How we work together

We work with your business to understand your needs, and match you with the right employee.

If you have plans - or even an idea that is yet to come to fruition - for your business, we have a holistic set of services on hand to help you get there.

You will receive follow up support to make sure the placement is a success.

We also work with the employee to build their skills and confidence, while helping them to find stability in their personal life.

Our partnerships

People and the communities where we live and work are at the centre of all we do.

We have connections with local community service and training providers, industry groups, and government.

We use these connections to stay up-to-date on where future jobs initiatives may be, and provide this advice to you.

We are active players in your network, and can connect you with the networks we're part of.

This could include training organisations, business advisory services, peak bodies and other professional services that can provide information on wage subsidies, traineeships, apprenticeships and advice on workplace modifications.

We welcome your regular feedback to help us tailor our service to meet your needs.

You can find us at Albury, Benalla, Echuca, Seymour, Shepparton, Wangaratta and Wodonga.
