RE: Exposure draft for the New Employment Services Model 2022 Purchasing arrangements.

Work for the Dole does nothing of good for anyone except for the parasitic private companies exploiting unemployed Australians.

How do you expect people to find work when they are spending 25 hours per week (4 days a week) at utterly pointless pretend job?

Answer, you dont it just punishment for not having a job. Its cruel and pathetic. It does nothing to address the root cause of employment. No one wants to not have a job, its humiliating on its own and a financial nightmare.

For the money you people █████ away on these parasite private companies. On an opt in basis, you could offer actual jobs that pay full wage to unemployed to do public works and actually improve the country instead of cruelly putting boot on neck of country's most disadvantaged. The rest of the people are probably in personal crisis, homeless, mentally ill, etc and all you are doing is putting them in situation to have their social security removed.

Abolish "Work for the Dole" ASAP. Its a disgrace to Australia.

The privatization/outsourcing of Centrelink/CES to private companies that started in the Howard era has been a spectacular failure. Billions spent and nothing achieved except a system of cruel punitive punishment. Shameful and unaustralian.
