.

Providers should seek independent legal advice if they have any concerns regarding their obligations under any privacy or other legislation. For further information, refer to the [Privacy Guideline](#).

(Deed references: Clauses 53, 87, 106)

### Sharing Job Plans with SEE or AMEP Providers

Job seekers participating in the Skills for Education and Employment (SEE) program or Adult Migrant English Program (AMEP) should be encouraged to share their Job Plans with their SEE or AMEP Providers in order to make them aware of their full Mutual Obligation Requirements. This will assist SEE and AMEP Providers in ensuring that they place job seekers in courses with study to fully meet their Annual Activity Requirements in the Work for the Dole Phase.

## 6. Summary of Required Documentary Evidence

### Notification to job seekers of their Mutual Obligation Requirements

- The Provider will notify job seekers of their Mutual Obligation Requirements in accordance with the reasonable notice timeframes for the relevant method of notification.

- The Provider will create a notification record in the Department's IT System, identifying the method of notification used (i.e. SMS, email or letter).
- If the Provider is in direct contact with the job seeker, the Provider must record as the notification method that the appointment was booked directly with the job seeker.
- If an Activity or Appointment is rescheduled by the Provider, formal notification must be issued to the job seeker of their new requirements.

Note: If the Provider chooses to record the job seeker's Activity details in the Activity Diary, this will help them to issue notification of the specific details of participation in an Activity to the job seeker.

(Deed reference: Clause 106)

## Annual Activity Requirement and other Approved Activities

**Documentary evidence:** In addition to recording the relevant information in the Department's IT System, Providers must retain the following additional forms of evidence (either hard copy or soft copy):

- timesheets or other records of attendance, including information collected through the Supervisor App, where used
- a statement of attainment or similar (for accredited education)
- a signed training notice or signal notice (for Defence Force Reserves)
- an invoice for services or a letter of acceptance into a program (for non-vocational interventions)
- Activity Host Organisation Agreements for Work for the Dole, Voluntary Work, the National Work Experience Programme and Work Experience (Other) Placements
- risk assessment documentation which details that all Deed and relevant guideline requirements have been considered for both the job seeker and the Activity (for Activities where risk assessments are required to be undertaken)
- payslips or Employer payroll summaries (for part-time work)
  - For both self-employment and part-time/casual paid work, income reported by the job seeker to DHS to stimulate a job seeker's income support payment is acceptable documentary evidence. This information is available from the Case Summary Screen of the Department's IT System (Job Seeker Information – View Declared Earnings). The information provided indicates both the earnings and the hours worked
  - Additionally, documentary evidence for self-employment can include:
    - a Profit and Loss Statement
    - a signed and dated written statement from an accountant and/or registered bookkeeper
    - copies of records from the Australian Taxation Office and/or a tax return statement
    - a Business Activity Statement.

If Activity attendance information has been entered by the Activity Host Organisation into the Mobile Supervisor's App or directly into the Department's IT System, or the job seeker has used evidenced based recording of attendance, offline records are not required to be kept.

A job seeker's attendance at their internship will be recorded to ensure the hours completed by the job seeker end of each month are counted against the job seeker's Annual Activity Requirement.

(Deed reference: Section B4)

All capitalised terms in this guideline have the same meaning as in the jobactive Deed 2015–2020 (the Deed).

This Guideline is not a stand-alone document and does not contain the entirety of Employment Services Providers' obligations. It must be read in conjunction with the Deed and any relevant Guidelines or reference material issued by Department of Jobs and Small Business under or in connection with the Deed.

Notes:

- NEIS Prospective Participants who have been assessed as NEIS Eligible will meet their Annual Activity Requirement for the period they are participating in NEIS Training.
- Participants in NEIS who have not transferred to NEIS Allowance when they commence NEIS Assistance will fully meet their Mutual Obligation Requirements.
- Volunteer job seekers do not have a mandatory number of Job Searches.
- Outside the Annual Activity Requirement, Providers can require job seekers to participate in other Activities (in addition to Job Search and Provider Appointments).

- Job seekers can meet their Annual Activity Requirement through full participation in the Defence Reserves (240 hours over 26 weeks or 18–20 hours per fortnight).

## Attachment B – Early School Leaver Facsimile Cover Sheet

**Fax to:** DHS Business Hotline **1300 786 102**

## Verification of Year 12 or equivalent qualification

### (Office use only: CBHESL)

Attached to this Verification Facsimile Cover Sheet is evidence of a completed Year 12 or equivalent qualification (i.e. Certificate III or higher) for:

Job seeker's name \_\_\_\_\_

CRN \_\_\_\_\_

#### **Declaration by Provider**

I have sighted:

*(tick as to which applies)*

- the original qualification
- a certified true copy of the qualification
- a letter from the relevant school or educational institution formally verifying attainment of the qualification
- a Statutory Declaration detailing the name of the course, date completed, institution and institution contact details.

Guideline:

# Managing and Monitoring Mutual Obligation Requirements Guideline

Job seekers generally have Mutual Obligation Requirements, such as looking for work and participating in Activities that will improve their employment prospects, in return for receiving taxpayer-funded income support paid by the Department of Human Services (DHS). The main aim of Mutual Obligation Requirements is to help a job seeker into paid work and reduce reliance on income support as quickly as possible. It also allows for job seekers to contribute to the community that supports them while they are unemployed.

Version: 3.7

Published on: 30 May 2019

Effective from: 1 July 2019

---

 Changes from the previous version (Version 3.6)

#### Policy changes:

Pg 20, 28, 30, 34, 35 – Updates to Career Transition Assistance activity information to reduce eligibility age, remove reference to activity sub-types, and amend scheduling and AAR hour recording requirements

#### Wording changes:

Pg 19 - Clarification of system processes for EST mandatory job seekers

## 1. Defining Mutual Obligation Requirements

Job seekers on the following Income Support Payments must meet their Mutual Obligation Requirements to receive their payment:

- Newstart Allowance
- Youth Allowance (other)
- Parenting Payment Single (when their youngest child turns six)
- Special Benefit (Nominated Visa Holders).

Job seeker Income Support Payments are generally paid in fortnightly instalments, therefore, job seekers need to have and satisfy sufficient Mutual Obligation Requirements for each fortnight they are receiving Income Support Payments.

A job seeker's Mutual Obligation Requirements are generally determined by considering their:

- age
- assessed work capacity, and
- whether they have primary responsibility for the care of a child.

Job seekers with full-time requirements should be looking for work full-time and actively addressing the individual circumstances that affect their capacity to undertake paid work.

Job seekers with part-time Mutual Obligation Requirements are:

- Principal Carer Parents whose youngest child is 6 years of age
- job seekers with a Partial Capacity to Work or a temporary reduced work capacity of 15 to 29 hours per week.

Job seeker's Mutual Obligation Requirements include:

- entering into a Job Plan and fully complying with the requirements in their Job Plan
- attending all DHS and Provider appointments
- acting on referrals to jobs from their Provider and attending job interviews offered by employers
- undertaking Job Search (generally 20 Job Searches per month)
- meeting their Annual Activity Requirement (refer to the [Annual Activity Requirement section](#) of this guideline)
- participating in any Activity that is relevant to their personal circumstances and will help the job seeker to improve their employment prospects.

[Attachment A](#) provides a table summarising Mutual Obligation Requirements for different cohorts of job seekers.

A broad range of Activities can be used to meet a job seeker's Mutual Obligation Requirements. For a list of Suitable Activities that can be used to meet a job seeker's Mutual Obligation Requirements, see [Guide to Social Security Law 3.2.9.10](#).

Also refer to the Job Plan and Scheduling Mutual Obligation Requirements Guidelines for information about Job Plan codes.

The Activities job seekers undertake must be included in their Job Plan as either a compulsory or voluntary Activity. There must be at least one compulsory Activity included in a Job Plan for job seekers with Mutual Obligation Requirements.

Voluntary Activities are not subject to the Targeted Compliance Framework.

Please refer to the [Targeted Compliance Framework Guideline](#) for more information.

(Deed References: Clauses 82, 83, 85, 106, 114)

## Determining Mutual Obligation Requirements

When determining Mutual Obligation Requirements it is important to identify both a job seeker's strengths as well as any barriers they have to finding employment. Any vocational and non-vocational Activities are to be tailored to address the job seeker's individual needs and work capacity

Seek out Activities to help job seekers overcome or manage any vocational and non-vocational barriers. See Guide to Social Security Law 3.2.8.50 for what can be included in a Job Plan.

The Activities in the Job Plan must not place unreasonable demands on the job seeker. The job seeker must be capable of doing any Activity and meeting all requirements included in their Job Plan.

After consulting with the job seeker, determine the Activities to meet the job seeker's Mutual Obligation Requirements in accordance with the Deed, this Guideline and Social Security Law. Providers should take into account the job seeker's preferences wherever possible. However, as the delegate of the Secretary of the Department of Jobs and Small Business, Employment Services Provider staff will ultimately determine what requirements the job seeker must do to meet their Mutual Obligation Requirements under Social Security Law.

Record the Activities and other relevant items in the job seeker's Job Plan, and schedule Activities in the Calendar. If drug or alcohol dependency is impacting on participation and appropriate treatment services are not available the Provider must record this information on the Job Seeker's Personal Summary Page ('What you need to know').

Under Social Security Law, job seekers must be formally notified of the dates, times and locations for attending appointments and participating in Activities, along with any special requirements such as wearing work boots and other safety gear.

## Considering a job seeker's circumstances

When determining a job seeker's Mutual Obligation Requirements and setting the terms of a Job Plan, consult with the job seeker and consider:

- individual circumstances – in particular, their assessed work capacity (where relevant), their capacity to comply with requirements and their personal needs
- education, experience, skills and age
- the impact of any disability, illness, physical or mental health condition or other non-vocational issue, including drug and alcohol dependency, affecting a job seeker's ability to work, look for work or participate in Activities

- the state of the local labour market and the transport options available to the job seeker in accessing that market
- the participation opportunities and Activities available to the job seeker
- their family and care responsibilities (including availability of child care)
- the length of travel time required to comply with the requirements (reasonable travel time is 90 minutes each way or, if the job seeker is a Principal Carer Parent or has a Partial Capacity to Work, 60 minutes each way)
- the financial costs (such as travel costs) of complying with the requirements and the job seeker's capacity to pay for such costs
- whether the job seeker has any vulnerability indicators (as identified by DHS) such as homelessness, psychiatric problems or mental health conditions, severe drug or alcohol dependency, or traumatic relationship breakdown
- any history of the job seeker not complying with their Mutual Obligation Requirements (to ensure that they undertake appropriate requirements in return for tax-payer funded income support)
- cultural factors
- if they are an Early School Leaver
- the number of hours a fortnight the job seeker is required to undertake approved Activities in the Work for the Dole Phase
- if the job seeker participated in Time to Work Employment Service, any comments and recommendations in the Time to Work Employment Service Transition Plan (Providers can find the Transition Plan in the Department's IT System)
- any other matters that the Provider considers relevant to the job seeker's circumstances (including if the job seeker discloses they are a victim of family violence).

(Guide to Social Security Law 3.2.8.10)

When setting the job seeker's Mutual Obligation Requirements, review any barriers identified through an Employment Services Assessment (ESAt) or Job Capacity Assessment (JSA) or other issues disclosed to the Provider. The Job Seeker Classification Instrument and Capability Management Tool may also help identify personal issues affecting a job seeker's employability. These will help the Provider decide on the Activities required of a job seeker to meet their fortnightly Mutual Obligation Requirements, including their Annual Activity Requirement in the Work for the Dole Phase.

Information about a job seeker's circumstances can be found on the Participation Profile screen of the Department's IT System.

### Using the Capability Management Tool to review a job seeker's circumstances

The Capability Management Tool in the Job Plan section of the Department's IT System needs to be updated when conducting a Capability Interview. It should be used to review and manage a job seeker's personal circumstances which may affect their capacity to participate in Activities and can assist in identifying specific vocational or non-vocational barriers, including those disclosed by the job seeker.

The Capability Management Tool can help to:

- ensure the job seeker has requirements in their Job Plan appropriate to their circumstances
- include Employment Services Assessment recommended Interventions in the Job Plan
- record additional vocational or non-vocational issues.

Providers should familiarise themselves with relevant Deed provisions in case job seekers request access to their records in the Capability Management Tool

(Deed references: Clause 38, 87, Annexure A1)

## Mutual Obligation Requirements for Principal Carer Parents

Consider a Principal Carer Parent's family and caring responsibilities, including the availability of suitable childcare, when setting Mutual Obligation Requirements. During school terms, face-to-face Provider Appointments and participation Activities are to be scheduled during school hours (generally between 9.00 am to 3.00 pm) unless otherwise agreed to by the Principal Carer Parent.

The Department's IT System will automatically identify time outside of school hours in the Principal Carer Parent's Calendar. Providers will be able to set requirements at times outside school hours, including weekends. However, Providers will need to discuss this with the Principal Carer Parent to ensure they are available at that time and record the PCP's availability in the Department's IT System. This information will be attached to the requirement.

Principal Carer Parents have part-time Mutual Obligation Requirements and can fully meet their requirements through 30 hours per fortnight of:

- paid work (including self-employment)
- approved study (see the section on [Approved Short Courses](#) in this Guideline)
- Voluntary Work (as described below), or
- a combination of the above.

Providers can approve Voluntary Work for the purposes of a Principal Carer Parent fully meeting their Mutual Obligation requirements if:

- the Provider determines that the Principal Carer Parent lives in a poor labour market
- limited training opportunities are locally available (online courses may be considered 'locally available' if they have access to a computer)
- there is a significant vocational aspect to the Voluntary Work.

The Voluntary Work must be in an organisation approved by DHS. For further information, refer to the [Guide to Social Security Law 3.2.9.130](#).

If the Principal Carer Parent fully meets their Mutual Obligation Requirements, through sufficient participation in the above Activities they cannot be required to complete Job Search or meet any other additional requirements.

A Principal Carer Parent who is fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks.

See the [Period of Service, Suspensions and Exits Guideline](#).

If a Principal Carer Parent is either 55 years of age or over or has a Partial Capacity to Work, the category of Mutual Obligation Requirement which gives the job seeker a lesser work requirement should be applied.

#### Meeting Mutual Obligation Requirements for Principal Carer Parents during school holiday periods

If a Principal Carer Parent is unable to obtain suitable childcare during the school holiday period, the Provider will need to make alternative arrangements to enable them to meet their Mutual Obligation Requirements. A Principal Carer Parent will not be required to attend Work for the Dole or another Activity during the school holidays if appropriate care and supervision of their children is not available or affordable.

For example, while Principal Carers Parents are not required to attend face-to-face appointments with their Provider during school holidays, they can engage with their Provider through other means, such as by telephone or via Skype/face-time etc. Job Search can also be conducted from home or the Provider may also decide to reduce Job Search requirements over the school holiday period, while the Principal Carer Parent is caring for children during school holidays.

Principal Carer Parents must continue to meet their part-time Mutual Obligation Requirements during the school holidays except for the fortnight in which the Christmas public holiday falls.

(Guide to Social Security 3.2.9.10)

#### Principal Carer Parents - employer initiated shut down period over the extended Christmas/New Year school holiday break

Principal Carer Parents who are fully meeting their Mutual Obligation Requirements by working 30 hours a fortnight (including instances when working is one of a combination of Activities) are considered to be meeting their requirements during the employer initiated shutdown period over the extended Christmas/New Year school holiday period. This only applies to Principal Carer Parents who reasonably expect to resume their employment when their employer resumes business in the New Year.

The employer initiated shut down period break can only be taken while the place of employment is closed, up to a maximum of eight weeks. After eight weeks the Principal Carer Parent will be required to participate in other Activities to meet Mutual Obligation Requirements while the employer is in the shutdown period.

#### Inability to obtain suitable childcare is a Valid Reason or Reasonable Excuse.

If the Principal Carer Parent is required to undertake an Activity but is unable to obtain suitable childcare, they will have an Acceptable or Valid Reason to not undertake that requirement. If this occurs, alternative requirements must be set to enable the job seeker to meet their Mutual Obligation Requirements.

## Mutual Obligation Requirements for job seekers with a Partial Capacity to Work

Job seekers have a Partial Capacity to Work if both their baseline work capacity and work capacity within two years of Intervention are less than 30 hours per week.

Mutual Obligation Requirements are based on a job seeker's work capacity within two years with Intervention. However, job seekers are not required to participate immediately at the higher work capacity. Rather, the job seeker's capacity to participate can be increased through participation in a suitable program of assistance or other appropriate Activity.

When a job seeker's work capacity with Intervention is less than their baseline work capacity due to a deteriorating condition, their Mutual Obligation Requirements are based on their baseline work capacity.

Job seekers with an assessed Partial Capacity to Work of 15-29 hours per week can fully meet their part-time Mutual Obligation Requirements through 30 hours per fortnight of paid work including self-employment, approved study, or a combination of these Activities.

If they fully meet their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities these job seekers cannot be required to undertake Job Search or meet other requirements. They also do not need to remain connected with a Provider and will be Suspended on a Provider's caseload.

Job seekers with an assessed Partial Capacity to Work who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the [Period of Service, Suspensions and Exits Guideline](#).

Job seekers who have been assessed as having a Partial Capacity to Work of 0-14 hours per week can fully meet their Mutual Obligation Requirements by attending quarterly appointments with DHS.

## Mutual Obligation Requirements for job seekers with temporary reduced work capacity

Job seekers may have a temporary medical condition with a temporary reduced work capacity applied by DHS (which is identified through an Employment Services Assessment). Job seekers will have reduced requirements for the period of their temporary reduced work capacity. Providers must take this into account when setting suitable approved Activities and the level of participation in the Job Plan.

A Provider may consider that a medical condition will temporarily impact upon a job seeker but the job seeker does not have a temporary reduced work capacity in the Department's IT System. Providers should exercise judgement and take these personal circumstances into account when setting Mutual Obligation Requirements. Providers can also encourage relevant job seekers to contact DHS so that a temporary reduced work capacity status can be considered.

Job seekers who have been assessed as having a temporary reduced work capacity of 15-29 hours per week can fully meet their Mutual Obligation Requirements

through 30 hours per fortnight of paid work (including self-employment) approved study or a combination of these Activities.

If the job seeker is fully meeting their Mutual Obligation Requirements through sufficient participation per fortnight in the above Activities they cannot be required to undertake any Job Search or meet other requirements. They do not need to remain connected to a Provider and will be Suspended from the Provider's caseload.

Job seekers with an assessed temporary reduced work capacity who are fully meeting their Mutual Obligation Requirements through sufficient participation in paid work and/or study, may be eligible for a Provider Exit (which is processed manually by the Provider) if participation in the approved Activity is likely to be ongoing or last more than 13 weeks. See the Period of Service, Suspensions and Exits Guideline.

Job seekers who have been assessed as having a temporary reduced work capacity of 0-14 hours per week can fully meet their Mutual Obligation Requirements through participation in a quarterly interview with the DHS.

(Guide to Social Security 3.2.8.10)

### Mutual Obligation Requirements for mature age job seekers

Job seekers 55 years of age and over can meet their full-time Mutual Obligation Requirements through paid work (including self-employment), approved Voluntary Work or a combination of these Activities, depending on their age and circumstances as follows:

- If the job seeker is 55 – 59 years of age and in their first 12 months of receiving payment, they can fully meet their Mutual Obligation Requirements by completing 30 hours per fortnight of paid work. This can also be met by completing 30 hours per fortnight of a combination of approved Voluntary Work and paid work. However, this must include at least 15 hours per fortnight of paid work.
- If the job seeker is 55 – 59 years of age and has been receiving payment for more than 12 months, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two Activities.
- If the job seeker is aged between 60 and the age pension age, they can fully meet their Mutual Obligation Requirements if they undertake at least 30 hours per fortnight of paid work, approved Voluntary Work or a combination of the two activities.

These job seekers cannot be required to do Job Search or other requirements if they are meeting their Mutual Obligation Requirements in this way.

Job seekers should remain connected with a Provider but will be Suspended on a Provider's caseload. However, Providers can continue to refer them to job opportunities.

These job seekers still have full-time Mutual Obligation Requirements until they obtain a full-time job or no longer receive income support.

DHS will make an initial Appointment with the Provider for job seekers 55 years of age and over, even if they are already satisfying their Mutual Obligation

Requirements (as above). Job seekers who fail to attend this Appointment or any other notified Provider Appointments or who fail to accept referrals to jobs, may be subject to action under the Targeted Compliance Framework.

See the [Targeted Compliance Framework Guideline](#).

### Mutual Obligation Requirements for some Ministers of Religion

Ministers of Religion who are either a Principal Carer Parent or have a Partial Capacity to Work will be regarded as fully meeting their part-time Mutual Obligation Requirements by undertaking at least 30 hours per fortnight of paid pastoral work for their religious organisation.

### Monitoring by the Department of Human Services for job seekers fully meeting their requirements

For the above cohorts of job seekers, DHS will determine whether a job seeker is fully meeting their Mutual Obligation Requirements. If DHS establishes that they are participating sufficiently in appropriate Activities, they will update the job seeker's Job Plan to include the Activities they are undertaking to fully meet their Mutual Obligation Requirements. Once DHS determines a job seeker is fully meeting their Mutual Obligation Requirements, the job seeker will be a DHS managed job seeker or exited from the Provider's caseload.

### Continuing voluntarily in Employment Services

A job seeker fully meeting their Mutual Obligation Requirements may elect to participate voluntarily in services while they are Suspended after:

- being contacted by their Provider to discuss and agree to voluntarily participate while Suspended from employment services
- notifying DHS, who will either call their Provider or book an Appointment for them
- contacting their Provider directly to request services.

If a job seeker who is Suspended from employment services elects to voluntarily participate in employment services, the Provider must provide services to the job seeker.

If a job seeker who is fully meeting their Mutual Obligation Requirements participates voluntarily in employment services, Providers must not remove the relevant compulsory Activities that DHS has included in their Job Plan. Additional Activities included in the Job Plan must be added as voluntary.

### Sufficient work test

The decision that a job seeker is doing sufficient work would generally be restricted to cases where the person can fully meet their Mutual Obligation Requirements while still receiving some payment and a person can demonstrate a stable pattern of employment and earnings (e.g. permanent part-time work). If there is significant variation in hours worked and earning from fortnight to fortnight, whether a job seeker's work fully meets their Mutual Obligation Requirements must be determined fortnightly.

Self-employment will satisfy the sufficient work test if the job seeker is working at least their required number of hours and the taxable income provides the equivalent of the national minimum wage rate for the minimum required hours. If self-employment does not satisfy the sufficient work test, the job seeker will generally be required to look for alternative work.

**Documentary evidence:** Providers must document a job seeker's satisfactory participation in self-employment as per the [Documentary Evidence for Annual Activity Requirements and other Approved Activities section](#) of this guideline.

If a job seeker's commitment to their business activities interferes with required Job Search or other Activities, the person will usually not be considered to be 'unemployed' for the purpose of qualifying for income support.

(Guide to Social security 3.2.2.10)

### Mutual Obligation Requirements for Early School Leavers

An Early School Leaver is a person who receives Youth Allowance (other), is under 22 years of age and has not completed Year 12, the final year of secondary school or an equivalent Australian Qualifications Framework Certificate III level or above.

Until they turn 22 years of age or attain Year 12 or an equivalent qualification, Early School Leavers are generally required to participate in:

- full-time education or training with no Job Search requirement, including Certificate I and II level courses
- a combination of part-time education or training and part-time work for a total of 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) and no job search requirement
- other approved Activities for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week), including the requirement to do up to 20 job searches per month.

Early School Leavers who are eligible for Youth Jobs PaTH Employability Skills Training and PaTH Internship Placements must still undertake Job Search. For further information on these programs, refer to Youth Jobs PaTH Employability Skills Training (EST) section of this guideline.

Once an Early School Leaver has completed Year 12 or an equivalent qualification or turns 22 years of age, they will no longer be an Early School Leaver. They will be subject to the Mutual Obligation Requirements that apply to other job seekers.

### Verification of an Early School Leaver's qualifications

Only DHS can verify a Year 12 or equivalent qualification to determine whether a young person is no longer an Early School Leaver. DHS will accept any of the following:

- a Year 12 certificate issued by a Senior Secondary Board of Studies
- an Australian Qualification Framework Certificate III
- a higher qualification issued by a Registered Training Organisation or higher educational institution

- a Certificate III or IV of General Education for Adults
- the International Baccalaureate
- other higher education pre-entry course.

**Documentary evidence:** Providers must fax an Early School Leaver's qualifications to the DHS Business Hotline on 1300 786 102. Sight the original and send a copy of the completed qualification with the cover sheet at Attachment B. If the original qualification has been lost or destroyed, a certified copy of the qualification or a letter from the education institution formally verifying attainment of the qualification will be accepted. If none of these can be obtained, a statutory declaration from the Early School Leaver will be accepted. The statutory declaration must include the name of the course, date completed, name of institution and institution contact details, and must be appropriately certified. Do not send verification requests to DHS if the education level is below Year 12.

If DHS does not accept the qualification, they will contact the Provider. Providers must contact the Early School Leaver to advise them of the reason the qualification was not verified.

**System step:** Where accepted by DHS, update the education level information in the Job Seeker Classification Instrument to reflect the Early School Leaver's advised higher level of educational attainment.

(Deed References: Clause 93, 105. Guide to Social Security 3.2.9.95)

## Mutual Obligation Requirements for pregnant job seekers

Generally, Mutual Obligation Requirements for pregnant job seekers will not change during the first two trimesters of pregnancy. However, Providers must take into account the job seeker's personal circumstances when setting their Mutual Obligation Requirements.

Pregnant job seekers will not be required to undertake Job Search from three months before their due date. During this time, Providers cannot compel these job seekers to accept job offers or referrals to job interviews.

Pregnant job seekers will be exempt from Mutual Obligation Requirements six weeks from their expected due date.

(Guide to Social Security 3.5.1.230)

## Job seekers exempt from Mutual Obligation Requirements

If a job seeker is temporarily unable to meet their Mutual Obligation Requirements, DHS may grant an Exemption from requirements for a specified period. This recognises the different family and personal situations that job seekers face and can prevent them from participating in Job Search, paid work, Work for the Dole, vocational training or a range of other Activities designed to improve their employment prospects.

The types of Exemptions that may be applied include but are not limited to the following situations:

- temporary medical incapacity
- serious illness

- pre and postnatal
- caring for children with a disability or other special family circumstances
- domestic violence
- other special circumstances.

If a Provider believes that the job seeker does not have the capacity to meet their Mutual Obligation Requirements, the job seeker should be encouraged to contact DHS to test their eligibility for an Exemption. Job seekers will need to provide evidence to support their claim.

If applying for an Exemption due to a temporary medical condition, the job seeker will need appropriate evidence, for example an approved medical certificate.

However, DHS should wherever possible reduce a job seeker's Mutual Obligation Requirements rather than exempting them completely.

Job seekers granted an Exemption will be Suspended from a Provider's caseload for the period of the Exemption. Some job seekers with longer-term Exemptions may be Exited from a Provider's caseload. However, job seekers may voluntarily choose to continue participating with employment services.

NOTE: some job seekers considering an application for a Disability Support Pension may need to demonstrate that they have actively participated in a Program of Support to be eligible for Disability Support Pension. You should advise these job seekers that periods of exemption will not be counted as participation in a Program of Support. More information for providers can be found in the [Program of Support Fact Sheet](#) that is available on the Provider Portal at <https://ecsnaccess.gov.au/sites/SecureSitePortal/jobactive/Guidelines/Service/Pages/default.aspx>

(Guide to Social Security Law 3.2.11, 3.5.1.220, 3.5.1.230, 3.5.1.250, 3.5.1.260, 3.5.1.270, 3.5.1.280 and 3.7.5.30).

### Job seekers subject to domestic violence

If there is any suspicion of domestic violence (including family violence) then Providers must refer the job seeker to a DHS social worker. Providers should also refer a job seeker to one of the national or state-based organisations for advice and information about domestic violence.

Providers notified of domestic violence (including family violence) as the reason for not meeting Mutual Obligation Requirements, must consider this in their assessment of whether or not the job seeker had a Valid Reason.

If a job seeker is subject to domestic violence (including family violence), DHS will make an assessment on whether an Exemption is granted and the appropriate length of the Exemption from their Mutual Obligation Requirements.

If the job seeker is a Principal Carer Parent and subject to domestic violence, DHS must grant an Exemption.

## Suitable Activities to meet Mutual Obligation Requirements and the Annual Activity Requirement

Consider the job seeker's Stream and Phase when setting a job seeker's Mutual Obligation Requirements. In particular, consider whether the job seeker is in the Work for the Dole Phase and has an Annual Activity Requirement.

Include approved Activities in the job seeker's Job Plan that will enable the job seeker to meet their Mutual Obligation Requirements using the correct Job Plan code linked to the Activity scheduled in the Calendar. If the job seeker is in the Work for the Dole Phase, sufficient hours of Activities must be scheduled in the Calendar to allow the job seeker to meet their Annual Activity Requirement.

Depending on a job seeker's circumstances, there is a range of Activities a job seeker may undertake to meet their Mutual Obligation Requirements (some of which are described below).

### Approved Programs of Work

Only job seekers over 18 years of age can take part in an Approved Program of Work.

All job seekers participating in an Approved Program of Work (whether they are receiving a full or part rate of income support payment) are eligible for the Approved Program of Work Supplement of \$20.80 a fortnight (Social Security Law).

Approved Programs of Work for jobactive job seekers include:

- the National Work Experience Programme – the NWEPP can only be included as a voluntary not compulsory Activity in the Job Plan Work for the Dole - Only job seekers over 18 years of age can take part in Work for the Dole

Work for the Dole can only be included as a voluntary (not compulsory) Activity in the Job Plan if:

- the job seeker is receiving less than the full rate of Newstart Allowance, Youth Allowance (other), or Parenting Payment Single, where the rate is reduced due to the income test (combined income of the job seeker and, if applicable, their partner)
- for Special Benefit- Nominated Visa Holders, the person or, if applicable, their partner has income
- the Activity is more than 50 hours per fortnight, or
- the job seeker is 60 years of age and over.

In all other circumstances, except for job seekers under 18 years of age, Work for the Dole can be included as a compulsory Activity in the job seeker's Job Plan.

### Work for the Dole

Only job seekers over 18 years of age can take part in Work for the Dole.

Work for the Dole may be included as a voluntary Activity in the job seeker's Job Plan in the above circumstances. However, job seekers in these circumstances can be compelled to participate in another Activity to enable them to meet their Annual Activity Requirement.

If the job seeker is receiving anything less than the full rate of income support, then Work for the Dole may be included in combination with other approved Activities to meet their Annual Activity Requirement. If they elect to do this, then Work for the Dole must be included as a voluntary Activity in their Job Plan.

Providers should regularly review if the job seeker is receiving a full rate of income support or a reduced rate due to the income test. Providers can view a job seeker's previous four fortnight's income support payment rate on the Department's IT System Notification screen. If a job seeker returns to the full rate of income support, the Provider can update the job seeker's Job Plan to include Work for the Dole as a compulsory Activity.

**Documentary evidence:** Providers may also consider requesting documentary evidence from the job seeker to determine if a job seeker is declaring income to DHS or is on a reduced rate of income support for other reasons.

If the job seeker fails to actively participate in the voluntary Work for the Dole Activity, then a Provider should consider replacing it with an alternative compulsory Activity so that the job seeker can meet their Annual Activity Requirement. For example, the job seeker could be compelled to do some voluntary work to achieve the required hours each fortnight. The job seeker should not receive the Approved Program of Work Supplement in a fortnight in which they did not actively participate in Work for the Dole.

### National Work Experience Programme

The National Work Experience Programme provides voluntary short-term placements for job seekers 17 years of age or over, regardless of whether the job seeker is receiving full or part rate of income support payment.

### Work Experience (Other) Placements

Work Experience (Other) Placements provide voluntary, short-term, observational unpaid work experience placements for job seekers 15 years of age or over, regardless of whether the job seeker is receiving an income support payment. Participation in this Activity can contribute towards a job seeker's Mutual Obligation Requirement, but is not approved for Annual Activity Requirement purposes except for Stream C jobactive job seekers.

### Youth Jobs PaTH Employability Skills Training (EST)

A job seeker is Employability Skills Training (EST) Eligible if they are between 15 and 24 years of age, receiving income support and have Mutual Obligation Requirements.

EST Courses consist of 75 hours of training, delivered at 25 hours per week over three weeks for job seekers with full time Mutual Obligation Requirements and 15 hours per week over five weeks for job seekers with part-time Mutual Obligation Requirements.

An EST Eligible job seeker has a mandatory requirement to participate in EST once they have received services through jobactive for five months. An EST mandatory job seeker must be considered for both types of EST courses.

Reports are available in ESS Web and Qlik, which identify EST mandatory and eligible job seekers, including those not in any Activity.

An EST mandatory job seeker retains their mandatory status until they have completed both EST Courses. This is to encourage the development of employability skills. ESS Web recognises completion of an EST Course when a completion payment is claimed by the EST Provider.

Once a job seeker has completed both types of EST Courses and the associated completion payments have been claimed by the EST Provider, the job seeker will revert to and maintain an EST Eligible status for as long as they meet the eligibility criteria.

Providers have discretion not to refer a job seeker (for whom EST would otherwise be mandatory) to an EST Course, or include EST as a compulsory Activity in the Job Plan if the Provider considers that the job seeker:

- already has the relevant skills and experience (such as through having relevant recent workforce experience or already having a part time job)
- has recently completed similar training
- has Non-Vocational Barriers that must be addressed first as a priority before they can benefit from the training - this could include language issues, health issues or family problems
- would have to travel more than 90 minute each way to the training (60 minutes for job seekers with part-time Mutual Obligation Requirements) or there are no suitable EST courses available
- is referred to another suitable Activity - this should only be used when there is an active referral or commencement to another Activity in ESS Web. Where another Activity referral is in place with an end date in the near future, Providers should consider creating an EST referral for a future course. This provides an opportunity for the job seeker to move from their current activity into EST

Choosing one of these reasons in ESS Web removes the job seeker from the count of job seekers who are EST Mandatory. After eight weeks the Department's IT System will override and unselect the reason, making the job seeker EST Mandatory again. Providers must then reassess the suitability of EST for the job seeker. Provider's use of these reasons will be monitored.

Job seekers who are EST eligible can also be referred to an EST Course from day one in jobactive.

Providers will receive a notification in the Department's IT System when job seekers have been serviced in jobactive for five months. The [Activity Management Guideline](#) provides details on EST, including how to record reasons for why a job seeker will not be participating in EST Courses.

Job seekers with part-time Mutual Obligation Requirements such as Principal Carer Parents or others with a Partial Capacity to Work may volunteer to undertake more than 15 hours per week of EST. The additional hours will need to be recorded separately in the Job Plan as a voluntary Activity. These job seekers are encouraged to participate for the duration of the Course but cannot be compelled to undertake additional hours. If the job seeker is unable to meet the Course hours, the Provider should consider a more suitable Activity.

**System step:** If a job seeker is EST mandatory, ESS Web prevents the finalisation of their job plan when making a referral to other activities. When referring an EST mandatory job seeker to another activity, the EST opt-out reason of 'referred to other activity' must be applied before updating the job plan with the other activity.

### PaTH Internship Placements

Young job seekers 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship.

Eligible young job seekers must:

- be in jobactive Stream A and have participated in either block one, or block two Employability Skills Training; or
- be in jobactive Stream A and have been continuously serviced in employment services from any jobactive provider, Transition to Work provider or Disability Employment Services provider for at least six months; or
- be in jobactive Stream B or C, Transition to Work or Disability Employment Services.

Early School Leavers can participate in a PaTH Internship. PaTH Internship placements are to be included in the Job Plan as a voluntary item. However, if the job seeker fails to participate, then the Provider will need to place them in an alternative compulsory Activity.

See the [Managing PaTH Internships Guidelines](#) for further information.

### Career Transition Assistance (CTA)

All job seekers aged 45 years and over, and registered with a jobactive Provider, are eligible to participate in CTA. CTA provides opportunities for mature-age people to identify and articulate transferable skills, increase their job readiness and better target their job search to local industries and available jobs, and develop basic functional IT skills.

Participation in CTA is 75 hours over an eight-week period. Where a job seeker with part-time Mutual Obligation Requirements is referred to CTA, the jobactive Provider should select and modify the schedule in the job seeker's calendar as necessary to meet the job seeker's needs.

CTA is an approved Activity for the purposes of meeting a job seeker's AAR and will fully meet the job seeker's AAR for the duration of their participation in CTA while in the Work for the Dole Phase.

Participation in CTA is voluntary, and CTA can only be added to a job seeker's Job Plan as a voluntary Activity. CTA Providers will advise the job seeker's jobactive Provider if the job seeker stops attending CTA. If the job seeker is exited from CTA, the jobactive Provider must place them in an alternative approved Activity.

### Launch into Work

Participation in Launch into Work program pre-employment projects may be included as a voluntary Activity in the job seeker's Job Plan. Providers should record this Activity in the Job Plan using the free text code. Providers should include the

relevant activity details, such as host information and dates and hours of participation.

Participation in Launch into Work program pre-employment projects will fully meet participants' Annual Activity Requirements for the duration of the project. Participants will not have to complete other activities whilst participating in the project.

### Regional Employment Trials – 10 Selected Trial Regions

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity.

Participation in a Regional Employment Trials Activity is voluntary, and providers should record participation in a Regional Employment Trials Activity as a voluntary activity in the job seeker's Job Plan.

See the Regional Employment Trials Guideline for further information, including on selected trial regions.

### Approved study and short courses

People undertaking full time study should be placed on a student allowance. Providers should refer full time students to DHS for an income support payment eligibility check.

Job seekers on income support payments such as Newstart, Youth Allowance (other) and Parenting Payment Single may participate in certain approved education or training.

Providers are responsible for identifying what training relates to skills in demand in each particular Employment Region.

Job seekers undertaking an approved full time short course will still be required to undertake Job Search and accept suitable work.

In some circumstances PCPs receiving PES may continue to receive income support payments to complete their full time study.

### What is an appropriate course of study

Providers can approve a job seeker's participation in study or training under the following short course provisions:

- vocationally based
- less than 12 months or two semesters in duration
- the job seeker has a semester or six months full-time equivalent remaining to complete their course and the course would greatly improve their employment prospects
- the Provider determines that participation is necessary and the course is vocationally orientated

- highly likely to provide a job seeker with a qualification that will result in an Employment Outcome, improve their employability or lead to qualifications in an identified skills in a demand area as determined by the Provider
- the job seeker is a single Principal Carer Parent on Newstart Allowance and has been granted Pensioner Education Supplement (PES) for the academic course (or longer course that is 12 months or more). For the purposes of meeting their Mutual Obligation Requirements, a single Principal Carer Parent on Newstart Allowance can continue to undertake the study for which Pensioner Education Supplement was granted as an approved Activity until that course has been completed. Providers need to sight evidence that the single Principal Carer Parent on Newstart Allowance is in receipt of Pensioner Education Supplement for that course
- the job seeker is in receipt of Parenting Payment Single (this study would usually be approved by DHS)
- the job seeker is a Parenting Payment recipient who transfers to Newstart Allowance or Youth Allowance (other) and in some limited instances where a job seeker was granted the Disability Support Pension and then transferred to Newstart Allowance or Youth Allowance (other). They are able to continue their studies in the same course they commenced while receiving Parenting Payment or Disability Support Pension (this would usually be approved by DHS) for which they receive the Pensioner Education Supplement (PES).

Providers cannot approve, under short course provisions, full-time courses of 12 months (two semesters) or longer in duration, or Masters or Doctorate courses.

Note: Job seekers in receipt of Special Benefit (NVH) who have not attained a Year 12 or equivalent qualification, may undertake full-time study in a school institution up to Year 12. These job seekers will still be required to attend Provider appointments and undertake up to 20 Job Searches per month.

#### A Short Course:

- is vocationally based
- is less than 12 months or two semesters in duration
- is necessary so the job seeker can accept an offer of work
- leads to an early employment outcome
- leads to qualifications in an identified area of skills shortage

#### Approving a Short Course

Providers are responsible for making approval decisions under approved short course provisions.

An approved short course must be included as a compulsory Activity in the job seeker's Job Plan.

If a Provider approves the Activity as an approved short course and includes it in the job seeker's Job Plan then the job seeker must still look for work and attend appointments with their Provider as long as it does not conflict with the scheduled time of the course. Job seekers with full time mutual obligation requirements **cannot** fully meet their mutual obligation requirements with full time study. They

are required to accept any suitable work that does not conflict with scheduled course times and must not limit their Job Searches to areas relating to the course.

A Principal Carer Parent or job seekers with a Partial Capacity to Work of 15 - 29 hours per week undertaking an approved short course for at least 30 hours per fortnight is considered to be fully meeting their part-time Mutual Obligation Requirements. These recipients are managed by DHS and will be Suspended from the Provider's caseload.

For information for Providers deciding to fund an education or training course, see the [Using the Employment Fund General Account Guideline](#).

## Breaks in Activities

If a job seeker has a break in an Activity which is required to satisfy their Mutual Obligation Requirements, the Provider must update the job seeker's Job Plan with other Activities to meet their Mutual Obligation Requirements.

There is no need to adjust a job seeker's requirements if they have a break of less than or equal to four weeks that is outside their control. If the break is greater than four weeks then the job seeker must do other requirements, such as Job Search, for the period of the break. The Job Plan must be updated to include the new requirements.

(Guide to Social Security 3.5.1.70)

---

## 2. Suitable work

Job seekers must actively look for work and be prepared to accept any offer of suitable work in a variety of fields. Any work can be considered suitable provided it meets certain safeguards set out in Social Security Law, such as minimum statutory conditions and related health and safety considerations.

'Suitable work' includes any work that a job seeker is capable of doing, not just work the job seeker prefers to do or is specifically qualified for. This can include casual or permanent, and part-time or full time work depending on the job seeker's assessed capacity. Job seekers are required to accept suitable work that may not be their first preference while they continue to look for work that better matches their qualifications, expertise and interest.

Work is unsuitable if it:

- involves skills, experience or qualifications that the person does not have and appropriate training will not be provided by the employer
- is above the job seeker's assessed work capacity within the next two years with intervention
- may aggravate a pre-existing illness, disability or injury and medical evidence has been provided
- involves health or safety risks and would contravene an occupational health and safety law
- has terms and conditions which are less generous than the applicable statutory conditions

- involves commuting from home to work that would be unreasonably difficult (more than 60 minutes one way for Principal Carer Parents and those with Partial Capacity to Work and more than 90 minutes one way for other job seekers)
- involves enlistment in the Defence Force or the Reserve Forces
- requires the person to change residence.

(Guide to Social Security Law 3.2.8.60)

### Unsuitable work for Principal Carer Parents

In addition to the above 'unsuitable work', Principal Carer Parents cannot be required to accept employment of more than 25 hours a week. Additionally, Providers should consider whether:

- the Principal Carer Parent has access to appropriate care and supervision for their child/children during the times when they would be required to work
- the location of either the workplace or the child care facility would make the total travel time to and from work unreasonable
- the Principal Carer Parent will be at least \$50.00 a fortnight financially better off as result of working.

(Guide to Social Security Law 3.2.8.50)

If a job offer to the Principal Carer Parent involves employment outside school hours or in school holidays, a job is generally considered suitable if there is appropriate care and supervision for a child during the hours of work (including the travel to and from work). Suitable care and supervision means:

- childcare provided by an approved childcare service (within the meaning of the Family Assistance Administration Act 1999).
- any other care or supervision arrangements that the parent deems suitable.

### Unsuitable work for job seekers with a Partial Capacity to Work

In addition to the list above of 'unsuitable work', work is unsuitable for job seekers with a Partial Capacity to Work if:

- it does not provide appropriate support or facilities to take account of the illness, disability or injury
- the total cost of participating in employment means that the job seeker would be financially worse off as a result of undertaking the work. Examples include personal care requirements incurred by the job seeker to get ready for work or while on the job; disability aids required for participation in the job that are not covered by the Employer and the cost of travel to and from the job by the job seeker's means of transport.

---

## 3. Job Search Requirements are an important part of Mutual Obligation Requirements

Set the number of Job Searches a job seeker is required to undertake per month in accordance with the Deed, this Guideline and Social Security Law. Record the number of Job Searches required in the job seeker's Job Plan.

Job seekers with Mutual Obligation Requirements will usually have to look for work.

The number of Job Searches generally expected of job seekers (including Principal Carer Parents and those with a Partial Capacity to work of 15 to 29 hours per week) is:

- for Stream A and Stream B job seekers – 20 Job Searches per month
- for Stream C job seekers – Job Search depends on capacity
- for job seekers aged 60 years and over (regardless of Stream) – Job Search depends on capacity.

Job seekers cannot be required to do more than 20 Job Searches per month.

See [Guide to Social Security 3.2.9.30](#) for additional information on setting Job Search requirements.

(Deed references: Clause 113)

### Job seekers who do not have Job Search Requirements

The following job seekers will not be required to undertake Job Search while they are fully meeting their Mutual Obligation Requirements:

- Principal Carer Parents
- those with a Partial Capacity to Work of 15 to 29 hours per week
- job seekers 55 years of age and over
- job seekers undertaking Drug and Alcohol rehabilitation in a Residential Program
- refugee job seekers undertaking activities to help adjust to life in Australia and to increase chances of finding work.
- The following job seekers will not be required to undertake Job Search while they are meeting their Mutual Obligation Requirements pregnant job seekers will not be required to undertake Job Search from three months before their due date.
- NEIS Prospective Participants who have been assessed as NEIS Eligible but have not yet signed a NEIS Participant Agreement will have their Job Search requirements reduced to zero while participating in NEIS Training.
- NEIS Participants in receipt of Parenting Payment (Single) or the Disability Support Pension are able to choose to remain on their current payment or move to NEIS Allowance. Where they remain on their current payment while participating in NEIS Assistance and actively working on their small business, they do not have Job Search or other Mutual Obligation Requirements.
- Early School Leavers who are meeting their Mutual Obligation Requirements through full-time education or a combination of part-time study and part-time work of 25 hours per week (15 hours for those with part-time Mutual Obligation Requirements) must not have any Job Search requirements in their Job Plan.

### Recording Job Search requirements in the Job Plan

When setting compulsory Job Searches, Providers must use the JS09 code. The Department is actively monitoring Job Plans and would expect that:

- for Stream A and Stream B job seekers, all Job Plans should contain JS09.

- for Stream C job seekers, most Job Plans should contain JS09. In some Exceptional Circumstances, Job Searches may not be required for a limited period while non-vocational issues are actively being addressed.

### Circumstances that may reduce Job Search requirements

Do not reduce the number of Job Searches a job seeker is required to undertake merely because the job seeker is undertaking other Activities - in particular study or during the Work for the Dole Phase.

Providers may reduce the number of Job Searches as a result of a job seeker's:

- physical, intellectual or psychiatric impairment
- non-residential treatments or counselling for drug and alcohol dependency
- preventative health treatments and interventions – (for jobactive Indigenous job seekers and Stream C job seekers)
- substantially elevated level of family and caring responsibilities
- accommodation situation, where this is likely to impede Job Search
- education or skill level, where this is likely to substantially limit job opportunities
- current employment status (part-time or casual work)
- domestic violence (including family violence) or family relationship breakdown (DHS may grant an Exemption from Mutual Obligation Requirements in these circumstances)
- level of English language skills, if job seeker is doing a course to improve these skills
- cultural factors
- the state of the labour market and the transport options available to the person in accessing that market, for example, taking into account travel time.

For example, a Stream A job seeker either living in a metropolitan area or within 90 minutes travel time to metropolitan area would be expected to have 20 Job Searches per month. In a regional area with limited vacancies and where the travel time to more positive labour markets is more than 90 minutes, it might be appropriate that a Stream A job seeker has a lower Job Search requirement, for example, 15 Job Searches per month.

Job Search requirements for Early School Leavers who are not meeting their requirements through study or paid work

Early School Leavers who are meeting their Mutual Obligation Requirements through approved Activities other than just paid work and study for 25 hours per week (15 hours for Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week) must have up to 20 Job Searches per month in their Job Plan.

(Guide to Social Security 3.2.9.30)

### Job Search requirements while studying Language, Literacy and Numeracy courses

If a Provider has identified that a job seeker needs to improve their Language Literacy and Numeracy skills, the number of required Job Searches may be reduced (but not reduced to zero) while the job seeker is actively participating in an accredited Language Literacy and Numeracy course. Approved courses include the

Skills for Education and Employment program and the Adult Migrant English Program. Providers must ensure that the job seeker has some Job Search requirement recorded in their Job Plan while participating in these programs.

#### Job Search requirements for Stream C job seekers and job seekers 60 years of age and over

The number of Job Searches required by Stream C job seekers and job seekers 60 years of age and over depends on their capacity. Generally, 10 Job Searches per month are expected.

When setting an appropriate number of Job Searches, in addition to other considerations, Providers may also consider:

- other non-vocational issues or vocational issues that are being, or have been addressed
- if the job seeker has undertaken re-skilling or re-training
- for Stream C job seekers, it might be appropriate in some Exceptional Circumstances to have no Job Searches for a period while non-vocational issues are actively being addressed.

For Stream C job seekers, the number of Job Searches required is expected to increase over time as they overcome or sufficiently manage personal or non-vocational issues.

#### Job Search requirements for those in paid work

For job seekers with full-time Mutual Obligation Requirements:

- if doing at least 40 hours of declared paid work (including self-employment) per fortnight then the number of Job Searches should be halved. If the job seeker is doing a significant number of hours of paid work per week and receiving only a residual amount of income support, the number of Job Searches may be reduced further.
- if doing at least 70 hours of declared paid work (including self-employment) per fortnight then the job seeker should have no Job Search requirement.

For job seekers with part-time Mutual Obligation Requirements (Principal Carer Parents and those with a Partial Capacity to Work of 15 to 29 hours per week):

- if doing 11 to 29 hours of declared paid work (including self-employment) per fortnight, the number of Job Searches should be halved
- if doing 30 hours or more of declared paid work (including self-employment) per fortnight, the job seeker should have no Job Search requirement.

(Deed references: Clause 113)

---

## 4. Annual Activity Requirement

The Annual Activity Requirement is the set number of hours that a job seeker must complete in approved Activities when in the Work for the Dole Phase.

Most job seekers have an Annual Activity Requirement when they enter into the Work for the Dole Phase and must participate in an approved Activity or combination of approved Activities to meet their Annual Activity Requirement.

Providers must ensure that job seekers in the Work for the Dole Phase fulfil their Annual Activity Requirement. Work for the Dole Phase Activity commencement and participation are performance measures in Providers' Star Ratings. For more information on the Star Ratings, see the [Performance Framework Guideline](#).

(Deed references: Clauses 107, 108, 109)

## Entering the Work for the Dole Phase

All job seekers who are commencing in the Work for the Dole Phase for the first time start the phase after they have been in jobactive for 12 months. Following this, job seekers will need to take part in the Work for Dole Phase for a continuous six months each year they remain in jobactive.

## Determining the hours of participation to meet the Annual Activity Requirement

The number of hours of participation in approved Activities that a job seeker requires to meet their Annual Activity Requirement depends on their age, their assessed capacity to work and whether they are a Principal Carer Parent.

### Job seekers with no Annual Activity Requirement:

- job seekers who have reached Age Pension age.
- job seekers who are fully meeting their part-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers 55 years of age and over during the period they are meeting their full-time Mutual Obligation Requirements through participation in appropriate Activities for 30 hours per fortnight
- job seekers with a Partial Capacity to Work or temporary reduced work capacity of 0 to 14 hours per week
- job seekers with Community Service Orders of 20 or more hours per week
- Early School Leavers with full-time Mutual Obligation Requirements already undertaking 25 hours a week of approved Activities or full-time study.

### Using the Annual Activity Requirement Calculator

The Annual Activity Requirement Calculator on the Department's IT System provides information on how many hours of participation job seekers need to complete to meet their Annual Activity Requirement. See the [Department's IT System Online Help](#) for more information on how to access the Annual Activity Requirement Calculator.

**Note:** Under the Targeted Compliance Framework, where Activities are recorded in the Calendar, which contribute to a job seeker's Annual Activity Requirements, the Department's IT System will calculate hours. There are exceptions, however, where hours will still need to be manually calculated, when hours need to be adjusted.

### Participation hours for job seekers with full-time Mutual Obligation Requirements

- Up to 49 years of age: generally must participate for 650 hours over 26 weeks (50 hours per fortnight)

- Aged 50 to 59 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

#### Participation hours for job seekers with part-time Mutual Obligation Requirements

- Under 30 years of age: generally must participate for 390 hours over 26 weeks (30 hours per fortnight)
- 30 to 59 years of age: in most circumstances must participate for 200 hours over 26 weeks (15 to 16 hours per fortnight).
- Aged 60 years to the aged pension age: generally must participate for 130 hours over 26 weeks (10 hours per fortnight)

#### Participation hours for any job seekers undertaking Defence Reserves

- For job seekers undertaking Defence Reserves: 240 hours over 26 weeks (18 - 20 hours per fortnight).

#### Participation in the Launch into Work program

For job seekers in the Work for the Dole phase, participation in Launch into Work program pre-employment projects will fully meet Participants' AAR for the project's duration. If the Participant stops attending the project, or does not commence employment with the Launch into Work Organisation at the end of the project, they need to be referred to another AAR Activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

#### Participation in Regional Employment Trials Activities

Participation in the Regional Employment Trials Activity will meet the job seeker's AAR for the duration of their participation in the Regional Employment Trials Activity. If the participant stops attending the activity they need to be referred to another AAR activity in order to complete their AAR hours for the remaining weeks of their Work for the Dole phase.

See the Regional Employment Trials Guideline for further information.

#### Participation hours in study/training

##### Full-time load

If the training Provider considers the job seeker has a full-time study load then the job seeker will meet their fortnightly hour's requirement in the fortnights they are studying, regardless of actual contact hours.

For example, a job seeker who has an Annual Activity Requirement of 50 hours per fortnight and undertakes 44 contact hours per fortnight of full-time study does not have to complete any additional hours in another Activity while they are undertaking a full-time study load.

## Non-contact hours

Published non-contact study hours for job seekers undertaking part-time study/training will also count towards a job seeker's Annual Activity Requirement, as long as they do not exceed the course's face-to-face hours. Where a course's non-contact study hours are not published, up to a maximum of 10 non-contact study hours per fortnight can be counted towards part-time study. Any non-contact study can be reflected in the Job Plan by using the appropriate Job Plan code, with study recorded in the job seeker's Calendar.

## Online courses

For online courses, it is expected that the majority of course hours are non-contact. In these cases, study load (hours) and duration requirements as published by the training institution will count towards a job seeker's Annual Activity Requirement. If the total part-time study hours are not sufficient to meet a job seeker's Annual Activity Requirement, other Activities will also need to be undertaken.

**System step:** For study or training Activities, Providers must record the outcomes of the training course upon completion (for example, whether a certificate or statement of attainment was achieved).

## Change of circumstances during the Work for the Dole Phase

If a job seeker's circumstances change during their Work for the Dole Phase, their Annual Activity Requirement may also change. This may occur when a job seeker becomes or ceases to be a Principal Carer Parent, where a job seeker's capacity to work changes or when a job seeker turns 30 years of age. In these instances, the job seeker's participation must match their new requirement.

For example, if a job seeker who is 49 years of age and has an overall requirement of 650 hours turns 50 years of age while in the Work for the Dole Phase, their requirement will reduce to 390 hours. If they have already completed 390 hours due to undertaking 25 hours per week over their first four months in the Work for the Dole Phase, they will have already met their Annual Activity Requirement at this point in the Work for the Dole Phase.

## Selecting Activities for a job seeker to meet their Annual Activity Requirement

After consultation with the job seeker, Providers must determine and source the Activities that the job seeker must undertake to meet their Annual Activity Requirement in accordance with the Deed, this Guideline and Social Security Law.

**System step:** The Provider must record these in the job seeker's Job Plan, including the relevant hours of participation the job seeker needs to undertake each fortnight.

Providers placing job seekers into Activities must prioritise job seekers with Mutual Obligation Requirements over other job seekers.

**System step:** When recording CTA Courses in the Job Plan, the minimum hours of participation required will automatically populate, along with the timeframe for participation.

## Approved Activities to meet the Annual Activity Requirement

- Work for the Dole
- part-time employment
- National Work Experience Programme
- Work Experience (Other)
- PaTH Internships
- PaTH Employability Skills Training (EST)
- Career Transition Assistance (CTA)
- Voluntary Work
- Launch into Work program pre-employment projects
- Regional Employment Trials Activities
- study/training (part-time or full-time)
  - Study/training is subject to the approved short course conditions (see the [Approved short courses](#) section of this guideline) and must be in:
    - a Certificate III course or higher (but not a Masters or Doctorate course), or
    - a Certificate I or II course commenced in the Case Management Phase but not yet completed when the job seeker moves into the Work for the Dole Phase (for these courses, any hours completed once a job seeker enters the Work for the Dole Phase will count towards a job seeker's Annual Activity Requirement)
- accredited language, literacy and numeracy courses, which can include:
  - the Skills for Education and Employment program, or
  - the Adult Migrant English Program
- rehabilitation for drug or alcohol dependency
- other non-vocational assistance and Interventions for Stream C job seekers
- preventative health related Activities for jobactive Indigenous job seekers and Stream C job seekers
- Defence Reserves
- other government programs, including NEIS Training, state government programs and 'Exploring Being My Own Boss' Workshops
- non-government programs approved for Annual Activity Requirement purposes (see the [Activity Management Guideline](#)).

Further information on Activities suitable to meet a job seeker's Annual Activity Requirement can be found in the [Activity Management Guideline](#), [Work for the Dole Guideline](#), and [Managing PaTH Internships Guideline](#).

(Deed references: Clauses 107, 108, 109)

## Activities that do not count towards a job seeker's Annual Activity Requirement

There are certain Activities that will not count towards meeting a job seeker's Annual Activity Requirement. These include:

- non-accredited education and training unless it is non-vocational assistance for Stream C job seekers
- Certificate I or II courses started after commencement in the Work for the Dole Phase (with the exception of accredited Language, Literacy and Numeracy courses)
- study outside of the approved short course conditions (including Masters and Doctorate courses)
- Non-vocational assistance and interventions. For example, careers counselling and personal development courses. Please note: For Stream A and B job seekers, satisfactory participation in the relevant number of hours in drug or alcohol addiction treatments (including rehabilitation) will meet their Annual Activity Requirement.

(Deed references: Clauses 107, 108, 109)

## Considerations when selecting Activities to meet Annual Activity Requirement

### Job seekers under 18 years of age

Job seekers under 18 years of age with Mutual Obligation Requirements are not eligible to participate in Work for the Dole.

Job seekers under 17 years of age are not eligible to participate in the National Work Experience Programme.

(Deed references: Clauses 107, 108, 109)

### Job seekers 15-24 years of age

Employability Skills Training (EST) is available to eligible job seekers between 15 - 24 years of age who are receiving income support and have compulsory Mutual Obligation Requirements.

Young job seekers between 17–24 years of age, with Mutual Obligation Requirements, can participate in a PaTH Internship as a voluntary activity.

A job seeker will meet their fortnightly hour's requirement in the fortnights they are participating in PaTH Internships or EST, regardless of the hours of participation.

See the [Activity Management Guideline](#) and [Managing PaTH Internships Guideline](#).

### Job seekers 18-49 years of age

For job seekers 18 - 49 years of age with full-time Mutual Obligation Requirements, Work for the Dole is the principal Activity to meet their Annual Activity Requirement unless they have:
